
Case Study: Restoring Historic Grandeur in Green Lake, WI

Originally built as a historic courtroom, this landmark space in Green Lake, WI had lost much of its architectural charm over the years. The ceilings were concealed beneath a drop ceiling, and the room had been divided with walls that disrupted the original design.

In 2021, as part of a major renovation, the owners sought to bring the space back to life — restoring its original elegance while making it suitable for modern use as a **wedding and special events venue**.

Challenge:

- The original **vintage metal ceiling** had been damaged with large holes and cuts.
- Decorative cornices and details were missing or compromised.
- A new solution needed to **replicate the historic design** while seamlessly repairing and blending with the original architecture.

Decorative Ceiling Tiles Solution:

Working closely with **Decorative Ceiling Tiles**, the project team:

- **Replicated the vintage metal tiles and cornices**, ensuring exact matches with the original patterns.
- Restored the **damaged areas** by integrating new tiles with the historic ceiling.
- Maintained the building's architectural authenticity while creating a durable, beautiful ceiling system for the future.

Results:

The space has been fully restored to its **original grandeur** and now serves as a premier event venue. Key highlights include:

- **Soaring vintage metal ceilings** with perfectly blended restoration work.
- **Crystal chandeliers** adding elegance and illumination.
- **Original hardwood floors** and **arched windows** overlooking the Mill Pond, enhancing the historic character.
- **A large double-door entry** welcoming guests into a space designed for memorable occasions.

The restored courtroom is now a showpiece in Green Lake, hosting weddings and special events that celebrate both history and modern elegance.

Client Feedback

“We worked with Decorative Ceiling Tiles to replicate the metal tiles and cornices so that we could repair large holes and cuts in the original ceiling. The space has been fully restored to its original grandeur and is now used to host weddings and special events.”
