JamesHardie™

Hardie® Architectural Panel

Clean Look. Fresh Textures. Lasting Exteriors.

Reimagine what's possible for your home with the Hardie™ Architectural Collection. Offering contemporary design solutions to fit any style, you can elevate your exterior with a gorgeous, fresh perspective.

Going beyond wood-look designs, the clean lines of the Hardie® Architectural Panel can help achieve a range of styles from traditional to more modern looks. Orient them horizontally or vertically, or mix them with other Hardie® products to create a truly unique design that speaks to your aesthetic.

Hardie® Architectural Panel

Finish	Primed	Primed	Primed

All Hardie® Architectural Panel products come with a primed finish and a smooth texture.

TOUGHER THAN THE ELEMENTS

Hardie® fiber cement is specifically formulated to better help resist damage from the very predators—moisture, humidity, pests and fire—that pose threats to wood products.

Won't burn*

Water resistant

Holds no appeal to pests

Low maintenance

*Hardie® fiber cement products are noncombustible and/or have a Class A fire rating when tested in accordance with ASTM E84. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames. The use of noncombustible siding, combined with other fire mitigation measures, can help harden a home against external fire.

Siding | Trim | Soffit
