# The complete guide to hansgrohe mixers, showers and installation systems

---

hansgrohe bathroom range

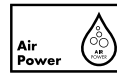

## Technologies

Simply regulates the water flow at the touch of a button: a convenient way to turn the shower on and off or switch between spray modes.

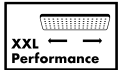

Reduces the flow rate to save water and energy. For long-lasting pleasure.

Combines water with a generous amount of air. For a soft, splash-free water spray and rich, full shower drops.

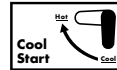

Wipe limescale deposits away easily by rubbing your finger over the flexible silicone nubs.

Distributes the water over the large spray face enveloping the whole body in drops of well-being.

Defines the useable area between washstand and mixer. Something to suit every customer.

Cold water starts to flow when it is opened in the basic setting. You consume hot water only when you need it.

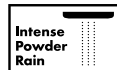

Cools through the controlled flow of cold water to stop the product getting hot. For even safer showering.

## Spray modes

A unique shower experience thanks to the soft caress of micro droplets.

Intense jet of micro-fine droplets for sensational showering.

Full shower rain, ideal for washing hair.

Tremendous showering pleasure over a larger area.

Gentle shower rain with air-enriched drops.

Large jet envelops your whole body in soft droplets.

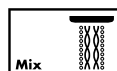

An intense jet of water that activates and wakes you up.

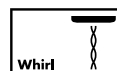

Intensive shower rain that refreshes and rejuvenates.

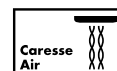

A soft water spray that caresses the body for that feel-good sensation.

The harmonious combination of gentle shower drops and dynamic spray.

Concentrated targeted massage spray.

Boosts energy after a challenging day.

A strong massage spray that invigorates and soothes aching muscles.

Focussed jet for a soothing, feel-good shower.

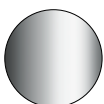

Powerful flood jet for generous coverage.

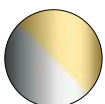

Generous flow of soft sprays.

# HANSGROHE BECAUSE

---

Meet the beauty of water.

Water moments that delight

# From the outset we blazed a trail in the handling of water

At hansgrohe, we stand for modern design and refreshingly high quality products. For 118 years, we've been shaping the landscape of bathrooms and kitchens to make life easier, better and more beautiful for you. To this day, we continue to make most of our

products in the heart of the Black Forrest – as a commitment to our “Engineered in Germany” quality guarantee, ensuring the best products for you. Our determination to enhance the beauty of water and every aspect of your experience knows no bounds. Innovation

combined with brilliantly simple, ultra-reliable technology ensures we create timeless and sophisticated products. hansgrohe: innovative in any era since 1901.

Excellence in innovation, design, quality and service

# hansgrohe: our name is your guarantee

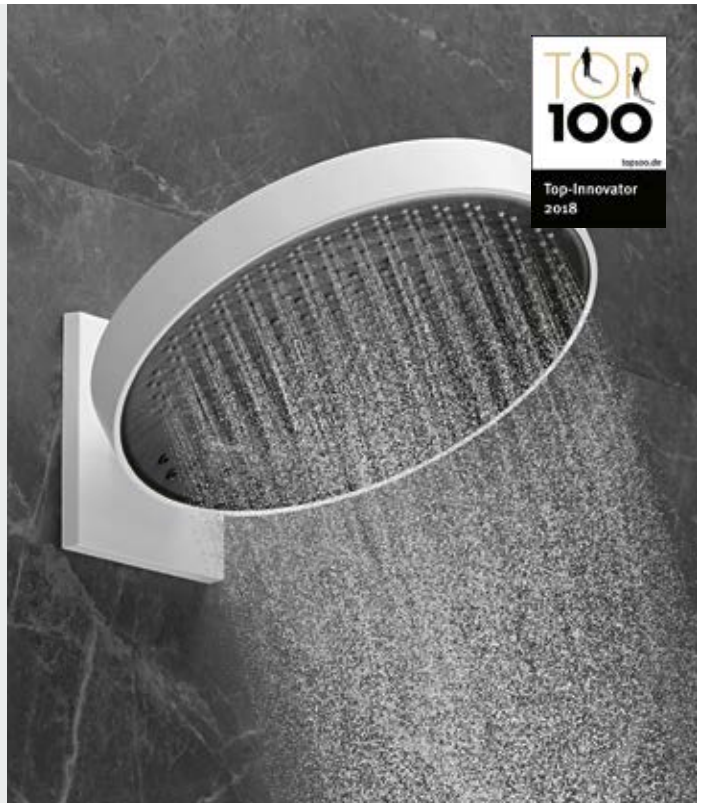

## Innovation

- **Revolutionary innovations**
- **Pioneers in the sanitation industry**
- **Ground-breaking technologies**

At hansgrohe, we don't just innovate, we revolutionise. Some of our product developments have made history in the industry and changed how people all over the world encounter water, every day. We care deeply about you and your enjoyment of our products, in both aesthetics and performance. We have our own dedicated research and development laboratory in the centre of the German Black Forest. Here, our industry experts have worked to produce more than 16,000 active patents, ensuring that hansgrohe remains an industry leader and achieving a TOP 100 award for Top Innovator 2018.

For more on innovation, see page 8

## Design

- **More than 600 awards**
- **A design for every style**
- **International reference projects**

Design can be defined in a number of ways: shape, aesthetic, style. But, at hansgrohe, good design means more than just good looks. As well as world-class appearance, our influential designers also focus on quality and maximum customer benefit. It's our unwavering attention to detail that has earned more than 500 internationally renowned awards. From the big picture to the small details, we take every opportunity to make your bathroom experience the best it can be with our technical innovations. Whether it's Modern, Classic or Avantgarde, we have the perfect solution to suit any need and, most importantly, our timeless designs will outlive fast-paced fashion trends.

For more on design, see page 10

## Quality

- **Experts since 1901**
- **Made in Germany**
- **5 year guarantee**

Since 1901, people all over the world have put their trust in hansgrohe's durable products from the heart of the German Black Forest. hansgrohe is synonymous with high-quality products of exceptional design, ease of use and intelligent functions. Since our foundation, 'Engineered in Germany' has been a recipe for success and remains an integral part of our philosophy. This level of German expertise is recognised as a guarantee of excellence and every one of our facilities works to the high standards that we set. As testament to this, we offer a 5-year guarantee and hold spare parts for discontinued products for a further 15 years.

For more on quality, see page 12

## Service

- **Contactable and reliable**
- **Informative and involved**
- **Plan and enjoy**

Customer satisfaction has, and always will be, our primary concern. At hansgrohe, we want to work in partnership with you to ensure the best possible solution. Being able to deliver top-quality, personal service to our customers at all times is a key part of how we operate as a company. No matter the question, problem or special request, we are here to help.

