

FREEZE-PROTECTED EMERGENCY SHOWER & EYE/FACE WASH

MODEL 8317CTFP

Engineered for extreme weather conditions as low as -30°F (-34.4°C), this advanced freeze-protected emergency shower and eye/face wash ensures safety and reliability when you need it most.

KEY FEATURES:

Superior Freeze Protection:

- Thermostat-controlled heat cable, double-wrapped piping, and 3/4" (1.9 cm) insulation with a UV-protected jacket safeguard against freezing.
- Automatic bleed valve prevents freezing during power outages.

AXION® Technology:

- Provides consistent, compliant water flow for both shower and eye/face wash stations.

Flexible Installation:

- Supports both top and bottom water supply connections for versatile setup.

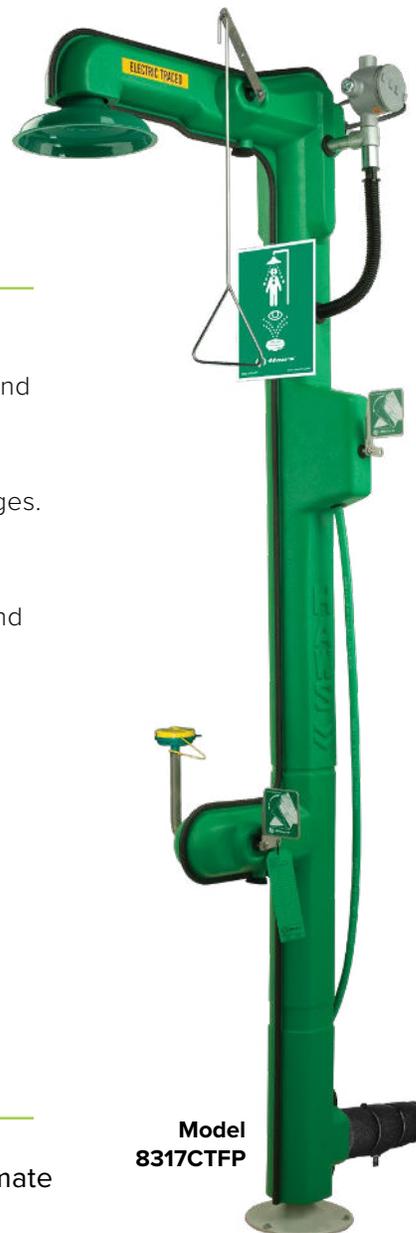

Enhanced Emergency Rinsing:

- Includes a body spray hose for additional rinsing capability.

Certified for Safety:

- Fully compliant with ANSI/ISEA Z358.1-2014 standards and certified to TYPE 4 (NEMA 4) for rugged performance.

Stay prepared for the harshest environments with the ultimate freeze-protected safety solution. Model 8317CTFP offers unmatched reliability when every second counts.
