The Rastelli Rubinetterie catalogue includes a wide selection of components for fluid control and management.

Our production of brass and bronze valves and fittings serves the **hydraulic, industrial and agricultural sectors** and is organized into four main product categories:

All products undergo **leak, pressure and durability testing** in accordance with international standards.

OUR PHILOSOPHY

Rastelli Rubinetterie's corporate philosophy is based on three guiding principles: **quality, continuity and reliability**. Every product is the result of an industrial approach focused on mechanical precision and constant monitoring of **each production phase**, from the selection of raw materials to final finishing. The Rastelli brand is synonymous with **Made in Italy**, expressed through technical competence, structural solidity and compliance with European regulations. The pursuit of efficient and durable solutions ensures **consistent long-term performance**, reducing maintenance costs and increasing system reliability.

MARKETS AND CLIENTS

Rastelli exports its products to **over 70 countries worldwide**, delivering Italian quality through a consolidated network of distributors and commercial partners. The company regularly participates in major **international industry trade fairs**, strengthening relationships with operators and buyers around the world. The combination of **production flexibility** and **reliable logistics** enables prompt responses to the demands of global markets.

CERTIFICATIONS AND STANDARDS

Rastelli Rubinetterie operates with a **management system certified according to ISO 9001 and ISO 14001**, ensuring quality control and responsible production processes.

All activities comply with **European regulations** concerning safety, materials and performance, guaranteeing consistent and compliant products.

A strong quality culture is embedded in the organization and guides every operational phase, from the selection of raw materials to final testing.
