40 YEARS

BUSCH® SYSTEMS

Innovative Designs Inspiring Change.

GREAT PEOPLE WORKING TOGETHER *to create* POSITIVE CHANGE IN THE WORLD

WHY **BUSCH?**

Certified B Corporation™
We are proud to be a part of a global movement of people using business as a force for good™

The Most Trusted
#1 rated recycling & waste container brand according to Trustpilot.

With 40+ years'
Experience
we know our stuff and love to share it!

Made in
North America
Promise

We strive to maximize
Recycled Content
in our containers!

We're proud to be a
Living Wage Employer

Tailored By You
Customization is our middle name!

Giving Back
We support local and national charities.

Plasticbank
Busch Systems is directly contributing to five of the 17 United Nations Sustainable Development Goals.

We track our
Carbon Footprint
on every product via CarbonGraph.

In an effort to produce a more sustainable catalog with fewer pages, we have intentionally not included all of our products here. Contact our sales team at 1-800-565-9931 or check out our website to see our full product line!

Printed on 100% Recycled Paper. FSC® Certified.

MISSION STATEMENT

To support everyone who cares about waste diversion with leading edge products and services that maximize the quantity and quality of their recycling program.

A MESSAGE FROM CRAIG BUSCH

Progress has never been accidental. At Busch Systems®, it's something we design for—intentionally, thoughtfully, and with a clear understanding of the impact our choices create. This year, I'm more energized than ever by the role businesses can play in shaping stronger communities, smarter systems, and a more sustainable future.

I've always believed that good design does more than solve problems—it inspires better thinking. Whether we're creating waste diversion solutions, reimagining how products are made, or pushing ourselves to operate more responsibly, our goal is the same: to make it easier for people and organizations to do better. For us, sustainability isn't a claim; it's a commitment backed by transparency, data, and accountability.

That commitment continues to guide our actions. From advancing our Certified B Corporation™ performance, to measuring and sharing the environmental footprint of our products through CarbonGraph, to supporting global plastic recovery initiatives with Plastic Bank, we remain focused on turning intention into measurable results. Just as importantly, we continue to invest in education and dialogue—sharing insights, challenging norms, and helping move our industry forward through initiatives like our Green Thinking Webinar Series and Talkin' Trash.

Sustainability - environmental, social, and economic - requires a long-term view and the courage to lead differently. As innovators and problem-solvers, we're committed to building solutions that reflect that belief.

This year, there's a lot that I'm excited to share but for now, know that it represents another meaningful step forward. One that's driven by purpose, powered by design, and grounded in impact.

On behalf of everyone at Busch Systems, thank you for being part of what we're building together.

Craig Busch

Founder, President & Chief Design Officer

Certified B Corporation

We're committed to doing business for the greater good —that's why we're proud to be a B Corp™.

A Certified B Corporation™ since 2019, we're one of over 9,000 companies across 105 countries and 160 industries redefining success in business. "We're honored to be a part of the B Corp community," says Craig Busch, President & CEO. "It lets us be bold about who we are and what we believe in—and to make greater impact in the world as a recycling & waste management industry leader." B Corporations meet high standards of social and environmental impact, accountability and transparency. We have committed to using business as a force for good, assessing the work that we do and the way that we do it, and continually implementing processes and practices that consider the impact our business has on all stakeholders – employees, customers, society and the environment.

CarbonGraph

Working together to make a difference! We are proud to have partnered with CarbonGraph.

Innovation is at the heart of what we do, and we are proud to have partnered with CarbonGraph, an innovative technology, to determine the carbon footprints of our products. Founded in 2021, CarbonGraph's mission is to provide people, companies and governments the environmental context needed to make informed decisions about the sustainability of the goods and services they buy and sell.

In addition to mapping the carbon footprint of our products, the Busch Systems team has been working hand-in-hand with the CarbonGraph team to develop their software and be an example of the steps other companies can take in measuring their environmental impact through data and technology.

To learn more about CarbonGraph, visit: buschsystems.com/carbon-footprint

plasticbank®

Plastic Bank powers the Social Recycling movement to stop ocean plastic and reduce poverty. Busch Systems is proud to partner with Plastic Bank to support communities collecting plastic from the environment. As of 2026, Busch has helped fund the collection of 6.8 million plastic bottles from the environment.*

**Plastic bottle equivalents are calculated using Plastic Bank's conversion methodology (1kg=50 plastic bottles).*

In partnership with Plastic Bank, Busch Systems is directly contributing to five of the 17 United Nations Sustainable Development Goals.
(SDGs 1, 8, 12, 14, 17)

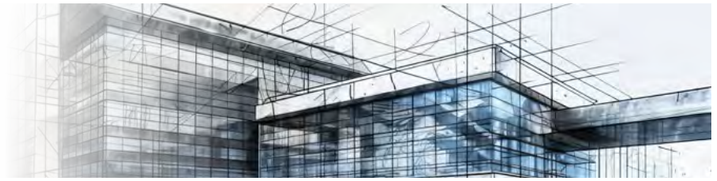
BUSCH
BIM OBJECT LIBRARY

BIM OBJECT This icon indicates that a BIM file is available for this product series.

