Specialized Equipment
for Specialty Healthcare

Innovating to meet healthcare's biggest challenges

In the demanding world of specialty care, where your equipment can impact patient outcomes and caregiver satisfaction, you're challenged to provide top-tier care while using equipment you never have to think about; equipment that should simplify and enhance your practice.

MTI understands these challenges personally. We've spent over 27 years working hand in hand with medical and dental professionals, listening to what truly matters in your practice. Our products are designed and manufactured in the USA, with the guidance of caregivers like you, ensuring they meet the unique demands of your specialty. Today, our equipment is trusted in hundreds of thousands of care visits every day, a testament to our commitment to quality and innovation.

Premium Experience Comes Standard

The MTI 461 and 403 Exam Chairs combine advanced programmability, smooth powered positioning, and exceptional patient comfort in a durable, value-driven design. Engineered with powered lift and back functions, soft start/stop motion control, and caregiver-focused accessibility, both chairs help create a safer, more efficient exam experience. Whether selecting the 461 with its coordinated powered footrest or the 403 with its streamlined fixed foot loop, providers can expect premium performance, reliability, and comfort.

Determining your workflow

Coordinated Back & Footrest

The 461 features a powered back with coordinated footrest that reclines with the backrest. The footrest flips up — with a cushioned back for comfort — to support patients in seated, prone, or supine positions while improving access around the chair.

461
Coordinated Back & Leg Rest with Flip-Up Footrest

Looped Footrest

The 403 includes a fixed stainless steel looped footrest set at a comfortable angle to support patients' feet.

403
Fixed-position Looped Footrest

Improve Your Care Experience

The 461 and 403 Exam Chairs are MTI's latest fully-powered, programmable exam chairs delivering comfort, safety, and excellent patient access while providing exceptional value. Engineered with powered lift and back functions and Soft Start/Stop motion control, they reduce caregiver strain while improving the patient experience.

Easily Accessible Swivel Lever
Standard high quality stainless-steel levers are placed on both sides of the seat to effortlessly lock and unlock the free gliding swivel. Specially designed for easy, unobtrusive, and safe access.

Flip-up Floating Arms
The flip-up compensating arms included provide easy ingress and egress for patients. The arms remain in parallel with the seat section as the chairs recline to keep patients' arms comfortable.

Premium Features

MTI's 461 and 403 have been built to be more economical choices for our customers, but still include the quality you come to expect from all MTI products.

EasyView™ Membrane Switches

Chair back mounted membrane switches are visible even when in the reclined position. EasyView™ switches allow control over lift and back movement including 2 memory positions and home at the touch of a button.

Headrests

The 461 Exam Chair comes standard with an oval articulating headrest while the 403 is equipped with an oval non-articulating headrest. Additional headrest cushions are also available for quick and easy cushion changes with a simple twist of a knob.

Use of alternate headrests on the 403 requires purchase of headrest lock mechanism.
