

## Stainless Steel Hand Wash Basin with Splashback (Example Only)

### COMPANY INFORMATION

**Company Name:** Stanbridge Limited

**Website:** <https://www.stanbridge.co.uk>

**Address:** Unit 78, Powder Mill Lane, Questor, Dartford, Kent DA1 1JA, UK

**Tel:** 01689 806 500

**Email:** [Sales@stanbridge.co.uk](mailto:Sales@stanbridge.co.uk)

**Industry:** Stainless steel fabrication for healthcare, laboratory, and hygiene-critical environments

### PRODUCT CATEGORY

**Product Type:** Stainless Steel Hand Wash Basin with Splashback

#### Typical Application Areas:

- Hospitals and healthcare facilities
- Laboratories
- Clinical sluice and hygiene-critical rooms
- Other environments where high hygiene performance is required

### PRODUCT OVERVIEW

This document references a **representative example** of a stainless steel hand wash basin with splashback as shown on the Stanbridge Limited website. It is intended **for illustration and specification reference only**. Each project's requirements (including dimensions, features, fittings, and performance) will vary depending on site conditions, clinical specifications, and installation constraints.

There is **no single standard model**. The example shown is one possible configuration and should be reviewed and confirmed for each individual project.

### EXAMPLE MODEL – KEY DIMENSIONS

The following dimensions **describe the example hand wash basin as presented on the Stanbridge website:**

Feature	Dimension
---------	-----------

Overall Width	Approx. 460 mm
---------------	----------------

Overall Depth	Approx. 370 mm
---------------	----------------

These measures are indicative based on a typical product configuration and may differ depending on bespoke design choices or options selected.

### MATERIALS & CONSTRUCTION

- **Material:** Stainless steel (typically grade 304)
- **Finish:** Satin / brushed finish
- **Construction:** Heavy duty, robust fabrication with hygiene-friendly surfaces and finishes designed for easy cleaning and maintenance.
- No exposed bolts, brackets, or components at the front face.
- Splashback integrated to protect surrounding surfaces in hygiene-critical zones.

## TYPICAL OPTIONS & ACCESSORIES

Depending on project requirements, the following may be specified:

- Elbow-operated taps
- Medical / clinical-grade taps
- Sensor-activated or foot-operated controls
- Integrated soap or sanitiser dispensers
- Different splashback heights or profiles
- Waste fittings and traps suited to the installation
- Custom sizes and arrangements

*Not all options are shown in the example model. Final specification is subject to design review and approval.*

## INSTALLATION & DESIGN CONSIDERATIONS

- Wall-mounting or alternative support methods should be verified with site conditions.
- Confirm all service (water, drainage) coordination before manufacture.
- Confirm fixing detail and substrate conditions prior to installation.
- Ensure clinical and hygiene specifications are adhered to in final design and selection.

## COMPLIANCE & STANDARDS

Product and installation should align with applicable standards and guidance relevant to the venue type (healthcare, laboratory, etc.). Where specific codes, infection control guidance, or regulatory requirements exist, these must be explicitly referenced in the project specification.

## DISCLAIMER

- The example dimensions and model shown represent **one possible configuration** only.
- This sheet **does not imply a fixed or definitive product** for all applications.
- All dimensions, configurations, and options shall be tailored to project-specific requirements.
- Stanbridge Limited reserves the right to modify designs without notice.

## FURTHER INFORMATION

For bespoke drawings, certified technical specifications, installation guidance, or project-specific quotations, please contact **Stanbridge Limited** via their website or sales contact details above.
