

# STANBRIDGE UTENSILS

We've completely transformed our range of reusable bedpans for care homes and hospitals. Made from ABS plastic and created with patient comfort and dignity in mind, their design allows for effortless cleaning, effective decontamination, preventing the spread of infections and protecting patients, residents and caregivers.

## SLIPPER PAN WITH LID

Our reusable slipper pans with lids have a pocket-free design to prevent soil from being trapped, allowing for effortless cleaning and effective decontamination.

## SLIPPER PAN

Our reusable slipper pans have a pocket-free design to prevent soil from being trapped, allowing for effortless cleaning and effective decontamination.

## IN-BEDPAN

The in-bed pan gives confidence, stability and a secure feeling for sitting patients. The buttress edge gives extra support on the mattress, especially backwards. A raised edge helps with location and comfort.

## COMMODOE INSERT PAN

The reusable commode insert pan is designed to improve the functionality of commode chairs, making it easier and more efficient for both users & caregivers, whilst aiding sample gathering.