For more on service, see page 14

Looking ahead, going ahead

# Innovation – overflowing with ideas

Without hansgrohe, the modern bathroom would be unrecognisable. Our company founder, Hans Grohe, revolutionised the space with his inventions, pioneering spirit

and craftsmanship. His ground-breaking innovations include the hand shower, the shower rail, Select technology and the one-of-a-kind PowderRain spray. More than a century

after the company was founded, meticulous detail is still our driving force. Our bathroom and kitchen specialists in the German Black Forest are never content with the status quo

Practical hose coiling system for a tidy look and more convenience.

**2019**

**FinishPlus**

High-quality finishes provide a variety of design options.

**2019**

**Rainfinity**

The ultimate in showering indulgence. The new dimension in showering.

Distinguished in many respects

# Multi-award-winning design

Design isn't just a matter of taste. It's an attitude. The search for the most intelligent solution is always a goal for us. After all, design and functionality must go hand in hand in order to create products with stunning, extraordinary quality that redefine aesthetic

standards. As such, we are constantly working on outstanding creations in collaboration with the Phoenix Design team, who have won a whole host of international awards. Our products are timeless, beautiful and highly functional. The awards that we receive year in,

year out from international panels of experts make us a leading designer in the industry. Our products have already won more than 600 awards and 50 international design prizes, including the iF Design Award; one of the world's most prestigious design awards.

**Phoenix Design** has been shaping the face of hansgrohe for more than 30 years. The Stuttgart-based team exclusively curate designs for the entire shower and tap range. Over the past few decades, the team have been responsible for a long line of products featuring both technological and visual sophistications that will continue to enhance the beauty of water for years to come.

## hansgrohe is all about revered design:

We received the first design award in our history in 1974 for the TRIBEL model; the first convertible hand shower with three

different spray modes. Since then, numerous other international prizes have celebrated the successful combination of form and function in

our products, as well as the highly sustainable electroplating method used to create the surface finishes on our showers and taps.

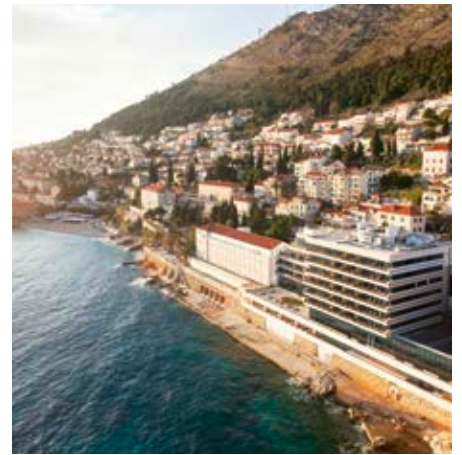

International reference projects

# At home the world over

All over the world, developers and investors work hand in hand with architects and planners on sophisticated projects. They are constantly in need of intelligent and aesthetically appealing solutions for handling

the essential element water. The mixers, showers and bathroom collections from the Black Forest lend top addresses that definite extra design and comfort: in impressive hotels and public buildings, in private residences and royal

palaces, in exclusive sports clubs and in cruise ships and luxury yachts. For more inspiring examples visit **ispecify.hansgrohe.com**

Satisfyingly high standards

# Quality – clear benefits to quality workmanship

Since day one, the enjoyment of our products has been one of our main aims; perfection in form and function is, and has always been, our standard. At hansgrohe, quality means one thing above all else: high-class workmanship. Always creating the

highest quality products defines our approach to modern design, manufacturing and performance. We only use the best materials and manufacture our products using state-of-the-art technology alongside human expertise to transform them into items with consistent and

long-term value. Every product is tested by trained and experienced staff before dispatch. hansgrohe workmanship guarantees reliable added value for you, as well as our retail and specialist trade partners.

## **Firmly rooted in our home country**

For almost 120 years, we've been loyal to our production site in Schiltach, Germany, and we remain one of the biggest employers in the region. Whilst our ambitions are global, our roots are local.

**Inspiration on the doorstep**

Tranquil lakes, clear streams and powerful waterfalls are all part of the German Black Forest’s distinctive charm. We find fresh new ideas for innovative ways to work with water day after day here. Having the countryside on our doorstep shapes our mindset and constantly makes us more and more aware that we need to be responsible and sustainable whilst working with the most precious of resources. hansgrohe has spent decades as a pioneer and trailblazer of water and energy-saving technologies, as well as environmentally-friendly production.

**Water in its best form**

Our experts develop the best spray for each product in our very own sound and spray laboratory. They always consider two key things that they know are important to you – ease of cleaning and water-efficiency.

**Tradition meets innovation**

Here at hansgrohe, we can build on the experience of three generations. With German engineering on our side, we can look to the future to create timeless, quality products using the latest production technologies.

**Ultimately, it’s the human factor that counts**

hansgrohe produces to the highest technical standard, but the benchmark for our standards is set by people. So, every single product is carefully checked by a real person before it leaves the German Black Forest.

Genuine added value

# Service – contactable and reliable

Customer satisfaction is always a priority at hansgrohe; we always offer our customers the best quality and service tailored

to them as an individual. You can always rely on qualified technical and sales advice from our employees wherever you are, at all times. With

hansgrohe you get service from professionals, for professionals.

## Field Service

Our sales team will be by your side throughout your journey. A member of the team will always be on hand to answer any and all questions regarding our products.

## In house Sales Service

You can phone, email or fax hansgrohe customer advisers for individual technical and commercial support.

Service hours  
Monday – Friday: 9.00 am – 5.00 pm  
Phone: +49 7836 51-0  
Fax: +49 7836 51-1300  
E-mail: [info@hansgrohe.com](mailto:info@hansgrohe.com)

## Technical Service

Our service specialists are trained engineers, so they are in an excellent position to deal with any technical issue you may encounter. If something cannot be explained on the telephone or via e-mail, you can even request an on-site visit from a specialist in building services.

Service hours  
Monday – Friday: 9.00 am – 5.00 pm  
Phone: +49 7836 51-1282  
Fax: +49 7836 51-1440  
E-Mail: [info@hansgrohe.com](mailto:info@hansgrohe.com)

## Online spare parts shop

All parts in detail: The electronic spare parts catalogue lets you find and purchase spare and special parts with particular ease. In addition, you will benefit from other functions like dimension drawings, links between drawings and service parts, a checklist and downloads of installation and service instructions.

[spares.hansgrohe.com](https://spares.hansgrohe.com)

## Special services and logistics

At hansgrohe, we will do all we can to satisfy your individual needs. Express delivery (no matter the distance), 24-hour spare parts service, excellent product availability, routine-optimised delivery, standardised cardboard packaging to make the ordering process and delivery as simple as possible plus a 5-year guarantee and assurance that spare parts for discontinued products are held for a further 15 years all come as standard.

A recipe for success

# Service – informative and involved

You need to be one step ahead of the competition if you want to remain at the cutting edge of product and technological development. This includes everything from

the core business to effective marketing, personnel management and further training. We provide a comprehensive range of support so that specialist partners always have

the most up-to-date information and are best equipped with everything they need to deliver a service that matches our quality products.

## Courses, training and events

Know-how for you: we offer a wide range of courses, training and events in the most diverse areas such as new technologies, modern marketing instruments or operational or personnel management. At our own training centre, the Aquademie in Schiltach or on-site anywhere in the country.

