

SportsArt

PERFORMANCE SERIES STRENGTH
SELECTORIZED | DUAL FUNCTION | FREE WEIGHT

The P800 Series by SportsArt combines quality and value in a simple, easy-to-use strength line designed to fit any budget. Each unit is built using the highest quality materials and backed by over 40 years of excellence in fitness equipment manufacturing. The lowered stack height and compact footprint help to avoid visual clutter in smaller spaces, while adjustable seats and range-of-motion limiters ensure movements are comfortable and biomechanically correct. The result is a durable, value-engineered line that delivers maximum results in a compact design.

The P800 Series consists of individual stations designed to train all the major muscle groups while offering the variety necessary to help users reach their goals. The machines are easy to use and provide a challenging workout that accommodates users of all levels, from beginners to advanced trainers.

KEY FEATURES

Low-profile weight stack tower with front and back protective shrouds maintain a clean, consistent design aesthetic and protect users from moving parts, providing a practical safety aspect to any fitness center.

Specially-designed cams follow an appropriate strength curve to match load and joint position—providing a more efficient workout while range limiting devices allow for the perfect unit setup—ideal for rehabilitation or sport-specific training.

The premium precision steel plates incorporate a sound dampening system.

Magnetized weight selector instantly locks into place, providing an easy-to-use and secure operation while the unique fork style design delivers more stability than selector pin alternatives.

Contoured and molded seat pads provide comfort and ergonomic support for a variety of movements. Marine grade upholstery is tear resistant and available in a variety of color combinations to compliment any gym decor.

P812 BICEP CURL

- Seat bottom adjustment provides for proper positioning
- Weight stack placement allows easy load adjustment
- Specially designed cams follow an appropriate strength curve to match load and joint position—providing a more efficient workout
- Stabilizer pads ensure the exerciser's body is held in a comfortable position and is able to focus on activating target muscle groups

P815 CHEST PRESS

- Simple seat bottom height and back rest adjustment creates a quick setup
- Multi-position, cushioned handles provide ergonomic grip positions

P817 SHOULDER PRESS

- Simple seat bottom height adjustment creates a quick setup
- Dual position, cushioned handles provide ergonomic grip positions

UPPER BODY

P821 MID ROW

- Convenient seat height adjustment accommodates various heights
- Chest pad adjust to suit different arm lengths
- Rotating handles provide a comfortable movement pattern during exercise

P826 LAT PULLDOWN

- Ergonomically curved bar provides wide or narrow grip options
- Adjustable thigh pad allows for optimal positioning

P833 PEC DECK

- Specially designed cams provide unparalleled ergonomics throughout the entire motion; offering a perfect start, strong finish, and smooth resistance for human biomechanics
- Convenient seat height and back rest adjustment suits people of various heights
- Ergonomic handle design is comfortable in both pec fly and rear deltoid positions

CORE

P831 ABDOMINAL CRUNCH

- Adjustable chest cushion help users maintain correct posture and select multiple starting positions
- Specially designed cams follow an appropriate strength curve to match load and joint position—providing a more efficient workout

P835 ROTARY TORSO

- Convenient seat height adjustment suits people of various heights
- Stabilizer pads ensure the exerciser's body is held in a comfortable position and is able to focus on activating target muscle groups

P855 GLUTE

- Non-slip footplate
- Stabilizer pads and adjustable chest pad ensure the exerciser's body is held in a comfortable position and is able to focus on activating target muscle groups

P858 PRONE LEG CURL

- Specially designed cams follow an appropriate strength curve to match load and joint position—providing a more efficient workout
- Handlebars provide maximum stability
- Range limiting devices allow for the perfect unit setup – ideal for rehabilitation or sport-specific training

P857 LEG EXTENSION

- Adjustable seat back cushion maintains correct posture
- Adjustable leg cushion provides optimal comfort for various leg lengths
- Multiple starting positions for full range of motion
- Specially designed cams follow an appropriate strength curve to match load and joint position—providing a more efficient workout
- Range limiting devices allow for the perfect unit setup—ideal for rehabilitation or sport-specific training

P859 LEG CURL

- Adjustable seat back cushion maintains correct posture
- Adjustable leg cushion provides optimal comfort for various leg lengths
- Multiple starting positions for full range of motion
- Specially designed cams follow an appropriate strength curve to match load and joint position—providing a more efficient workout
- Range limiting devices allow for the perfect unit setup—ideal for rehabilitation or sport-specific training

A93 FUNCTIONAL TRAINER

Tower Features

- Three sets of rotating pulleys deliver maximum training options
- All pulleys are deep-grooved and shrouded to keep cables tracking properly
- Weight stack delivers smooth, silent operation
- Total Motion Technology™ provides three sets of rotational pullies for a wide variety of exercises
- Wide variety of accessory handles and carabiners come standard

