Playgrounds and Outdoor Fitness Solutions

KOMPAN®
Let's play

Publisher: KOMPAN A/S

KOMPAN Group is one of the world's leading manufacturers of outdoor activity areas.

For more than 50 years, the company has designed, manufactured and marketed an extensive range of high-quality playground equipment, outdoor fitness equipment, and outdoor furniture.

KOMPAN® products are sold around the world through KOMPAN subsidiaries, agents and distributors.

Photos by KOMPAN®. All images are for conceptual purposes only.

Installation hours shown under the products are total installation hours, without excavation, for an inexperienced installer.

KOMPAN's general conditions of sales, delivery and assembly can be found on local market websites via www.kompan.com

Errors and omissions excepted.

Made Green
products are made from materials with at least 51% and up to 95% recycled materials from consumer waste, such as recycled fishing nets, used textiles, food packaging, used plastic bags, etc. In the production of Made Green products, we work purposefully to increase the proportion of recycled materials. It is well documented and third-party verified.

Born Green
means products are made from natural hardwoods like robinia. Robinia is highly durable and does not require any chemical wood preservatives. KOMPAN Robinia products also come with FSC® certification (C004450).

Look for the icon
This icon marks selected product examples with extra high percentage of recycled material.

Fitness equipment
marked with this symbol can be used directly from a wheelchair.

Inclusive Fitness
Fitness equipment marked with this symbol can be used by everyone on equal terms independent of gender, age, body weight, fitness or cognitive skills.

Look for FSC®-certified products on product pages. The mark of Responsible Forestry.

Safety standards
Product safety is a long tradition in KOMPAN and we take great pride in testing and evaluating each product before launch.

KOMPAN products meet relevant safety standards depending on the type of product. Playground equipment meets ASTM F1487 and for products intended for users under the age of 2 years, we use ASTM F2373.

Outdoor fitness equipment is compliant with ASTM F3101 and multi-sports equipment meet the European standard EN15312.

Whenever possible, we design worldwide products, meaning the equipment also meets the equivalent European standards and we pick the specifications covering both.

The International Play Equipment Manufacturers Association (IPEMA) provides a third-party certification to ensure product conformance to specific ASTM and/or CSA standards. Each product promoted here, if certified by IPEMA, includes the name and model number for you to search the IPEMA website for verification. To verify product certification, visit www.ipema.org and conduct a search.

A Trusted Partner in Play and Outdoor Fitness

Your full-service, worry-free play and fitness supplier: a round dot in a square world

We have come a long way since the early days of KOMPAN. What started in the 1970s in Danish artist Tom Lindhart's cellar has grown into purpose-built headquarters in Odense, offices worldwide and an immense factory in the Czech Republic, shipping deliveries every 44 minutes to destinations worldwide. Whether an entirely new playground, an integrated play and fitness site, or a significant landmark, we have a solution.

Our Purpose and Promise
Creating happier and healthier communities will always be our driving force. Whether you are new to KOMPAN or already know us, this is who we are: At its core, we are all about play, activity, and social infrastructure—much like it was when children in a drab, gray housing estate began climbing on a piece of contemporary art in the 1970s.

For over 50 years, we have led the way in playground and fitness innovation, crafting environments that foster community and well-being. In the following sections, you'll explore our extensive range of standard products, the KOMPAN Collection. We also showcase KOMPAN Custom solutions, which are developed by our KOMPAN Design Studio in collaboration with customers just like you.

Half a century later and three generations removed from those first children climbing on art, we remain at the forefront of recognizing and promoting the undeniable value of play and fitness, with a promise to continue leading the way.

Let's Play

Two Paths. One Purpose.

Choose from the KOMPAN Collection or KOMPAN Custom Portfolio

KOMPAN Collection
The KOMPAN Collection is our range of standardized products, engineered with world-class quality and enhanced by flexible design options. These products can be adjusted to your vision using our Product Configurator and Solution Planner, allowing you to adapt colors, materials, play features and layouts to suit your environment and audience.

KOMPAN Custom by KOMPAN Design Studio
For those who dream bigger, we offer KOMPAN Custom—a portfolio of bespoke solutions created in partnership with the KOMPAN Design Studio. This is where imagination meets engineering, allowing for fully customized play universes, landmark installations, fitness solutions, and themed environments that tell unique stories.

Innovation Driven by Research

At KOMPAN, our approach to research and development is founded on a distinctive blend of creativity, engineering, and a deep understanding of our users. We believe that every playground and outdoor fitness solution should not only inspire initial wonder but also encourage repeated engagement and development over time.

That is why we have founded the KOMPAN Play and Fitness Institutes—to lead scientific research and user engagement, enabling us to enhance and refine product design. This includes observing real-world play, collaborating with universities and experts, running workshops, and conducting extensive product testing. For fitness equipment, the process also involves ergonomic studies, lab testing and input from over a thousand global user sites.

Our Philosophy Behind Product Development that Moves Minds, Bodies, and Communities

1. Evidence-based Innovation
Scientifically grounded designs ensure every solution and product delivers measurable physical and cognitive benefits for users of all ages.

2. User-centered Design
Our user-informed development process, involving real children and adults, leads to more intuitive, engaging and relevant play and fitness experiences.

3. Inclusive and Accessible Solutions
With a universal design approach, we create welcoming environments that promote equal access and meaningful interaction for all community members.

4. Durability and Long-Term Value
Proven durability through extensive testing makes us a long-term, low-maintenance investment for public spaces.

5. Educational and Social Impact
We design for lifelong learning and well-being, supporting municipalities' goals in education, health and social development.

6. Commitment to Continuous Improvement
Backed by continuous research partnerships, KOMPAN remains a future-ready partner committed to your community's evolving needs.

KOMPAN Design Approach

Regardless of their physical or mental ability, play and fitness are for everyone. The human need for play, physical activity, and social interaction across abilities is what we plan for. We build facilities that aren't merely accessible, but are intentionally inclusive and usable by all to the greatest possible extent. Each playground and fitness site reflects the needs of its users, whether for play, exercise, or simply sitting back to watch the next generation thrive. Universal inclusive design means a stigma-free playground for everyone. We call our design approach WOW, STAY, and DEVELOP.

WOW Factor

With eyes wide open to capture the full scene, the mouth forms an “O”, eagerly inhaling air in anticipation of action, while the legs run wildly in search of adventure. This is the WOW factor, the moment of arrival at the playground that distinguishes a KOMPAN design from all others. It satisfies the child’s instinctive demand for change, variety, and advancement. The constant cry for something new and exciting is only successfully met by triggering that initial WOW.

STAY Factor

‘Oh no, not yet’ is the expression we most love to hear in response to the suggestion to head home. It epitomizes the STAY Factor. Each time a play feature is approached, it should be a fresh encounter, open to new interpretation. The STAY Factor nurtures social interaction, inspiring children of all ages and abilities to stay and play longer.

DEVELOP Factor

Play is all about fun. Well, not all. Behind the laughter and occasional tears, it’s about development: personal, cooperative, and competitive. The DEVELOP Factor is the endless mission of the KOMPAN Play Institute experts. These specialists craft ways of developing motor skills, coordination, and balance. Intellectual learning is equally vital, with cognitive development, communication, language expansion, and understanding of how to turn the germ of an idea into a successful conclusion.

The Science of Play...

KOMPAN Play Institute

Play is vital for child well-being and life skills, be it for a toddler or a teenager. KOMPAN playgrounds are carefully designed to motivate all children to play; to play relentlessly again and again, while developing important life skills and friendships. Children need play stimulation for their physical, cognitive, creative, and social-emotional development. This includes children with both invisible and visible disabilities. Especially with the rise in neurodiversity diagnoses. Our research aims at creating playground equipment and playgrounds for all: accessible, inclusive, and usable in play. To deepen this commitment, we have complemented our research with Kids' Take On Play™—a unique, safe, and compliant way to capture the opinion of children at scale. It uncovers community-level as well as universal insights into what attracts children to playgrounds and keeps them playing again and again.

Scan and watch the QR codes below to learn more about the latest research in play from world-leading experts in child development and play:

'Our research and development ethos is a continuous dialogue between science, design, and the real-world experiences of our users. At KOMPAN, we are committed to creating playgrounds and fitness environments that are not only engaging and innovative but also inclusive and conducive to personal growth.'

... and Fitness

KOMPAN Fitness Institute

At the KOMPAN Fitness Institute, we use science to create outdoor fitness equipment and solutions. Outdoor fitness has traditionally been based on simple equipment with less functionality than indoor fitness. However, the available equipment must provide real exercise benefits and a positive user experience to motivate people to exercise regularly.

When developing outdoor fitness products that provide an optimal exercise experience, we focus on two key aspects: ergonomics and the resistance experienced by the user.

Together, our individual fitness products create a comprehensive fitness solution that benefits the user. To make a real impact, creating ideal solutions for any specific type of user—regardless of their abilities—must be evidence-based.

Setting the Standard

Join our Green Journey!

Virgin Raw Materials —the Climate Culprit of CO_2e

We are taking significant steps to tackle the #1 climate culprit in our business: raw materials. Greenhouse Gas Protocol (GHG) guidance and tools identified the issues, and from there, we focused on reducing our emissions. To make fundamental changes, you need to look at the entire life cycle of your products. It is a continuous journey for us. This is how far we have come:

KOMPAN chose the Greenhouse Gas Protocol to focus our efforts on the areas with significant impact on reducing our carbon footprint. We found that approximately 80% of the carbon emissions were a result of the use of raw materials in our production of playground and fitness equipment. We turned data into action, and from 2024, we can now make colorful playgrounds with 95% recycled materials, using post-consumer recycled waste in HDPE panels, tempered Corocord™ rope with EcoYarn™, and TexMade™ posts.

Teal panel options are made from 95% ocean waste from the maritime industry, such as old fishing nets and ropes. These are fully recyclable end-of-life products.

Sustainability in Action

Given orders of magnitude, we in particular focus on reducing emissions from raw materials but needless to say, we are also continuously looking into initiatives to reduce all parts of the carbon footprint:

80% raw materials

10% Logistics	Working with logistic partners with a dedicated agenda on reducing CO_2e and delivering transparent data.
5% Electricity	ISO 50001:2019 Energy Management System (EMS). Installing solar panels at our HQ
3% Fuel	Converting to hybrid and e-cars
1% Waste	ISO 14001:2015 Environmental Management System (EMS)
1% Air Travel	Minimizing (air) travel, conducting e-meetings instead

Validated CO_2e Calculations

For many years, we at KOMPAN have been working with sustainability across our supply chain and product development. We do not take shortcuts in our approach to this incredibly important aspect of design.

We work with Bureau Veritas who validates our method for calculating carbon footprints. We enable customers to choose lower carbon emissions by choosing products that are either Made Green or Born Green.

We make carbon footprint data available for all products for comparison of carbon emissions data—Made Green or Born Green products. These can be found on our website, product sheets, and in this catalog.

Made Green products are made from materials with at least 51% and up to 95% recycled materials from consumer waste, such as recycled fishing nets, used textiles, food packaging, used plastic bags, etc. In the production of Made Green products, we work purposefully to increase the proportion of recycled materials. It is well-documented and third-party verified.

Born Green means products are made from natural hardwoods like robinia. Robinia is highly durable and does not require any chemical wood preservatives. KOMPAN Robinia products also come with FSC® certification (C004450).

Let's Create it Together

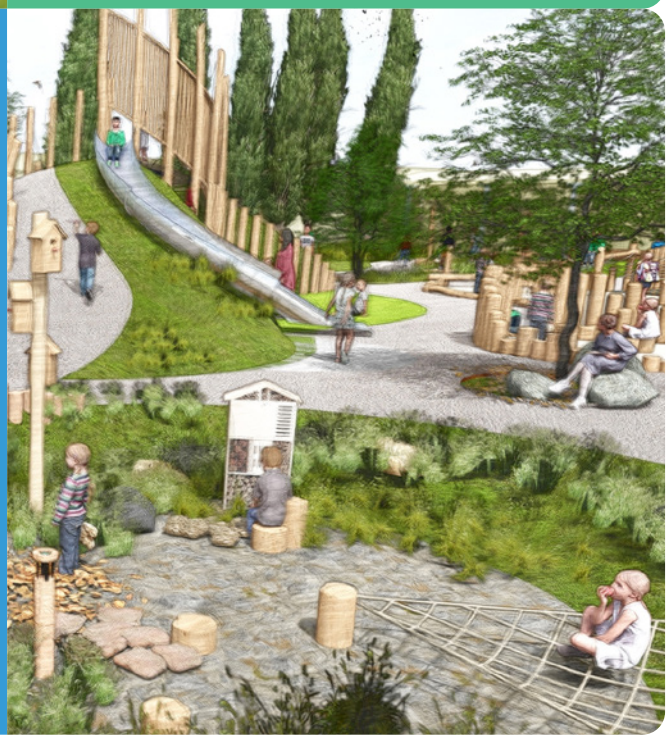
A Seamless, End-to-end Partnership for Play & Fitness

1 Inspiration & Planning

Local Insight From Day One
Your project starts with local KOMPAN sales and project teams who understand regional standards, regulations, and market dynamics. We guide you on layouts, surfacing, and safe design principles, ensuring everything is right from the start and that your investment delivers maximum value for your community.

2 Design

Co-design That's Unique, Safe, and Meaningful
Choose from our KOMPAN Collection or co-create a signature destination with our in-house Landscape Architects and the KOMPAN Design Studio. Every design is informed by insights from the KOMPAN Play and Fitness Institutes, ensuring that play and exercise areas provide proven developmental and health benefits. From sketches to 3D visuals, we help you create something truly unique, and every solution is engineered to be safe, durable, and certifiable.



Book a free discovery meeting

Scan and book now

3 Installation

One Accountable Partner
We work the way you prefer: full turnkey (civil works, surfacing, equipment, and installation under KOMPAN project management) or equipment-only, collaborating seamlessly with your contractors. Our experienced teams and approved partners ensure your site is delivered on time, on spec and ready for play, using the best quality materials for long life and low maintenance.

4 Maintenance & Service

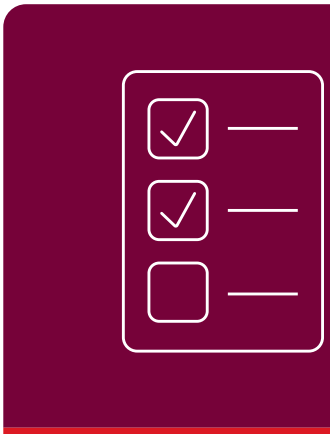
Lifetime Care Sustains Your Playground
Since 1970, KOMPAN has built for durability and backed it with local service teams and partners, fast spare-parts availability, and clear maintenance programs. We also lead the way in reducing our carbon footprint, replacing virgin materials with high-quality recycled alternatives wherever possible, without compromising strength or safety. Our support helps extend the life of your playground or fitness site, keeping it safe and attractive for years to come.

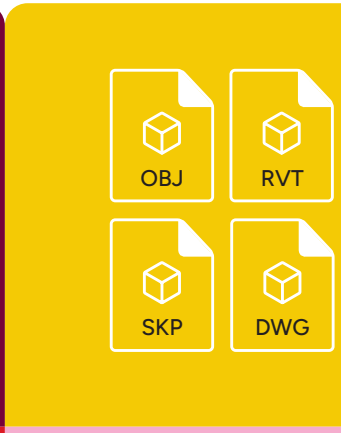
Plan Your Project With Confidence

Our planning tools and resources will help you simplify the process and make the right decisions. Dive into knowledge by scanning the QR codes below.

We are here to help

Scan and book a meeting now





1

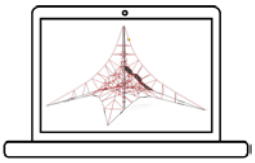
Planning Checklists
With over 50 years of experience building amazing playgrounds and outdoor fitness sites worldwide, we've learned a thing or two about planning for success. Grab our planning checklists to ensure a smooth process and a carefully thought-out site.

2

Downloadable Design Files
For all of our products from our KOMPAN Collection, we have an array of playground and fitness design files available to help you better decide on products and equipment and make the most of the space you are designing. Under each product, you'll find a product sheet, 2D files, 3D DWG models, CAD files, and 3D SketchUp drawings.

3

Site Planner and Product Configurator
Our Site Planner tool allows you to sit down with your KOMPAN sales representative and design your playground or fitness site on the spot at your location. The sales representative works closely with you, offering expert advice and recommendations throughout the design process.



Look for the Product Configurator icon to see configurable playground, fitness, and sport equipment from the KOMPAN Collection.

Site Planner and Product Configurator

Creating the perfect playground or fitness site is more than just a project—it's about bringing your vision to life. The KOMPAN Site Planner tool is designed to make this process seamless, collaborative, and incredibly efficient.

4

White Papers
Our white papers break down complex research topics on play and fitness. They help you make informed decisions based on analysis, comparisons, and recommendations which can guide strategic choices, product selection, and site design, depending on user needs.

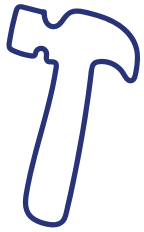
5

Fitness Package Guide
Our online fitness package guide is your go-to tool when choosing the right turnkey fitness solution. Based on your space, area, capacity, and activities, we point you in the right direction with appropriate suggestions based on your project type. Scan the QR code and try out the guide for yourself.

6

Webinars
When it comes to play value, playground design, or outdoor fitness areas, we have a lot of experience and knowledge to pass on. We do this with great pleasure at our webinars, where you can hear and learn about topics that vary from sensory play to unique playground designs to the perfect outdoor fitness site.

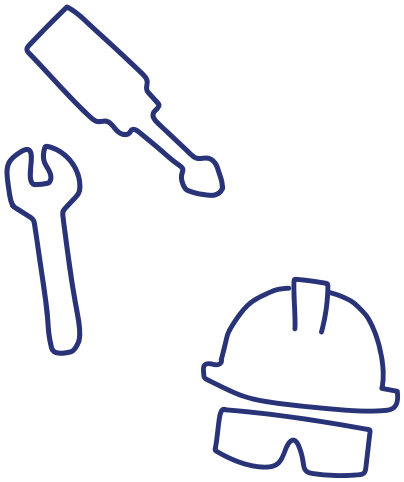
From First Bolt to Future Needs



KOMPAN installation teams worldwide have decades of experience in the playground and fitness-site industry

Our ISA department offers high-quality repair services and installation* for our customers as well as maintenance agreements to ensure playgrounds and fitness sites are installed and maintained to the highest standards. Over the last 50 years, we have worked with the public and private sectors.

It is therefore safe to assume that our professional installers have worked with virtually any playground or fitness equipment, landscape, and situation imaginable.



Interested in a service or maintenance agreement?

Scan and read more at kompan.com

1 Pre-installation Site Visit*

We start with a site visit to ensure the area is ready for installation. This includes checking access for trucks, earth-moving equipment, or cranes and clearing old surfacing or equipment. We'll also map underground utilities such as water, gas, power, and drainage and clear any roots, trees, or plants. Excess soil may also need removal, potentially affecting installation time and cost.

* Please process local permits before installation, as approval times vary by region.

2 Installation Process

Our professional installation covers project supervision, safety surfacing, landscaping, and assembly. For safety, all equipment must be installed by trained experts following local regulations and KOMPAN's strict guidelines.

3 Post-installation Inspection

After installation, we conduct a full inspection to confirm every detail meets safety standards. KOMPAN also offers inspection services for playgrounds built by third parties.

Prevent Today Play Tomorrow

An inspection program is an agreement with us to maintain your dynamic fitness equipment or playground equipment after installation*. We carry out minor repairs and keep you informed about the condition of your equipment. Prioritizing an inspection program ensures your dynamic fitness and playground equipment lasts longer and functions better. Regular inspections help address minor issues before they become costly problems, reducing worry, downtime, and unexpected costs.

