ICON GUIDE

TOILET & LAVATORY

1.0 GPF	Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.
INTEGRAVITY SYSTEM™	Exclusive to the Aurora™ toilet, the revolutionary INTEGRAVITY SYSTEM is a new gravity-driven flush engine that precisely balances powerful flushing with enhanced bowl-cleaning performance. Using a dual-tank, dual-valve architecture, it sequences rim wash and siphon jet for controlled, efficient results at just 1.28 GPF.
DYNAMAX TORNADO FLUSH®	Uses 100% of water to clean and rinse the bowl using a smaller amount of water more efficiently with a 2.5" trapway and quieter flush. Available in 1.0/.9 GPF or 1.28/.8 GPF.
TORNADO FLUSH®	A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.
3D TORNADO FLUSH®	Three powerful nozzles create a powerful centrifugal rinsing action and combines it with the conservation of 0.9 or 1.28 GPF.
DUAL-MAX®	A dual flushing system that optimizes conservation by selecting the preferred flush volume.
E-MAX®	High performance, high-efficiency flushing technology using only 1.28 GPF with a 3" wide flush valve, large trapway, and extra-large siphon jet.
G-MAX®	A reliable flushing technology with 3" wide flush valve, large trapway, and extra-large siphon jet.
CEFIONTECT®	Ceramic glaze minimizes waste from sticking to porous ceramic surfaces.
UNIVERSAL HEIGHT	Toilet height that allows for a more comfortable height position across a wide range of users.
SKIRTED DESIGN	The trapway is concealed by smooth porcelain, making the toilet easier to clean.
LINEARCERAM®	Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.
LUMINIST®	An epoxy resin material that combines the translucence of glass with exceptional impact and heat resistance.
WATER SAVING	Water efficient toilets designed with 1.28 gallons per flush or less.

WASHLET®

WASHLET®	An electronic bidet seat featuring adjustable warm water cleansing, heated seat, dryer, deodorizer and much more.
AIR-IN WONDER-WAVE®	Air rich water droplets that produce a more comfortable washing sensation and deliver more thorough cleansing with less water consumption.
WASHLET®+	WASHLET and toilet set with a concealed connection that is specially designed for a seamless installation.
ACTILIGHT®	Special glaze combined with Clean Light work together to easily wash waste away on the toilet bowl.
EWATER+®	After each flush, EWATER+ mists the wand and toilet bowl, reducing the need for harsh cleaning chemicals. ***Select products mist the UNDER SEAT'S front with EWATER+ to prevent waste accumulation and stubborn yellow stains. Available on the NEOREST NX2, NX1, LS, AS, WX2, and WX1.***
PREMIST®	PREMIST wets the surface of the toilet bowl, aiding in the removal of waste and resulting in a better clean.
AUTO FLUSH	No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.
AUTO OPEN / CLOSE LID	Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.
DEODORIZER	Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

HEATED SEAT	The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.
WARM AIR DRYER	Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

SHOWER

SAFETY THERMO®	Shape Memory Alloy (SMA) thermostatic valve that prevents a sudden, unwanted increase in water temperature.
AERO-JET+®	Uses air injection technology to increase water volume with an additional pulsating feature for a more invigorating shower experience.
AERO-JET®	Uses air injection technology to increase water volume by adding air into each water droplet, creating voluminous droplets while using less water.
CASCADE FLOW	Curved waterfall-like water stream that evenly warms the entire body.
GYROSTREAM®	Rotating shower nozzle with pulsating water stream that creates a massaging effect.
MINI UNIT	Unified exterior sizes for concealed shower valves creating a balanced bathroom space.
