Pocket

Outdoor wall mounted luminaire

Simple shapes
and soft light
effects

Minipocket

Pocket

Pocket Rectangular

Simplicity is the fundamental key of every icon of elegance: following this concept Pocket has been developed. A wall mounted outdoor luminaire with a soft and diffused light effect.

With its uniform light distribution and its rounded and thin profile, Pocket draws a gentle balance between shapes and light. The elegant and sober lines that characterize the whole range are further enhanced by the easy clip-on system and no visible screws. A surface mounted wall fixture with a minimalistic square design that is able to blend into every architectural context.

Hi-grade aluminium for outdoor

Protection class
IP65

Insulation class
CLASS I ⊕

Mechanical resistance of glass
IK 06

Reliable over time, the outdoor wall fixture is manufactured in high-grade aluminum and finished with our three step paint process providing better protection against oxidation.

The IP65 protection class makes Pocket the perfect solution for external spaces and humid interiors. The use of EN AB-47100 die-cast aluminium guarantees a high resistance to oxidation. The luminaire undergoes a three step paint process to assure complete reliability over time in every environmental and climatic condition.

Glass to
diffuse

The light beam deriving from the source is broken up and then uniformly diffused through a textured glass diffuser. The visual comfort is translated into a soft but embracing light.

Pocket is a double emission surface mounted fixture for outdoor applications with a uniform light distribution. The glass diffuser has a micro-sandblasted finish on the inside and a textured finish on the outside, to improve visual comfort and distribution.

Colours for different contexts

.14 Aluminium grey

.01 White

.24 Anthracite grey

Pocket, in its different shades, matches with extreme confidence with several ambiances and materials.

Aluminium grey, white and anthracite grey are the colours selected for the standard versions.

On request (with surcharge) Pocket can also be ordered in the other standard colours available in Simes catalogue or in any RAL colours:

.20 Burnished bronze

.09 Black

.07 Dark green

 RAL

The range in three dimensions

From square to rectangular:
Pocket has now evolved
into a new dimension.

The new shape extends project applications of this range with a more performing option. In addition, the rectangular version allows to integrate a DALI driver (on request with surcharge).

MINIPOCKET

S.1851W
MID-POWER LED **3000K** CRI90 1293lm
Rated luminaire luminous flux 682lm
Rated input power 9,9W
220V-240V AC 50/60Hz / DC Not Dimmable
2700K CRI90 led versions available on request.

POCKET

S.1861W
MID-POWER LED **3000K** CRI90 2425lm
Rated luminaire luminous flux 1362lm
Rated input power 19,4W

2700K CRI90 led versions available on request.

POCKET RECTANGULAR

S.1871W
MID-POWER LED **3000K** CRI90 3500lm
Rated luminaire luminous flux 1886lm
Rated input power 27,4W
220V-240V AC 50/60Hz / DC Not Dimmable
2700K CRI90 led versions available on request.
Version with **DALI** power supply available on request with surcharge.

Timeless
elegance

An outdoor luminaire able to merge in total harmony with both classical and contemporary architecture.

Its minimal design allows Pocket to be used in different applications. In residential areas it can be installed on a facade to underline an entrance, to light up a patio or to highlight the perimeter of a building. In public contexts it is perfectly suitable to enhance accommodation facilities for hospitality, bars and restaurants.

This luminaire matches well with modern architectures, but not only. Pocket, with its simple and essential lines, blends with a perfect balance also with historical and classical facades, that are rich in details.