Inspection Services

KOMPAN offers four types of inspections, whether your playground or fitness site is installed by us or a third party:

- Safety inspection
- Functional inspection
- Visual inspection
- Delivery inspection

You can always contact us for a tailored quote on an inspection agreement.

Service and Maintenance

We provide regular maintenance to extend the life of your KOMPAN equipment, including:

- Tightening loose fasteners
- Replacing broken or worn parts
- Leveling and replenishing surfaces

Our Expert Maintenance Agreements cover all brands serviced by KOMPAN-certified technicians. For those managing repairs in-house, our Repairs in Own Management agreements offer parts and support for a seamless process.

After Sales

To keep your playground and fitness site safe and functional, we offer various service and repair agreements. Regular inspections are recommended, even though our equipment is built to last.

We offer:
- Functional inspection (three per year recommended)
- Safety inspection (one per year recommended)
- Repair readiness

* Please check your local or regional KOMPAN office for installation possibilities, as our ISA service offerings may vary from country to country.

Safe Play. Optimized Business. Trusted Solutions.

Play That Brings Families Back Again and Again

In Family and Quick Service Restaurants, each visit matters. A play area transforms your restaurant into a family-friendly destination that increases dwell time, encourages repeat visits, and boosts revenue. Enter PlayBox™

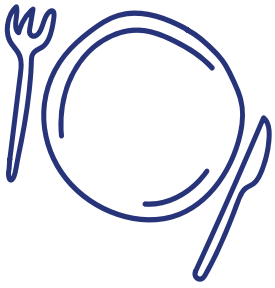
1. Speed. Quick to Deliver, Quick to Install
Get your play area up and running in no time. Our new PlayBox™ solution is designed for short lead times and fast installation, minimizing disruption and getting families through your doors sooner.

2. Safety. Trusted Quality, Worry-Free Operation
Every PlayBox™ solution is built to the highest safety standards, ensuring a secure and reliable play experience that parents trust and kids love.

3. Space. Optimizing Maximum Value in Limited Spaces
From compact corners to larger layouts, our PlayBox™ adapts to your footprint. Modular design makes it easy to fit seamlessly into your restaurant while creating maximum impact with minimal space.

4. Fun Play. Engaging for All Ages
From interactive panels to climbing features, PlayBox™ offers a variety of play activities that keep children entertained and parents relaxed, encouraging more extended visits and repeat business.

This product, PlayBox™ for Family and Quick Service Restaurants, is supplied by KOMPAN Commercial Systems.



71% Families would visit restaurants more often if they had play spaces.

76% Families would spend 76% more time in restaurants with a play space.

Source: Lindberg International Survey, December 2024.

We blend decades of expertise with cutting-edge innovation to create safe, responsible and future-ready play solutions that add significant value to our customers' businesses.

From fun to fitness—explore our real outdoor fitness solutions, too.

A PlayBox™ Full of Fun

Instantly Appealing Indoor and Outdoor Play Units for the Retail and Hospitality Industry

A well-designed play area isn't just a bonus: it's a powerful business asset. Whether it is a shopping mall, airport, or restaurant, an indoor play space turns your business into a destination. This helps you stand out in a competitive market and builds stronger customer loyalty.

We will soon be launching a whole new system of play. We call it PlayBox™. As a whole, our new PlayBox™ category has its inherent architecture as one of the main features.

The confined "three-dimensional maze" typology offers an instantly appealing aesthetic, and the movement around the product is its own play feature. Limited square footage often shapes design choices; however, our boxes of play offer clever space efficiency with a "high-volume play in small spaces" approach. This not only maximizes functionality and fun but also prompts extended stays and repeat visits.

The best of both worlds, wouldn't you say?

This image is for conceptual purposes only.

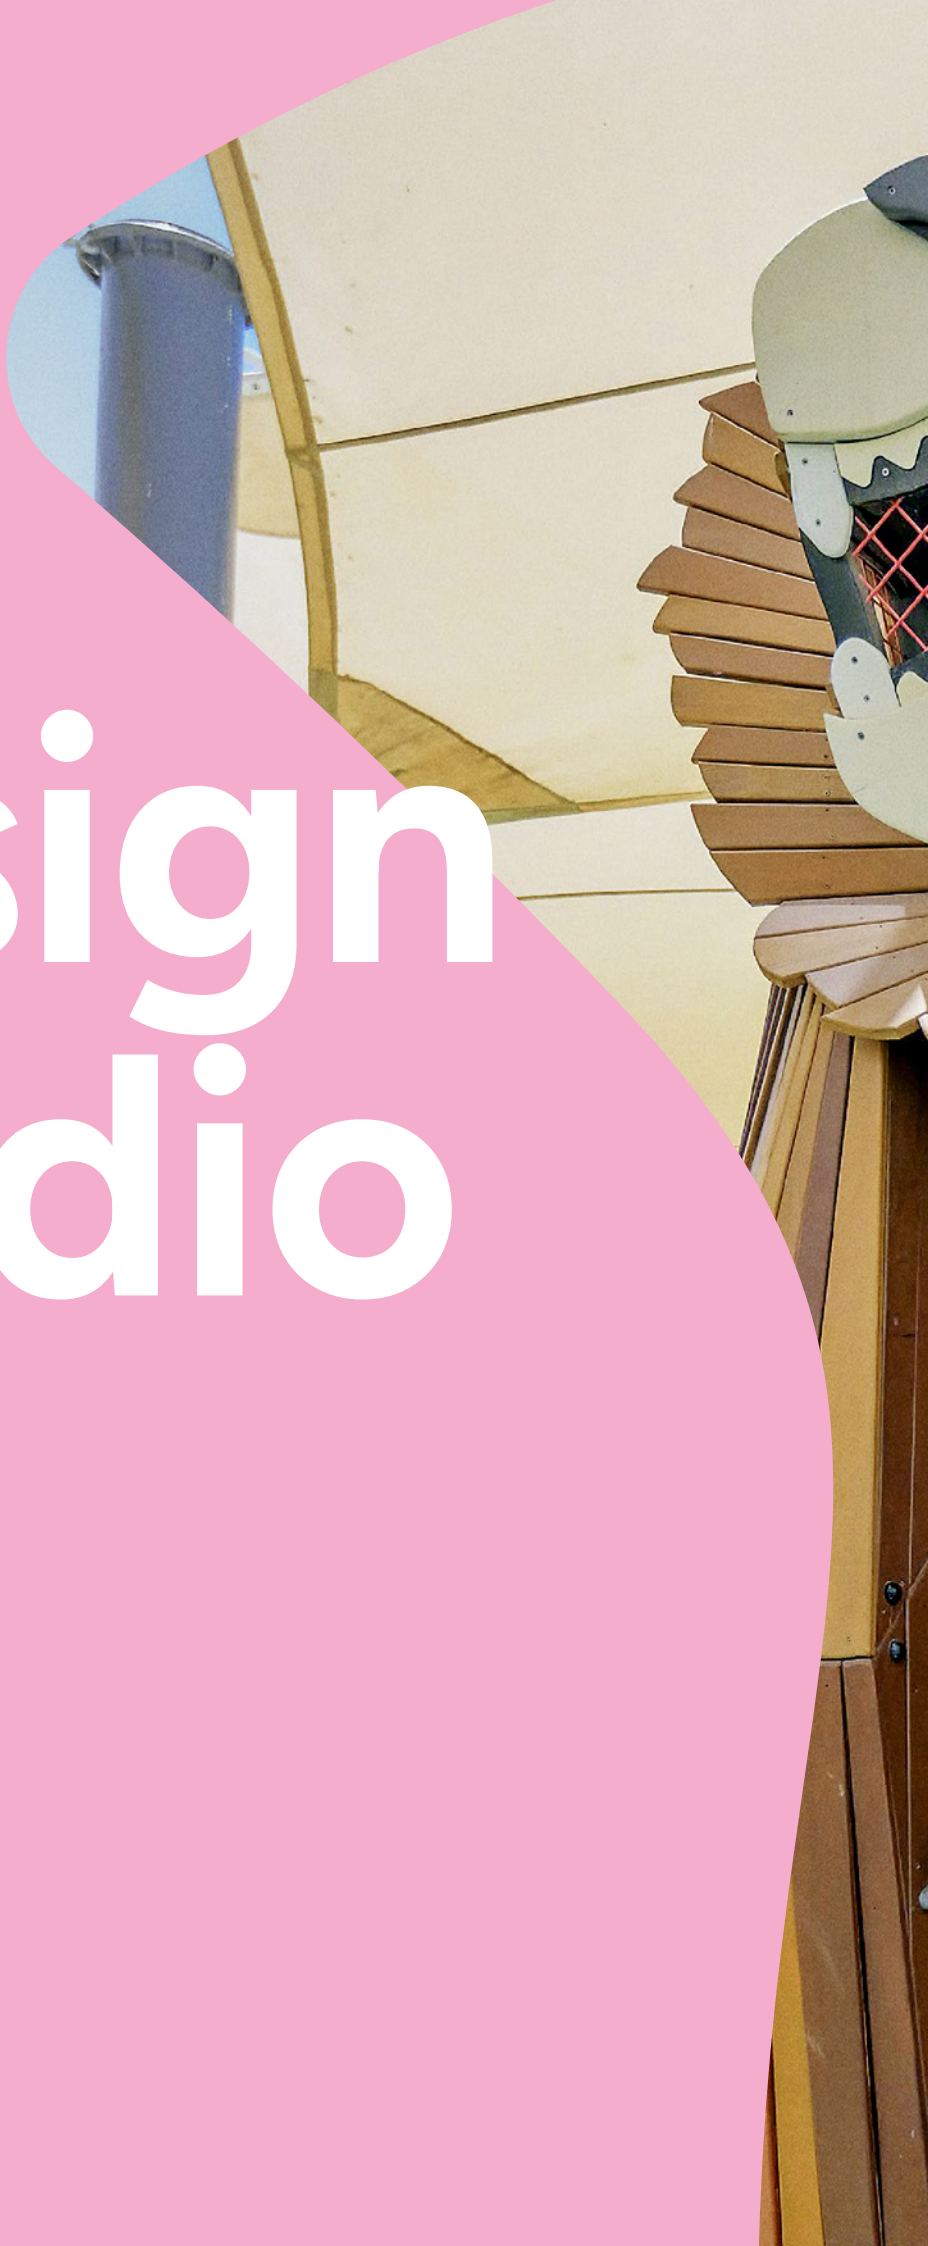
KOMPAN Design Studio



Tailor-made Solutions

Understanding Your Dream

A school may want a play sculpture symbolizing wisdom and learning. A local community may wish to have its play sculpture tell a story about the community, connecting one generation to the next.

We do this by utilizing our unique architectural and engineering experience in collaboration with knowledge from the KOMPAN Play Institute and KOMPAN Fitness Institute. Playgrounds that children and adults want to stay at, come back to—again and again—and talk about as great destinations to visit.

Whether you are looking for a customized playground or fitness site, the process looks like this:

1 Finding the Perfect Concept

Together we find the perfect concept for your story. For example, we can conceptualize a train station for a town or municipality that wants to feature a structure that represents train transportation.

2 Researching the Concept

Next, the design team will study the phenomena in order to find the features that visualize your story the right way. For train transportation, a freight train could be key.

3 Sketching Design Ideas

The first sketches are made and delivered to you in order to test ideas and find the perfect design for you.

4 Loaded With Play and Activity

Your play sculpture is loaded with the portfolio of play features that we have invented throughout half a century.

5 Building the Sculpture

Our engineers make sure that the static structure is safe and sound. We use the highest quality materials in order to build a landmark that lasts for decades.

6 The Final Structure

Based on the initial idea, created by skilled designers, engineers, and craftsmen, the final play structure is now ready for children to enjoy.

A New Concept by KOMPAN Design Studio

Nature Play Spaces

At KOMPAN Design Studio, we understand that our focus on WOW, STAY, and DEVELOP is essential when designing and building playgrounds. The location must be beautiful, but it must also be a fun, safe, and challenging space.

With over 50 years of experience and research-backed insights into children's play and development, our landscape solutions are enriched with play value and nature-based play. This approach permeates everything we do.

Our latest design concept investigates the connection between play and landscape architecture. It's a holistic design approach where play and landscape are deeply integrated. We do this by exploring how natural play structures and natural terrain coexist to co-create new spatial experiences.

Nature Playgrounds

Robinia Play Structures

Crafted by Nature, Perfected by Hand

KOMPAN Robinia is the perfect choice for any public spaces seeking durable and aesthetically pleasing solutions. The naturally tough hardwood resists decay and harsh weather without needing any chemical treatment. With organic shapes and a timeless look, Robinia blends seamlessly into outdoor environments.

Rooted in KOMPAN traditional craftmanship and play value, Robinia Play Structures offer durability, lots of innovative play value, and purpose.

The KOMPAN Robinia category offers a variety of play activities in large and smaller scale. This is a large-scale castle!

Age-appropriate play activities with lots of play value add numerous options and flexibility to the KOMPAN Robinia Play Structures.

Organically-shaped posts give a welcoming break from uniform lines in traditional architecture.

Why Choose KOMPAN Robinia

Where Imagination Builds Villages
Step into a world where children create stories. The KOMPAN Robinia universe includes everything from everyday themes like cars and planes to fantastical fairytale towers and castles, bringing to life the stories kids love to play.

Big Platforms Make Room for Everyone
KOMPAN Robinia Play Structures feature generously sized, multi-user platforms that support group play and dynamic movement—making them perfect for the broadest range of users. Rich in play activities that encourage climbing, balancing, creativity, and social interaction, our Robinia structures provide a fun space for children to grow through play.

Ultimate Strength and Durability
A Long-term Investment
If you're looking for the ultimate wooden playground, KOMPAN Robinia is the answer. Our dense Robinia heartwood offers long-lasting, chemical-free performance backed by KOMPAN's 15-year warranty.

If You Can Imagine it—We Can Build it
With decades of experience, KOMPAN is the industry expert in Robinia wood. Choose from hundreds of beautifully designed products or create a custom solution with our Design Studio. The sky's the limit, and your ideas can grow into a stunning nature playground.

Introducing the newest addition to our themed play collection: new-size Robinia Explorer. Made from durable, natural Robinia wood, this play structure combines organic aesthetics with endless story-telling potential. With a barrier-free large opening through the center of the ship, everyone can enter the heart of the adventure, which has lots of play starters at ground level. The inside of the ship is packed with play activities and there is a space below deck for the crew. Climbing or crawling to the bridge via multiple access points ensures lots of activity and challenges for all types of explorers.

Play starters placed at ground level midship are accessible through a barrier-free large opening. This enables play for all, including children with assistive devices or wheelchair users.

Binoculars set a tangible theme and prompt dramatic make-believe play. This type of play is a great trainer of language and communication skills.

Once on board, children can choose different paths to move across or descend from the ship.

The slide adds an element of excitement, while also helping children develop spatial awareness. Made from 33% recycled post-consumer materials in all colors.

A barrier-free large opening midship allows everyone to join the adventure at sea.

New size Smaller footprint: all aboard and set sail!

Ships

A Playground of Pirate Fun

Treasure, teamwork, and high-seas adventure await on pirate-themed Ships! Packed with activities, they inspire children to play and explore for hours. This themed play sparks creativity, encourages role-play, and builds confidence as children work together to achieve a shared goal.

If pirates have invaded your playground, it's time to get everybody on deck to guard the treasure!

Planes & Vehicles

Full Speed on Imagination

Play is about preparing for life. It's most powerful in stimulating youthful imaginations when it mimics reality. Themed playground equipment opens the door to adventures that would otherwise be "off-limits."

The thrill of flying the Propeller Plane or driving the Unitruck inspires real-life scenarios, where imagining trips from one place to another brings endless fun.

Fantasy

Escape to the Forest of Fantasy

In the enchanting realm of the Fantasy universe, imagination and play intertwine. The quirky expression of the Fantasy play structures is unique and on nature's terms. The signature posts get their authentic woodgrain pattern from when they were forested in their natural state.

Climb towards the eternal battle between good and evil, or swing to escape the Warlock's magic spell.

Toddler

Something for Everyone to Enjoy

The Toddler portfolio showcases a collection of organic Robinia play structures, designed for home-themed play that will continuously attract and excite the youngest.

The tactile features significantly enhance play value and support a child's development through dramatic play. The scale of these structures is perfectly suited for toddlers and ensures a safe and engaging play experience.

Playhouses

A Cozy Play Space for the Youngest

House-themed playground equipment offers a sense of familiarity and comfort for youngsters. Combining the "house" concept with nature elements ignites children's imagination and inspires hours of play.

In other words, playhouses blend the benefits children get from exploring familiar concepts like "house" or "home" through play with the wonders of nature.

A responsible choice

Play Panels

That Little Extra Fun, Play, and Learning

Play Panels for the youngest add a learning dimension to play, as the panels help guide the child's learning towards specific topics. Children learn by drawing on the chalkboards and playing together on the music panels.

Watch them blossom as their skill sets grow when participating in creative play with friends, caregivers, or independently.

A responsible choice
Robinia hardwood:
Nature's own material, harvested from European forestry. Robinia wood is known for its natural preservatives that make it long lasting in the outdoors.

New
Sand and Water Combinations

The latest additions to our sand and water play range are crafted with accessibility and inclusion at their core. The raised splash tables encourage children of all abilities to dig, build, and explore together. With wheelchair-accessible and carefully designed play surfaces, these units guarantee no child is left on the sidelines. Different combinations and modules allow you to create a unit to your specific needs. With four available combinations in several shapes, sizes and materials, as well as inclusive splash tables, children of all abilities have the opportunity to join the fun.

Whether scooping, pouring, or sculpting, each feature enables various combinations that promote collaborative and sensory-rich play for everyone.

With four available combinations in several shapes and sizes as well as inclusive splash tables, children of all abilities have the opportunity to join the fun.

The splash table is a favorite play item that children of all abilities are repeatedly attracted to.

new

The elevated inclusive splash table enables children in wheelchairs to join the fun. Available as a stand-alone unit.

The tables are open and can be accessed in multiple ways, allowing lots of children to play together.

A new and improved sand hoist holds captivating play activities that engage children in fun play for hours.

Sand & Water Play

Fun, Sensory, and Messy Play

Is feeling sand between your fingers and toes one of your favorite things about the beach? Children experience that same joy on our Sand & Water play areas! Building in the sand gives them a sense of success, sparks creativity, and teaches them to take turns while watching their friends' ideas unfold.

Kids, roll up your sleeves and let the sand and water mixing begin!

Springers & Seesaws

Rock On!

The sensation of rocking starts as a soothing feeling when in the arms of their parent, but as a child grows, it becomes full-on fun! For younger children, rocking on a seesaw or springer—either through their own effort or with a friend—is the best way to play. Rocking also trains a child's balance and spatial awareness—senses that help them concentrate and navigate safely in traffic.

Find your favorite bug-themed springer or seesaw and start buzzing!

Balancing

Down-to-Earth Learning

Once children step onto a balancing trail, they build essential skills without even noticing. Balancing helps train their eyesight and focus—two key skills that boost school readiness and performance.

Watch out for crocodiles in the lagoon or get ready for a thrilling game of "the ground is lava!"

Rope Climbing

Climb, Conquer, Repeat

Remember the sense of achievement when conquering the giant tree in your neighborhood? Climbing structures create that same wonderful experience! As children make their way to the top, they build self-confidence and develop cross-coordination skills that support their reading development.

Kids love to climb—not because it's easy, but because it's challenging!

Ziplines

The King of Fun, Thrill, and Action

The queue for the zipline is always long! Whether you're four or 12, ziplines are incredibly fun and exciting. Ziplines teach children several essential skills; through interaction with other children when playing on the zipline, they learn to wait their turn and hand over the seat to the next in line.

