

SUNEARTH THERMAL STORAGE (SETS)

The Solar Professional's First Choice in
Energy Solutions Since 1978

Product Overview

SunEarth Thermal Storage (SETS) offers a cutting-edge solution for efficient thermal energy storage. Our SETS products are designed to meet the diverse needs of residential and commercial users, providing a reliable and environmentally friendly way to harness and store thermal energy. With lightweight, durable construction, SETS simplifies installation and enhances versatility compared to traditional storage tanks.

Our tanks, available in various capacities ranging from 100 to 5000 gallons, are uniquely designed to facilitate easy transport through standard doorways, significantly reducing the costs associated with demolition and construction.

KEY FEATURES

- **Durable and Lightweight.** SunEarth Thermal Storage Tanks are built to last and are incredibly lightweight, making them ideal for a variety of applications.
- **Wide Range of Applications.** Our SETS products are suitable for a wide range of commercial and residential applications, including but not limited to:
 - Solar Thermal Systems
 - Wood Burning Systems
 - Cogeneration Systems
 - Fire Protection Systems
 - Potable Water Systems
 - Aquaculture Systems

ABOUT THE SUNEARTH

Thermal Storage Tanks

Our SunEarth Solar Storage Tank is designed to efficiently heat and store water for a wide array of applications in homes, businesses, and beyond. This innovative tank is thoughtfully engineered with advanced features. Insulation ensures minimal heat loss, maximizing the efficiency of your thermal energy storage. The SETS tank is unpressurized, ensuring safety and ease of use, and the inclusion of copper coils enables efficient heat transfer to the fluid, enhancing the overall performance of your thermal energy system.

Commercial Storage Solutions

For commercial users with larger capacity requirements, SunEarth offers a range of tank sizes to meet your specific needs. Whether you require storage for as little as 100 gallons or as much as 5,000 gallons, our SETS products can be tailored to accommodate your unique commercial storage needs.

PRODUCT SPECS

Coil Applications. Domestic Hot Water Supply, Low Temperature Heat Systems, All Indirect Boiler Systems.

Models. Our SE Thermal Storage tanks consist of 42 models ranging from 4-foot, 5-foot, 6-foot, and 7-foot tall.

Advanced Features. Well-insulated for minimal heat loss, unpressurized for safety, and copper coils for efficient heat transfer.

Why SunEarth?

10-Year Warranty

The tanks, liners, and copper heat exchanger coils in our SETS are under warranty for a period of 10 years.

Listed & Certified

SunEarth has the most certified ICC-SRCC systems.

American Made

Since 1978, SunEarth has continuously built industry-leading solar water heating systems.

SunEarth is Your #1 Choice for Solar Products.

With over 40 years of solar industry experience, SunEarth solar systems assist homeowners in reducing their energy bills.

Our products set the standard for quality and value in the North American market, so you can refer SunEarth products with confidence. Your clients will thank you.

Contact our team today to get started on your next solar installation.