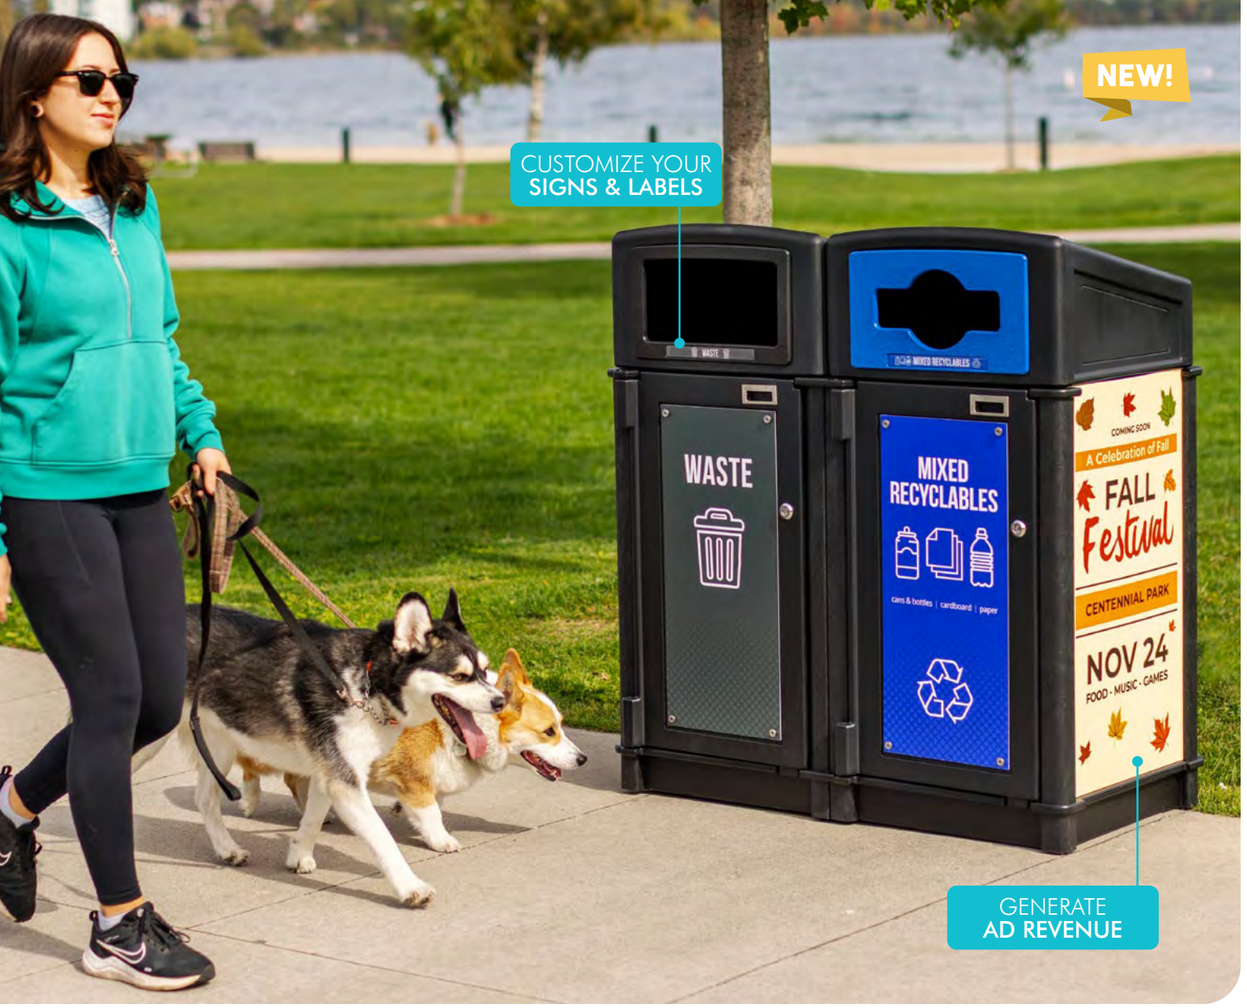


The Busch Systems BIM (Building Information Modeling) object library is crafted to enhance architectural and design projects that emphasize sustainability and effective waste management. Featuring a curated selection of BIM objects, this library showcases our diverse range of recycling and waste containers, thoughtfully designed for seamless integration into your digital models.