A zipline is a thrilling playground asset that unites generations, abilities, and playful minds alike.

Swings

Up, Up, and Away!

Of all play activities, swinging is a favorite. It trains children's balance, coordination, and spatial awareness—motor skills that are crucial for judging distances, navigating traffic safely, and staying focused in class. Children also just love to swing!

Whether it's a quiet moment swinging alone or wild play with friends on the Bird's Nest Swing, the sensation of swinging is unparalleled.

See options on the FLEXIBILITY page.

Signs & Accessories

Additional Value for the Space

Signs play a key role in sharing important information in both private and public spaces. They help communicate playground rules, operating hours, and recommended age groups for safe and enjoyable play. With the KOMPAN signage concept, it's also possible to create customizable signs for a variety of outdoor activity areas. For flexibility and more information, see pages 250-251.

A responsible choice

Robinia hardwood:

Nature's own material, harvested from European forestry. Robinia wood is known for its natural preservatives that make it long lasting in the outdoors.

Promote your playground with customized signage–see pages 250-251

KOMPAN Design Studio

Nature Playground - Robinia

Location
Odense, Denmark

Site
Æblehuset

This pocket playground is part of a municipal strategic plan to enhance and develop park and recreational spaces in Odense, Denmark. The apple-themed play space is inspired by the neighborhood's local history and designed to engage the community, children and adults alike, in a safe, playful, and inspiring way.

Countryside Play Structures

Perfect for Endless Tree House Tales and Memories

The Countryside Play Structures bring the charm of traditional wooden tree-house play into modern spaces. Made from FSC®-certified pine (C004450), they support responsible choices while offering durability for long-term outdoor use. With warm, tactile materials and timeless design, these structures blend beautifully into parks and green areas.

The Countryside product line has flexible options based on our most popular play concepts. It is a reliable, nature-inspired solution: inclusive and visually appealing play environments for pre-schoolers and school-age children.

*Pinewood is not available in tropical areas of the world.

Why Choose Countryside Play Structures

Nurturing Childhood Development With Nature
Countryside's wooden play equipment supports children's growth through age-appropriate play activities crafted from natural materials. We are experts in childhood development, ensuring that our product supports the life skills children need to master at various stages.

Room for Everyone
The Countryside range is designed to stimulate foundational child development needs for physical, social-emotional, and cognitive play. Generous platforms and activities mean more kids playing together, fostering social interaction and cooperative fun.

Wooden Play Solutions With Maximum Flexibility
With Countryside, you can choose the exact combination of natural materials, colors and play activities that best suit your space and vision. The modular wooden platform enables the ultimate inclusion and highest play capacity, making it perfect for parks, schools, and community spaces.

Wood With Unmatched Longevity and Finishing
Our Countryside Play Structures are crafted from FSC®-certified wood treated for durability and longevity with multiple post options, including our visionary TexMade™ technology. With protective finishes, including impregnated wood, brown paint layer, post caps, and aluminum profiles, the structures withstand the elements while maintaining their natural beauty for years to come. (FSC® C004450)

Protective aluminum profiles, a KOMPAN detail, increase resistance to moisture and outdoor elements.

Classic Playgrounds

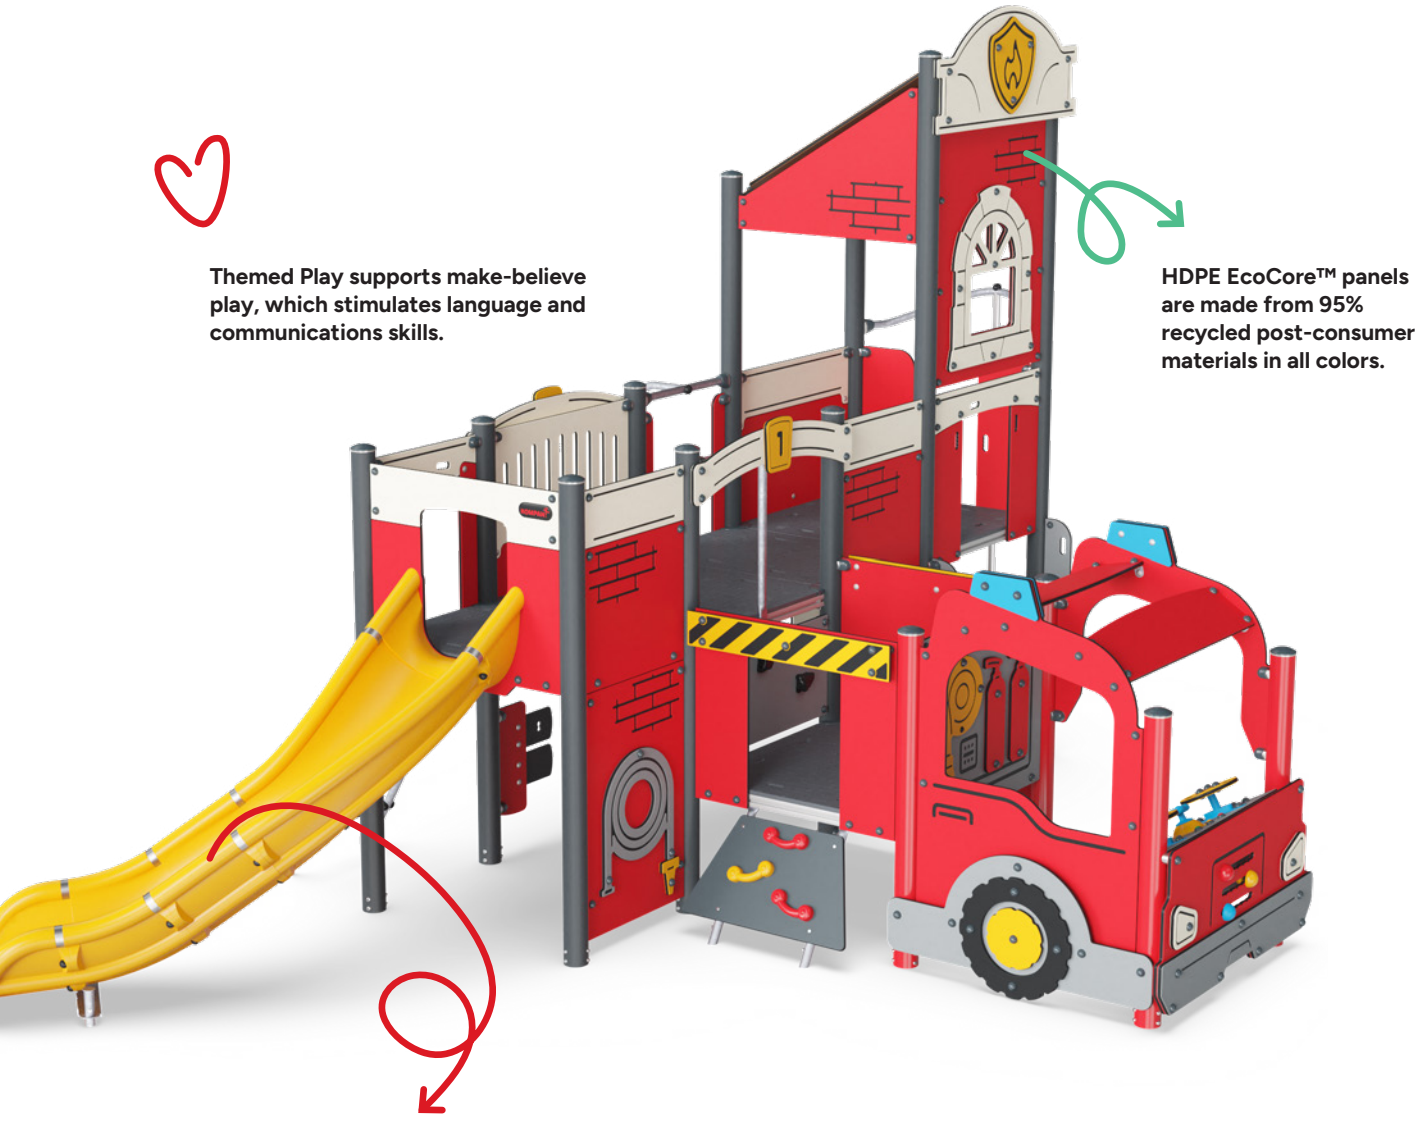
Let's Play

Moments™ Themed Play

Evergreen Themes That Kids Recognize, Love, and Understand

Themed Play combines classic playground durability with imaginative design to create engaging, story-driven environments. Made from sturdy, low-maintenance materials like EcoCore™ panels and molded components, these structures are built to last.

With freestanding equipment, Themed Playground structures offer a complete and cohesive aesthetic that integrates well into public spaces. Each design promotes inclusive, age-appropriate, dramatic play. Whether it's a castle, ship, or market stall, Themed Play transforms everyday play into extraordinary adventures.



Themed Play supports make-believe play, which stimulates language and communications skills.

HDPE EcoCore™ panels are made from 95% recycled post-consumer materials in all colors.

We offer slides in six different colors and three materials: straight or curved one-piece molded PE slides, made from 33% recycled post-consumer materials.

Why Choose Moments™ Themed Play

Integrated Play Starters That Fuel Kids' Imagination
Whether it's serving ice cream or hiding in a tree house, all KOMPAN Themed Play products are filled with integrated play starters that unleash hours of play. Make-believe play nurtures imagination while building thinking skills, life skills, emotional growth, and strong communication.

Joyful, Recognizable Play Themes
KOMPAN Town consists of well-known and beloved themes, such as Pirates, Castles and many more, that truly wow kids. Across KOMPAN's Themed Structures, children are invited to embark on an adventure or become a hero.

Timeless Design for Every Environment
The contemporary design of KOMPAN Themed Play is created to last for decades, as it never loses relevance and will beautifully blend into any environment.

Themed Play for Greener Cities
Across all our themed products, we offer multiple greener options, including posts made from recycled textiles, decks and steps made with 75% post-consumer recycled waste, and Eco-Core™ panels made with 95% post-consumer recycled waste.

Save the Day!
With instantly recognizable themes, children are drawn to a world of make-believe play with real-life play starters.

Town

Everyday Adventures

Play is most impactful when it reflects everyday surroundings, helping children to build essential life skills. Town-themed playground equipment invites children to explore the bustling life of a town, sparking their imaginations with endless play possibilities.

Climbing trees in the park, navigating the town square, going to the café, having ice cream at the ice cream cart, or working as a fireman at the fire station bring real-life adventures to life.

See options on the FLEXIBILITY page.

Countryside

Harvesting Fun

Play is about preparing children for life, reaching its strongest potential when young imaginations are inspired through the imitation of reality. Farm-themed playground equipment opens the door to adventures that would otherwise be “off-limits.”

The thrill of climbing on a giant tractor triggers real-life scenarios on the farm—where the barn is stocked not with hay, but with stacks of endless fun.

Giant Play Towers

Sky-high Climb, Slide, Meet-and-greet Fun

Giant play towers offer sky-high excitement with various climbing, sliding, and social play activities. Their transparent design adds thrill and visibility, while varied access points support physical development and inclusive play. From steep climbs to fast glides and ground-level games, every element is designed to challenge, engage, and connect children of all abilities.

These landmark structures encourage movement, coordination and social interaction, making them stand out in any public play space.

Why Choose a Giant Play Tower

The Sky's the Limit
Designed to impress and thrill, these Giants are tall—very tall! Giants will WOW any child and draw them like a magnet to enter a world of discovery! Playing on our Giants, there will be no crowded places, as the massive structure has (almost) unlimited capacity.

Choosing YOUR Route to the Top—Dare to Climb!
With multiple routes to choose from—some easy, others more challenging—the Giants will challenge any child to find their way to the top. With its daring internal climbing walls, kids will overcome challenges in a safe and engaging way by climbing on the transparent walls.

Boost Confidence and Self-esteem
KOMPAN Giants fuse height, imagination, and multi-activity design to deliver an irresistible, all-in-one playground tower that challenges children's physical skills, supports cognitive and social development, and draws kids in as a dramatic community landmark.

Customize to Any Theme
While Giants come in three unique themes—Ocean, Jungle, and Fairytale—they can become anything you wish. Whether it is a rocket, a lighthouse, or something else, it's your decision.

Sky-high thrills up to 30 feet tall. The impressive height is an instant and challenging attractor for older children.

Learn more about Made Green and Born Green

Giant Towers

Taking the Element of WOW to New Heights!

PATENTED

A small footprint does not mean fewer play activities—quite the opposite! At a staggering height of 22 to 30 feet, the towering Giants play structures are packed with physical and cognitive play activities from top to bottom, inside and out, designed to WOW and challenge school-age children.

The thrilling slide and themed exterior add to the excitement, as Giants entice children to challenge and explore heights that wow!

Equity in Play and Ramped Solutions

For some play solutions, ramps are the best way to provide usability and accessibility for children or caregivers with different abilities. KOMPAN Giants ramp solutions are modular and can be accessed from ground level and up, or from an elevated level, utilizing the other landscape features to ease access.

Contact us for more information and let us help you create an exciting ramp solution and inclusive play environment.

Classic Playgrounds - Giants

Location
Suzhou Cangjie, China

Site
Suzhou Cangjie Square

Suzhou Yanlord Cangjie Plaza is situated in the heart of Suzhou's central business district, a lively area with significant foot traffic on both weekdays and weekends. The playground is strategically located at the junction between the metro and the shopping mall. The striking landmark play structure delights children with adventurous, cosmic fun and leaves a memorable impression for all passersby.

For Those Who Dream Bigger

Moments™ Play Structures

A Circle of Developing Play for All

Moments™ Play Structures provide a dependable and inclusive solution for parks, public spaces, and kindergartens. Everyone will find something to do on either play level. Constructed from durable materials such as EcoCore™ panels and molded components, they ensure long-lasting performance with minimal upkeep.

With responsible material choices and user-tested, science-backed play activities, Moments™ offers safe, engaging, and accessible play for children of all abilities, making it a trusted choice for communities worldwide.

A fully-integrated shading solution protects children by reducing exposure to direct sunlight.

Easy access to the structure's elevated play activities ensures play for all. Decks and steps made from 75% recycled post-consumer materials.

Why Choose Moments™ Play Structures

Endless Possibilities and Space to Customize Any Solution
As a customer, you decide on the unique combination of colors, materials, and play activities that fits your vision of what the perfect playground looks like. The Moments™ Play System benefits from its broad platform size, making it ideal for both inclusivity and increased play capacity.

Learning Through Play Makes Children Confident Individuals
The Moments™ Play Structures are designed to support all the essential developmental domains of children's lives, including physical, social, cognitive, and language development, providing them with the perfect place to grow as individuals.

Supporting Children's Development Across All Stages of Their Childhood
Consisting of toddler, pre-school, and school-age products, KOMPAN Moments™ covers all phases of childhood development, tailored with unique and age-appropriate play activities to support the skills children need to master.

Making a Greener Choice
Across all our products, we offer multiple greener options, including posts made from recycled textiles, decks and steps made with 75% post-consumer recycled waste, and EcoCore™ panels with 95% post-consumer recycled waste.

TexMade™ posts made from >95% post-consumer recycled textile and plastic waste enable you to make a greener choice.

Moments™ Hercules

Preschool and School-age Play Designed for Maximum Toughness

Hercules is more than just fun for school-age children. Its a fun and rock-solid play experience for preschoolers, too. The structure's many challenges and options turn this play experience into an adventure. Children of this age require different stimuli, therefore the classic post-and-platform structures promote a wide range of activities, including climbing, balancing, sliding, and gathering.

It’s made for all children, and the variety of ground level activities make it a highly inclusive structure.

Hercules equipment is available in three vibrant color themes that draw children in.

Panels and grids are made of steel with galvanized bases and painted colorful top finish

Super durable steel decks of perforated steel plates with a polyurea non-slip top surface which provides extremely good resistance to wear.

Why Choose Hercules

Learning Through Play
The Moments™ Hercules Play Structures are designed to support all the essential developmental domains of children's lives, including physical, social, cognitive, and language development, providing them with the perfect place to grow as individuals.

Tough and Creative!
Hercules equipment offers unique design with high flexibility, outstanding functionality, and high resistance against wear, climate and vandalism.

Endless Possibilities and Space to Customize Any Space
As a customer, you decide on the unique combination of colors and play activities that fits your vision of what the perfect playground looks like. The Moments™ Hercules Play system benefits from its broad platform size, making it ideal for both inclusivity and increased play capacity.

Maximum Play With Minimum Maintenance
Hercules products are engineered with carefully selected materials to offer a long lifespan under the heaviest usage. The products are designed to ensure a long service life with a minimum of maintenance but lots of play. Best of both worlds!

With its long service life and minimum maintenance, the Moments™ Hercules line joins a select group of products that meet the rigorous demands of the NYC Parks Department. This is an ideal solution for a city's unsupervised areas.

Learn more about Made Green and Born Green

Hercules

Preschool Play Fit for Inner Cities

Hercules is a fun, rock-solid play experience for pre-school-age children. The materials used in this product line are carefully selected to provide a long lifespan and are highly vandalism-resistant, making this solution ideal for a city's unsupervised areas.

The play activities within Hercules preschool equipment stimulate the preschooler's instinct to play through a range of traditional play activities like sliding, gliding, climbing, and the exploration of cognitive elements.

The many ground-level activities and low entry points of the structures make Hercules highly inclusive, ensuring play for all users.

Elements™ Play Structures

Play for All Ages and Abilities

Sometimes, all children need is a place to burn off energy and explore their physical abilities through play. Elements™ is all you need to create a fun and physically challenging playground for children of all ages.

The series is loaded with physical play that draws on classic play activities such as crawling through, climbing up, and sliding down; ensuring long playtimes, high levels of physical activity, and all around physical development of the child.

The rounded design language and two-colored panels are specific KOMPAN design traits that hold a variety of play activities.

Rooftops are specifically designed with an overhang to maximize play structure coverage and sun protection. Made from 33% recycled post-consumer materials in all colors.

Yellow deck-to-deck panels ensure visible and easy access to the structure's elevated play activities and play for all. Decks made from 75% recycled post-consumer materials.

Why Choose Elements™ Play Structures

Designed and Optimized for Inclusion
Getting up and getting around—no problem! The Elements™ Play System is tailored to provide kids with a joyful experience. Combining easy accessibility with fun play activities, kids will have a joyful time.

The 360-degree Play Concept Unlocks Play Everywhere!
From any angle of the product, there is a fun activity to engage with. It is all about the details! The play structure invites children to explore every panel, where they can uncover a new and fun activity.

Large-capacity Play Structures and Unmatched Finishes!
The Elements™ range consists of large deck combinations, giving the structure increased capacity that allows many kids to play together at the same time. We cater to every small detail. Elements™, with its rotomolded panels and uncompromising approach to finish, feels like a true premium playground.

Organic Shapes Curving Through the Landscape
With unique elements, such as rounded panels and curved see-through holes, our Elements™ Play Structures have a kid-friendly and cozy design. Breaking the barriers of traditional square play structure layout, Elements™, with its organic forms and shapes, curves its way through the playground.

When we say 360-degree play, we mean it. Even a KOMPAN ramp is not just a ramp. Play activities are integrated all the way on the inside and outside panels.

Learn more about Made Green and Born Green

Toddler

Responsive Play for the Youngest

Physical play is essential for every stage of child development, and it begins in the earliest years. The Elements™ Toddler series creates a safe, engaging world of play where young children can build these foundational skills. With responsive activities, toddlers are encouraged to explore and learn through play at their own pace. These early experiences nurture motor skills, spark curiosity, and build confidence in a secure environment.

By supporting growth through play, the Elements™ Toddler series helps children lay the foundation for kindergarten, school, and life.

