The Electric Bi-Fold System

The patented SST-II Electrically Actuated Bi-Fold System utilizes electric actuators in place of hydraulic cylinders, offering a more affordable option for smaller openings, without the excess power of the hydraulic system. Folding open vertically, it allows for smooth access between environments with just the press of a button.

INNOVATIVE | PRECISE | EFFORTLESS

FEATURES

- Electrically actuated
- Safety
- Self contained
- Easy installation
- All steel construction

EASE OF INSTALLATION

- May be delivered fully-assembled
- Place the system within the opening
- Attach to your surrounding structure