Bench Features

- Multi-position bench quickly and easily adjusts from flat to multiple inclines to shoulder press positions
- Adjustable lat hold down pads fit a wide variety of users
- Bench has transport wheels and EZ Lift handle

P871 CABLE CROSSOVER

- Dual swivel pulleys adjust vertically and lock into place, allowing for functional training from virtually any angle
- 36 incremental adjustments for the ultimate in customization
- Easy grip bars stabilize during balance challenging workouts
- 4:1 (one hand) and 2:1 (two hand) ratios provide versatility for personal and sport-specific training

P873 CABLE TOWER

- Dual swivel pulleys adjust vertically and lock into place, allowing for functional training from virtually any angle
- 36 incremental adjustments for the ultimate in customization
- Easy grip bars stabilize during balance challenging workouts
- 4:1 (one hand) and 2:1 (two hand) ratios provide versatility for personal and sport-specific training

The Dual Function Series by SportsArt combines quality and value in a simple, easy-to-use strength line designed to fit any budget. Each unit is built using the highest quality materials and backed by over 40 years of excellence in fitness equipment manufacturing. The compact footprint helps to avoid visual clutter in smaller spaces, while adjustable seats and range-of-motion limiters ensure movements are comfortable and biomechanically correct. The result is a durable, value-engineered line that delivers maximum results in a compact design.

KEY FEATURES

The Dual Function Series is designed specifically to accommodate smaller spaces and budgets without compromising quality, warranty, or comfort. It is the only line in this category to feature a DirectDrive™ dual-cam system, providing unparalleled ergonomics all the way through the exercise.

Specially designed cams follow an appropriate strength curve to match load and joint position—providing a more efficient workout while range limiting devices allow for the perfect unit setup—ideal for rehabilitation or sport-specific training

Our unique dual function push-pull design is the ideal product for your space, combining two motions in one beautifully designed machine.

Magnetized weight selector instantly locks into place, providing an easy-to-use and secure operation while the unique fork style design delivers more stability than selector pin alternatives.

Contoured and molded seat pads provide comfort and ergonomic support for a variety of movements. Marine grade upholstery is tear resistant and available in a variety of color combinations to compliment any gym decor.

DF303 LAT PULLDOWN/MID ROW

- Multi-position handlebars work different areas of the back and chest
- Adjustable seat, chest, and thigh pads accommodate different heights
- Foot rests for stabilization
- Plate increments: 8 x 11 lbs (5 kg); 8 x 16.5 lbs (7.5 kg)

DF304 PEC FLY/REAR DELTOID

- Multiple starting positions
- Ergonomic handle for both pec fly and rear deltoid exercises
- Adjustable seat
- Unilateral movements allow for training variability, progression, and balanced strengthening
- Specially designed cams follow an appropriate strength curve to match load and joint position, providing a more efficient workout
- Plate increments: 8 x 11 lbs (5 kg); 8 x 16.5 lbs (7.5 kg)

UPPER BODY

DF305 BICEP/TRICEP

- Direct drive system offers two opposing cams for less cable-slack and faster workout changeover
- Seat back and bottom are adjustable to accommodate different heights
- Heavy duty arm pad with chest support
- Specially designed cams follow an appropriate strength curve to match load and joint position, providing a more efficient workout
- Plate increments: 20 x 11 lbs (5 kg)

DF308 MULTI PRESS

- Multi-position grip for improved biomechanics
- Adjustable starting position targets different muscle groups
- Innovative slide-out seat offers multiple lifting positions
- Unilateral movements allow for training variability, progression, and balanced strengthening
- Plate increments: 20 x 11 lbs (5 kg)

DF307 ASSISTED CHIN-UP/TRICEP DIP

- Fold-away assist pad to offset user weight
- Rotating dip handles for width adjustment
- Integrated step assists for safety and user accommodation
- Plate increments: 20 x 11 lbs (5 kg)

DF306 BACK EXTENSION/AB CRUNCH

- Direct drive system offers two opposing cams for less cable-slop and faster workout changeover
- Fully adjustable chest/back pad
- Multiple foot supports for greater stability
- Range limiting devices allow for the perfect unit setup, ideal for rehabilitation or sport-specific training
- Plate increments: 20 x 11 lbs (5 kg)

LOWER BODY

DF300 LEG EXTENSION/CURL

- Direct drive system offers two opposing cams for less cable-slack and faster workout changeover
- Easy transition from leg extension to seated leg curl
- Adjustable seat back and leg pads for user customization
- Specially designed cams follow an appropriate strength curve to match load and joint position, providing a more efficient workout
- Range limiting devices allow for the perfect unit setup, ideal for rehabilitation or sport-specific training
- Plate increments: 20 x 11 lbs (5 kg)