Grow

Agile and Exploratory Play

Elements™ Grow is a world of agile and exploratory play activities that enhance children's holistic development. On these structures, children face age-appropriate physical challenges that gently push their boundaries and help them grow.

These challenges develop motor skills and help children build self-confidence while playing with friends and exploring the world.

Go

No Rules, Just Play

Elements™ Go is a series inspired by children and the creative, innovative ways they approach play. Observing how they climb on the exterior surfaces of traditional post-and-platform structures in search of new challenges sparked the idea to design structures that fuel that same curiosity.

Children are inherently curious and natural innovators. Luckily, playgrounds don't come with instructions.

See options on the FLEXIBILITY page.

Play Solutions for All

KOMPAN Ramp Solutions

Creating equity in public play is a primary obligation of our communities. This implies equal access to playgrounds for all citizens. For some playgrounds, ramps are the best solution to provide accessibility and usability.

KOMPAN ramp solutions let children and adults in wheelchairs participate in play by giving them a free pathway into and around the play structure. Along the path, they find interactive play activities placed at an appropriate height before finishing off at the top of the structure with a rare view from above. The path through and around the ramp structure is paved with joyful and educational play activities for children of all abilities.

A Loop of Play

KOMPAN ramp solutions offer a wide variety of gross and fine motor play events that can be used from inside and outside of the structure. There is a rich range of auditory and manipulative play elements. The play can take place in and on the ramped structure as well as outside of the structure, welcoming all users.

The layout of the ramp structure generates a loop of play, allowing for access to the elevated platform through a ramp as well as an inclined boarding net that allows several users to access at the same time.

KOMPAN Shading Solutions

Children should be able to play even on the hottest day

When playing outdoors on sunny days, children need protection from the harmful rays of the sun.

A KOMPAN shading solution is an easy and secure way to get just that. Integrated sails provide large shaded areas that slowly move over the play structures and surrounding areas. By reducing intense heat from direct sunlight, children are safe from heat exhaustion and can happily play longer.

PATENTED

Patented tensioning system with quick release function

Shade Material

Sails are manufactured from Commercial 95 High Density Polyethylene (HDPE), a knitted shade cloth manufactured solely for tensioned sunshade structures.

The material is treated with UV-stabilizers to give it lasting durability even in direct sunlight. KOMPAN shades will not rot or fray, and the high quality lock-stitch construction gives superior tear strength. The shade sails are only constructed from commercial grade knitted shade-cloth with up to 96% UV block.

In light rain, the water will run off to the lowest point, but the water will drain through the fiber in a heavier downpour.

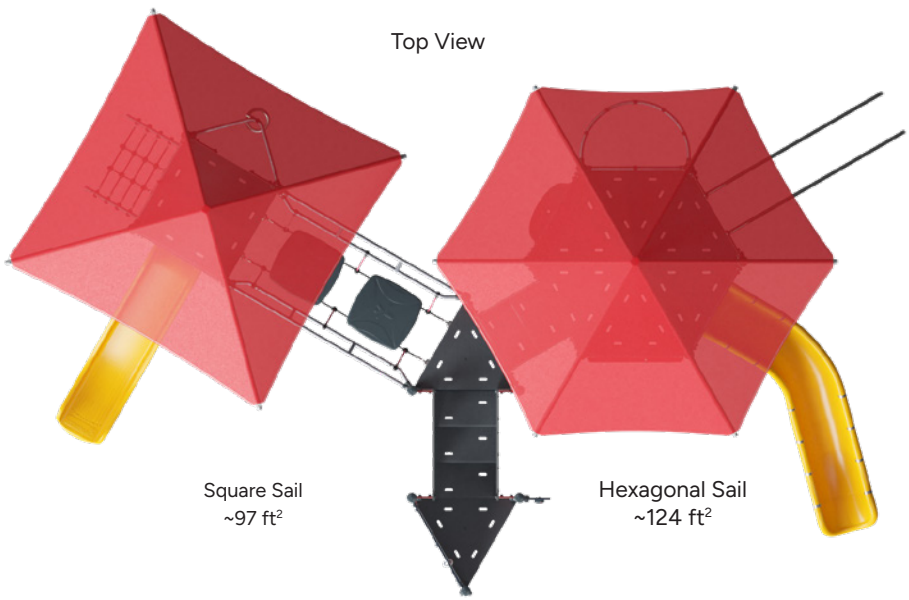
Open Integrated Shading
Shade solutions consisting of four or six individual sails placed in different layers are available for the large square deck and the Mega Deck platform for Moments™ and Elements™ play systems.

Choose between 6 different colors:

Closed Integrated Shading
These integrated shades are available for all deck shapes and sizes within Moments™ and Elements™ play systems.

Uniquely designed shade system offers easy take down in case of heavy winds.

Choose between 6 different colors:



Essentials Play Systems

For Every Child—Every Space, and Every Budget

All children deserve safe, engaging spaces to develop the skills they need to lead happy, healthy lives. Our Essentials playground equipment is designed to create just that—outdoor play spaces that stimulate critical thinking, boost physical strength, and nurture social-emotional growth.

The Essential Play System can be upgraded with integrated shading to ensure playtime is a fun but sun–safe experience.

The roofs are made of KOMPAN EcoCore™ panels and supported by hot dip galvanized steel pipes.

The slides can be chosen in six different colors and three materials: straight or curved one-piece molded PE slides, made from 33% recycled post-consumer material.

Why Choose Essentials Play Systems

Utilizing Space Efficiently, Maximizing Play
Optimized for small spaces, Essentials Play products have high capacity per square meter, making these structures perfect for locations with limited space.

Simple but Tough
Using ultra-strong materials such as PP floors, steel posts, and our super-strong Corocord rope, Essentials Play Systems are durable and will stand the test of time.

Colorful and Playful
With multiple vibrant and colorful concepts to choose from, Essentials Play Systems bring lots of color and joy to any neighborhood.

Affordable Play for Any Budget
Cost optimized Essentials Play Systems is our classic play platform, rooted back to the early days of KOMPAN. With modernized appearance, colors, and materials, Essentials will blend perfectly into any environment.

This range is available in three vibrant colors and meet the needs of preschoolers and school age children alike. The colors draw children in.

Learn more about Made Green and Born Green

Essentials

Physical Play for Adventurous Preschoolers and School-Agers

The Essentials range provides fun and physically developing play activities for adventurous preschoolers and school-age children. Loaded with essential, age-appropriate play value that draws on classic playground activities, the Essentials line ensures you can match the developmental needs of your users.

See options on the FLEXIBILITY page.

Classic Freestanding Play Equipment

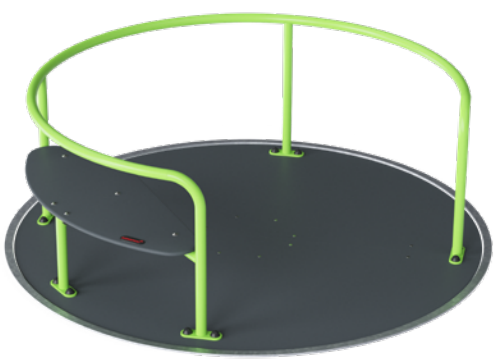
Playground Equipment You Know and Love

Today's playgrounds are spectacular, with creative themes and plenty of variety, and the freestanding equipment gets the party swinging and rocking. We offer freestanding commercial playground equipment for every age group, such as toddler stations, sensory play panels and playhouses for smaller children, carousels, cableways, and spinners for tweens and teenagers, to name a few.

Freestanding playground equipment allows you to add a unique flavor to your play spaces or freshen up a public playground area with minimal cost, as they are great as stand-alone structures.

The Tipi spins when pushed or pulled. It's a classic, dynamic, and fun playground attraction. Made from 33% recycled post-consumer materials in all colors.

The iconic KOMPAN playhouse with play starters inside and out is a symbol of decades of classic play. Play panels made from 95% recycled post-consumer materials in all colors



The inclusive carousel has room for wheelchair users to join the spinning fun, ensuring play for all.

Why Choose Our Freestanding Play Equipment

One-of-a-kind Innovations
For decades, KOMPAN has invented highly innovative, patented products, including Supernova, Boogie Spinner and our toddler stations, creating new and original age-appropriate products for children to play with. Unique products like these with a lot of x-factor will add something extraordinary to any solution.

Worry-free Products
Using the toughest materials in the industry, combining clever technical designs such as our fully closed bearing constructions, with minimum requirements for maintenance. Our products have been designed for daily use without any concerns for users or customers.

Frontier of Greener Solutions
We continually push the boundaries of integrating greener materials into our products. Across our entire range of products, EcoCore™ HDPE is made with 95% post-consumer waste, and EcoYarn™ ropes are made with 95% post-consumer recycled content in the yarn.

Choose Your Own Colors and Materials
Every playground site has its own unique tone of voice when it comes to color combinations, material selection, and aesthetics. Our collection of freestanding products has been designed to fit any solution. It offers the highest level of customization, so you can choose the colors and materials that suit the solution you dream of.

Swing posts are available with TexMade™ posts made from >95% post-consumer recycled textile and plastic waste, and make a greener choice.

Modular Multiplay

Colorful Play for Toddlers

Playing is how toddlers learn about the world around them. They practice new skills, explore their imagination, and make new friends. Familiar themes create playful conversations, and the elevated playhouses provide a physical climbing challenge with an area underneath for a play break.

Toddlers can safely explore and find their place in the world playing on a Multiplay structure.

Themed Equipment

Happiness Begins with Playful Discovery

The happiest toddlers are those who experience age-appropriate stimulation and challenges. The playful designs in our collection of toddler play-ground equipment draw on familiar concepts and invite children to engage in dramatic, developmental play.

Whether climbing the tallest giraffe or driving a pretend car, our toddler universe gently stimulates and guides little ones as they learn about the world around them.

Play Stations

Themed Play Stations for Learning and Fun

PATENTED

Let's Play

Toddler Stations mimic real-life environments and appeal to infant and toddler curiosity, as they feature a variety of details at eye level to play with and explore. Play Panels stimulate their creative and cognitive skills and provide the opportunity to play from all sides.

The Toddler Stations are placed on top of the surface without fixation to the ground, making them a movable, flexible solution for indoor or outdoor use.

Playhouses & Vehicles

Familiar, Child-Sized Spaces in a Big World

The smaller-scale, open playhouses are a strong play motivator for the youngest. The openness of the play space allows many children to play together from the inside and the outside. It's the first stage of forming a community.

From the Villa to the Allotment, themed playhouses open doors to understanding the value of friendship and imaginative play.

New Porsche 911 Cars

Turn heads on the playground with our classic Play Porsches, where legendary design meets imaginative play. Crafted to echo the unmistakable silhouette of the iconic Porsche 911, this play structure is a tribute to timeless style and high-performance fun.

From the distinctive headlights to the sleek curves, every detail is designed to delight young adventurers and Porsche enthusiasts. With built-in play starters and all the right vehicle-themed features, it's more than a play unit, it's a mini-masterpiece on wheels.

Vroom... Vroom...

BREAKING NEWS

KOMPAN teams up with Porsche!

With lots of real-life play starters, touching the steering wheel, you can almost hear the unquestionable sound of Porsche.

The new "Porsche 4-kids" playful cars have been developed by KOMPAN in cooperation with Porsche and are "Porsche Official Licensed Products".

Just like a Porsche, KOMPAN play equipment undergoes rigorous testing to ensure it meets our standards. It is designed with the highest-quality materials and durable components.

Sand & Water Play

A Vital Part of a Child's Creative and Cognitive Development

Playing with sand and water has a substantial developmental impact on a child. For example, building structures in the sand fosters a feeling of accomplishment in the child and sparks their creative thinking. Sand & Water Stations also encourage children to play together.

Our Sand & Water Stations come in many shapes and sizes with an appealing look that awakens the curiosity in children.

Play Panels

That Little Extra Fun, Play, and Learning

In free play, children learn by following their instincts, developing fundamental life skills along the way. Adding Play Panels to your playground structure adds a learning dimension to the play experience. Through music and themed Play Panels, children learn about different topics.

And yes, adults can join in on the play and guide children to learn new things while having fun too.

Springers

KOMPAN Invented a New Way of Rocking in 1970, and We've Been Rocking the World Ever Since

This is where it all began—a red hen on a bright blue spring. The Crazy Hen was the world's first play design to deliver a fun and more functional alternative to the traditional seesaw. Today, the iconic shape is recognizable worldwide.

Every playground springer is just waiting for a child to hop on, get to rocking, and unlock their creative potential!

New
Multi Seesaw

Discover our latest innovation in inclusive play! This carefully designed unit redefines accessibility from both sides with a wide side-panel opening and V-shaped entry bars. A feature that makes it easier for children of all abilities to join in the fun with assistance from caregivers.

The fully-enclosed leg and foot support ensures comfort and safety, while the ergonomic, bent steel-bar handle provides a secure grip for all users. A spacious central platform invites group play, and a rear handle is perfectly positioned for caregivers or friends to join the rocking motion, creating moments of shared joy and connection.

Smile
Play
Repeat

Solid foot, calf and back support ensure stability for children with movement difficulties and disabilities. There is plenty of room for caregivers.

Grip holes support various body positions when playing on the seesaw platform.

The yellow handlebar invites those unable to access to participate from outside. The product color choices are deliberate. The consistent use of contrasting colors helps people understand how to use and play on the seesaw.

Seesaws

The Fun Thrill of Rocking

new

Seesaws add a social dimension to the joy of rocking. Rocking on a seesaw trains children's muscles, motor skills, balance, and coordination. The spacious design and sturdy back and foot supports allow children of all abilities to play together.

The fun thrill of rocking will make children return for more. There is nothing better than rocking with a friend—or two!

Embankment Slides

Slide, Climb, Repeat!

Enjoy the fun of an Embankment Slide as you zoom down the hill and climb back up over and over again, sharing the thrills with friends along the way.

Perfectly supplement the fun of these favorites with Hill Climbers (see page 225). Available in different lengths, you can find the perfect fit for your hill slopes, whether you opt for a gentle 20° or a more daring 60°.

Start cheering and let the sliding, climbing, and belly-laughing begin!

Balancing

So Simple, Yet So Important

A Somersault Bar, Stepping Pod, or Climbing Net may not look like much, but through fun play, they contribute to childhood development. Rotating trains the child's sense of space, climbing trains the child's cross-coordination skills, and jumping trains the child's agility and balance.

All of these motor skills are vital to navigating the world confidently, for instance, when judging distances in traffic.

Ziplines & Platforms

The King of Fun, Thrill, and Action

The line for the Zipline is always long! Whether you're four or 12, the zipline is just great fun. Besides being a blast, they teach children several important lessons and skills. They learn to wait their turn and hand over the seat to the next in line.

All across schools and parks, one look at all the children lined up for playground Ziplines, and you can understand why. What a ride!

Design Your Own Swing Combination

Endless Swing Options for Every Space

Our swing portfolio offers endless possibilities—mix and match frames, styles, and swing seats to suit every age, ability, and aesthetic. Whether you're designing for toddlers, teens, or inclusive play, you can create combinations that balance movement, safety, and joy. Choose from classic seats, basket swings, or adaptive options to build a space where everyone can enjoy the sensation of swinging.

Let's swing

For lowest emission, choose TexMade™ posts.

Steel products are available in up to

14 steel colors

See steel color options on page 427

6 steps to your dream swing

1 Choose frame type – Classic or Portal

Do you want to make a more responsible choice with our TexMade™ posts? Go for our classic swing frame.

2 Select the number of seats or bays to match the capacity needed for the swing

Tip: Consider using multi-user seats to increase capacity.

3 Consider your targeted age group

Frame height 7’ & 8’ for the younger children and 8’ & 10’ for older children, depending on seat selection.

4 Explore our seat options & make a selection

Add in inclusive seats to ensure swinging for all.

5 Play with our color palette to find the right combination of frame & seat colors for your location

For the classic swings: Consider colorful deco panels.

6 Choose installation method: Surface or in-ground in different depths

The choice of anchoring may depend on soil type and surfacing.

Classic Swings

The Classic Swing Never Grows Old

Swinging is a classic play activity, as is the design of KOMPAN's Classic Swings. The traditional look makes it the preferred design in many playground settings. You can construct your swing solution from our wide range of swing seats with as many sections as possible.

The standard swing and baby seats can include anti-wrap clamps to prevent chains from turning.

See options on the FLEXIBILITY page.

Portal Swings

Swings Children Keep Coming Back To

Of all play activities, swinging is by far a favorite. Apart from being great fun, swinging trains children's agility, balance, coordination, and spatial awareness. These motor skills are crucial to judging distances and navigating traffic safely.

Whether it's for a quiet moment alone or swinging with a group of friends, children just love to swing!

See options on the FLEXIBILITY page.

Unique Swings

Swinging Together—the More, the Merrier!

Not only is swinging the most popular activity for playful children, but swinging together is an irresistible invitation for all children to play, simultaneously training vital skills along the way. The social-emotional effect of swinging together cannot be overestimated.

The soothing or wild swing movements create a calm relaxation or joyous thrill, whether swinging together or alone.

Meeting Points & Accessories

Comfortable Hangout Spots

As children grow older, they become more interested in social play and interaction. Comfortable meeting points should be available in any school playground. Our Meeting Point solutions cater to small or large impromptu gatherings by offering a place to relax and connect.

Meeting Points are comfortable hangout spots for a chat or a break, whether on the swaying hammock or the bench.

Information Signs

Customizable Signage

Signs are an essential way to make relevant information available for the users of private or public areas. They provide clear guidelines around use of a playground, hours of operation, and ideal user or age groups. They can also display sponsors or contact information.

Our signage can be customized with any text, signs, or symbols to ensure you're delivering the right message.

