

Nixalite® Premium Bird Exclusion Spikes

Nixalite's All Stainless Steel, All American Made Bird Exclusion Spikes protect all types of surfaces from all bird species in all levels of bird infestation. First made in 1950, Premium Nixalite is the original bird spike, everything else is just a copy.

Longest Lasting

100% stainless steel wire and strip construction outlasts and outperforms plastic and lesser grade steels. All Premium Nixalite Models come with a 20 year warranty.

Superior Control

With 120 points/foot and 180° wire patterns, Premium Nixalite has the best gap free surface coverage of any bird spike. All spring tempered wires are attached to a flexible base strip.

Proven Effective

Since 1950, Premium Nixalite Spikes have proven to be the only bird spike capable of reliable, long lasting control of all bird species, on all surfaces, in all levels of infestation.

Why You Should Use Premium Nixalite®

Premium Nixalite Spikes combine all stainless steel construction, proven wire designs, a flexible base strip and the ability to adapt to all surface shapes or materials. **No other bird spike can successfully adapt to so many different applications.** Here are a few more reasons to use the best bird spikes ever made:

IT WORKS! Premium Nixalite Spikes are proven effective against all bird species, on all surfaces, in all infestation levels.

LASTING QUALITY Premium Nixalite All Stainless Steel, All American Spikes outlast and outperform all others. All Premium models have a 20 Year warranty.

PAYS FOR ITSELF Premium Nixalite reduces exterior maintenance and repairs caused by bird and animal infestation.

INCONSPICUOUS Nixalite's thin wires are virtually invisible from normal viewing distances. A ColorCoat option can help the spikes blend in with surrounding surfaces.

HUMANE Premium Nixalite Spikes are simple physical barriers that occupy the space, denying pest birds access.

ENVIRONMENTAL Does not use plastic, chemical pastes or electricity to work. It is 100% recyclable stainless steel.

EASY TO INSTALL Premium Nixalite Spikes come ready to install with installation hardware and complete instructions. No assembly or special tools are required for installation.

SERVICE The best customer service and product support available. From quotes to custom drawings, Nixalite makes this valuable service available to everyone at no charge.

Premium Nixalite® Spikes Have No Equal

Premium Nixalite Spikes are **superior** to all other bird spikes **in every way that matters**. No other bird spike can match our quality, versatility or proven control under so many different conditions. Do a side-by-side comparison and see for yourself why Premium Nixalite is the best bird spike in the World.

- Use to protect narrow surfaces 2" in depth or less.
- Use with **Premium Nixalite S** on wider surfaces for proper protection.

Details

- 2" wide, 4" high
- 60 points / foot
- 90° wire coverage
- Hardware included
- For narrow ledges
- Inconspicuous

Applications

- Single exposed surfaces less than 2" in depth
- Use with **Model S** on surfaces too deep for 1 full row, but not deep enough for 2 full rows

Premium Nixalite® Model W Wall Mount

Model Uses

- Wall mount for vertical surfaces.
- Use above narrow surfaces 2" in depth or less.
- Use with **Premium Nixalite S** to control climbing animals and mud nest building birds.

Details

- 3" wide, 5-1/2" high
- 120 points / foot
- 180° wire coverage
- Hardware included
- Vertical surfaces
- Climbing barrier

Applications

- Vertical installation only, not for use on horizontal (down flat) surfaces
- Use with **Model S** as a climbing barrier on poles, columns, walls, etc

Premium Nixalite® Bird Spike Options

ColorCoat™ - Durable Electrostatic Color Powder Coating

Available in 6 standard and many custom colors on 4 foot lengths of the Premium Nixalite, E-Spike and Pigeon Spike Stainless bird spike models.

ColorCoat Bird Spikes are non-returnable, non-refundable items. Call Nixalite for more details on ColorCoat availability and terms.

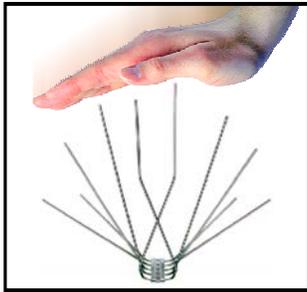

ColorCoat Standard Colors:

Custom colors available, call for details.

White	Black	Gray
Brown	Tan	Bronze

ColorCoat fees are separate and are added to the cost of the bird spikes.

ColorCoat Colors available on 4 foot long spike strips ONLY

Blunt Tip - Flatten wire tip option

This no cost option changes the original pointed tipped wires to flat tipped wires on specified Nixalite bird spike models.

Use Blunt Tip only where frequent human contact with the installed spikes is likely and there are just a few birds present.

Use the original **pointed tip** spikes for all other pest bird and climbing animal control installations.

All installations for **Climbing Animals** must use the pointed tip wires of the **Premium Nixalite Models S and W**.

To select Blunt Tip for bird spikes, check the "ST" box on the Nixalite Order Form

Nixalite® Bird Spike Mounting Hardware

Mounting Hardware for Nixalite's All Stainless Steel Bird Spikes

Nixalite's bird spike mounting hardware fastens our all stainless steel **Premium Nixalite, E-Spike** and **Pigeon Spike Stainless** bird spikes models to all kinds of surface materials. Exclusive to Nixalite and essentially unchanged for decades, this system has proven to be the most reliable method of fastening the bird spikes to all types of installation surfaces.

The flexible base strip that lies at the heart of each Nixalite stainless bird spike, snaps into and out of the mounting clips (#MHRB), making it possible to **install, remove** and **reinstall** the spikes **quickly** without damaging the spikes, mounting hardware or installation surface. Bird spike mounting hardware is included with Premium Nixalite and is available for the E-Spike and Pigeon Spike Stainless bird spike models.

Nixalite® Glue Clip & Adhesive Fastening

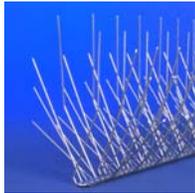

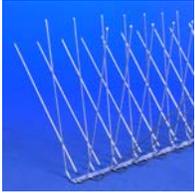

For No-Drill Installation Surfaces

Nixalite always recommends using the mechanical bird spike mounting hardware to secure our all stainless steel bird spikes to the installation surface. However, if you have an installation surface that you absolutely can not penetrate, you can use the **Glue Clip** (#MHGC) and adhesive method of fastening. Use Glue Clips can be used to hold the Premium Nixalite, E-Spike and Pigeon Spike Stainless bird spikes to surfaces such as glass, fragile stone, structural steel, EIFS panels, terra-cotta, etc.

Each Glue Clip has 2 stainless steel clips (#MHRB) pre-mounted and allow for bird spike installation, removal and reinstallation without damaging the spikes, the adhesive bond or the installation surface. **ONLY Nixalite offers this capability.** If glued directly to the surface you can't remove the spikes without damaging them, the surface and the chemical bond.

Nixalite® Bird Spike Comparison Table

Nixalite® offers different types of bird spikes. This table shows the differences between the bird spike models at a glance. If you are not sure which bird spike is right for your application contact Nixalite® of America Inc.
