STYLES

Straight

Sports tickers can be built to any length. We start at 4 foot and can expand in as little as 7-inch increments to as long as you need. While the average sports ticker is around 30 feet in length, we have built displays several hundred feet long for sports environments.

Curved / Flexible

Don't assume your sports ticker has to be mounted on a flat surface. We can bend your sports ticker to fit almost any surface, serpentine, concave, or convex. The cabinet is flexible and designed to form your shape on-site, no custom engineering required.

Circular

We can wrap circular, oval, and elliptical surfaces as tight as a 3-foot radius. The circular designs can be on the inside or outside of the circle attached to an existing structure or suspended from the ceiling.

SPECIFICATIONS

32 Pixel (6")

- Cabinet Height: 5.8 in.
- Cabinet Width: Starts at 48 in.
- Cabinet Depth: 1.9 in. (with wall mount 4 to 7.5 in.)
- Pixel Pitch: .16 in. (4mm)
- Weight: 2 pounds per ft.
- Max Power: 12.8 watts per ft. (1 outlet every 110 ft.)

48 Pixel (8")

- Cabinet Height: 8.3 in.
- Cabinet Width: Starts at 48 in.
- Cabinet Depth: 1.9 in. (with wall mount 4 to 7.5 in.)
- Pixel Pitch: .16 in. (4mm)
- Weight: 3 pounds per ft.
- Max Power: 19.2 watts per ft. (1 outlet every 74 ft.)

64 Pixel (11")

- Cabinet Height: 10.9 in.
- Cabinet Width: Starts at 48 in.
- Cabinet Depth: 1.9 in. (with wall mount 4 to 7.5 in.)
- Pixel Pitch: .16 in. (4mm)
- Weight: 4.2 pounds per ft.
- Max Power: 25.6 watts per ft. (1 outlet every 56 ft.)

APPLICATIONS

Casinos

Your customers can't always make it to the big game. They want to feel like they are experiencing it and want the latest scores and all the sports stats available. Adding an LED sports ticker display to your venue or home keeps your guests in the center of the excitement.

Sports Bars

There are a lot of sports bars to choose from. What makes yours special and how can you make yours the mainstage for game day? Don't let your customers head down the street leaving you with empty seats, extra food, and no profits.

Lobbies

So you have the opportunity to create a new space and the last thing you want it to be is boring. Whether you are building a new facility or simply renovating your current space, there's no better way to modernize it than by incorporating a ticker display.

RISE TICKER APP

Ticker Management

- At a glance see if your display is online/offline
- Set power save schedule (on/off)

Subscription Cost

- Ticker App for messaging \$20/mo.
- Ticker App with Sports or Finance \$40/mo.
- Ticker App with Sports & Finance \$50/mo.
- 10% discount for 3 year prepay
- 20% discount for 5 year prepay
- Perpetual licenses available

WHY RISE?

Our decades of experience installing ticker displays ensure it is easy for our customers to get exactly what they want. You can always find a cheap LED product, but we have integrated quality hardware and content to get rid of the headaches and confusion.

So why should you buy a quality product from Rise Display?

1. **A complete solution** – We are a one stop shop for not only the hardware and software but also the data feeds, installation, and all of the ongoing support. Why does this matter to you? It means if you have questions or anything goes wrong the buck stops with us.
2. **Quality** – We are so confident in the quality of our solution, we back it up with a full 5 year on-site warranty to provide you complete peace of mind.
3. **Engaging content** – We make it easy to insert your messages along with licensed data compliant with the exchanges and providers. This means your content is legally obtained and curated by our newsroom that monitors the integrity of the information.

ABOUT RISE DISPLAY

Rise Display was created in 1992 in a joint venture with Reuters to create a software tool for displaying real-time financial information on LED wallboards. In 2001 Rise evolved from a software provider to offering a complete solution consisting of the hardware, software, and data feeds to financial and education clients. In 2008 Rise improved the tri color (red, green, yellow) ticker technology to full color (65,000+ shades) and made it fully graphical to show quality logos.

We have been passionate about live data and how to display it on LED signs for several decades. That's why every decision we've made has been geared toward reliability.

We have helped thousands of clients just like you establish credibility with live sports score tickers and stock quotes to motivate students, visitors, and customers. Over the last 10 years we've installed nearly 100,000 feet of ticker displays across North America.

In May of 2021 we were acquired by Skybox Sports Network enabling us to bring new content and display packages to ticker customers everywhere.