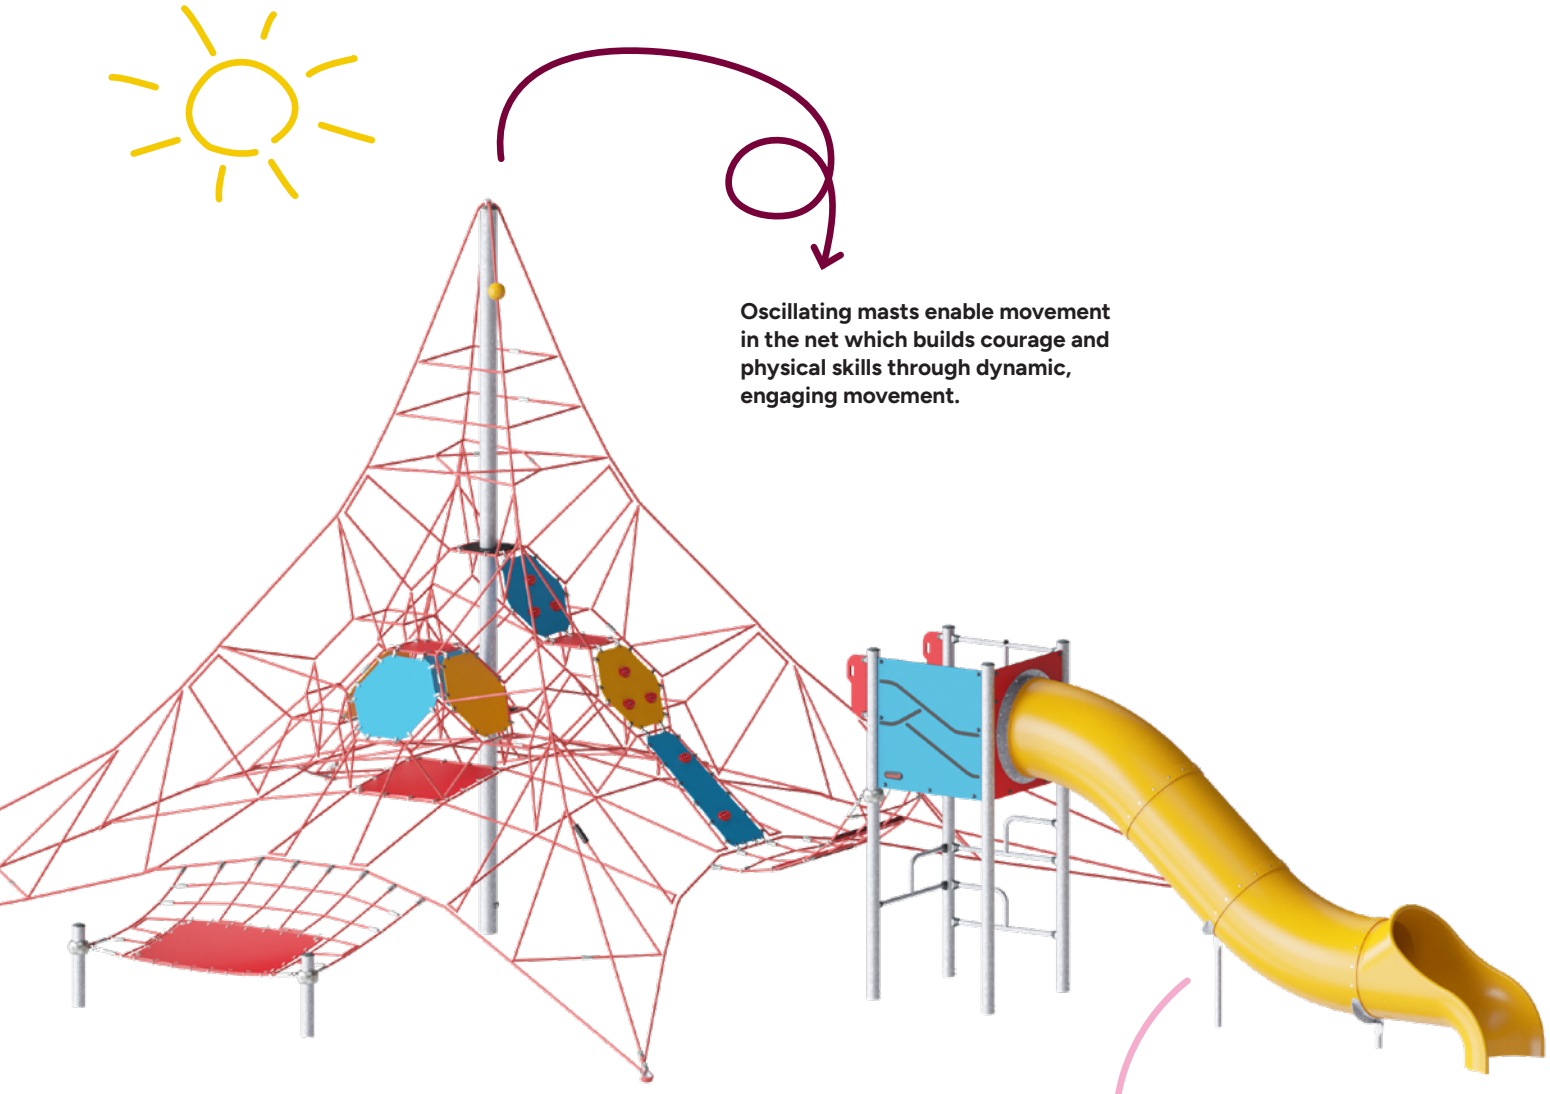
Rope and Climbing Playgrounds

Corocord™

Where Design Meets Adventure

Corocord™ ropes and nets combine robust durability with an elegant design using responsible materials. Engineered for vandal resistance, they provide stable, high-quality play experiences. Thanks to their flexible configurations and vibrant color options, Corocord™ products can be seamlessly integrated with other KOMPAN playground equipment through interlinking options, adding lasting value and creative freedom to any outdoor space.



Oscillating masts enable movement in the net which builds courage and physical skills through dynamic, engaging movement.

Our membrane connector enables on-site membrane assembly. This gives you great design freedom, flexibility, and customization.

Customize with slides and activities to enhance play and adapt to any space. Made from 33% recycled post-consumer materials in all colors.

Why Choose Corocord™

Corocord™—Designed to Attract, Built to Engage
Corocord™ rope structures turn playgrounds into destinations. Their striking architectural design draws attention and invites children to play, making them an attraction in any outdoor space. But it's not just about looks—these structures deliver high play value, encouraging physical activity and social interaction across age groups. With Corocord™, you get more than a playground—you create a space that inspires, engages and stands out.

Ropes Built to Last
Our tempered Corocord™ rope with EcoYarn™ is built for long-lasting performance. The tempered treatment enhances the rope's resistance to abrasion wear, weather and vandalism—ensuring a safe, long-term play solution with low maintenance. The EcoYarn™ is manufactured using over 95% post-consumer recycled material in the yarn, supporting environmentally responsible playground design.

Stable Nets. Better Play
Each rope in Corocord™ is optimally tensioned, securing the structure and enhancing the play experience through enhanced bounce. This is made possible through our structure-specific tensioning system and purpose-designed ropes—edge ropes provide stability, while climbing ropes offer responsive movement that invites energetic and engaging play.

Designed to Adapt to Your Vision
Thanks to our innovative clamp system, Corocord™ structures offer exceptional flexibility, allowing you to customize play features to suit your specific space, needs and vision. Whether you're designing for a schoolyard, park or urban space, the modular setup makes it easy to select the play activities that fit your environment. And when maintenance is needed, the system allows for on-site repairs—minimizing downtime and keeping play going strong.

Spacenets™ are scalable play nets tailored to age-appropriate fun. For little explorers and curious tweenage climbers.

Mini Domes

Crawl and Climb for the Little Ones

This Mini Dome is a wondrous climb-and-crawl structure for little explorers. With gently bouncing climbs, intriguing play panels, and inviting resting points for socializing, this small structure is BIG on play value for 2- to-5-year-olds.

Children can crawl to the top or play peekaboo at ground level beneath the structure. The Abacus and Mirror Play Panel ensure hours of exploration and play.

Mini Monkey Trails

Trailblazing Play for the Youngest

Prepare to witness joyful laughter as children climb, swing, and balance their way through play spaces above and below. With age-appropriate challenges for 2- to 6-year-olds, the Monkey Trails Mini will continue to grow with children, as it consists of play activities for the entire age range.

Whether they're traversing the structure alone or with a friend or caregiver, the Monkey Trails Mini has thrilling play activities for all.

Mini Climbers

Fun for the Little Climbers

Climbing is fun—and a big skill for little ones to master! It develops cross-coordination, which activates both sides of the brain and even supports early learning, like reading.

Get on the climbing path! Even the youngest, most hesitant climbers can enjoy a safe, playful, and developmental adventure.

Frame Nets

Enter the Realm of Three-Dimensional Play

Frame Nets are gateways to vibrant, three-dimensional playgrounds where kids rule the domain of fun and exploration. As children climb from rope to rope, they explore and experiment, building cross-co-ordination and physical strength along the way.

With every twist and turn, young minds spark with excitement and curiosity, engaging critical thinking and problem-solving as they make their way to the top.

Dynamics

Exploring Fundamental Forces

Rotating, swinging, and bouncing–these dynamic play structures are nearly impossible for children to resist. Designed for high-quality fun, they harness the power of gravity, providing movement experiences that support the development and organization of the child's nervous system.

Let gravity take you for a spin, and enjoy a thrilling ride while giggles echo for miles.

KOMPAN Design Studio

Playfair Garden-themed Dome

The Playfair Garden Dome invites children into a charming garden-inspired world with vivid green arches, playful floral details, and interactive climbing nets. Featuring slides, hammocks, and tunnels, this delightful play area encourages exploration, creativity, and active fun. Play is accessible from all directions, and the structure's transparency creates a sense of openness and safety as children crawl and climb to the top. The swaying Bird's Nest in the heart of the structure is a challenging destination and a nice gathering place to get a feeling of height and a view of the playground and your friends. It's a wonderful climb-and-crawl structure designed for young adventurers.

With soothing swinging rest points, gently bouncing climbs, and engaging play panels, this smaller dome structure is filled with developing play value for 2- to 5-year-olds. This concept allows for intricately designed solutions with much shorter lead time.

new
CONCEPT

KOMPAN Design Studio

Play Towers

These impressive, customized play structures rise high above the ground, instantly grabbing children's attention. From the outside, they stand out with their shape, form, and color. Inside, Play Towers feature several architectural classics, each with uniquely tailored three-dimensional ropescapes of bouncy playful nets. They create a captivating space to wonder, feel, move, and make friends. At the top, an entirely engaging destination awaits, with see-through panels that change the view of the outside world and offer a fresh, thrilling perspective. This forms the perfect skyline of a playful city.

With no color limitations and various cladding, materials, and play options, these Play Towers are designed to realize any aesthetic wonder or structural typology you have in mind. This concept allows for intricately designed solutions with much shorter lead time.

new
CONCEPT

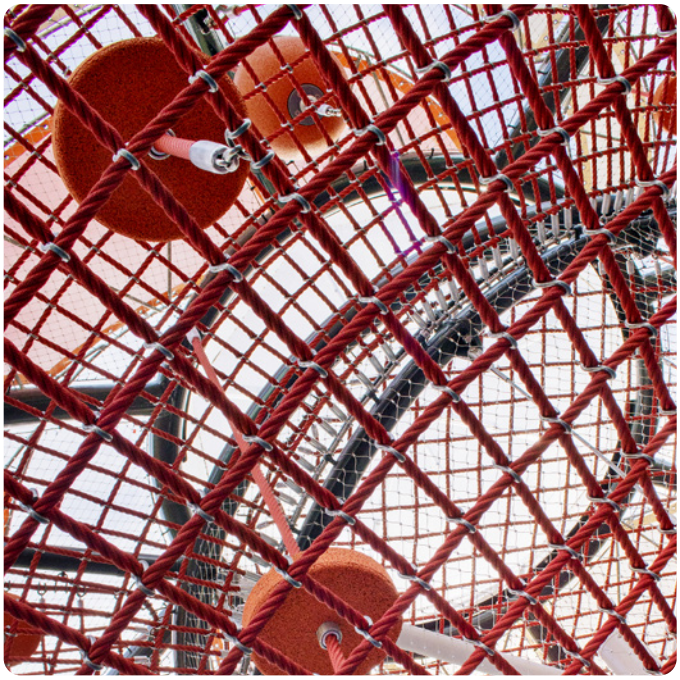
KOMPAN Design Studio

Rope & Climbing - Corocord™

Location
California, USA

Site
Lynwood Mega Playground

When city officials in Lynwood, California were looking to build a new playground, they wanted to create a play space that honored the area's Space Age roots, but modernizing the theme beyond the 20th century emerged as a central priority. In close collaboration with the City and landscape architecture firm, KOMPAN designed and engineered a cut-ting-edge play solution with a 22-foot-wide Saturn Sphere and its revolving rings that draws park-goers into its orbit.



Frow Vision to Wow

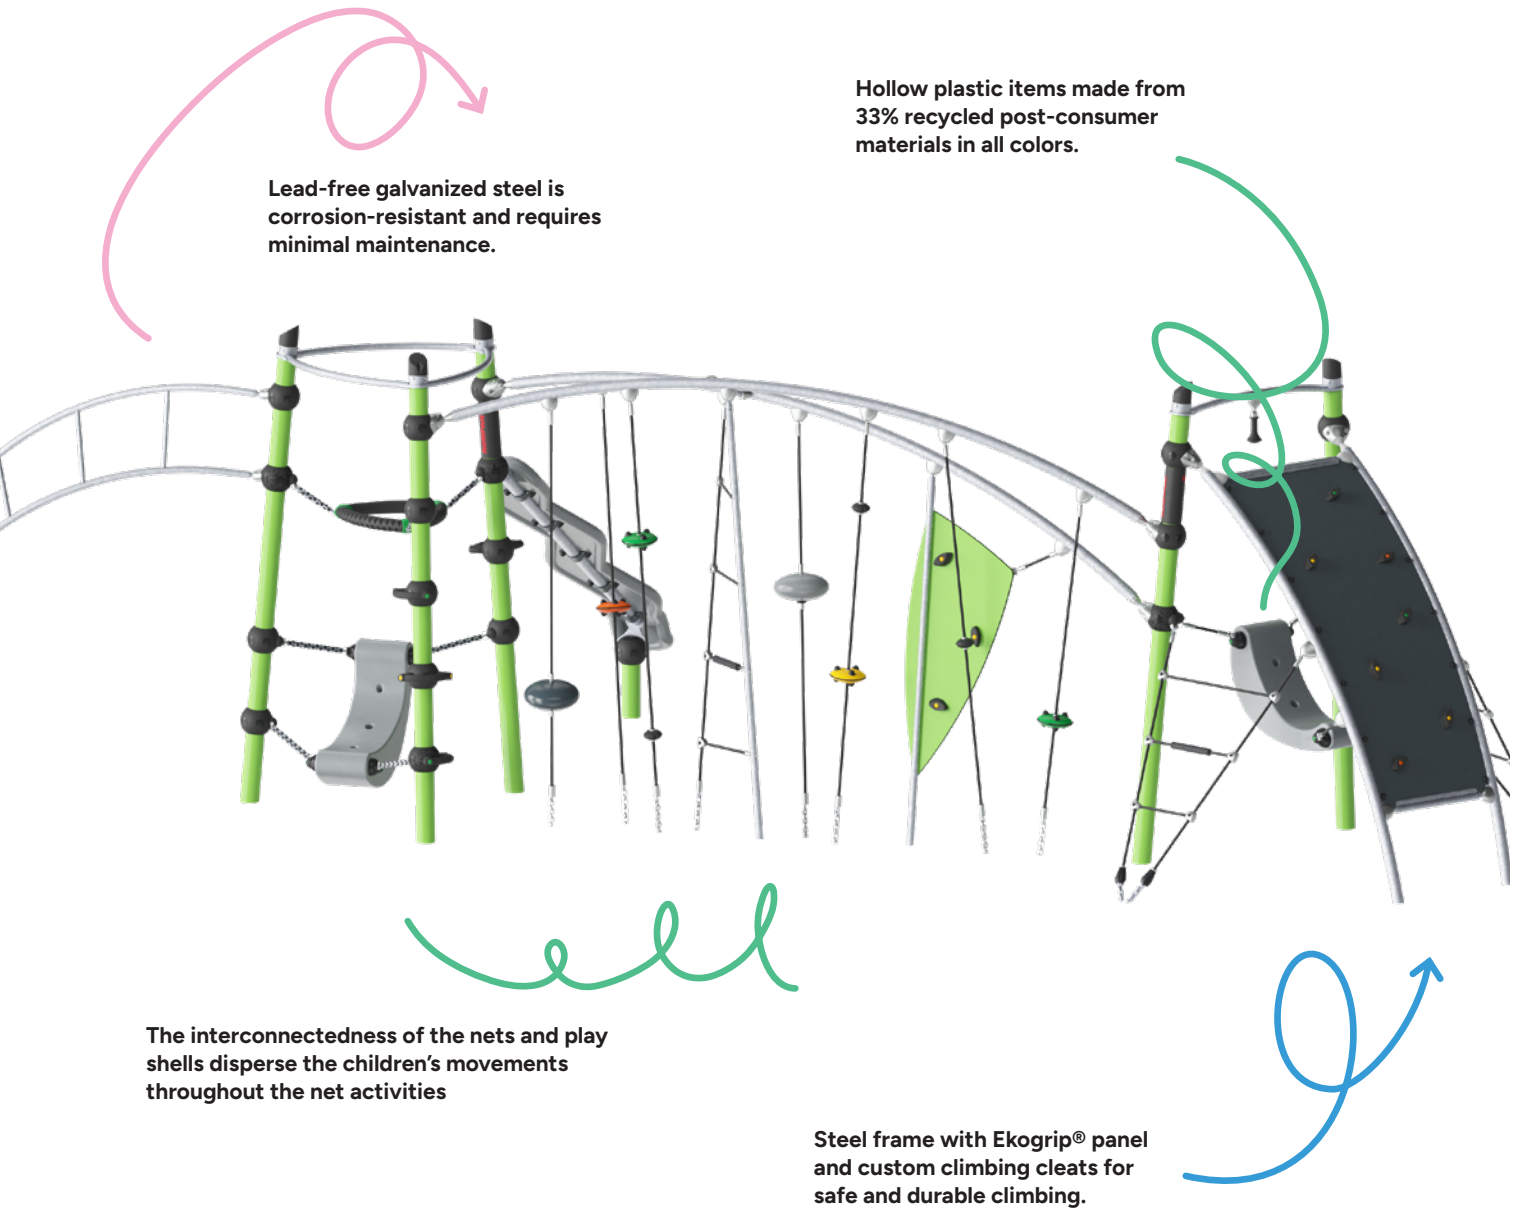
Explore our Landscape Architect universe at kompan.com

Galaxy™

Enter the Galaxy™: A Universe of Possibilities

Designed for contemporary public spaces, this play structure is constructed from durable materials and provides flexible design options. Because of its beautiful curves and transparent design, Galaxy™ is a favorite with architects and developers worldwide—it is regarded as the origin of modern playground designs. It promotes active, inclusive play for all ages, encouraging movement and social interaction, especially for teens.

Its compact footprint and attractive design optimize play value while reducing space requirements and maintenance needs.



Why Choose Galaxy™

Play Beyond the Ordinary
Galaxy™ fuels new adventures with unique activities that can be explored in new ways every day. Designed for older children, every element responds to movement, creating a constantly shifting experience that challenges agility, balance, and coordination, while the open framework encourages social interaction.

Where Playgrounds Go Galactic
Galaxy™'s out-of-this-world design breaks free from traditional playground norms, with play activities unlike anything found on conventional structures. Its transparent yet futuristic design, inspired by stellar associations, integrates seamlessly into any environment, enhancing the visual appeal while inviting children into a universe of play.

Inspired by the Galaxy. Built for the Real World
The robust materials and platform Galaxy™ offers ensure low vandalism and minimal maintenance, ideal for high-use public spaces.

The transparent design naturally invites moments of connection, creating opportunities for social interaction.

Urban Climbing

In-Between Playground

From our research, we know that teens and tweens like to play and hang out on playgrounds; however, there are not always age-appropriate options for them. Therefore, we developed a series of equipment for older children as a crossover between playgrounds and fitness sites.

Galaxy™ was the world's first solution to move away from the traditional post-and-platform and play-tower designs. It also became the first free-play design to include all children, regardless of abilities.

See options on the FLEXIBILITY page.

