

VERSATEX® Moulding adds an elevated finish to Hardie® Trim and Soffit

Take your builds to the next level by adding traditional moulding profiles by VERSATEX® to Hardie® Trim, Soffit, and Siding. It's a match in both aesthetics and performance, as they are fire, water, and pest resistant and more durable than wood. The details of your craftsmanship will look impressive for decades.

The Hardie® Dream Collection® in Summer White closely matches classic white VERSATEX® Moulding, so no additional painting is needed. For different colors, your VERSATEX rep will help you decide the right approach for the best look.

Hardie® Trim

4/4 Smooth **Thickness .75 in** **Length 12 ft boards**

Width	3.5 in	5.5 in	7.25 in	9.25 in	11.25 in
Dream Collection®	•	•	•	•	•

5/4 Smooth **Thickness 1 in** **Length 12 ft boards**

Width	3.5 in	4.5 in	5.5 in	7.25 in	9.25 in	11.25 in
Dream Collection®	•	•	•	•	•	•

Hardie® Soffit

Vented Smooth

Size	12 ft x 12 in	12 ft x 16 in	8 ft x 24 in
Dream Collection®	•	•	•

Non-Vented Smooth

Size	12 ft x 12 in	12 ft x 16 in	8 ft x 24 in
Dream Collection®	•	•	•

Expanded colors serviced through the Hardie Dream Collection® products via pick to the piece job packs only. Standard Dream Collection® finish lead times apply. For more information, please contact your local James Hardie Representative.

Moulding choices for any architectural style

Here's why VERSATEX® Mouldings should be part of your next Hardie® exterior project:

Elevate your look

The fine details of VERSATEX profiles boost curb appeal instantly, transforming an ordinary exterior to an extraordinary piece of craftsmanship.

Ultimate water resistance

Use VERSATEX products without hesitation in high moisture areas – roofline, stone, brick, or ground contact; they're virtually unaffected by moisture.

Color matching

VERSATEX Mouldings are a consistent, bright matte white, most closely matched to the Hardie Dream Collection® color Summer White.

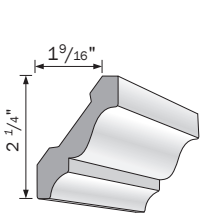

Painting possible, not necessary

VERSATEX White uses high-quality pigments in a UV-protected formula that stays white for decades, or it can be painted following VERSATEX painting guidelines.