**[pro.hansgrohe-int.com/aquademie](http://pro.hansgrohe-int.com/aquademie)**

## Comprehensive information

Always up-to-date: hansgrohe partners receive regular information on new products, marketing campaigns, sales campaigns, courses, events and company news. We address all the target groups, be they retail, trade or projects, individually.

## Website for professionals

We provide additional digital services on our website for specialist partners. For example: information on delivery periods, the online spare parts catalogue, Talisman account, price lists and marketing materials are just some of the benefits we offer. You can get the information you need, even if you are on-the-go or visiting a customer.

**[pro.hansgrohe-int.com](http://pro.hansgrohe-int.com)**

Good support

# Service – planning and calculations

Whether you need help choosing the right combination of products, optimising the way planning data is arranged or optimising savings, we will provide you with support on

everything you need to succeed, as well as cost-effectively, plan and calculate your bathroom projects, including innovative digital solutions.

## Planning data

We make a vast amount of information, such as dimensional drawings and 3D data, available online. For efficient building information modelling (BIM) across all trades, we supply all relevant data for key software applications. This includes geometry and positioning, materials and properties of the taps, showers, shower systems and installation technology. [pro.hansgrohe-int.com/service](http://pro.hansgrohe-int.com/service)

## ComfortZone test

Has your customer fallen in love with a tap, but is unsure whether it really goes with their wash basin? Do you want to know which of our taps match which wash basin? We'll support you and your customers with confidently stylish product pairings that have been technically reviewed in our Test Centre. You can find more information on ComfortZone and the ComfortZone test on page 183 or at [www.hansgrohe.com/comfortzone](http://www.hansgrohe.com/comfortzone)

## Savings Calculator

With our savings calculator, you can work out how much you'll save with EcoSmart technology in your taps and shower. You can also use it to figure out how soon your investment will pay off. Experts can visit [pro.savings.hansgrohe-int.com](http://pro.savings.hansgrohe-int.com). Beginners can go to [savings.hansgrohe-int.com](http://savings.hansgrohe-int.com)

## Project Support

Are you just about to start planning one or more bathroom projects and need help in planning the job or putting the work out to tender? Our project consultancy team would be happy to assist you.

# SHOWERS AND SHOWER CONTROLS

---

The wide range of products that fulfils all requirements

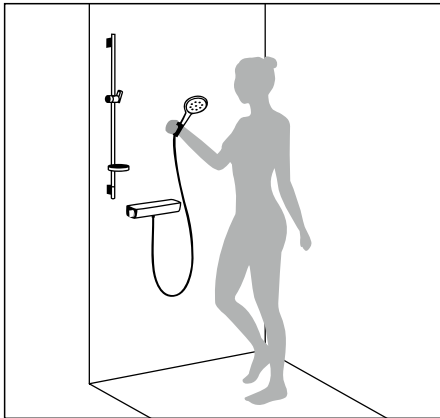

Shower installations

# As individual as your customers

When it comes to showering, everyone is unique. So, we offer a variety of shower combinations to make any wish a reality: from a simple overhead shower right through to

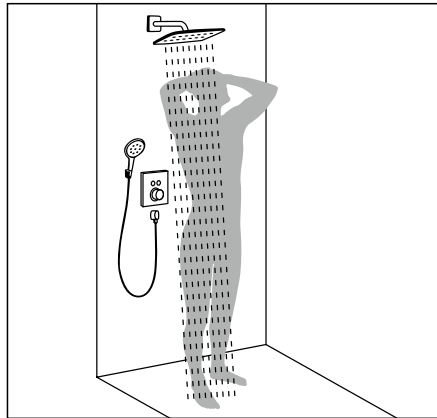

a full set that includes a thermostatic mixer, hand shower and overhead shower. Our installation options are also flexible. Whether you prefer concealed or exposed installation,

we have the perfect solution. We are also able to provide all-in-one showerpipe and shower panel systems to get more out of your shower, even in renovation projects.

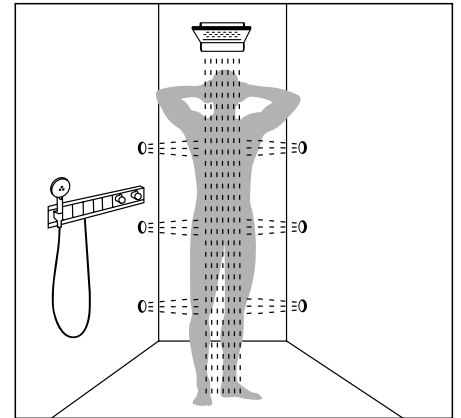

**Hand shower or shower set**

The basic solution is easy to install and gives you an indulgent shower experience.

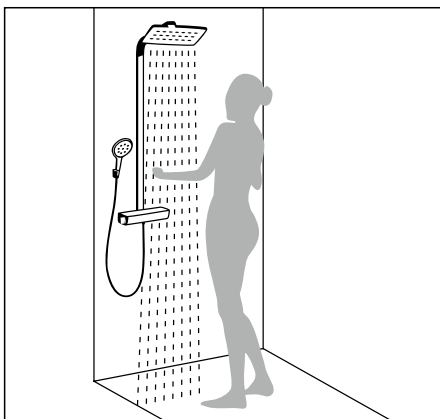

**Overhead shower**

For shower rain with the ability to move freely. The variants with extra large spray discs deliver extra comfort.

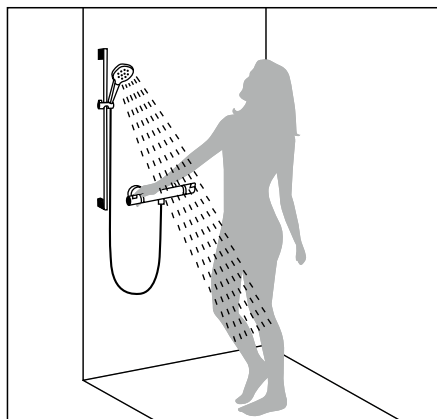

**Shower family**

The concealed solution for customised shower design. From the waterfall to the all-round indulgence of side showers.

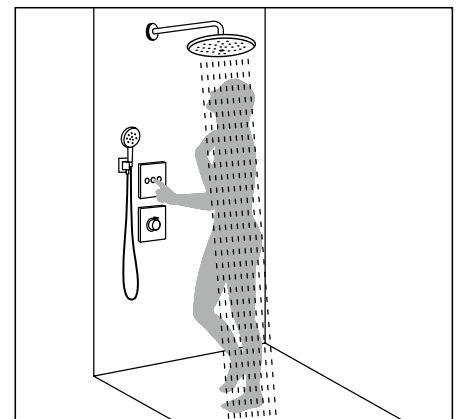

**Showerpipe**

The all-in-one system with overhead shower, hand shower and thermostatic mixer. The perfect solution for simple bathroom renovation.

**Exposed thermostatic mixers**

Exposed solutions by hansgrohe can be installed with little effort to add a technical and visual enhancement to bathrooms.