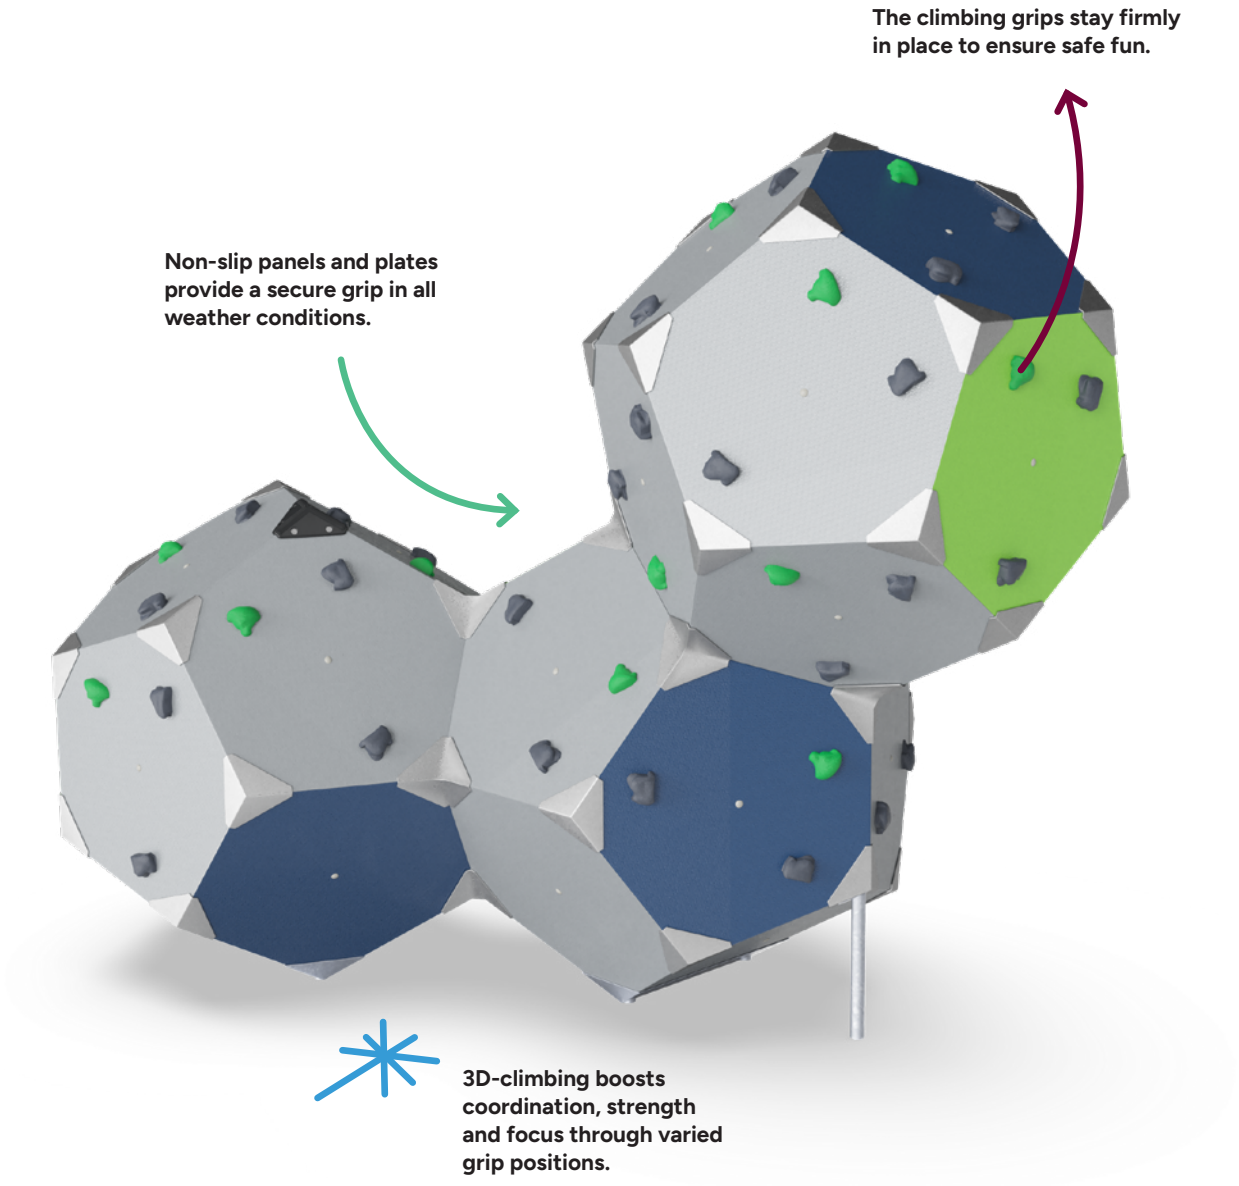
Bloqx™

Sculptural Climbing Icons

Designed for modern recreational spaces, Bloqx™ combines long-lasting durability with extraordinary responsible materials, including the possibility to add panels made from recycled ocean waste from the maritime industry. Its bold yet balanced visual appeal enhances any park or sports area, while the range of scalable color options offers flexibility for diverse layouts and community needs.

The iconic geometrically shaped blocks encourage climbing and meeting, particularly for teenagers and tweens. With its sculptural look and professional climbing grips, Bloqx™ invites scalable climbing challenges and games.



Why Choose Bloqx™

Climb. Connect. Stay.
With varied climbing routes and elevated meeting points, Bloqx™ invites users to move, rest, observe, and interact. From challenging climbing routes to hang-out peaks, Bloqx™ becomes a dynamic hub for both physical activity and social gathering.

Turning Waste Into Value
The panels are made from 75% post-consumer recycled polypropylene, offering bold color options. If choosing teal, these are crafted from 75% ocean waste, such as discarded fishing nets and ropes.

Designed for Crowds. Built for Value
Designed by architects, Bloqx™ combines bold aesthetics with smart spatial efficiency. Whether standing alone or integrated into a larger play or sports area, Bloqx™ delivers high user capacity in compact footprints—inviting movement, interaction, and visual impact without compromising space.

Reliable Design. Minimal Maintenance
Built with superior materials. Designed to resist vandalism and minimize maintenance, ensuring long-term reliability in public environments.

Iconic geometric blocks form a vibrant meeting spot for older children and tweens.

Learn more about Made Green and Born Green

Bloqx™

A Fun, Simple, Scalable System

Bloqx™ offers a unique and intense climbing experience that's sometimes exhausting—even for tweens and teens! That's why the design accommodates rewarding hang-out spots on the upper surface of the pentagon shapes.

The Bloqx™ design is a favored selfie platform, which tells us that Bloqx™ has made its mark with the target group: tweens and teenagers. That's pretty cool.

Play Climbers

Structures Designed for Active and Social Fun

This play solution is designed for long-term outdoor use and features a durable, adaptable design made from recycled materials. The material components are proven to be strong and environmentally responsible. Its clean aesthetics and versatile configurations allow it to blend seamlessly into schoolyards, parks, and recreational spaces of all sizes.

The durable HDPE panel is built for outdoor play and long-term use.

Choose between different play features which meet the playground's and user's needs.

Select your preferred post material: steel, aluminum, pine, or TexMade™ post.

Why Choose Play Climbers

Explore Material Possibilities

Choose materials like TexMade™, crafted from 95% recycled textiles and plastics, and EcoCore™, made with 95% post-consumer recycled content. Our unique teal color is derived from ocean waste, including discarded fishing nets and ropes from the maritime industry.

Versatile Play Climbers—Packed With Activities

These versatile climbers offer varied activities that engage all children, encouraging movement and social interaction. The open design fosters connection, while climbing challenges support coordination and strength. Select from various play features and materials to suit your space and users.

Play Climbers

Every Climb is a New Challenge

Climbing structures instantly attract children with their exciting challenges and dynamic play opportunities.

Designed for climbing, gliding, and exploring, these versatile structures inspire kids to push their limits while building strength and coordination. With built-in spaces for socializing and making friends, climbing structures extend play duration, transforming every visit into a fun and lasting experience that keeps children coming back for more.

Multisport

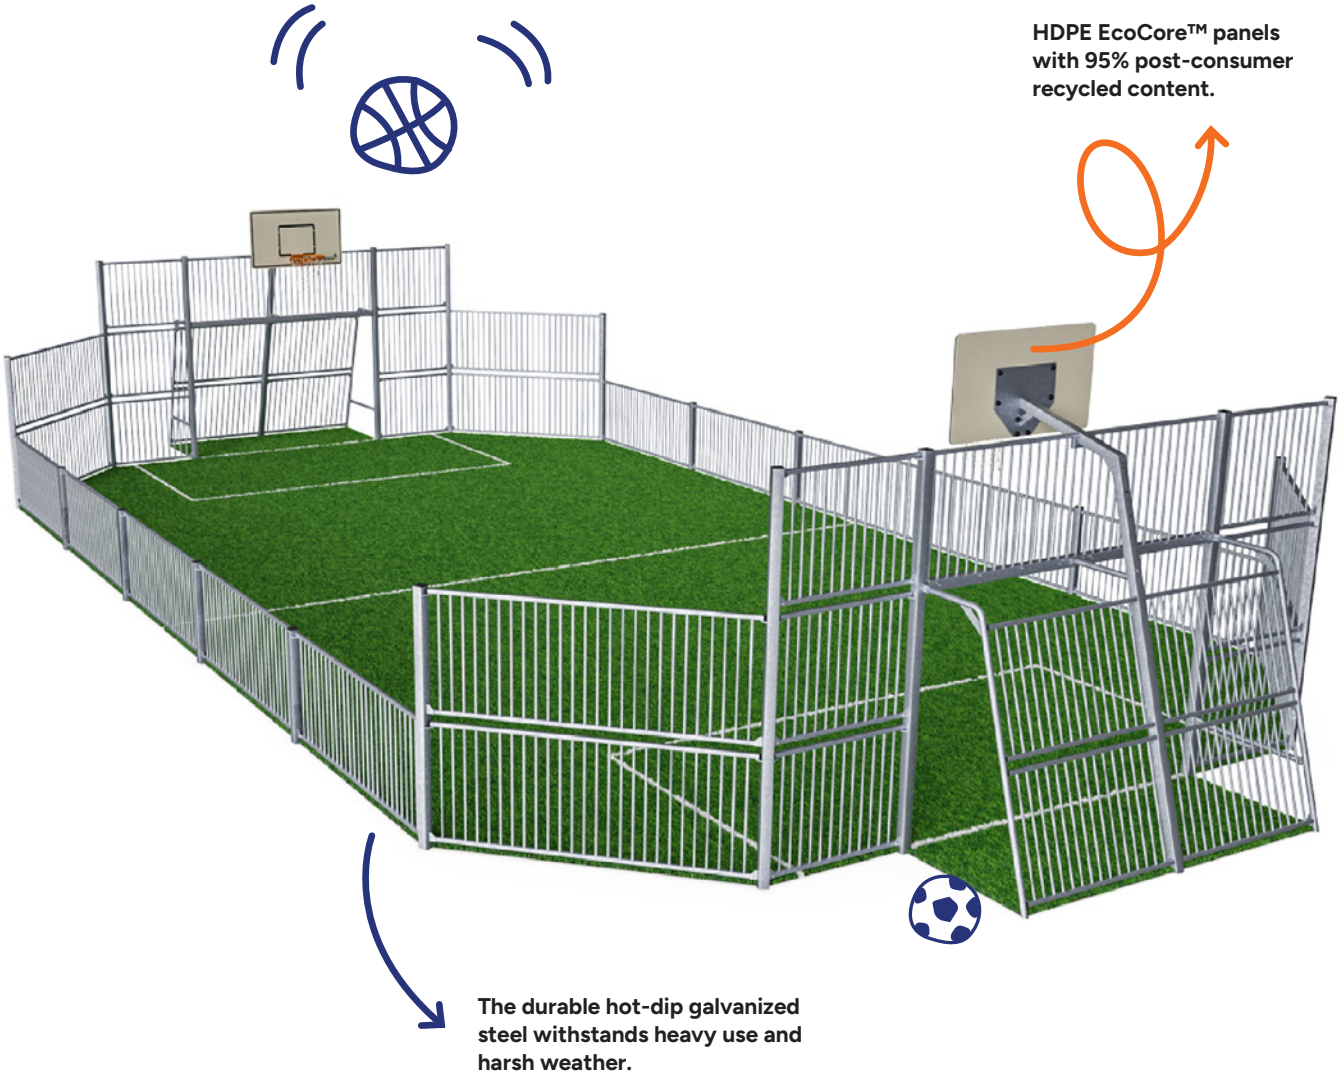
Your Trusted Partner in Professional Multisport Equipment

KOMPAN Multi-Use Gaming Areas (MUSAs) offer versatile, multisport play for parks and recreational spaces, schools, and leisure. Designed for basketball, football, tennis, and more, they meet international performance standards. Each unit is customisable to suit local needs, with options for materials, colors, and inclusive features. The durable steel ensures long-term use with minimal maintenance. Smart design elements—like angled corners and accessible entrances—support fun, safe, and inclusive play for all.

Whether upgrading a community park or planning a new school yard, KOMPAN MUSAs deliver lasting value and encourage active engagement.



Why Choose Multisport

Play Like a Professional
KOMPAN MUSAs support basketball, football, tennis, and more, built to NBA, FIFA Futsal, and IHF standards, so players of all ages can enjoy a high-quality, professional experience close to home.

Customized Solutions That Match Your Needs
Each MUSA is fully customizable, with options for post height, materials, colors and goal types, allowing you to create a space that reflects your community's needs and encourages inclusive participation.

Engineered For You and the Next Generation
KOMPAN MUSAs are crafted from hot-dip galvanized steel for unmatched durability in all conditions. You can customize with HDG Steel, HDPE, or WPC panels, all of which offer excellent weather resistance and long-term performance with minimal maintenance. The HDG steel posts and panels are covered by a lifetime warranty, ensuring long-term durability with minimal maintenance.

Uninterrupted Play Through Intelligent Design
Angled corner panels, flat posts, and accessible entrances are carefully designed to keep the ball in motion and the game flowing. Every element supports continuous play and enhances the overall experience for all players.

Play like a pro!
With official NBA heights, goal dimensions comply with real-life measurements.

Multi-Use Sports Areas

The Ball is in Your Court

The MUSA (Multi-Use Sports Area) provides an optimized arena for a variety of sports and activities. These compact stadiums are an essential social asset in creating a healthy and engaging community.

MUSAs are where rules are not set in stone but most certainly agreed upon. The only common rule is to have lots of fun.

Cosmos Multi-Sport

A Player-Friendly Experience

Cosmos Multi-Sport offers a variety of sporting activities. An NBA-standard height basketball hoop enticingly hovers over the area while goals and nets invite users to participate in friendly soccer games. Here, games of any style encourage social interaction, light-hearted competition, and friendship–all while promoting active and healthy lifestyles.

Similar to the rest of the Multi-Sport range, the Cosmos invites passing children to stop and ask, "Can I join?"

New FitBLOCK

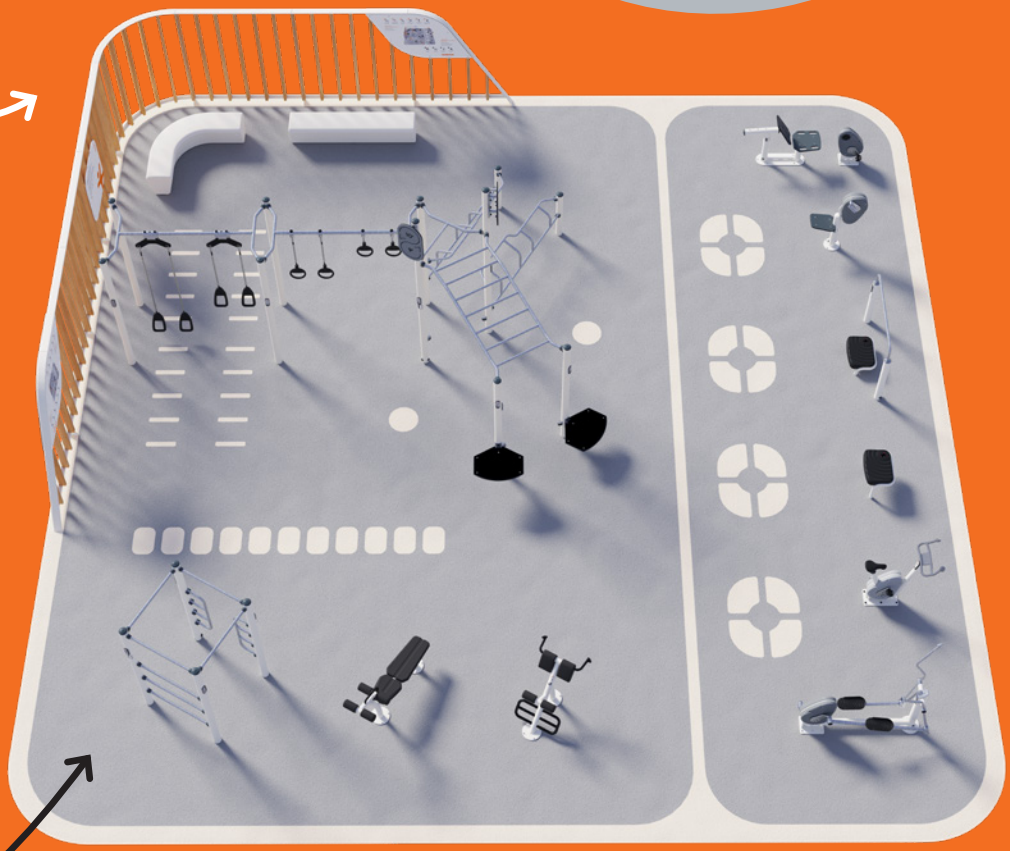
Let's move

A turnkey fitness package that is easy to use and built for real, full-body workouts for all abilities and all fitness levels. The front area features dedicated cardio equipment, including a bike, cross trainer, recumbent bike, and arm bike. Each has adjustable resistance from levels 1 to 10, ensuring accessibility for all fitness levels, from beginners to elite athletes.

The Assisted Step is ideal for beginners and seniors due to its low step and supportive rail, but is also suitable for advanced users who can perform dynamic variations.

All-in-one, plug-and-play outdoor fitness solution with 28 activity spots

The social corner is a designated space for rest and social interaction before and after workouts.



A large strength training area offers exercises for all muscle groups. Stations include abdominal and lower back trainers, step platforms, high and low pull-up bars, and universal parallel bars, which are particularly useful for wheelchair users.

An easy-to-use FitBLOCK Activity Guide is available together with Professional Guidance for FitBLOCK Instructors.

FitBLOCK offers cardio and strength workouts in one spot.

High capacity and training support available. FitBLOCK accommodates up to 40 users at the same time, making it ideal for both individual workouts and group classes.

new

Engineered by experts, safe, and compliant
FitBLOCK has been created in collaboration with fitness specialists, designers, and engineers to deliver lasting performance and safety. It installs easily and quickly and requires little to no maintenance. FitBLOCK also comes with the best warranties in the industry.

Adjustable resistance on cardio equipment allows professional workouts for all fitness levels.

Turnkey Fitness Packages

When we stop moving, it impacts our health, as well as how we feel, focus, and connect. Over time, this can cause lower energy, reduced concentration, and a growing sense of isolation. So, turnkey fitness packages, or, rather, plug-and-play community fitness solutions are an easy way to engage your community. They're simple to use and designed for comprehensive, full-body workouts suitable for all abilities and fitness levels. And best of all, they're right outside your door.

KOMPAN fitness experts are here to guide you through every step of the process, from pre-installation to installation and beyond. We are not just the provider; we are your full-service partner.

new

FSP101 FitBLOCK Package
Whether you are working with a limited space, a specific budget, or just looking to enhance your community space, we have a fitness package that covers your needs.

