Red Balau Lifespan

Red Balau Bending Strength

Red Balau Decking - Coastal Paradise

USE PHONE CAMERA TO SHOP RED BALAU

The Smart Decking Choice

Strength, Beauty, & Cost-Conscious: Red Balau offers everything in one package. The heartwood of Red Balau is light to dark red-brown, or purplish red-brown to grey-brown. With superior insect and rot resistance Red Balau is the perfect material for your next outdoor project. With its beauty, strength, and durability Red Balau makes a great Ipe alternative for your next outdoor project! Our Red Balau is responsibly harvested from managed forest to provide a truly renewable resource. Red Balau has many benefits over other decking materials and is available at a fraction of the cost. We ship our Red Balau decking products direct to your home or job site.

At Our California Factory

TEAK DECKING

Also known as: Plantation Teak

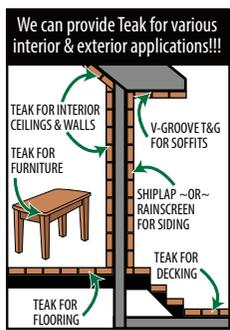

Teak Decking Inventory - Sarasota, Florida

Teak Gate - Rancho Cucamonga, California

High-End, Environmentally Conscious Decking

Teak (*Tectona grandis*) is found all over the world, in southeast Asia, the East Indies, Africa, and Central/South America. Our Teak is grown in 20-50 year plantations, which means you'll get the hardest, most durable wood while benefiting the environment. It's a 100% renewable product guaranteed to last! Teak is lighter than Ipe in both color and weight. Its color ranges from yellow brown to dark golden brown, darkening with age. Because it is less dense than Ipe, Teak is also generally easier to work with.

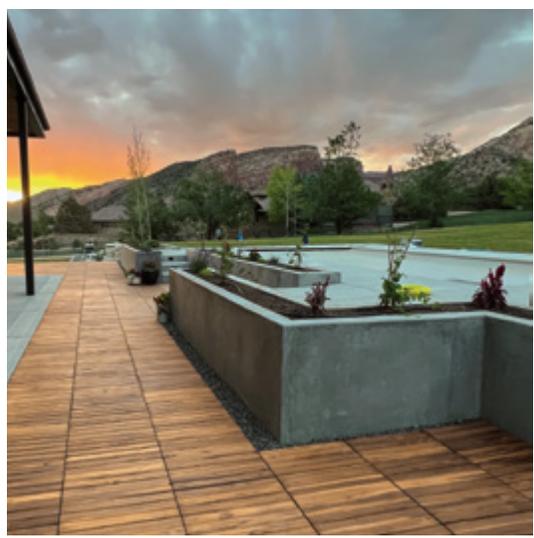

True Genuine Teak Decking

Many people seek out genuine Teak Decking, as some companies try to pawn off lesser quality woods (such as Afrormosia) as Genuine Teak when it's not even related. When in doubt, the lumber world refers to the botanical Latin name which is *Tectona grandis*. All of the teak we sell is of the *Tectona grandis* species.

Teak Fishing Boat Interior
Charlestown, Rhode Island

IPE DECKING

Also known as: Brazilian Walnut

Ipe Decking w/Infinity Pool - Chapel Hill, North Carolina

The World's Best Decking

Advantage Ipe™ (pronounced EE-pay) is the finest-quality hardwood available. From the famous Atlantic City Boardwalk to your own backyard, Ipe decking is proven to keep its integrity and last longer than any other decking material. These natural qualities mean an Ipe deck can last 75+ years without constant staining or refinishing. Ipe decking is responsibly harvested from managed forests to provide a truly renewable resource.

Advantage Decking™ features up to a class A rating for flame spread. This makes our hardwood decking a great option for homes in dry brush areas and other fire-prone regions.

TIGERWOOD DECKING®

Also known as: Brazilian Koa

Tigerwood T&G Porch - Huntersville, North Carolina

Tigerwood Stands Out from the Competition

Advantage Tigerwood™ truly lives up to its name. Boasting a gorgeous display of light browns with black streaks throughout, Tigerwood decks define the word “exotic.” Created beautifully by nature, genuine Tigerwood stands apart with its low-maintenance, 30+ year lifespan; robust performance in all seasons; and 100% natural beauty that no imitation can match.