**Concealed pre-fab sets**

The minimalist shower control nestles up flat against the wall. This creates an ultra-modern, uncluttered look.

New: shower innovations for the whole family

# Feel-good design for all ages

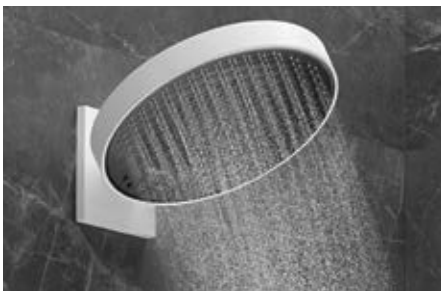

Our new showers and shower controls will give your entire family everything they need. Our innovative Rainfinity range can

be fully adapted to you and your needs so that everybody can relax in their own unique way. And with Croma E, we offer affordable

products with increased safety options for an all-round modern family bathroom.

**Rainfinity:** Reach peak relaxation with Rainfinity: a range of showers that drowns out the competition.

**Rainfinity:** Thanks to the innovative design, the spray softly envelops your body like a coat made of a thousand tiny drops.

**Rainfinity:** Simply choose between PowderRain, Intense PowderRain and MonoRain at the touch of a button.

**Rainfinity:** Treat yourself to the ultimate showering indulgence with the innovative and intuitive concealed control options such as ShowerSelect and RainSelect.

**Croma E:** The large overhead shower with the luxuriously soft RainAir spray transforms showering into an adventure for the little ones.

**Croma E:** It's child's play to use and child safe to operate with the CoolContact and SafetyStop functions.

**Ecostat E:** The CoolContact cooling technology stops the thermostatic mixer's housing on the Ecostat E getting too hot.

**PowderRain:** Pamper your skin with thousands of fine and silky micro-droplets. The fine spray will transform your bathroom into an oasis of relaxation.

Shower design with hansgrohe

# The modern way of showering

The bathroom reflects the individual personality of the user. That is why hansgrohe offers a wide selection of different ranges, designs, shapes and colours for just the right combination in the shower. From large

bathrooms to small ones, modern to classic and from new-builds to refurbishments: there is the right offer for discerning users of any private or project bathroom. Whether exposed or concealed installation or an

innovative exposed or concealed solution, if it's hansgrohe then impressive quality is always guaranteed. Modern technology also provides efficiency, saves water and ensures the right showering experience in any format.

## Concealed installation

**Space saver:** here, the shower and room merge together. Thanks to the seamless integration of the shower fitting, this concealed solution provides more space and greater freedom of movement. Elegantly understated and exclusive at the same time, it can be integrated in any bathroom.

## Exposed installation

**Elegant:** the exposed solution with thermostat and hand shower is the classic shower installation. However, it can also be reinterpreted, for instance with a Showerpipe, the complete system with thermostat, overhead and hand shower. Particularly attractive for modernisations because the Showerpipe can be fitted to existing connections.

## Exposed/concealed installation

**Practical:** With the unique combination of exposed and concealed installation, the thermostat can be fitted directly to the water connections. The connection to the overhead shower is hidden away behind the wall. Innovative and functional design in one with no irritating elements.

For more on shower planning, see page 136.

More indulgence with a range spray types by hansgrohe

# Spray types – something for every shower

Everyone showers differently, and everyone has different expectations of the perfect shower. Some think it not only as a necessity but also a way to relax. Others value

an energising, invigorating shower experience. No matter what your customers' wishes, every one of them will find the right hand or overhead shower and the right spray type in the

hansgrohe range. The Select products promise your customers particular convenience. They can then select each spray type easily at the push of a button.

**NEW**

### **PowderRain**

Revolutionise your daily shower experience with PowderRain and transform your bathroom into an oasis of relaxation. Instead of only one spray outlet per nozzle, PowderRain has six fine openings that create thousands of fine and silky micro-droplets.

**NEW**

### **Intense PowderRain**

An intense series of fine micro-droplets for sensational showering. Intense PowderRain is extraordinarily effective thanks to the increased number of droplets for a firm, yet velvety soft, spray. As the micro-droplets weigh less, the splash effect is also reduced.

Simply scan the code and experience the spray patterns in the video.

### **Rain and Rain XL**

The openings on the hand or overhead shower may be small, but their effect is all the greater: The rain spray revitalises and refreshes with its pleasant power enveloping the body. It is therefore ideal, for example, for rinsing out shampoo quickly and thoroughly.

### **RainAir und RainAir XL**

If you are looking for relaxation and you want your soul to be pampered by the water. Just the right thing for this is a hand or overhead shower with the soft, luxurious RainAir spray that provides air-enriched drops from a large, wide jet, to wash your cares away.

### **IntenseRain**

Rinsing out shampoo is easy with the strong IntenseRain water spray. Perfect for setting yourself up for the day. The IntenseRain spray not only rinses out shampoo, but it also washes morning tiredness down the drain – for a refreshing start to the day.

**TurboRain**

The all-purpose tool for quick results: The revitalising TurboRain spray lives up to its name. The pure power of the most powerful of all Rain sprays provides a refreshing shower experience. For those who like things to be quick and straightforward.

**SoftRain**

The gentle SoftRain water spray gently wraps itself around the body. A treat for the skin – and for the soul, of course. Whether a daily shower or for relaxation, the SoftRain spray is always the right choice. Its strengths come into their own in a quick shower in the morning and in a long soak in the bath after a hard day.

**Mix**

Gentle and dynamic at the same time. The mix spray combines the rich, soft RainAir spray with the strong, revitalising CaresseAir spray. Soft drops wrap themselves around the body, while a warm targeted water flow in the middle massages the skin. The perfect combination for daily showering pleasure.

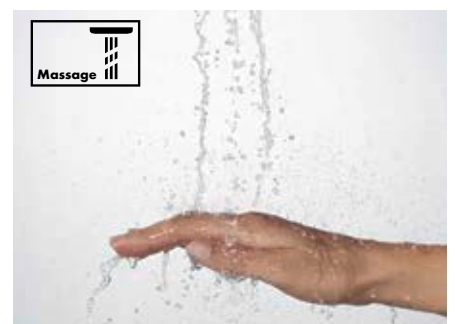

**Whirl**

The concentrated Whirl spray simply washes away the exertions of the day. Whether hand or overhead shower: Three single sprays revolve around each other for an intense massage effect that dissolves tension.

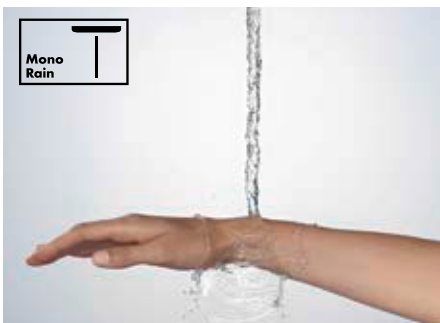

**CaresseAir**

Five strong single sprays combine in a revitalising, strong massage spray for pleasant relaxation. Just the thing after exercise or a hard day at work – good as new in minutes.