See more about FitBLOCK

Fitness Package Guide

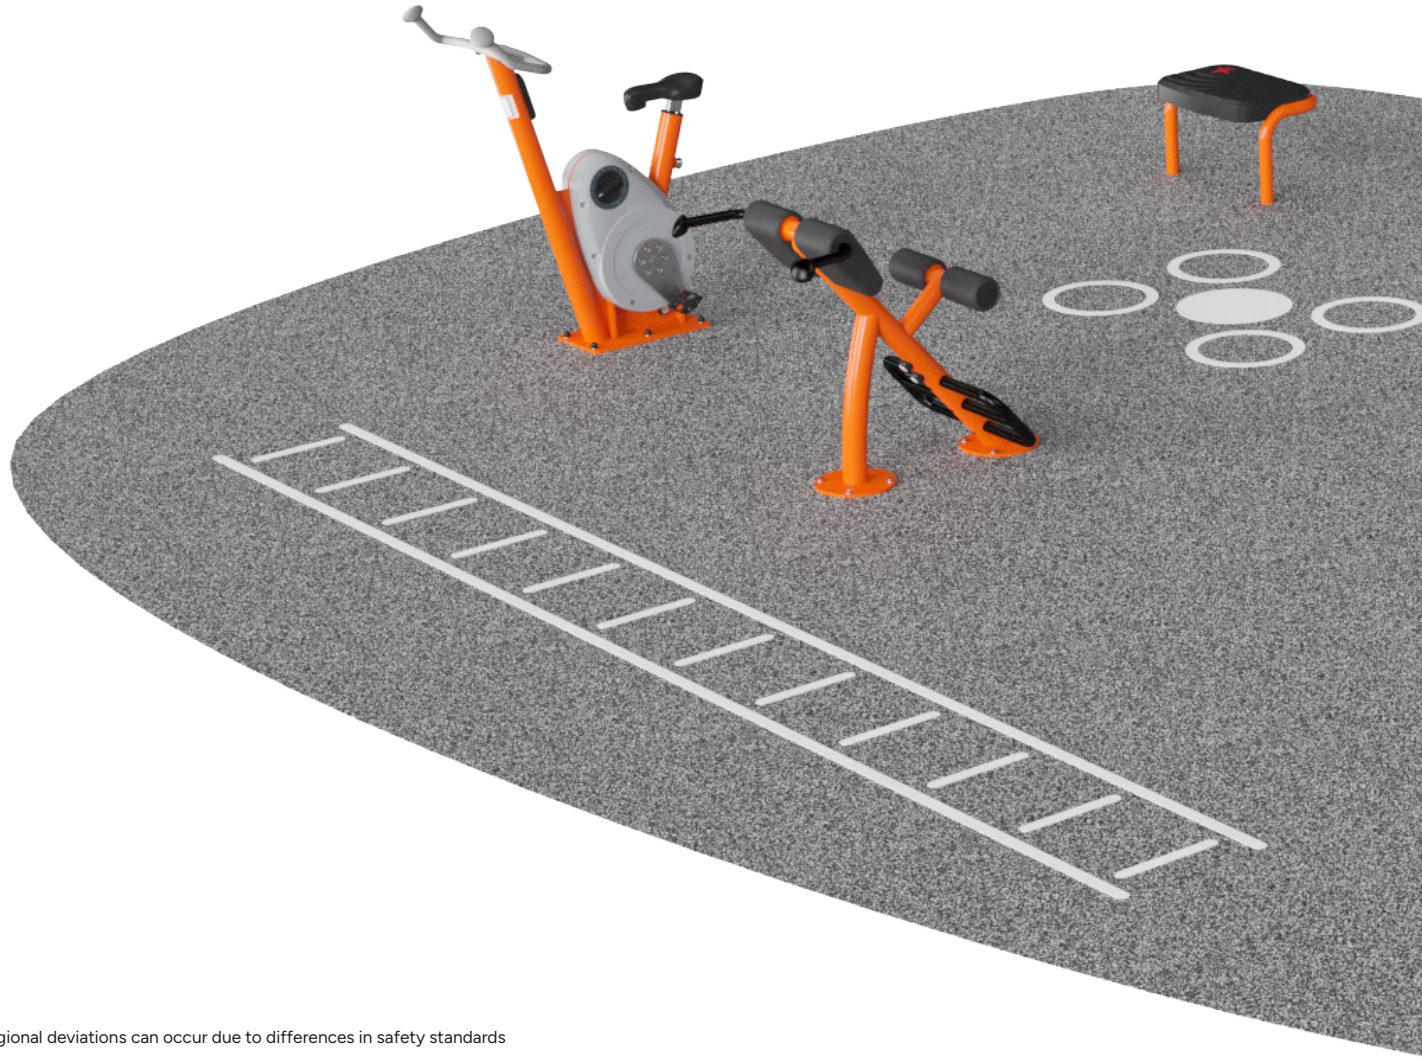
Our Fitness Package Guide is your go-to tool for picking the right solution. In just a few steps, our guide will suggest the best options for you. Become inspired to build your outdoor fitness site.

Try the Fitness Package Guide

Super Gym M

SOL202502

The Super Gym M package combines the very compact Super Combi 1 with a sit-up bench, a lower back bench, a cross trainer, and a bike. Both pieces of cardio come with adjustable resistance. Regardless of skill level, everybody can easily get a comprehensive workout on this site.



Minor regional deviations can occur due to differences in safety standards

Quick Fitness M

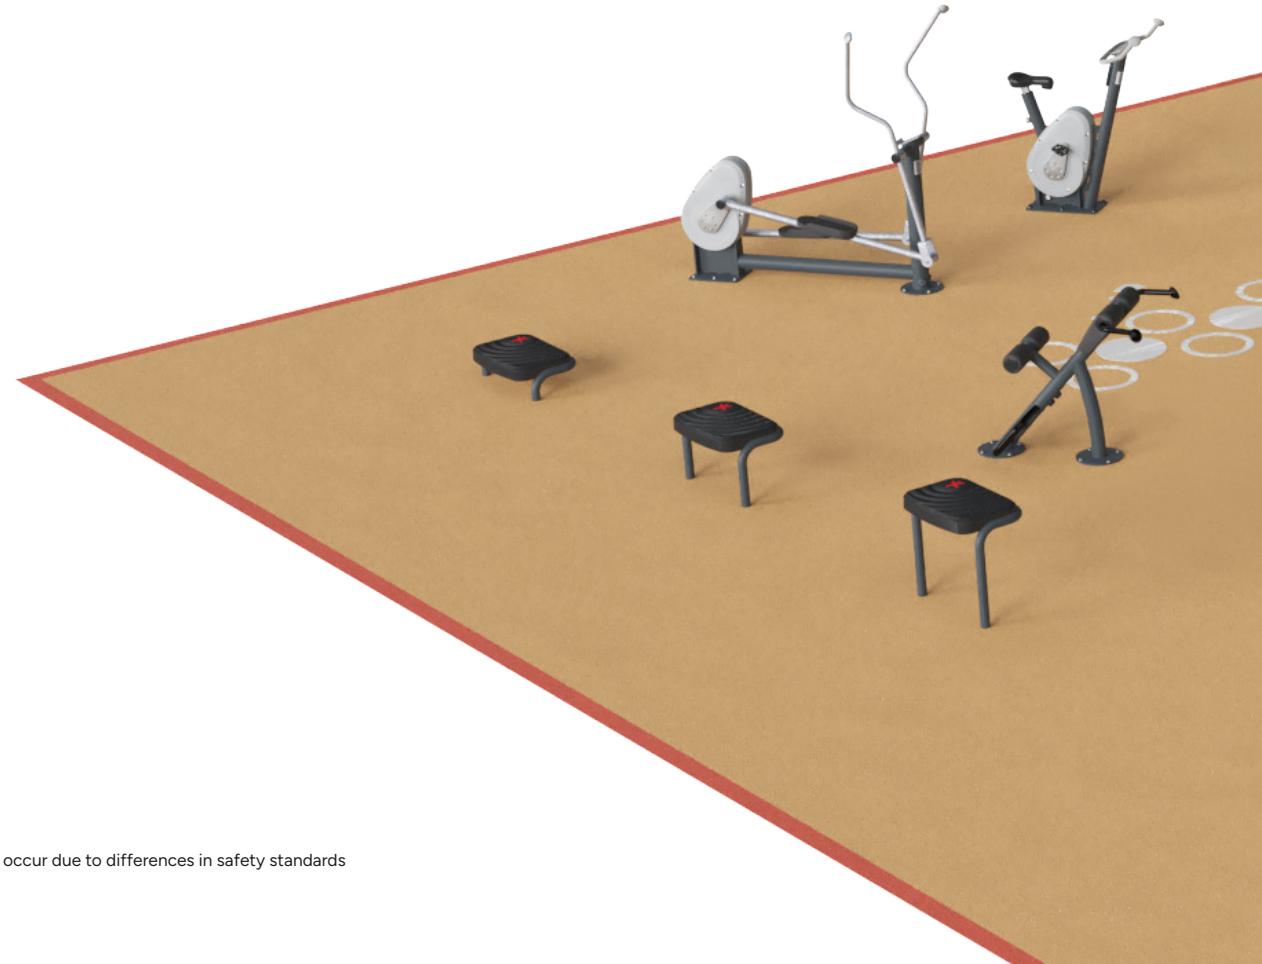
SOL202102

This is a compact fitness site ideal for locations with limited space, such as pockets along running trails, small office complexes, and rest stops. Offering cardio, abs, lower back, strength and stretching opportunities, this comprehensive fitness site easily fits into smaller footprints.

Active Agers S

SOL200102

The package Active Agers S is a compact solution perfect for seniors. Equipped with cardio machines and mobility equipment designed to prevent falls and improve balance and mobility, this site is ideal for senior living communities and health centers.



Minor regional deviations can occur due to differences in safety standards

Community L

SOL200802

The Community L is the perfect place for medium-sized group training. It is filled with different equipment, from street workout to cross training and cardio. It is the optimal space for bodyweight exercises, such as pull-ups, push-ups, and an added focus on lower back exercises and cardio training. The site fits perfectly into housing areas, city spaces, and parks.

Community L Premium

SOL200902

This is a great example of an indoor fitness center recreated outdoors. You have KOMPAN's innovative strength training equipment and cardio equipment combined with various items for functional training. The highly popular suspension trainer and magnetic bells make the site appealing even seen from far away. This compact fitness area only needs the space of half a basketball court and accommodates beginners just as well as advanced athletes.

Minor regional deviations can occur due to differences in safety standards

Circuit 10

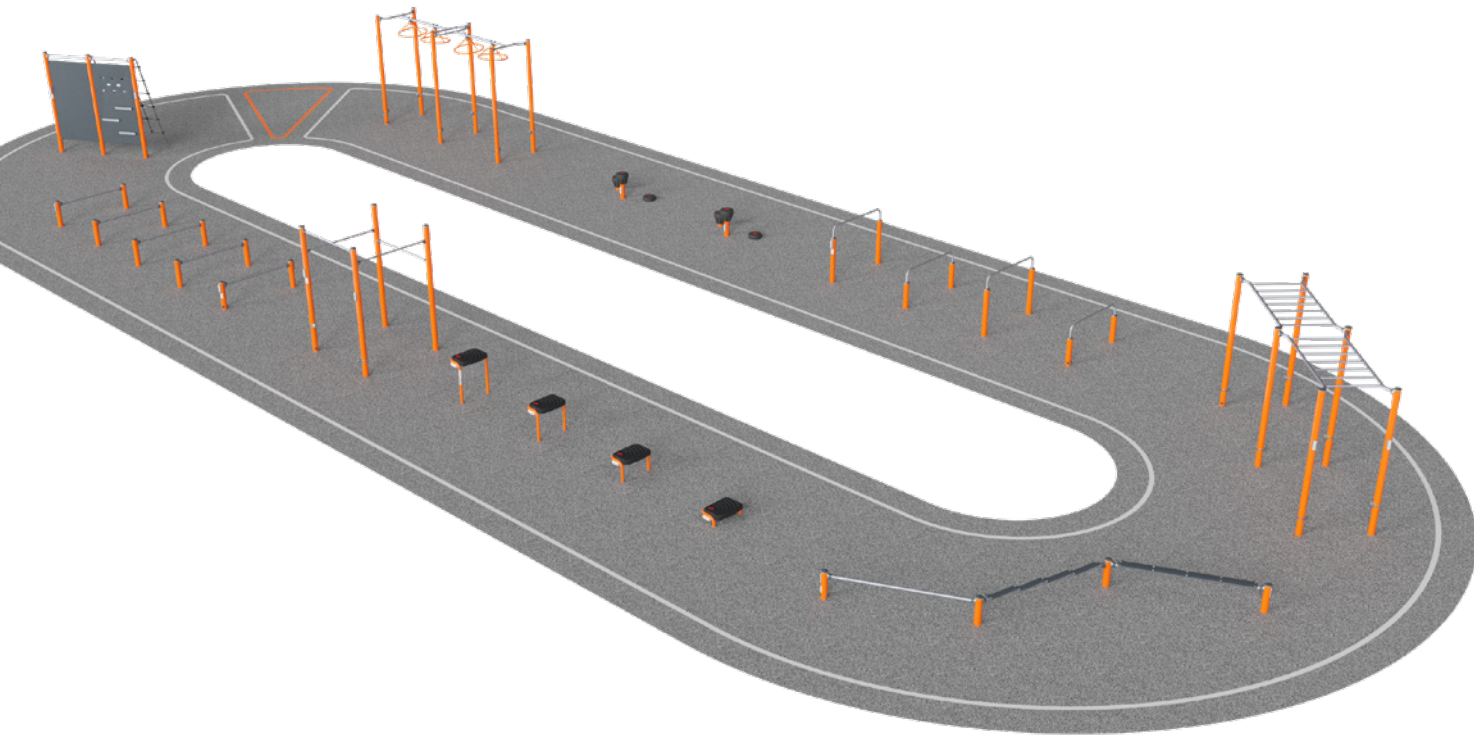
SOL200302

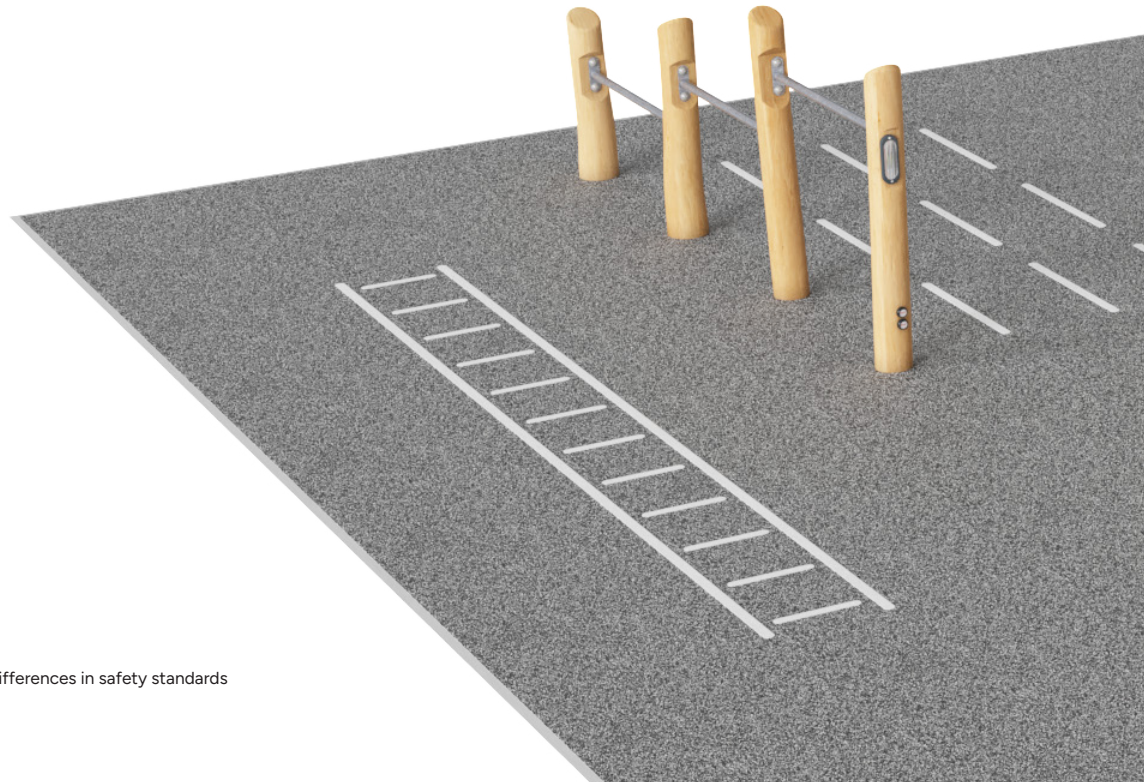
Take your indoor circuit outdoors. Circuit 10 is a compact and efficient circuit training area with cardio and strength equipment. This outdoor circuit includes some of the most popular indoor cardio and strength machines, and the timer makes it perfect for interval training. The site is ideal for communities and parks.

Obstacle Course M

SOL201702

Three rounds and you are done. An obstacle course long enough to make each round a training session in itself. It has nine challenging obstacles that can also be used as exercise stations individually. At this course, you can run, jump, crawl, and climb your way through. This site is perfect for schools, sports clubs, universities, and military bases.





Minor regional deviations can occur due to differences in safety standards

Wood M

SOL202202

More than 70 excercises. With the Wood M, you have many opportunities for bodyweight exercises with an emphasis on easy and challenging alternatives. The low pull-up bars and the push-up bars at differing heights are examples of easy starting points. There is no limit to what you can do on this compact and versatile outdoor fitness site. The obvious characteristic of this site: all items are based on durable, sustainable, and aesthetically pleasing Robinia structures.

Fitness PRO

Professional-grade Fitness, For Everyone

Bring the benefits of gym-quality training to outdoor environments with KOMPAN Fitness PRO equipment. Designed for all fitness levels, it features adjustable equipment with scalable resistance and ergonomic comfort to support safe and inclusive workouts. Exercising outdoors promotes mental well-being, social interaction, and an active lifestyle.

With its sleek aesthetics and durable, weather-resistant materials, the PRO range is ideal for parks, schools, and public spaces, encouraging communities to get active together.

Why Choose Fitness PRO

Train Like Indoors—Outdoors
KOMPAN Fitness PRO delivers the same intensity and precision as top-tier indoor fitness gear, including products with enhanced integrated touchscreens and Bluetooth connectivity on cardio equipment. Combined with patented resistance systems and expert engineering, users can enjoy motivating and accessible workouts for all levels.

Built For Every Step of Your Fitness Journey
Fitness PRO equipment features adjustable resistance systems that support gradual strength development, whether you're just starting or training at a high level. Premium details, such as ergonomic grips and precision engineering, ensure a comfortable and high-performance workout experience for every user.

Weatherproof, Wear-resistant and Award-winning Design
Crafted from durable materials and featuring soft-touch surfaces, Fitness PRO withstands heavy public use in parks, schools, and urban spaces. Its sleek, modern design elevates outdoor environments, earning recognition, including the Good Design Award 2022.

Science-backed Design That Works For You
Fitness PRO equipment has been developed in collaboration with the KOMPAN Fitness Institute, where scientific testing and user studies guide every detail. From movement patterns to resistance systems, each product is built to deliver effective outdoor training based on real-world data.

GOOD DESIGN AWARD® WINNER

PRO Cross Training

Scalable Functional Training in a Striking Design

Our Cross Training range draws attention from afar with its dynamic and modern look. The open-frame structures provide scalable resistance on innovative fitness equipment like suspension trainers, pull-up bars and free weights.

The Cross Training range is not only appreciated by fitness enthusiasts, it's internationally recognized. In 2017, the line received the Good Design Award and the European Product Design Award.

Fitness Essentials

Scalable Outdoor Training For All Levels

Outdoor cardio fitness equipment empowers communities with inclusive and scalable solutions for active living. They are fitness essentials. Designed for durability and accessibility, this range supports full-body training across cardio and strength training. The adjustable, scalable equipment ensures safe progression for all users.

Its compact, modular design allows it to fit seamlessly into parks and public spaces—promoting outdoor activity, social connection, and responsible urban development.

Why Choose Fitness Essentials

Fitness Essentials That Bring the Gym Outdoors
The Essentials line offers cardio, cross-training, street workouts, mobility exercises, and obstacle courses, supporting full-body exercise for all ages and fitness levels. Connect workouts with the KOMPAN Fit app and get free online exercise guides for all ages, fitness levels and experiences.

Full-body Training for All Ages
From cardio and mobility to obstacle courses and street workouts, the Essentials line supports inclusive outdoor fitness for all ages and abilities. With free guided workouts via the KOMPAN Fit app and innovative design features, Fitness Essentials maximize every session and offer great workout value for every budget.

