PHILIPS

Professional Display Solutions

Open² extending your care

Philips Bedside TV, Philips Signage, Philips Interactive,
Philips Videowall and Philips dvLED for healthcare

Your trusted brand

Philips is a focused leader in healthcare technology – a brand with a proud heritage that stretches back over almost 130 years, the company's purpose is to improve people's health and wellbeing through meaningful innovation.

Giving clinicians the tools they need to make a precision diagnosis and deliver personalised treatment. Aiding the patient's recovery at home in the community. All supported by a seamless flow of data.

Today, digital displays are a part of the patient journey, with Philips Professional Displays bringing connected experiences in healthcare settings.

Display solutions for healthcare

Advise | Assure | Act

With Philips Professional Displays from PPDS, performance and versatility are just the beginning. Trust, quality and safety come as standard. And every one of our innovations is designed for maximum impact.

Decades of healthcare industry experience provide us with the insight and expertise to develop breakthrough technologies when and where they are needed. From innovative bedside TVs for reassuring patient comfort, collaboration-focused interactive signage for advice-driven wayfinding, ultra clear, bright digital displays for focused clinical decision making and active consulting, and borderless direct view LED walls to bring reception to life.

Across the healthcare sector

For every healthcare setting – from maternity, acute and emergency care and through every hospital department, for outpatient facilities and surgeries, to nursing and care homes, Philips Professional Displays are designed to bring a connected, caring experience for medical and support staff, and their patients.

For hospitals,
clinics and surgeries

Bringing the reassurance of a trusted brand, the Philips professional display range for healthcare has been carefully curated to deliver the features and functionality you need throughout your healthcare facility.

Your professional, more personalised patient TV solution

Why choose for professional TVs from Philips? As a premier provider of professional TV systems, we recognize that a one-size-fits-all approach does not apply to all market segments, especially in healthcare. Because of this, we offer Philips Professional TVs as a dedicated solution aimed at delivering top-tier TV solutions tailored for the healthcare sector.

Through our specialized product range, we aim to enhance patient experiences by fostering a positive entertainment environment and promoting overall well-being. Philips Professional Displays aim to create such positive environments in medical settings like hospitals and care facilities. Our commitment to that Healthcare is our business at heart.

From antimicrobial display housing to advanced connectivity, hygienic surfaces and remote control every detail is covered to help you provide better treatment. Moreover, Professional TV sets typically have longer life-cycle compared to consumer TV sets.

Personalising the patient experience

Bedside TV

Patient reassurance and comfort are essential to healthcare. The Philips bedside TV range is designed specifically. Delivering an experience synonymous with a hotel room, together with the information, safety and medical support they need, as well as the management facilities you require.

Google Cast allows patients to watch the shows on their own accounts, shared from their mobile device – whatever their operating system – onto the larger screen. And gives them access to a multitude of apps, games, and entertainment, on Google Play, too.

Google Cast

Google Play

- Toughened glass front with anti fingerprint, hydrophobic coating
- Hygienic surfaces: antimicrobial casing
- Optional hygienice remote controls
- Menu lock and volume control
- Central management and control of channel lists and updates
- Central transmission of information and messages to the TV
- Data privacy compliance

In full control

Optimise your patient experience. Philips professional display solutions provides healthcare facilities with smart technology. From antimicrobial display housing to professional soundbar and antimicrobial remote controls.

Philips Professional Soundbar

- Easy configuration using the professional setup menu on
  the Philips MediaSuite TVs
- Volume limits, ensuring surrounding rooms are not impacted or disturbed
- One remote control for TV and soundbar
- Activate/deactivate Bluetooth audio.

Antimicrobial remote controls

- Multi-code remote control
- Sealed battery compartment for patients safety.

Delivering savings for hospitals and care homes

The Philips displays are designed with sustainability focused features. We are dedicated to numerous initiatives aiming to minimize power consumption through optimal energy efficiency and achieving top energy class ratings.

- **Philips Tableaux ePaper** displays use zero power to show full colour static images and needing only super low power to swap to a new image.
- **Philips MediaSuite** can be updated with the latest software and features, ensuring your fleet stays current with our extended lifetime guarantee, while also minimizing WEEE waste.
- **Philips Signage 3650 EcoDesign** display operates using less than half the power of its counterparts of the same size.
