

ABOUT US

Founded in 2012, StarTek is a family owned and operated Made in America company that designs, engineers, and manufactures architectural lighting solutions for commercial, institutional, retail, and recreational applications. StarTek is your choice for smart, high-performance fixtures with sleek, contemporary designs.

OUR MISSION

To deliver our customers Made in America lighting solutions with a superior value proposition based on product design, performance and local service/support.

DEAR CUSTOMERS

StarTek embodies a customer centric culture. At StarTek, we prioritize quality so you don't have to worry about the life span of our products.