Built To Last in Every Outdoor Environment
Engineered specifically for outdoor use, all cardio units in the Essentials line are made to withstand daily wear and changing weather, supporting long-term use in parks, schools, and urban development projects.

Flexible Fitness That Fits Anywhere
Fitness Essentials equipment offers high user capacity in a compact footprint, making it ideal for parks, schools, and urban spaces with limited space. The modular layout enables exercise stations to be easily configured and adjusted to meet changing needs, providing planners with maximum flexibility without compromising performance.

A smooth built-in level selector easily adjusts intensity to user needs and individual training level.

Cardio

Cardio Equipment for Every Workout

PENDING PATENT PENDING

The meticulously designed Cardio range features a variety of fitness machines. The Cross Trainer and its low-impact, full-body motion appeals to a wide demographic of users. Ergonomically optimized, it offers 10 adjustable resistance levels, making it suitable for both rehabilitation and athletic conditioning.

The Arm Bike is inclusive for all fitness levels, featuring smooth magnetic resistance and adaptable usage. The Recumbent Bike, ideal for seniors, boasts a comfortable design, adjustable backrest and 10 resistance levels.

Lastly, the versatile Bike caters to various intensities, from gentle exercises to vigorous sprints, with an adjustable seat accommodating users of different heights.

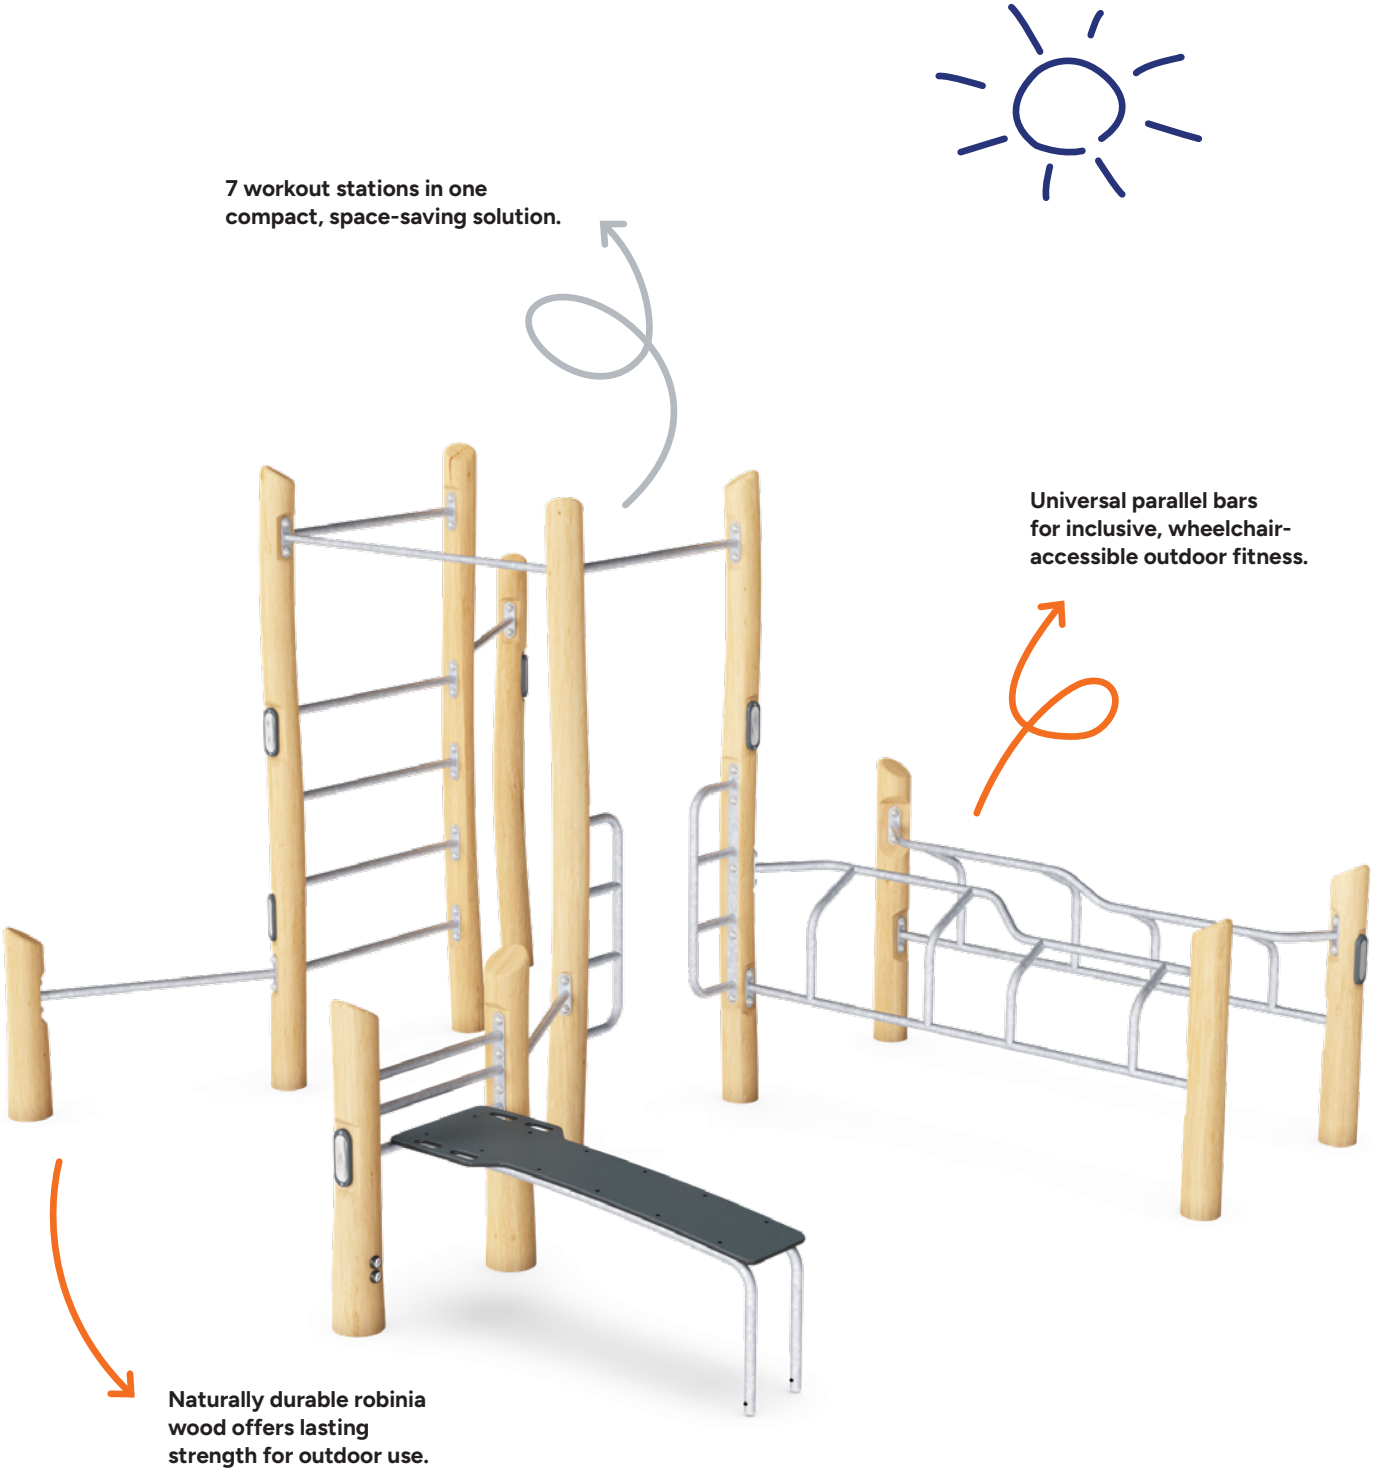
Wooden Fitness

Where Natural Design Powers Real Workouts

The Wooden Fitness product line combines natural aesthetics with high-performance functionality. Made from durable, responsibly sourced robinia wood, the equipment blends seamlessly into green spaces while providing a full-body outdoor workout suitable for all fitness levels.

Designed for longevity and minimal maintenance, it is ideal for parks and recreational areas, and even urban cityscapes.



Why Choose Wooden Fitness

Naturally Strong, Responsibly Sourced
Using nature's ultimate material, such as robinia hardwood from responsible forestry practices where wood is grown for harvesting, results in highly durable fitness equipment. Robinia does not require any chemical wood preservatives. It can be supplied as FSC®-certified upon request (FSC® C004450).

An Architect's Dream Fitness Site
With its organic texture and earthy tones, KOMPAN Robinia wood blends effortlessly into parks and green spaces, enhancing the natural beauty of outdoor environments while maintaining a modern fitness appeal.

Fitness Equipment That Ages Gracefully
KOMPAN Robinia wood develops a natural patina over time, enhancing its visual appeal while maintaining its strength. This ageing process adds character to outdoor fitness areas while maintaining structural integrity.

Let Everyone Train, Anytime
Robinia fitness equipment supports full-body functional training for all levels. Whether you're building strength or improving mobility, users can access free guided workouts via the KOMPAN Fit app for a complete outdoor fitness experience.

Gorgeous natural design that enhances outdoor spaces with organic appeal.

Learn more about Made Green and Born Green

Robinia Street Workout

Street Workout in a Natural Style

Our Street Workout range is also available in Robinia wood. This brings the urban street workout trend into a natural environment—or the natural environment into an urban setting.

Robinia wood is a solid material with very high levels of natural oils. It's also the most suitable material for an outdoor fitness solution, as it provides long-lasting quality with low-maintenance needs.

A responsible choice
Robinia hardwood:
Nature's own material, harvested from European forestry. Robinia wood is known for its natural preservatives that make it long lasting in the outdoors.

Robinia Obstacle Courses

Obstacle Courses in a Natural Style

The Robinia Obstacle Courses are designed to challenge everyone. Smart step-ups and extra grips will make it easy for beginners to get started on the equipment, and due to the size and height of the equipment, even the most advanced athletes will find a way to challenge themselves!

Robinia wood is a durable material, making this a long-lasting, low-maintenance outdoor fitness solution.

A responsible choice
Robinia hardwood:
Nature's own material, harvested from European forestry. Robinia wood is known for its natural preservatives that make it long lasting in the outdoors.

Outdoor Furniture

Outdoor Furniture

Furniture that Welcomes Everyone, Naturally

Park furniture is an indispensable part of public spaces. And no playground or fitness site is complete without somewhere to take a rest, relax and get together. Our range of comfortable park furniture invites citizens of all abilities to come together and enjoy being outdoors.

You can choose between a wide variety in design and materials: Our timeless range is well-known, the Rumba™ collection combines square, curved and round shapes, and the Agora™ is developed with inclusion in mind and lots of variation to cater to your needs and visual aesthetic.

Why Choose Our Outdoor Furniture

Modern & Flexible Design
The Loop and Circus series combine sculptural aesthetics with modular flexibility, offering a contemporary take on outdoor furniture. With circular shapes, stackable elements and customisable layouts, they transform public spaces into vibrant, interactive zones that invite people to stay and socialize.

Inclusive by Nature, Accessible by Design
KOMPAN Outdoor Furniture Agora™ features inclusive design elements that support individuals with limited mobility or difficulty walking, ensuring your outdoor environments offer practical and welcoming furniture solutions for all.

Modular Design With Natural Touch
Rumba™'s modular design, built around circles, curves and squares, allows for tailored layouts that follow the natural flow of any outdoor environment. Whether it's a winding path or an open plaza, Rumba™ creates seating that feels integrated and intentional.

Timeless Design For Everyday Encounters
Anita™ and Chatter™ feature timeless, sculptural designs with compact footprints, making them ideal for small urban spaces. Their classic look and inviting shapes encourage spontaneous conversation and social interaction in parks, courtyards, campuses, and city corners.

From playful Picnic Mini tables for children to modern, accessible designs for adults, our furniture brings people of all ages together.

Agora™

Beautiful, Inclusive, and Versatile

The Agora™ product line offers high flexibility regarding anchoring, color, and material options, inspiring architectural creativity. Agora™ products are also available in vandalism-resistant, low-maintenance, and durable perforated steel versions.

Developed according to the latest inclusive design principles for outdoor furniture without compromising design qualities, Agora™ has won the Red Dot Design Award.

Agora™ Picnic

Inclusive Design as Standard

Agora™ Picnic is a flexible and freestanding furniture set for up to 10 people. The bench and tabletop are made of high-quality ash wood and HPL (high-pressure laminate) or perforated steel. The steel frame is galvanized with an option for powder coating.

Keeping the sides open makes it easy for wheelchair users to approach the table and be comfortably seated. The picnic table is available in two sizes.

Highest-quality Materials

Panels

KOMPAN 19mm EcoCore™ HDPE panels are made from responsible materials that are not only recyclable after use but also made from >95% post-consumer recycled waste.

- UV-protected colored outer layers
- Highly durable in any environment
- Supported by a lifetime warranty

The perfect panel material for playground, sport, and fitness sites.

Decks

All decks are supported by uniquely designed low-carbon aluminum profiles with multiple attachment options. The gray-colored molded decks are made of 75% post-consumer PP material with a non-skid pattern and textured surface.

Tempered Corocord™ Rope With EcoYarn™

Ropes come with galvanized six-stranded steel wires and a steel core, impossible to wear through. Each strand is tightly wrapped with PES yarn made from >95% post-consumer recycled material, which is melted onto each individual strand. This makes the ropes highly wear- and vandalism-resistant.

Posts

Main posts are available in five different materials.

1. Impregnated pine wood with in-ground steel footing
2. Galvanized steel with powder-coated top finish
3. Color-anodized lead-free aluminum made from low-carbon aluminum
4. TexMade™ posts made from 95% post-consumer recycled textile and plastic waste
5. Low-carbon pre-galvanized steel posts made from 80% post-consumer recycled material

Galvanized Steel

Our steel surfaces and steel frames are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and is maintenance free.

Robinia Wood

Robinia wood is a very strong and long-lasting material with very high levels of natural oils. Thus, Robinia wood makes durable playgrounds almost maintenance free and able to last for many years.

Nothing lasts forever. All playgrounds face the trials of weather, use, and abuse, and will eventually succumb to the ravages of time. That day can be postponed for a lifetime by using the finest of materials and the cleverest of designs. Quality costs, but quality also lasts.
A simple equation that in the fullness of time pays dividends.

Warranty

We Have Industry-leading Warranties

LIFETIME* Warranty

- Hot-dip galvanized parts
- Stainless-steel parts
- EcoCore™ and other high-density polyethylene (HDPE) parts

* KOMPAN's LIFETIME warranty is in effect for the lifetime of the product until the product is uninstalled and/or taken out of use. In addition, KOMPAN's general terms and delivery conditions apply and supplement this warranty.

15-Year Warranty

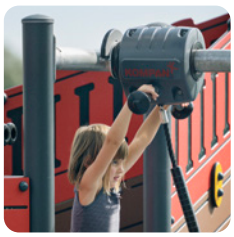
- High pressure laminate (HPL) parts
- Aluminum parts

10 Year Warranty

- TexMade™ posts
- Pre-galvanized posts with painted top layer
- Painted surface on galvanized or aluminum metal parts
- Stainless Steel Slides
- Electrogalvanized metal parts
- Molded PP decks
- Solid plastic parts
- Hollow plastic parts
- Transparent Poly Carbonate (PC) parts
- Rope and net constructions
- Wood-plastic composite (WPC) parts
- Robinia wood parts
- Ash, pine, and other wood types, elevated from ground

5 Year Warranty

- Resin coated plywood parts
- Springs and ball bearing assemblies
- Graphic print on transparent PC panels
- Concrete parts
- Galaxy™ Connection Balls



2 Year Warranty

- Moveable plastic & metal parts
- Rubber membranes
- Screens and electronic parts
- Sunshades & sail solutions
- Nylon nets
- Spare parts
- Ash, pine, and other wood types, in contact with ground materials
- All other parts, not described above

Warranty Coverage

This warranty applies to KOMPAN's products and for the time periods described for each product type above and with the limitations described in this warranty. The warranty period applies from the date of purchase by the first customer. This warranty covers only defects in materials, production errors, and structural integrity failures caused by defects in design, materials, or manufacturing. KOMPAN's liability under this warranty is limited to repair or replacement of defective products, without charge, at KOMPAN's discretion.

Proper Installation and Maintenance

The warranty only applies if KOMPAN's products have been installed according to the instructions provided by KOMPAN and maintained correctly according to the KOMPAN Maintenance Manual. All warranty claims shall be accompanied by full documentation for proper installation and maintenance.

Warranty Exclusions

This warranty does not cover any damage caused by accident, improper care, negligence, normal wear and tear, surface corrosion on metal parts, discolored surfaces, and other cosmetic issues or failures due to misuse or vandalism. Natural changes in wood over time are considered cosmetic issues and not covered.

Corrosion-prone Installations

Products installed in direct contact with chlorinated water or saltwater (e.g., waterparks), close to the shoreline (normally <650 feet), or in other environments with elevated risk of corrosion (including high humidity, condensation, salts, or industrial or urban pollution are not covered by the KOMPAN warranty for defects caused by corrosion. Products specially upgraded to corrosion class C4 (for metal and alloys), when installed under such conditions, are only covered against structural failure due to corrosion or degradation (excluding moving parts), and never for more than 5 years.

Wood Products in High Temperature and Moisture Areas

Products made of ash, pine, or plywood must not be installed in environments subject to high temperatures and excessive moisture exposure, i.e. in tropical zones and furthermore in subtropical zones with high temperatures combined excessive moisture exposure. No warranty applies. In dry tropical savannah areas: 5-year warranty applies.

Third-party Supplied Products and Services

KOMPAN provides non-KOMPAN branded products and installation services performed by certified third party suppliers. This general KOMPAN warranty does not apply to such non-KOMPAN branded products and installation services, which may carry their own warranties. KOMPAN will pass on information about such warranties where possible.

Freight and Warehousing

Global transport and logistics arranged by Kompan appointed forwarder. Products/items are not to be stored outside waiting for installation and must be kept dry at all times.

Functional Safe Surfacing

The Choice of Creative Designers

KOMPAN provides high-quality wetpour surfacing solutions. From a safety perspective, this surfacing gives a brilliant shock absorption.

With multi-colored safe surfacing, designers can be very playful and the children love it!

Different colors, shapes, and graphics can support and highlight an overall design theme and also extend play from the equipment into the surface.

The soft yet firm surfacing is highly inclusive, making it possible for wheelchair users to easily access the playground. From an operational point of view, this type of surfacing provides a clean and comfortable surface with very low maintenance costs.

Rubber graphics
Different rubber graphics in 2D and 3D can emphasize a design theme and increase both play value and learning.

Created for outdoor fitness
Leveraging the surface to apply patterns for outdoor fitness significantly maximizes the training potential by offering more exercise opportunities.

Emphasize the architectural expression of an area with surfacing available in multiple colors and several blends.

Color Options

Multiple Ways of Customizing Outdoor Play And Fitness Solutions

Tempered Corocord™ Rope with EcoYarn™

For rope used in play equipment, we offer eight different rope colors to choose from. The assortment is a wide span of colors ranging from elegant and expressive black or natural and toned-down sand color to a range of attractive and eye-catching signal colors. The ropes are made from >95% post-consumer recycled material.

Colored membranes available up to 150 cm width.

EcoCore™

- Produced from >95% recycled material
- Recyclable after use
- Supported by our lifetime warranty

The 19 mm EcoCore™ panels are made from a highly durable, eco-friendly material that is recyclable after use and produced from >95% post-consumer recycled material such as food packaging waste.

We offer a range of 14 different EcoCore™ HDPE panel colors. The assortment is a wide span of colors ranging from elegant and expressive black or natural and toned-down colors to attractive and eye-catching signal colors.
