

VERSATEX™

Classic wood aesthetics,
modern PVC durability

The PVC specialist

For more than 20 years, Versatex® has been laser-focused on cellular PVC building materials. To meet our customers’ needs, we deliver the broadest assortment of PVC trim and siding in the industry and are constantly improving to give customers the highest quality product backed up with expert technical assistance.

Versatex® Sheet, Corners, Trim Boards, and Versawrap® Column Wraps

Better material for your project

PVC is a top material choice for siding and trim. It’s virtually impervious to moisture, so it’s ideal for waterfront or high-humidity environments, yet it’s as workable as wood, delivering outstanding aesthetics without wood’s constant maintenance.

Better for contractors & homeowners

Versatex innovates across our entire product line, helping streamline the contractor’s job. We work to make installing our exterior solutions easy and ownership a low-maintenance pleasure.

Ready for your craftsmanship

Versatex features the most comprehensive sheet stock available, ranging from 1/4" to a full 1-1/2 thick. We manufacture the most consistent sheet product in the industry, ready to mill, router, heat-bend, and more.

Warranty**

Trimboard

Precision & consistency for every job

We take great pride in our first product, the nominal trimboard. In a Smooth Matte or Timber Ridge (woodgrain) finish, a variety of sizes and specialties like cut-concealing stealth, flanged, and J-channel trim is hard to beat: widths from 2" to 16", thicknesses from 5/8" to 1-1/2", and standard lengths up to 20'. This extensive selection helps meet our customers’ needs and make their jobs easier.

Versawrap®

Wrap posts with stately details

Covering a structural post can be a challenging task. Versatex delivers a higher aesthetic appearance with near-zero onsite fabrication. Our Versawrap Column Wraps and crown and base accessories eliminate matching up individual post cover pieces for a clean, customizable architectural look to elevate all kinds of posts and columns.

Classic Wrap

Raised Panel

Canvas Series®

Finished hardwood look with
Versatex PVC durability

The Canvas Series delivers the rich look of premium stained wood and the low maintenance and long life of Versatex® PVC. Realistic wood-tone laminates bond with our WP4, Stealth Beadboard, 4" Crown and Bed Moulding, nominal trimboard, and now Versawrap® Column Wraps.

Xceed Siding

Traditional curb appeal
with lifetime performance

Xceed Siding is a solid engineered board made with proprietary Versatex cellular PVC, finished with a durable lifetime color cap that won't need repainting. It resists water and insects and, unlike hollow-backed vinyl siding, Xceed resists dents and cold-weather cracking. It will look great and perform well for years to come with almost zero maintenance, and it's backed with a Limited Lifetime Warranty.