**Massage**

A concentrated spray that simply washes the day's stress away. The targeted spray easily relaxes tense areas. The innovative circular arrangement of the sprays turns the shower into a mobile wellness treatment for the home bathroom.

**MonoRain**

A targeted, soothing relaxation spray from the centre of the shower. The lightness of the Mono spray helps you to unwind, making it the perfect spray for relaxing.

**RainFlow**

An overhead shower with the clear, beautifully shaped RainFlow cascading spray brings the waterfall experience to the bathroom. This lets you enjoy water in its natural form, as a cascade from above on the neck and shoulders. This can be directed specifically to these parts of the body and tension quickly disappears. This is a trend especially in the wellness bathroom.

**RainStream**

The new RainStream of single sparkling jets is a crowning achievement of the hansgrohe spray developers. These special overhead shower sprays do not constrict, but remain unvaryingly revitalising and intense right down to the floor. The result: a new, revitalising shower experience, irrespective of the users height.

Simple and intelligent

# Technologies – intuitive, fast and economical

**Select:** showering pleasure at the touch of a button.

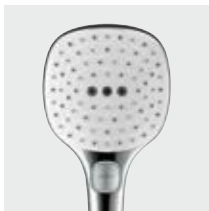

Because sometimes pressing is easier than turning. With our innovative Select technology, a simple touch of a button on the shower or shower control is all it takes to change the spray mode or turn the water on/off for even more comfort while showering, no matter your age.

## Advantages and benefits

- Intuitive control at the touch of a button
- More comfort for every generation
- Mechanical construction for permanent functional safety

### Select for hand and overhead showers

**Hand showers:** Thanks to the revolutionary mechanical construction, the spray can be changed, simply by touching a button. The Select button confirmed its durability in a long-term test that operated it 90,000 times.

**Overhead showers:** The innovative changeover unit in the overhead shower makes it easy to change the spray following the Select principle. Purely mechanically, at the touch of a button.

### Select for exposed and concealed controls

**RainSelect:** fully integrated system consisting of one basic and one finish set. Up to five users can be conveniently selected at the touch of a button.

**ShowerTablet/Showerpipes:** Depending on the design, you can switch between users at the touch of a button. Raised buttons indicate which user is currently active.

**ShowerSelect pre-fab set:** Easy control of up to 4 functions at the touch of a button – even at the same time. Thanks to the optional button extension, operation is just as easy for users with limited mobility since the buttons then protrude.

Scan the code and learn more about hansgrohe technologies.

## QuickClean: fast anti-limescale function

QuickClean means flexible silicone inserts on the aerators. Dirt and limescale deposits can be simply rubbed off with your finger with no need to use cleaning products, helping to extend your shower's lifespan.

### Advantages and benefits

- Fast and easy cleaning
- Ultra high quality and tear resistant silicone
- For a long lifetime and functionality

## EcoSmart: water and energy savings

EcoSmart technology means that our showers use up to 60% less water than conventional products through aeration, saving not just water, but energy too. The sophisticated flow limitation reduces water consumption to just 9 or 6 l/min.

### Advantages and benefits

- Up to 60 % less water consumption
- Hot water savings for less energy consumption – so less CO<sub>2</sub> emissions and lower costs

How much water and energy can be saved is calculated by the savings calculator at: [pro.hansgrohe-int.com/savings-calculator](http://pro.hansgrohe-int.com/savings-calculator)

Added indulgence in the shower

# Technologies – bigger, safer and more efficient

## **AirPower:** more volume, more pleasure

Comfort and efficiency don't have to be mutually exclusive and our AirPower showers prove it. An ample supply of air is sucked in via the spray disc of your shower, making the droplets fuller, lighter and softer, increasing water efficiency at the same time.

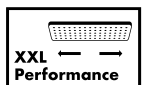

### **Advantages and benefits**

- Fuller, lighter and softer drops – pure shower pleasure
- Fewer splashes, so less cleaning
- Larger water volume for greater water efficiency

## **XXLPerformance:** great shower pleasure

Enjoy even greater showering indulgences with the XXLPerformance. With air-enriched, plump droplets, the water feels like warm summer rain, offering glorious relaxation with astoundingly low water consumption.

### **Advantages and benefits**

- XXL showering
- High water efficiency – a uniformly distributed spray for an incomparable showering experience

Scan the code and learn more about hansgrohe technologies.

## CoolContact: safe and indulgent showering

The CoolContact cooling technology stops the thermostatic mixer's housing getting too hot. So there is no more need to keep a safe distance from the taps, making showering even more care-free. It also means there is no more risk of children burning their delicate hands.

### Advantages and benefits

- Innovative cooling technology
- More safety in the bathroom, for children too
- Care-free showering

Unica 'E Shower bar

# Uniquely elegant

**Extending:** further Casetta 'E soap dishes may be added

**Practical:** integrated glass shelf for shower utensils, height can be set individually when fitting

**Unique:** glass shower bar available in 3 finishes: white/chrome, black/chrome and mirrored chrome

**Flexible:** height-adjustable shower bar can also be turned and tilted, self-locking slider for single-handed use

**Easy to clean:** easy to clean thanks to the level surface

**Versatile:** available in lengths 0.90 m and 1.50 m

**Unica 'E**  
Shower bar

**Attractive:** harmonises with other glass elements such as shower partitions, overhead showers or thermostats.

Surface black/chrome

Surface white/chrome

Surface mirrored chrome

## Advantages and benefits

- Integrated glass shelf for more space, additional shelves may be purchased
- Easy to clean: thanks to the level surface
- The shower holder is height adjustable, tilts and turns
- 1.50 m version ideal for families with children or for easy foot care
- Suitable for small and large shower areas and may be fitted to existing wall connections, making it ideal for refurbishments

Unica 'Comfort

# Comfort right down the line

**Robust:** holder with a strong, self-locking metal slider, tilts by 90° for easy single-handed use

Metal supports for firm attachment to the wall

**Flexible:** additional shower holders for other applications

**Practical:** shower bar, shelf and grab handle in one

**Safe:** ergonomic handle for safe support up to 200 kg, 25 mm diameter

**Variable:** removable shelf made of high-quality plastic, 250 mm wide

**Unica 'Comfort**  
Shower Set

**Barrier-free:** the additional holder makes it easier to shower sitting down.

**Secure:** the strong grab handle provides stability on a slippery floor.

## Advantages and benefits

- Space-saving combination of shower rail, shelf and grab handle
- The 280 mm plastic shelf offers plenty of space for shower utensils
- Shelf removes easily for cleaning
- Stably integrated grab handle for safety
- Can handle a tensile force of 200 kg

- Adjustable shower heights and angles
- Hands-free showering
- Shower can be swivelled out
- Flexible installations in shower cubicles and baths
- The wall attachments of the Reno shower rails can be attached to the walls as desired

