Note on Velvet surface finish / Nota sulla finitura Velvet

The Velvet surface replicates the effect of polished concrete. It has a velvety touch and semi-opaque highlights. The natural character of the surface is highlighted by areas of different opacity perceptible in oblique or reflected light. Suitable for residential or low-traffic commercial floors, where no anti-slip performance is required. If the product is in direct contact with the outdoors, solutions that absorb moisture and dirt must be used to prevent scratching. La superficie Velvet replica l'effetto di un cemento lucidato. Si distingue per la mano vellutata e per i riflessi semi-opachi. La naturalezza della superficie è evidenziata da zone di diversa opacità percettibili in luce radente o riflessa. Indicata per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e dello sporco per prevenire la formazione di graffi.

La superficie coniuga elevate prestazioni di resistenza allo scivolamento ad una maggiore morbidezza tattile. Con Sensitech il significato di superficie si evolve e assume un tocco rassicurante, piacevole e pratico, rendendo gli spazi architettonici sempre più confortevoli e appaganti.

Velvetech

Velvetech tecnologia

Sensitech tecnologia

Velvetech is the new technology with an Italian patent inspired by the effect of sanding on the surface. Velvetech has silk-like reflections and a velvety soft hand. The naturalness of the surface is emphasised by areas of different opacity that contribute to the depth of the surface.

Velvetech è la nuova tecnologia con brevetto depositato in Italia ispirata all'effetto della levigatura sulla superficie. Velvetech si presenta con riflessi che ricordano la seta e una mano vellutata e morbida. La naturalezza della superficie è evidenziata da zone di diversa opacità che contribuiscono a dare profondità alla superficie.
