

REDUCE PROJECT COSTS BY REDUCING INSTALL TIME

46% Faster Installation - Save Time and Money

The Haws Hydration Station™ sets the standard for easy installation, boasting a 46% faster setup and install compared to competitor units. The Haws 1212SF was installed in just 30 minutes and 7 seconds, while the Elkay LZSTL8WSSP took 47 minutes.

Fastest Installation Face Off
comparison video.

RETROFIT AND REPLACEMENT ADVANTAGES

- Specifically designed internal configuration allows for universal mounting over existing competitor rough-ins.
- Universal mounting offers larger rough-in space for reduced rework for waste hookup, water supply, and electrical rough-in when retrofitting over competitive units.
- Self-adjusting bottle filler mounting system ensures flush alignment every time (Patent #US10934694B1)
- Full size installation template to assist placing unit at correct heights and ADA required dimension, minimizing rework.
