Natural wonder.

Inspired by the rarest, most evocative wonders of nature, the Marvel Gala collection is a jewel, and its surfaces recall journeys to pristine places. Some of the most compelling locations on earth - the glaciers of Alaska, the Californian desert, the green of the Amazon, the turquoise of the tropical seas, the black of the Icelandic volcanoes - inspired the selection of the natural stones of the collection.

Dalla natura più rara e suggestiva, nascono ispirazioni esclusive. Marvel Gala è un gioiello e le sue superfici raccontano di viaggi in luoghi incontaminati. I ghiacciai dell'Alaska, il deserto californiano, il verde dell'Amazzonia, il turchese dei mari tropicali, il nero dei vulcani islandesi guidano la selezione di pietre naturali della collezione.

De la nature la plus rare et la plus évocatrice naissent des inspirations exclusives. Marvel Gala est un bijou et ses surfaces racontent des voyages dans des endroits préservés. Les glaciers d'Alaska, le désert californien, le vert de l'Amazone, le turquoise des mers tropicales, le noir des volcans islandais guident la sélection des pierres naturelles de la collection.

Aus der seltensten und eindrucksvollsten Natur werden exklusive Inspirationen geboren. Marvel Gala ist ein Juwel und seine Oberflächen erzählen von Reisen zu unberührten Orten. Die Gletscher Alaskas, die kalifornische Wüste, das Grün des Amazonas, das Türkis der tropischen Meere, das Schwarz der isländischen Vulkane bestimmen die Auswahl der Natursteine in der Kollektion.

De la naturaleza más recóndita y llamativa nacen inspiraciones exclusivas. Marvel Gala es una joya y sus superficies hablan de viajes a lugares vírgenes. Los glaciares de Alaska, el desierto californiano, el verde del Amazonas, el turquesa de los mares tropicales, el negro de los volcanes islandeses inspiran la selección de piedras naturales de la colección.

Самобытные уголки природы вдохновляют на создание эксклюзивных творений. Коллекция Marvel Gala – как маленькое сокровище, ее поверхности рассказывают о путешествиях в места, нетронутые рукой человека. Ледники Аляски, калифорнийская пустыня, зелень Амазонии, бирюза тропических морей, чернота исландских вулканов стали определяющими в подборе ее природных камней.

Calacatta Black

What makes this variant special is its intensely dark background riven by lighter shades. Like the original marble, the white veins emphasize the partitions between the shades.

Sa particularité est le fond sombre intense rivalisé par des teintes plus claires. A l'instar du marbre d'inspiration, les veines blanches soulignent la partition entre les teintes.

Seine Besonderheit ist der kräftig dunkle Hintergrund, der von helleren Schattierungen durchbrochen wird. Wie beim inspirierenden Marmor betonen die weißen Adern die Trennung zwischen den Farbtönen.

Su rasgo distintivo es el intenso fondo oscuro surcado por tonos más claros. Al igual que el mármol de inspiración, las vetas blancas enfatizan las diferencias de los varios tonos.

Особенность этого цвета – в насыщенном темном фоне, изрезанном более светлыми тонами. Как и на исходном образце мрамора, белые прожилки разделяют собой разные оттенки фона.

The glossy polished finish is suitable for residential or low-traffic commercial floors, where no anti-slip performance is required, and for walls. The polished glossy surface finish, surprisingly brilliant and bright, features slight irregularities typical of natural marble. The extraordinary brilliance and the easy cleaning of the surface are the result of in-depth research aimed at guaranteeing its durability over time. If the product is in direct contact with the outdoors, provide devices for absorbing moisture and dirt to prevent scratches. - La finitura lappata lucida è indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo, e per rivestimenti. La finitura lappata lucida offre una superficie sorprendentemente brillante e specchiante, con lievi irregolarità tipiche dei marmi naturali. La straordinaria lucentezza e l'elevata pulibilità della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantire la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e della sporcizia per prevenire la formazione di graffi. La finitura pole brillante est indicée pour les revêtements de murs, ainsi que pour les sols résidentiels ou commerciaux peu sollicités qui ne nécessitent pas de caractéristiques antiglisse. La finition semi-polie brillante offre une surface à effet miroir incroyablement éclatante, doublée des légères irrégularités typiques des marbres naturels. La brillance extraordinaire et l'extrême facilité de nettoyage de la surface sont le fruit d'études et de recherches techniques approfondies visant à en garantir la résistance dans le temps. Si le produit est en contact direct avec l'extérieur, prévoir des dispositifs d'absorption de l'humidité et des salissures afin de prévenir la formation de rayures. - Das geläppt Hochglanz-Finish eignet sich als Bodenbelag in nicht stark beanspruchten Wohn- oder Gewerberäumen, die keine Rutschfestigkeit erfordern, sowie als Wandbelag. Das geläppt Hochglanz-Finish bietet eine überraschend helle und reflektierende Oberfläche mit den für Naturmarmor typischen, leichten Unregelmäßigkeiten. Der einzigartige Glanz und die besondere Reinigungsfreundlichkeit der Oberfläche sind Ergebnis eingehender Studien und sorgfältiger technischer Forschungsarbeit, mit denen dauerhafte Beständigkeit gewährleistet wurde. Bei direktem Kontakt mit dem Außenbereich sind Mittel zur Aufnahme von Feuchtigkeit und Schmutz erforderlich, die das Produkt vor Verkratzung schützen. - El acabado Lapeado pulido está indicado para pisos residenciales o comerciales poco esforzados, donde no se requiera un rendimiento antideslizante, también es ideal para revestimientos. El acabado Lapeado pulido ofrece una superficie asombrosamente brillante y reflectante, con ligeras irregularidades típicas de los mármoles naturales. La extraordinaria brillantez y la elevada facilidad de limpieza de la superficie es el resultado de extensos estudios técnicos e investigaciones dirigidas a garantizar su resistencia en el tiempo. Si el producto está en contacto directo con el exterior, es necesario utilizar los dispositivos de absorción de la humedad y de la suciedad para evitar que se raye. - Лапатированная глянцевая плитка рекомендована для полов домашних и коммерческих интерьеров с небольшой интенсивностью эксплуатации и для стен. Лапатированная глянцевая поверхность имеет блестящий, почти зеркальный вид с легкими, типичными для природного мрамора неровностями. Блеск и легкая очищаемость являются результатом глубоких исследований, направленных на создание долговечного материала. Если плитка находится в непосредственном контакте с наружной средой, необходимо предусмотреть устройства поглощения влаги и грязи во избежание образования царапин.