100%
ALL NATURAL
NO ADDITIVES

NATURALLY BETTER DECKING

Unlike chemically treated wood, Advantage Decking™ does not require constant maintenance, sanding, or refinishing. The benefits you receive are all 100% natural.

California Coast

1x4+Plus™ Tigerwood Privacy Fence
Kansas City, Missouri

CUMARU DECKING

Also known as: Brazilian Teak

Pregrooved Cumaru Decking - McKenzie Bridge, Oregon

Resilient Decking For All Environments

Advantage Cumaru™ (*pronounced ku-mah-roo*) is an incredible, low-maintenance hardwood that offers a beautiful array of amber-red to golden-honey colors. Each board of premium-grade Cumaru is also naturally resistant to rot, decay, and insects. With a lifespan of well over 50 years, you will enjoy your Cumaru deck for decades. With such strength and beauty—and up to a class A fire rating—a Cumaru deck is an investment that'll increase your home's value.

DECKING FOR ALL CLIMATES

Advantage Decking™ is naturally primed for optimal performance. Our hardwoods can handle decades of freeze/thaw cycles without any required maintenance.

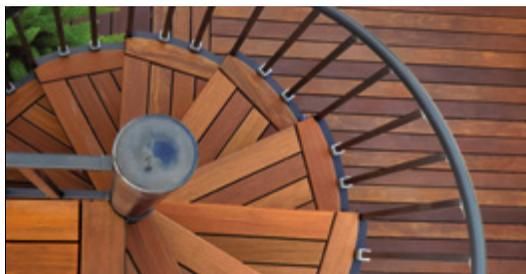

Cumaru Vertical V-Groove Siding

Garden Grove, California

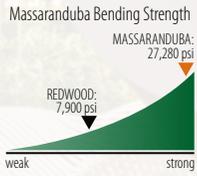

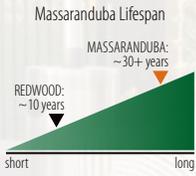

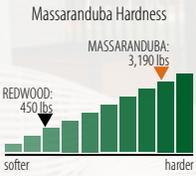

Cumaru Ceiling
Miami, Florida

1x4+Plus® Cumaru Deck & Spiral Staircase
Philadelphia, Pennsylvania

MASSARANDUBA DECKING

Also known as: Brazilian Redwood

Modern Massaranduba Deck - Weston, Florida

Brazilian Redwood Outperforms & Outlasts Traditional Redwood

Advantage Massaranduba™ (*pronounced Ma-Sa-Ran-Doo-bah*) bears the distinction of being one of the hardest and most beautiful woods in the world, as well as one of the most abundant hardwood species in South America. With such a dependable material, you can enjoy outdoor living year-round without worrying about constant staining or heavy-duty maintenance.

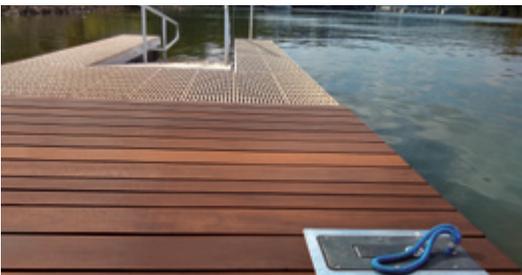

**BENDING STRENGTH:
SOLID, STONG DECKING**

Build a deck that will last. All Advantage Decking™ species provide a durable deck surface. This means it can withstand many years of foot traffic, falling objects, and pets.

Massaranduba Rainscreen Siding
Las Vegas, Nevada

Massaranduba Dock
Chattanooga, Tennessee

Massaranduba Shiplap Siding Garage
Tallahassee, Florida

GARAPA DECKING

Also known as: Brazilian Ash

Garapa Hardness

Garapa Lifespan

Garapa Bending Strength

Garapa Rainscreen Siding - Sarasota, Florida

Garapa Sets the Gold Standard

Advantage Garapa™ glows with a light-gold to honey hue and features a fine grain. Naturally resistant to rot, decay, and insect attack, our Garapa decking is one of the finest-quality hardwoods available. Garapa originates from managed forests and is a truly renewable resource. Like most of our exotic hardwood decking options, Garapa is a photosensitive wood, meaning its color changes when exposed to light. This means Garapa will mature to a rich brownish color over time, making it a great alternative to Ipe or Cumaru in outdoor projects.