As champions of environmentally conscious design, Busch Systems is dedicated to delivering accessible and efficient solutions for sustainable projects. Through partnerships with leading BIM file providers, we ensure our products are readily available to support your design needs.

Tailored for architects, designers, and engineers, our BIM resources simplify workflows and help achieve waste diversion goals, enabling the creation of eco-friendly spaces that prioritize sustainability.

For more details and to access our available BIM files, visit our website and discover how Busch Systems can assist in bringing your sustainable designs to life.



FUSION® SERIES

PLASTIC LUMBER HYBRID BIN

Durability and
Sustainability Fused

100% POST-CONSUMER* RECYCLED CONTENT

Say hello to the Fusion Series—the bin where everything comes together. By fusing sustainable recycled content, varying manufacturing processes, and smart design, the Fusion takes the classic lumber-look container to the next level. Tough enough for outdoors, sleek enough for indoors, and flexible enough for any program, the Fusion is as strong on performance as it is on sustainability. With single and double-stream options plus secure, full-panel signage, the Fusion makes it easy to recycle—and easy to make an impact.

- SUSTAINABLE BY DESIGN
  Made with recycled post-consumer plastics and engineered to use less material, reducing environmental impact without compromising strength.
- BUILT FOR LASTING DURABILITY – Double-wall doors resist warping, while mono-level construction and secure lids ensure long-term performance.
- INTEGRATED SIGNAGE MADE SIMPLE – Reinforced panels support secure, easy-to-change signage for stream labeling, branding, or revenue opportunities.
- DESIGNED FOR REAL-WORLD USE – Raised doors clear debris, smooth edges enhance safety, and a lightweight build makes servicing easy.

Various components made from 100% Post-Consumer Recycled material. Visit our website and see data sheet for further details.

MOSAIC™ SERIES

Create and Communicate your Perfect Program

BIM OBJECT

- **MODULAR ADAPTABLE CONSTRUCTION** - Expand your station with our innovative connector system and choose from a wide range of stocked color and lid opening options — including the shorted, kid-friendly accessible Mosaic Junior.
- **BOLD COMMUNICATION** - The customizable body panel signs are highly visible and help boost diversion and participation. Mosaic Junior adds playful, age-appropriate graphics to engage young users.
- **STYLISH DESIGN** - Thoughtful materials and bold signage make The Mosaic a stylish and smart choice for your space — now with a kid-friendly option.

STOCK BODY SIGN PANELS

Standard

Junior

*Signs are stocked in both Narrow and Wide versions.

The Mosaic is a versatile, modular recycling and waste container system designed for durability and flexibility. It features customizable signage, secure bag retention clips, and an optional lockable caster kit for easy, safe relocation. Expand your capacity by adding more units with the interlocking connector system, and choose from a variety of lid openings and colors to support effective waste diversion. Perfect for public spaces and workplaces, the Mosaic makes collection effortless, efficient, and stylish. Maximize your messaging with our new elevated back sign frame. Placed higher on your Mosaic™ containers, it enhances visibility to help users sort correctly and reduce stream contamination.

Mosaic Junior — a shortened version of the Mosaic designed for kid-friendly spaces. With the same smart features as the original, the Mosaic Junior includes accessible access and engaging, kid-focused signage to support early waste diversion habits.

RISE™

Raising the bar.

BIM OBJECT

The innovation never stops! Busch Systems' first-ever wall-mounted container puts recycling and waste right where you need it. Built through research, design, and customer feedback, the RISE Series saves space, keeps floors clean, and minimizes disruptions in tight areas. Now with color-coded lids and restrictive openings, choose Black with a full opening, Blue with a mixed opening, or Green with a solid lift lid for easy, accurate sorting.

Unique Ideas for Customizing Your Busch Systems Recycling & Waste Containers

Busch Customizations
THINK OUTSIDE THE BIN!

Busch Systems recycling and waste containers offer a unique opportunity for complete customization. Whether you're looking to convey a specific message, reinforce your brand identity, or simply add a touch of creativity, we provide a versatile canvas for your vision.

From simple cut vinyl lettering, you can craft a clean and concise message, ensuring your recycling and waste bins communicate effectively, allowing essential information or branding to be displayed prominently.

For a more impactful branding experience, a full or partial wrap is the way to go. Busch Systems allows you to transform your containers into vibrant, attention-grabbing showcases of your brand. This not only serves a functional purpose, but also turns your recycling and waste bins into an integral part of your overall aesthetic and marketing strategy.

Thank You

By choosing Busch Systems® you have already made the decision to be more sustainable. Thank you for being as passionate about the environment as we are. We appreciate your business and are thankful for 40 years of environmental collaboration!
