

LIBRA OVAL 6635

# THE BEAUTY OF BALANCE

BainUltra expands collection with elegant Libra Oval.

(Québec, Canada. June 15, 2022) BainUltra brings symmetry to their Libra Collection with the addition of a second freestanding tub – the Libra Oval 6635. This newest iteration features the same harmonious flow and celestial inspiration that is a signature of the Libra line and adds a graceful oval-shaped shell with raised ends. The look is elegant and refined, allowing the simple purity of classic design to elevate the entire bathroom into a sanctuary of wellness and relaxation.

The Libra Oval is slightly larger than its counterpart, measuring a generous 66" x 35" x 27" with longer and deeper dimensions that easily accommodate two bathers. Symmetrical raised ends provide comfortable headrests while molded armrests ensure a supremely restful bathing experience. The exterior of the tub is deliberately unembellished to allow the sleek silhouette to shine. The Libra Oval is crafted from 100% pure acrylic and meticulously polished by hand to create a non-porous surface that is exceedingly durable and easy to maintain. Choose from a beautiful glossy white finish, a dramatic black and white combination, or the brand's sumptuous UltraVelour matte finish.

BainUltra extends the full range of their luxurious therapy options to the newest Libra model in two distinct configurations. As part of the Thermomasseur® collection, the bath is equipped with a heated backrest and the Geysair® hot air system with 42 adjustable jets to surround the bather in blissfully warm bubbling water that provides an incredible hydro-thermo massage. In addition, the new BU-TOUCH is included, which is a simple way to activate all the options for the bath from your mobile device. As a soaker tub, Libra is offered with an optional WarmTouchShell® with targeted heating zones built into the inner shell. Both versions are eligible for the brand's exclusive Illuzio chromatherapy system that allows soothing lights to glow from within the tub's walls for unparalleled sensory indulgence.