MOLD & MILDEW REPELLENT

The natural oils and density of Advantage Decking™ reduce the chance of both mold and fungal growth.

Pregrooved Garapa Decking
Wichita, Kansas

Garapa Shiplap Siding & Soffits
Hillsboro, Virginia

ADVANTAGE CUSTOM MILLED PROFILES DECKING/SIDING/CEILING

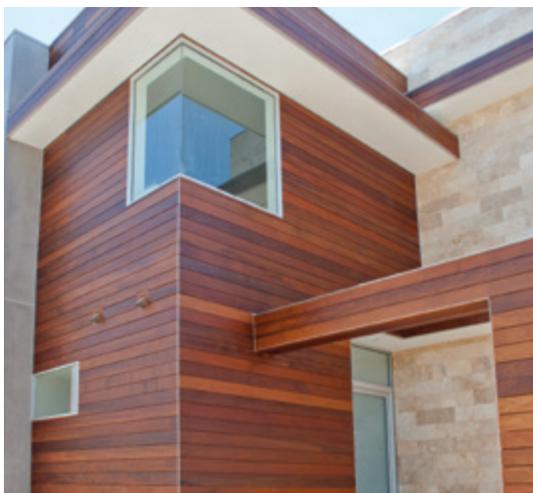

Exotic Hardwood Decking

Discover the benefits of Advantage Decking® and see why contractors, architects, and homeowners love the real, natural look of our exotic woods over composite decking material. With its low maintenance qualities and decades-long lifespan, you can build your next deck knowing you've chosen genuine hardwood that is proven to withstand anything you or Mother Nature throws at it.

EXTERIOR SURFACE DECKING OPTIONS

USE PHONE CAMERA TO
SHOP DECKING

Exotic Hardwood Siding

Durable. Long-lasting. Authentic. Unlike the artificial appearance of vinyl or aluminum siding, the look of genuine Advantage Siding™ cannot be duplicated. Advantage Siding™ mixes tight grain and natural oils to create a reliable barrier against the elements. The varied grain patterns of each board are great at hiding outdoor dirt and daily wear. We custom-mill our siding in-house at our wholly owned and operated lumber mills.

EXTERIOR SIDING OPTIONS

SYNERGY WOOD

Save Money & Time with Prefinished

Synergy Profiles:

Nickel Joint

Square Edge

V-Groove

The Leading Expert in Prefinished Wood for Ceilings & Walls

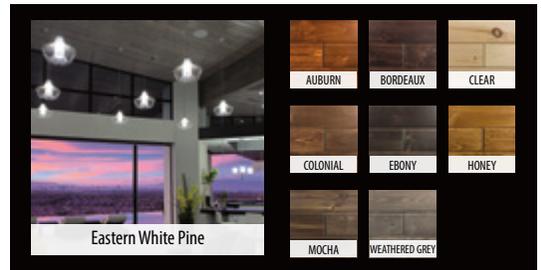

Synergy Wood® manufactures pre-finished wood paneling for ceilings and walls used by homeowners and contractors, eliminating the unforeseen challenges of finishing wood at the jobsite. Synergy Wood® products create a warm and inviting space for our customers to enjoy for years to come.

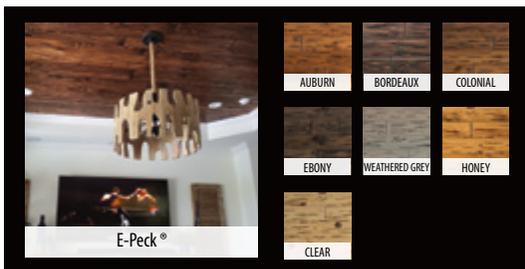

Save time and money with our Synergy Wood® prefinished products. The professional factory finish saves countless hours of installation time and yields a more professional end result. The planks come end-matched with a tongue and groove on the ends so you don't have to worry about cutting each piece to land on a rafter or furring strip.