DF301 LEG PRESS/CALF EXTENSION

- Step-through design for safe and easy access
- 1:2 pulley ratio to increase resistance
- Fully adjustable seat back to accommodate users of different heights
- Plate increments: 8 x 11 lbs (5 kg); 8 x 16.5 lbs (7.5 kg)

DF302 ABDUCTOR/ADDUCTOR

- Direct drive system offers two opposing cams for less cable-slop and faster workout changeover
- Convenient rotating thigh pads
- Range limiting devices allow for the perfect unit setup, ideal for rehabilitation or sport-specific training
- Stabilizer pads ensure the exerciser's body is held in a comfortable position and is able to focus on activating target muscle groups
- Plate increments: 13 x 11 lbs (5 kg)

SportsArt Free Weight Series is comprised of durable units designed with easy-to-use functionality and premium features, such as gas-assisted/multi-point adjustments, high quality upholstery and a high degree of variability to fit a variety of users.

KEY FEATURES

Durable, welded steel frame units that provide exercisers with a stable, comfortable, and safe workout environment. Allowing users to focus on effective workouts that meet their needs.

Multiple adjustment points for user convenience and comfort.

Contoured and molded seat pads provide comfort and ergonomic support for a variety of movements. Marine grade upholstery is tear resistant and available in a variety of color combinations to compliment any gym decor.

A901 DUMBBELL RACK

- Welded steel frame
- Holds 10-pairs of dumbbells
- Rubber coated stirrups protect dumbbells

A902 OLYMPIC PLATE TREE

- Welded steel frame
- 12 weight horns for ample weight storage
- 360° access

A903 DUMBBELL RACK

- Welded steel frame
- Holds 10 pairs of dumbbells

RACKS

A965 SQUAT RACK

- 6 rack heights
- Large safety catch
- Ergonomically angled uprights
- 8 weight horns for ample weight storage
- Hooks and catches have protective coverings to minimize noise and reduce wear on units

A966 POWER CAGE

- Adjustable J-hooks
- Adjustable safety bars
- 8 weight horns for weight storage
- Variable grip pull-up bar
- Resistance band hooks and pegs
- Suspension trainer anchor points
- Hooks and catches have protective coverings to minimize noise and reduce wear on units
- 19 safety bar adjustment points

A967 HALF CAGE

- Adjustable J-hooks
- Adjustable safety bars
- 8 weight horns for weight storage
- Variable grip pull-up bar
- Open rack for overhead lifts
- Resistance band hooks and pegs
- Hooks and catches have protective coverings to minimize noise and reduce wear on units
- 19 safety bar adjustment points

BENCHES

A991 ADJUSTABLE BENCH

- Welded steel frame
- High-density foam pads for comfort and support
- Comfortable grip handle and wheels for easy relocation

A992 FLAT BENCH

- Welded steel frame
- High-density foam pads for comfort and support
- Comfortable grip handle and wheels for easy relocation

A993 BACK HYPEREXTENSION

- Welded steel frame
- High-density foam pads for comfort and support
- Adjustable thigh pads fits a variety of users
- Comfortable grip handle and wheels for easy relocation

BENCHES

A994 LEG RAISE/CHIN-UP DIP

- High quality cushions at the backrest and forearm to comfortably stabilize the user during operation
- Sturdy construction, welded steel frame
- Step-up point for safe entry and exit
- Multi-position handles for training variability

A997 OLYMPIC DECLINE BENCH

- Welded steel frame
- High-density foam pads for comfort and support
- Hooks and catches have protective coverings to minimize noise and reduce wear on units
- Three support heights to accommodate any user size

A995 CRUNCH BENCH

- Welded steel frame
- High-density foam pads for comfort and support
- Bench angle and leg pads adjust for a variety of training options

A998 OLYMPIC INCLINE BENCH

- Welded steel frame
- High-density foam pads for comfort and support
- Hooks and catches have protective coverings to minimize noise and reduce wear on units
- Three support heights to accommodate any user size
- Spotter platform increases exercise safety
- Adjustable seat height fits a variety of users

A996 OLYMPIC FLAT BENCH

- Welded steel frame
- High-density foam pads for comfort and support
- Hooks and catches have protective coverings to minimize noise and reduce wear on units
- Three support heights to accommodate any user size

A999 PREACHER CURL BENCH

- Welded steel frame
- High-density foam pads for comfort and support
- Adjustable seat
- Hooks and catches have protective coverings to minimize noise and reduce wear on units
