
THE SST-II HYDRAULIC BI-FOLD SYSTEM

ACHIEVE YOUR VISION

The SST-II Hydraulic Bi-Fold System

The patented SST-II Hydraulic Bi-Folding System opens vertically, allowing smooth, quiet access between environments with just the press of a button. By incorporating the SST-II Bi-Folding Door or Window System, the barrier between interior and exterior vanishes, letting the ambience of the outdoors flow in.

INNOVATIVE | PRECISE | EFFORTLESS

FEATURES

- Hydraulically operated
- Safety
- Cleanest panel face
- Remote power
- Easy installation
- All steel construction

EASE OF INSTALLATION

- Eliminated pinch points
- Hassle-free operation
- Minimized maintenance
- Easiest install on the market