SHOP SLABS

Buy Direct from the Mill. Save on Live-Edge Wood Slabs.

We are one of the largest producers of live-edge slabs. Our slabs are kiln-dried to provide maximum stability and to eradicate any insects. We cut over 100 species of hardwoods including Indian Rosewood, Walnut, Camphor, Tigerwood, Brazilian Cherry, Persimmon, and many other hard-to-find lumber types. We offer surfacing, sanding, epoxy filling of voids, spray-finishing, book-matching, and gluing services, and we ship directly to you. Our slabs are often used for kitchen tables, bartops, end tables, coffee tables, shelves, doors, wall art, benches, and many other woodworking projects.

SANDURA[®] WALLABA SHINGLES

Sandura[®] Wallaba Shingles - Georgia Estate

Sandura Wallaba Shingles - Georgia Estate

The Most Dense & Natural Hardwood Shingles

Wallaba is a hardwood species native to the forests of Guyana. This light red to reddish-brown wood is extremely dense, with a coarse, straight-grained texture. Wallaba contains high levels of gum exudates and oily resin, which help it resist insect attacks and decay. Wallaba is primarily used for shingles and transmission poles, but other uses include railroad ties, industrial flooring, decking, and fence posts.

BE EXTREMELY CAUTIOUS OF CHEAP WALLABA SHINGLES BEING OFFERED FOR SALE
THERE ARE SOME IMPORTANT FACTORS TO CONSIDER ABOUT THE GRADE OF SHINGLES WHICH CAN CAUSE YOUR ROOF TO LEAK

NOT ALL WALLABA SHINGLES ARE ALIKE

It is important to understand the grade defects in Wallaba shingles or wood shingles in general. If defective shingles are installed on roofs it can lead to leaks within months or even a few years after installation. Sandura[®] Wallaba Shingles represent only Premium Grade Wallaba Shingles.

Wood is a natural product which has inherent defects in the tree. After the tree is cut, the log is converted to shingles. During the conversion process from logs to shingles there are many defects within the log which can become part of the finished product. Many architects, contractors, installers and home owners may not be familiar with such defects which can compromise the integrity of the roof.

Sandura[®] Wallaba Shingles - NOW IN STOCK!

Sandura[®] Wallaba Shingles vs. Western Red Cedar Shingles

Category	Wallaba	Western Red Cedar
Hardness	2,050 lb	350 lb
Crushing Strength	11,210 lb/in	4,700 lb/in
Maintenance	No oiling required	Oil every 5 years
Wind Resistance	High	Low
Hail Resistance	High	Low
Rot Resistance	High	Low
Cup Resistance	High due to quartersawn grain	Low due to plainsawn grain
Flame Spread	Class A	Class B

LASTING BEAUTY

Colors and textures remain flawless with no painting, staining required.

EASE OF CARE

Simply wash with soap and water; no need to waterproof.

MADE IN THE USA

TanDeck products are made in the United States.

TANDECK™

PERFORMANCE MARINE DOCK BOARD

USE PHONE CAMERA TO SHOP TANDECK

TanDeck® Performance Marine Dock Board - Marine Dock

Commercial + Industrial Performance Dock Board

TanDeck Performance Marine Dock Board is highly-durable, low-maintenance marine decking that has natural wood-like aesthetics. This resilient marine board is engineered for residential boat docks, marinas and light commercial applications. Ideal for piers, waterfront properties and structures, it allows you to enjoy your investment without spending your free time maintaining it.

What is the difference between TanDeck, Composites and PVC Decking?

Composites are made from a mix of plastic and wood flour, which can absorb moisture. PVC decking is not as tough as high density polyethylene (HDPE) and is limited to 16" spans. TanDeck is made from a blend of extremely tough recycled HDPE, strengthening agents, UV inhibitors and anti-static additives. It is excellent at absorbing impacts and has no wood or organic fibers that would make it susceptible to moisture that causes swelling, warping or splintering.
