

## Case Study: Swingers - The Crazy Golf Club, Las Vegas & Boston

Swingers, “The Crazy Golf Club,” is a British-born brand bringing an immersive version of mini golf to the U.S. with a bold 1920s English country club theme.

The venues combine DJ entertainment, craft cocktails, gourmet street food, and quirky golf courses into a one-of-a-kind experience.

When Swingers expanded into the U.S., they chose Decorative Ceiling Tiles’ tin ceiling panels to set the stage for a glamorous, energetic atmosphere at both their Las Vegas (Mandalay Bay) and Boston (Back Bay, opening 2025) locations.

## Design Intent

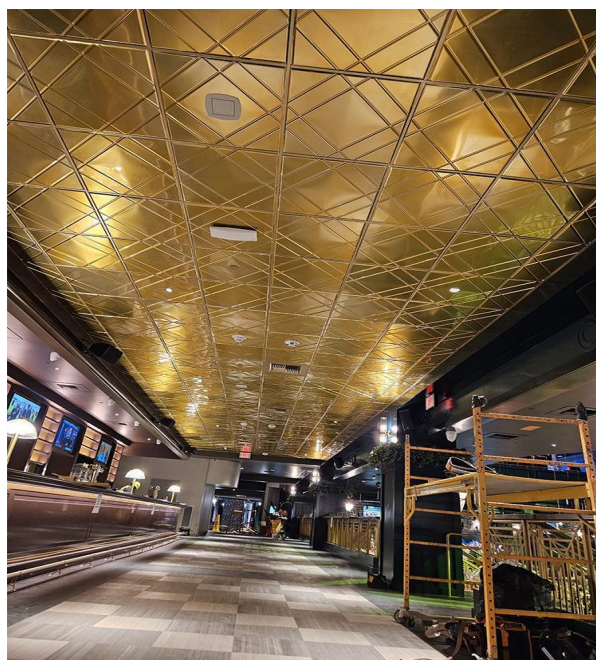

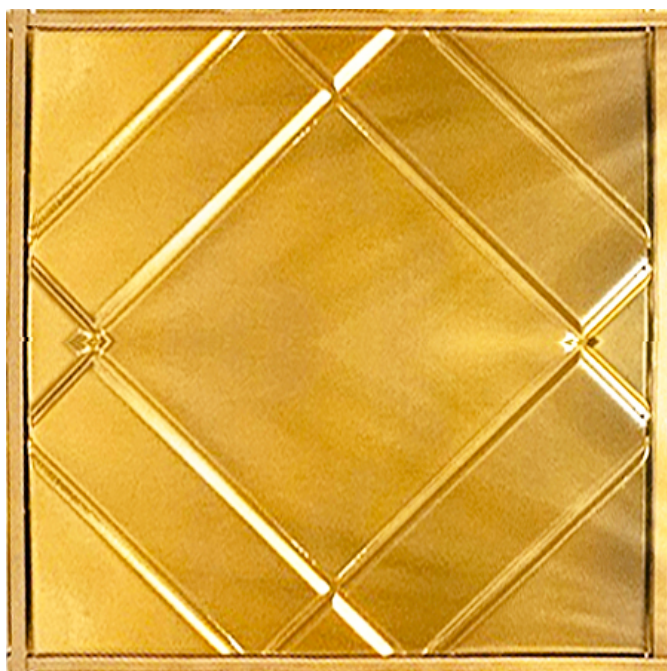

The design vision, led by Moser Architecture (Katie Holmen, Designer), was to create a vintage-meets-modern environment with rich metallic finishes, dramatic lighting, and elevated details.

For the Las Vegas project, the design team specified our Shanko 517 “Gold Nugget” tin ceiling tiles, chosen for their warm golden sheen and geometric texture, which perfectly reflected swingers’ playful yet upscale brand identity.

## Visual Impact

The Gold Nugget finish creates a glowing ceiling canopy that elevates the venue's atmosphere:

- **Luxurious Ambience:**

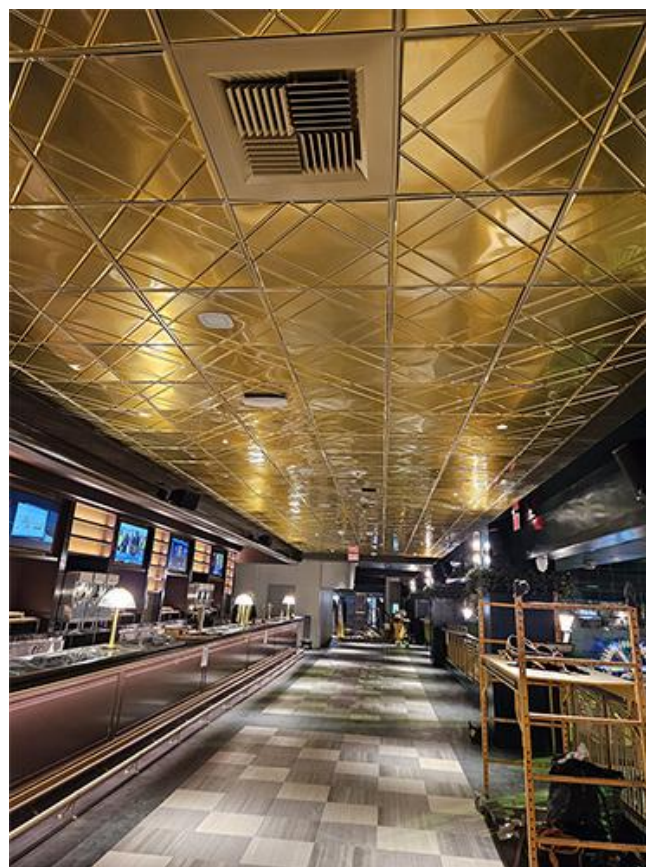

The golden tones enhance lighting effects, providing both warmth and glamour.

- **Geometric Detailing:**

The linear design adds depth, complementing Swingers' bold, theatrical interiors.

- **Durability:**

The tin-plated steel construction ensures long-lasting performance in a high-traffic hospitality environment.

## Why It Matters

This project underscores how architects and designers rely on Decorative Ceiling Tiles to deliver statement-making finishes that balance durability, historical character, and modern flair.

By being specified in Swingers, a high-profile international hospitality brand, our 517 Gold Nugget ceiling tiles showcase their versatility and ability to transform entertainment venues into unforgettable experiences.