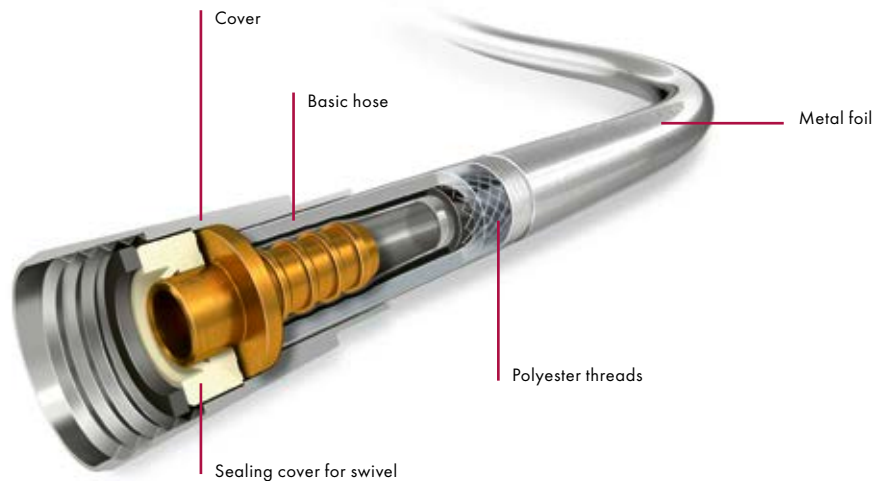

hansgrohe Shower hoses

# Clever shower hoses with the perfect touch

hansgrohe has consistently been developing the design and functionality of shower hoses for over 40 years – as, for example, with the swivel on ball bearings. Lots

of new ideas and products by hansgrohe more than comply with the required standards. This is confirmed by the hansgrohe quality tests on pressure resistance and tensile strength, as well

as twist safety and the quality of seals. Whether metal or plastic, the shower hoses never fail to appeal for their high-quality, sophisticated technology.

- Various materials, lengths and looks
- Anti-kink and easy care
- Chrome effect matching the mixers
- Drinking water approval – DVGW certification
- Scratch free thanks to plastic coating
- No irritating twisting from the swivel
- Particularly strong – confirmed by tension tests

Rainmaker Select overhead showers

# The new star in the shower

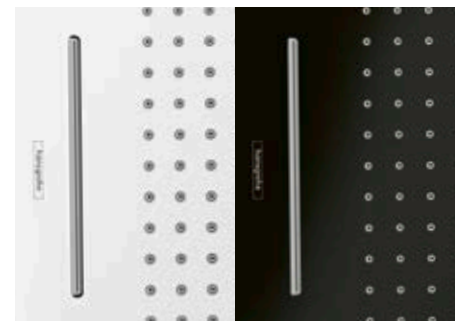

**Rainmaker Select 460 3jet**  
Overhead shower

**Flexible:** Also available for ceiling mounting, where it can be positioned freely anywhere in the room.

**Easy cleaning:** Thanks to the QuickConnect holder, the overhead shower can easily be fitted or removed for cleaning by one person – no tools required.

**Exclusive:** Glass surface made of safety glass and laser-cut spray nozzles. Colour and lettering are applied to the back of the glass and cannot be scratched off.

## Advantages and benefits

- Unique: Glass spray faces in impressive sizes
- Spray widths of up to 580 mm perfectly fill the large shower area
- Height-variable wall mounting based on the iBox universal for optimum spray intensity of RainFlow or RainStream
- Choice of versions with 1–3 spray types
- Generous white surfaces integrate harmoniously in the ceiling, and look light and elegant
- Easy to clean, durable and a high level of hygiene thanks to the level, hard surface in 4 mm safety glass
- New exposed/concealed installation of the single-spray overhead shower also possible with ShowerTablet Select 700. The storage surface is built in.

Rainfinity Overhead shower

**NEW**

# Micro-fine showering experience

QuickClean: Remove limescale deposits simply by rubbing the flexible silicone nozzles

Three spray modes for a more personalised shower: PowderRain, Intense PowderRain and RainStream

Surface Matt White

Surface chrome

1jet or 3jet version available

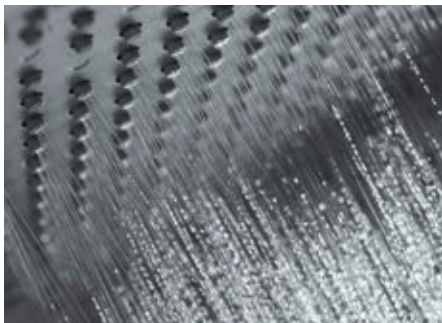

More freedom to move with adjustable tilt

**PowderRain:**  
Sensational showering with softly enveloping micro-droplets

**Intense PowderRain:**  
for an effective way to rinse out shampoo

**RainStream:**  
Refreshingly powerful spray made of pearl-like droplets with a revitalising effect

**Rainfinity**  
Overhead shower

**Sensational showering:** Do something to truly benefit your body and soul with PowderRain. Simply wash away the tiredness and stresses of daily life with an increased number of droplets in the Intense PowderRain setting.

**Practical shoulder shower:** with a high-quality metal body and sturdy safety-glass shelf in graphite with a 50 cm width. Wide spray surface for softly enveloping PowderRain.

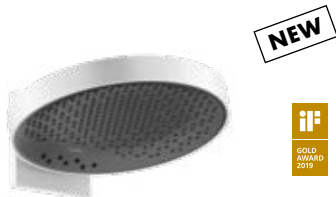

**Personal comfort:** Adjust the angle from 10–30° for even more flexibility and a whole new dimension to showering.

## Advantages and benefits

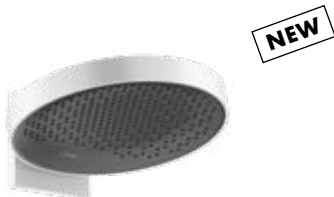

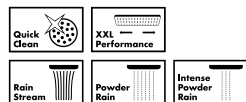

- All-encompassing showering with innovative spray surface
- Adjustable tilt guarantees a comfortable showering position

## Rainfinity Overhead showers

Raindance Rainmaker and Raindance Rainfall

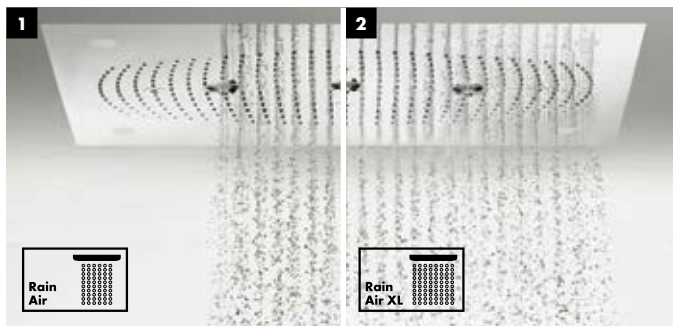

# The ultimate enjoyment for your customers

The Raindance Rainmaker and the Raindance Rainfall turn everyday showering into a new experience. The Raindance Rainmaker is installed flush in the ceiling. The classic shower therefore no longer exists,

instead there is a room filled with wonderful rain. The spray modes are RainAir, RainAir XL, Whirl and Mix. With its horizontal rain panel, Raindance Rainfall allows greater freedom of movement and offers up to three different spray

types for pampered showering: relaxing RainAir, revitalising RainFlow and massaging Whirl.

