

Breaking Waves

By the Shore

The shoreline is where land meets sea, movement meets stillness, and contrast softens into balance.

By the Shore

Carpets Inter brings you **By the Shore**, a collection of understated elegance, thoughtfully crafted and inspired by calm coastal textures. A collection that gives you dependable performance with refined simplicity, designed to endure in both style and function.

Monolithic

SHR01 Harbour Hush

Refinement that doesn't
demand attention.

Gentle variation across the surface adds depth and movement, resulting in an aesthetic that feels calm, controlled, and intentional. The refined pattern sits comfortably within both large- and small-scale commercial interiors, supporting furniture, finishes, and architecture with ease.

Horizontal Brick

SHR06 Ocean Garden

Checkerboard

SHR03 Ocean Haze

By the Shore is a calm, understated carpet design that brings quiet structure to busy spaces. Subtle shifts in texture reflect the way sand, water, and light change along the shoreline, creating visual interest with a refined, delicate touch.

The quiet structure
of the shoreline,
reimagined for the office.

**Designed for modern workplaces,
By the Shore is easy to work
with and easy to live with.
Its restrained design promotes focus,
flow, and a sense of cohesion — helping
spaces feel more professional, welcoming,
and considered.**

Designed to
Tread Lightly

EcoSoft®: The Ergonomic & Breathable Standard

A sustainable, human-centric design that prioritizes underfoot comfort and long-term structural stability.

- **High-Breathability Matrix:** Utilizes a unique structure that allows sub-floor moisture to evaporate naturally, preventing adhesive failure and floor bubbling.
- **Bio-Inhibiting Moisture Management:** Naturally inhibits the growth of bacteria and mold by eliminating moisture buildup, resulting in healthier IAQ.
- **High-Density Cushion Layer:** Features integrated ergonomic cushioning designed for superior impact absorption and significant fatigue reduction
- **Acoustic Excellence:** Create a quieter, more productive environment by neutralizing footfall noise and ambient echoes.
- **Sustainable Composition:** Manufactured from 80% recycled PET bottles and 100% free from PVC, bitumen, and harmful plasticizers.

EcoSoft x®: Optimized Material Science

The next evolution in backing technology, re-engineered for lightweight efficiency without compromising structural integrity.

- **Optimized Lightweight:** Resulting in a substantially lower carbon footprint and enhanced logistical efficiency during transportation and installation.
- **Breathable Structure:** Retains the core DNA of the EcoSoft® family, allowing for consistent sub-floor moisture evaporation
- **Ergonomic & Safety:** High-level impact absorption to minimize injury risks from accidental falls.
- **Ultra-Low VOC Compliance:** Non-toxic composition, ensuring the highest indoor air quality standards
- **Market-Leading Value:** Offers affordable sustainability, making high-end, eco-friendly backing

EcoSquare®: Engineered for Integrity

A high-performance backing solution designed for demanding environments where subfloor protection and fiscal efficiency are paramount.

- **Advanced Top-Down Moisture Barrier:** Features a specialized shield that prevents liquids and spills from penetrating deep into carpet fibers or the subfloor.
- **Simplified Maintenance Protocols:** Spills remain on the surface for rapid cleanup, reducing the need for intensive professional servicing
- **Antimicrobial Environment:** Preventing the growth of mold, mildew, and bacteria beneath the surface.
- **Superior Cost-Effectiveness:** To maximize value throughout its lifecycle by reducing the frequency of replacements.
- **Low VOC Emissions:** Specifically formulated to optimize indoor air quality (IAQ)
