Safety with style

Ultra Aluminum™ Industrial fencing's sturdy 1-5/8" reinforced rails and 1" pickets combine for durable and heavy-duty protection. The Commercial series of fences has 1-1/4" x 1-3/8" reinforced rails and 3/4" pickets. The sleek picket profiles and privacy boards are not only handsome, but make the fence difficult to climb, deterring trespassers. Our high strength, aluminum alloy will never rust and our advanced powder coat finish meets AAMA 2604 specifications, ensures long-lasting beauty and is environmentally friendly. And, our wide selection of fence styles and decorative accents offer attractive design options that result in great curb appeal.

Top: UAF 200 with spears protects this football field from any unnecessary roughness to the turf or its facilities. **Center:** UAF 200 commercial fence features the traditional look of wrought-iron to complement the classic architecture of the church in the background. **Bottom:** Formidable yet handsome, our industrial UAF 200 performs its duties with poise and assurance.

Ultra Aluminum™ Fencing @Work

Commercial and industrial fencing from Ultra Aluminum™ is ideal for perimeter control, to surround and protect government buildings, airports, power plants or generators, institutions, and the like. Property must be safeguarded, expensive equipment must be protected from vandalism, and security must not be compromised. Ultra Commercial and Industrial Fencing™ performs its job exceptionally, dependably, and with minimal maintenance: that's Ultra Aluminum™ Fencing @Work.

Ultra's high strength, aluminum alloy is as strong as steel, but will never rust. Our 6005-T5 alloy has a minimum strength of 35,000 psi.

We put more dimension into our version of spear tops. The more pronounced ribs add structural integrity as well as architectural appeal and shows more detail than most competitors.

All gates are fastened with stainless-steel fasteners and 100% welded at all connections and joints designed to stand up to the rigors of everyday use.

Our advanced powder coat finish is twice the thickness and hardness of a typical baked enamel finish. Meets standards for the ultimate in durability and UV protection. The powder-coated finishes available for Ultra Fencing, Gates and Accessories are all applied with a special powder coat finish to resist harsh weather and the sun.

This UAD 100 Defender industrial fence combined with a cantilever gate provides a strong deterrent and offers visual appeal.

the best kind of defense

Industrial fencing from Ultra Aluminum™ provides a barrier whose intimidating looks alone will discourage attempts to penetrate it; and the strength and durability to keep would-be trespassers and vandals at bay.

All our styles are made with Ultra's high strength, aluminum alloy with a minimum strength of 35,000 psi, and guaranteed against defects in workmanship and/or materials. The advanced powder coat finish on all fencing and gates by Ultra Aluminum™ is guaranteed against cracking, peeling or chipping.

Looking for the strong, silent type?

Ultrack™ Cantilever and V-track gates offer state-of-the-art efficiency for optimum protection.

Every fence needs a gate, and industrial and commercial fencing is no exception. Ultra's line of Cantilever and V-Track Gate systems are engineered for strength, security and architectural appeal.

These tough gates are designed with sliding mechanisms that can be easily opened and closed with one hand, and adaptable for use with automatic gate openers and security systems.

Examples of facilities that benefit from having an Ultra fence paired with an Ultrack™ Cantilever or V-Track Gate: factories, manufacturing facilities, chemical plants, government offices, military installations, financial institutions, athletic or entertainment venues, and travel hubs such as airports, train and bus stations.

From Top to Bottom: UAF 200 Cantilever gate with slide opener protects the manufacture's property; UAF 200 Estate Gate with slide opener protects the homeowners' property and possession shown from the inside; UAS 100 Cantilevered Estate Gate looks stately and elegant.

ULTRACK™

Cantilever Gate System from Ultra

We can incorporate custom corporate logos to exact color and design specification.

Our industrial cantilever gates are engineered for both security and architectural appeal for openings from 6' to 50' wide. As tough as these gates are, the sliding mechanisms are designed so even our largest gate can be easily opened and closed with one hand. But, they are easily adapted for use with our line of automatic gate openers and existing security systems.

All these industrial cantilever gates are made of Industrial grade components in Ultra's manufacturing facility, and come with a 5-year limited warranty. Cantilever Gates conform to ASTM specification F-1184, and all gate hardware meets or exceeds ASTM specifications F-626 and A-153. All gates are equipped with a Safety Seal which protects the filler material.

Cantilever Gates are available for openings 6' to 50' W and 4', 5', 6', 7', and 8' H; custom sizes are available, as well as exact reproduction of custom artwork and logos. Hardware is included.

The Ultra Advantage

The biggest advantage to an Ultra Aluminum™ product is its maintenance-free characteristics. Unlike steel or wrought iron, our products won't rust, and our powder coat finish meets AAMA 2604 specifications. And strength is never compromised with an Ultra product. Ultra's high strength, aluminum alloy is as strong as steel, but will never rust. Our 6005-T5 alloy has a minimum strength of 35,000 psi and has been tested to withstand hurricane wind gusts up to 259 mph.

Ultra Aluminum™ Privacy Fence System shown here with 8" Ultra Column Wraps in Textured Bronze.

Strong. Beautiful & low maintenance.

All-aluminum, solid panel privacy fence with a Lifetime Limited Warranty.

Ultra Aluminum™ Privacy Fence features strength and durability that you just can't get from typical vinyl or wood fence systems. It's the ideal privacy panel for a commercial or industrial application, as patio or balcony screening, to contain or shield air conditioning equipment, dumpsters, pipes, and electrical systems.

Ultra Aluminum™ Privacy Fence won't rack and wobble. It is designed to last for years and years without the worry of ongoing maintenance. Ultra™ Privacy panels have been tested to meet or exceed the worldwide standard of ASTM E330 Uniform Wind load testing standards as well as ASCE 7-10 Wind Loading Analysis for freestanding fence. *6'x6' section with applied wind gust for 3 seconds, when properly installed.

Ultra Aluminum™ Privacy Fence is an all-aluminum heavy-duty, low-maintenance privacy and security fence.

Ultra™ Vinyl Privacy Fence combines the strength of extruded aluminum rails and posts engineered to accept tongue and groove vinyl panel inserts. *(T&G vinyl inserts are not included.)*

@WORK

Gloss or Textured Finishes

Our advanced powder coat finish allows us to produce a high-quality, long-lasting finish on our aluminum, which is also environmentally friendly. Ultra's powder coated finish is AAMA 2604 specifications, allowing us to produce a high-quality, long-lasting finish.

Materials

Ultra's high strength, aluminum alloy is as strong as steel, but will never rust. Our 6005-T5 alloy has a minimum strength of 35,000 psi.

Ultra Aluminum™ Warranty

Ultra Aluminum™ fence products are guaranteed against defects in workmanship and/or materials. The powder coat finish on all fencing by Ultra Aluminum™ is guaranteed against cracking, peeling or chipping. Visit our website for more information and a copy of the warranty.

Environmentally Responsible

We are proud to use recycled aluminum in our products. Aluminum is the most commonly recycled metal in the world. Our powder coating process is environmentally friendly and virtually pollution-free.