## Raindance Rainmaker: Showering in a new dimension

(1) **RainAir:** Central overhead shower function with AirPower technology.

(2) **RainAir XL:** Full, soft rain with AirPower technology.

**Whirl:** Three rotating massage sprays with AirPower technology.

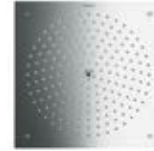

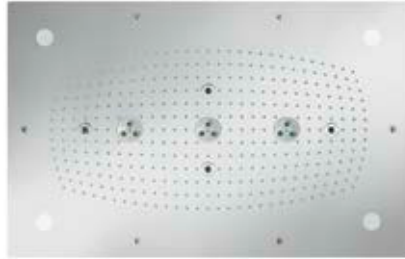

### Advantages and benefits

- Installed flush in the ceiling
- Full shower rain
- Also with integrated lighting

- For showering pleasure like being under a waterfall

Raindance Select E 300 3jet overhead shower

# 1 button, three sprays, great fun

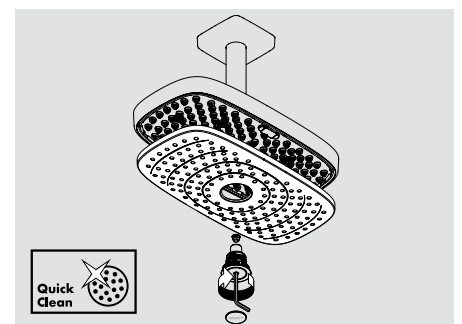

Easily accessible, the Select button need only be touched to change between RainAir and Rain

(1) **RainAir:** This gentle, relaxing spray consists of large, soft drops.  
 (2) **Rain:** A spray that is strong and revitalising and perfect for washing the hair.

**RainStream:** Twelve jets run parallel down to the floor for a generous shower.

**Easy cleaning:** Jets can be cleaned effortlessly with the QuickClean function. Spray face can be taken off easily and is even dishwasher safe.

## Advantages and benefits

- 3 full spray types in the one overhead shower: gentle RainAir, powerful Rain and effective RainStream
- Simply switch between RainAir and Rain at the touch of a button
- Select button is easily accessible
- Easy cleaning: the metal spray face is dishwasher safe

Raindance E 300 Air 1jet Overhead shower

# Square, elegant, stylish

**Raindance E 300 Air 1jet**  
Overhead shower

**Designed with great attention to detail:** Overhead shower fits very neatly to the shower arm.

**RainAir:** The improved Air technology creates large, soft drops, saves water while showering, and reduced shower dripping to a minimum.

**In one unit:** with the flush ceiling version with a spray face of 400 mm x 400 mm, the overhead shower merges beautifully with the ceiling.

## Advantages and benefits

- Single sprays adapt perfectly to the silhouette of the body for an optimised spray performance. Highest concentration in the middle for rinsing the hair, decreasing to the outside to keep the body warm
- Several versions available for fitting to the wall and ceiling, and flush-ceiling installation
- To suit any ShowerSelect finish sets and the new Metropol mixers
- Easy to clean: metal spray face is easy to remove
- Also available as EcoSmart with 9 l/min flow rate at 3 bar

Raindance Overhead shower

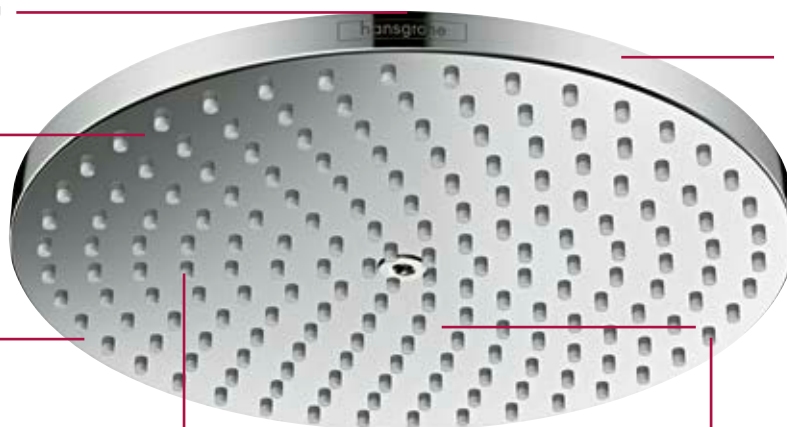

**NEW**

# Like soft summer rain

Can be mounted to the wall or ceiling

Enjoy a peaceful experience in a much quieter shower

XXL Performance: large-scale TLC for the skin with its 240 mm diameter

High-grade metal spray disc

PowderRain is much finer than conventional spray modes. Rather than just the one, the sprays now feature up to six fine apertures to disperse the water into thousands of micro-droplets that land on the skin as soft as velvet and envelop the body in a cocoon of water.

Extraordinarily effective at rinsing out shampoo, with significantly more droplets

**Raindance** Overhead shower

**QuickClean:** Remove limescale deposits simply by rubbing the flexible silicone nozzles

**Reduced splash with PowderRain:** Water belongs on the body, and only on the body. So our developers have made sure that the soft micro-droplets in the PowderRain spray reduce the splash effect when showering by testing and improving it over and over again in our dedicated spray laboratory.

## Advantages and benefits

- Enjoy a peaceful experience in a much quieter shower
- Extraordinarily effective at rinsing out shampoo, with significantly more droplets
- Effortless cleaning with QuickClean

Rainmaker Select 460 3jet Showerpipe

# For deluxe showering pleasure

**Easy cleaning:** High-quality glass surface, completely even and so easy to clean.

**Mono:** A targeted spray for showering pleasure that also refreshes.

**Rain XL:** Rain spray over the entire area of the spray face for large-scale showering pleasure.

**RainStream:** Eleven jets of sparkling water that run parallel right down to the floor. For the same fascinating shower effects at every installation height so you enjoy the same refreshing shower however tall you are.

