HOTEL HALLWAY + SUITE

#### LUNA

Offering quiet optics and impressive performance, the LUNA Series is a user friendly downlight. This shallow, canless fixture has on-site control with a 5-position CCT switch (27 K, 30 K, 35 K, 40 K, 50 K) or a Dim-To-Warm option.

#### FOSSIL

A trimless indoor steplight, pre-formed in a 5x7" plaster rectangle that blends seamlessly into surrounding drywall. Available in three unique shapes with 90 CRI for hotel hallways.

#### SHADE

This fixture combines a decorative frame element with selectable CCT/wattage, auto-sensing voltage, multiple mounting and size options to light the hallway or as an accent light in-suite.

SHADE 6"x6

#### MICROPOTS

This collection provides quality illumination for ambient accent lighting in hallways and entrances. Try installing them above the door to provide additional entrance light.

#### LUNA

Offering quiet optics and impressive performance, the LUNA Series is a user friendly downlight. This shallow, canless fixture has on-site control with a 5-position CCT switch (27 K, 30 K, 35 K, 40 K, 50 K) or a Dim-To-Warm option.

#### FLEX

Maintain a consistent appearance throughout your space with five different mounting options, as well as multiple accessories such as snoots and hex louvers. Use the trackheads to highlight the bar, while pendants over a table provide a comfortable atmosphere.

#### FORUM PANEL & FRAME SYSTEM

Ideal for back of house, the FORUM LED panel provides a modern alternative to traditional troffers, while including a selectable CCT and wattage switch, 120-347V auto-sensing voltage, with multiple mounting and size options. Add the Frame System to connect panels and acoustic tiles to match the style of the space.

RESTAURANT

#### DINE

Providing a warm and precise circle of light over dining tables, with four mounting options, including track. The Dine series enhances visual comfort in hospitality projects, and offers a minimalistic 3" regressed wiring compartment, available for both Surface and Pendant mounting options.

#### SIGMA

The SIGMA 2 deep regressed model is specifically designed for low-glare and quieter ceilings. It is available in both round and square, black and white trims, and a choice of reflector options to light up the dining experience.

#### LED TAPE LIGHT

Provide ample illumination for wall or counter markings, backlit signs, in-cabinet, toe-kick, or other places you'd like a glow of light.

## This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
