

WILSONART® THINSCAPE® PERFORMANCE TOPS

Welcome to THINSCAPE® Performance Tops, a new engineered composite slab that provides a high-performing, sustainable option for any environment. THINSCAPE® is the ultimate surfacing solution due to the combination of high-end design, unmatched durability, simple maintenance, and competitive installed cost.

HALF INCH. FULL STRENGTH.

MODERN, HIGH-END DESIGN

European-inspired sleekness is matched with lightly textured sheens that elevate any environment.

INCREDIBLY STRONG

An extremely durable slab material that is heat resistant and withstands impacts, abrasions, and scratches.

EASY TO MAINTAIN

THINSCAPE® has exceptional stain resistance and never needs to be sealed.

SUSTAINABLE

UL GREENGUARD Gold certified. Available in four sizes, providing better yield and less waste.

EASY TO FABRICATE

Fabricated with simple woodworking tools and doesn't crack or chip during the process. Domestically produced and readily available.

JUMBO SLABS

Does your project require big thinking? Jumbo slabs are available for modern beauty on a larger scale.

WHERE CAN I USE A THINSCAPE® PERFORMANCE TOP?

From large-scale commercial spaces to modern homes, every project can be elevated with European styling and lasting durability. Thanks to seamless, stain-resistant construction, THINSCAPE® is easy to maintain and ready for any of these spaces:

- High-touch areas
- Bathrooms
- Table tops
- Bar tops
- Reception areas
- Vanities
- Kitchens
- Backsplashes

A NEW ENGINEERED COMPOSITE SLAB.

THINSCAPE is an innovative composite slab that does not require a substrate for installation. It is a self-supporting surface that pairs a color coordinating core with a specific design and texture. Fabrication can be performed with fewer steps, which results in lower costs and less labor than other surfacing materials.