**Select**  
Select the spray types

Setting the temperature

**Select**  
Easy operation of the hand shower and spray types at the touch of a button

## Advantages and benefits

- Different versions with different overhead showers for complete showering pleasure in large showers
- Intuitive control concept, pleasure at the touch of a button
- Practical 700 mm wide storage shelf
- Easy to clean thanks to the large, even surfaces
- Easy installation with the thermostat, overhead and hand showers in a single system
- Ideal for modernisations, since it can be fitted to existing wall connections and for large shower areas

Croma E Showerpipe

**NEW**

# Plenty of room for an indulgent shower

More freedom to move: can be swivelled easily to adjust the angle

SoftCube design: all elements in a coherent design

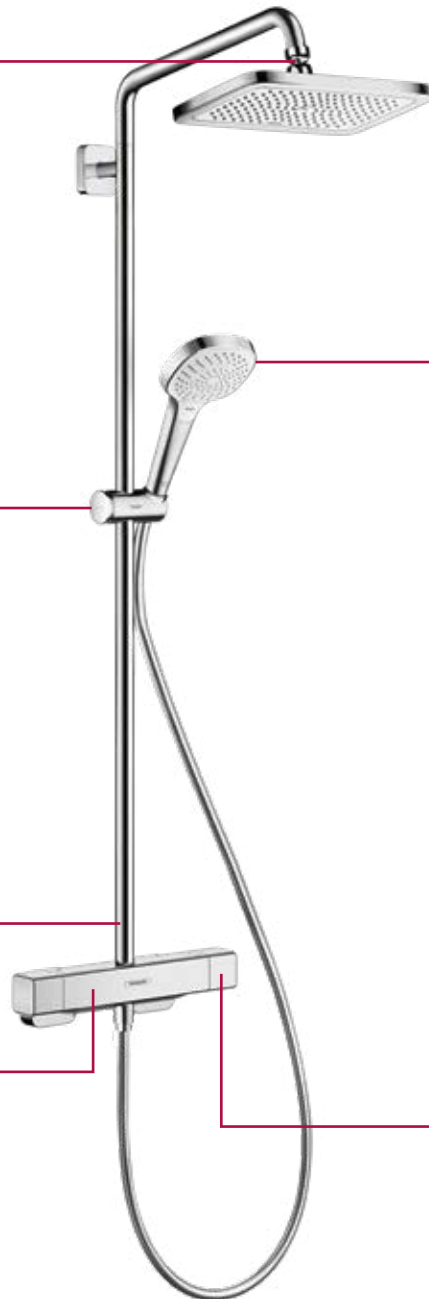

**SoftSqueeze Slider:** Adjust the height easily with just one hand by simply pressing in the button

**Showerpipe for bathtub:** easy to switch between the hand and overhead shower on the riser pipe

CoolContact technology ensures that the thermostatic mixer's housing is always cool and always safe

**Croma E 280**  
Showerpipe

**AirPower:** fuller, lighter and softer droplets for sumptuous showering

Croma Select E 100 Multi: hand shower with Select technology – choose between three spray modes

**Rain:** perfect for rinsing shampoo out of your hair

**IntenseRain:** intensive water spray that activates and refreshes

**TurboRain:** the most powerful of all Rain sprays – for a refreshingly powerful showering experience

**Showerpipe Shower:** easily switch between the hand and overhead shower on the thermostatic mixer

## Advantages and benefits

- Convenient showering with a stable temperature thanks to the SafetyStop and CoolContact features
- Easy to clean with QuickClean feature and removable spray disc
- High-end product in modern and attractive design
- Instantly switch between the overhead shower and hand shower on the bath tub's Showerpipe
- Excellent value for money

hansgrohe Showerpanel

## Made to convince customers on all fronts

Overhead, hand and side showers, various spray types and refreshing all-body massages from the side showers: A hansgrohe

Showerpanel provides water fun all the way. The fun finds its perfect complement in the uncomplicated installation: Simply retrofit on

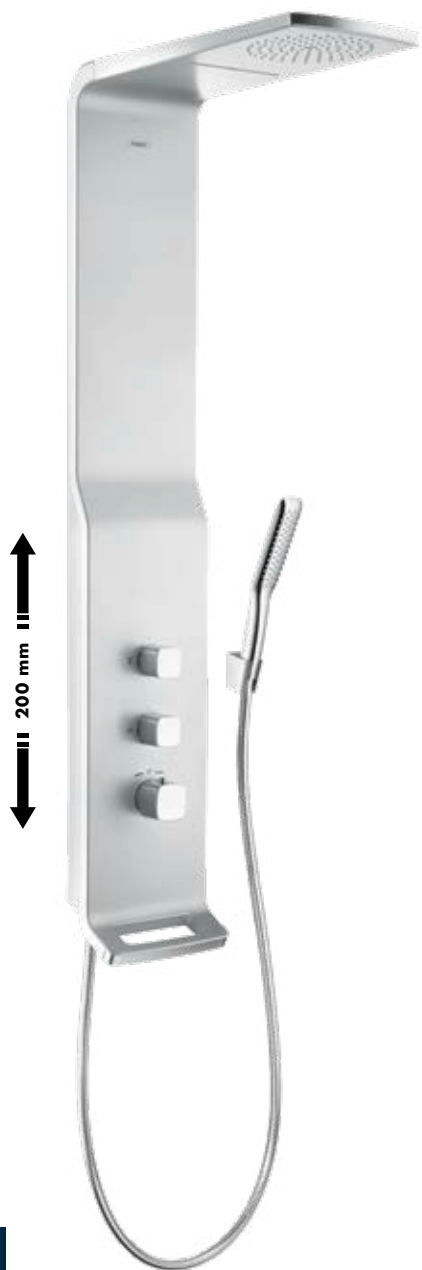

the existing connections – wall installations are not necessary. The bathroom will therefore be equipped for shower pleasure in seconds.

### Advantages and benefits

- Combines overhead, hand, and/or side showers in a single system
- Water fun from all sides
- Up to six side showers
- Various spray types for individual showering enjoyment
- Straightforward installation with no need to integrate in the wall
- Some versions are height adjustable to suit all body sizes
- Easy to retrofit on existing connections

ShowerTablet Select

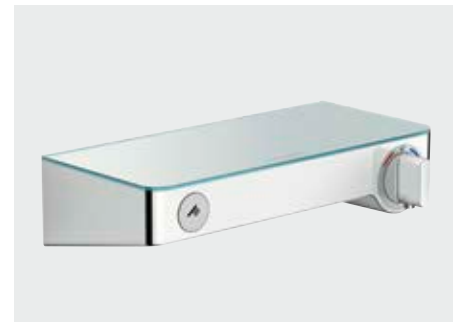

# More space for enjoyment

**Generous:** 700 mm wide shelf made of safety glass for more storage space.

**Flexible:** The ShowerTablet Select 700 is also available as a bath version.

**Lots of variations:** also available as a pure exposed thermostat ShowerTablet Select 300 in a width of 300 mm for shower and bath.

## Advantages and benefits

- Exposed thermostat that controls a single-spray overhead shower via concealed installation (G $\frac{1}{2}$ )
- Functions change easily at the touch of a button, symbols easy to understand
- Optical highlight that also blends harmoniously with large showers
- All Select elements can be reached easily from the front
- More than one function can be selected at the same time

**Intuitive:** Thanks to the Select button and temperature control, control is intuitive and easy from the front.

**User-friendly:** The desired temperature can be set precisely with the handy turn control.

**Easy to use:** When switched on, the control button is raised – so the active function can be identified at a glance.

**Clear:** Easy to understand, abrasion-resistant symbols make control easier.

**Safe:** The insulated body with rounded corners protects against heat and knocks.

**Attractive:** The unique design makes the ShowerTablet Select 300 an eye-catcher in the bathroom.

**Practical:** The level surface is made of glass and offers plenty of space for toiletries.

**Easy cleaning:** The housing is sealed to keep dirt out, and the smooth surface is easy to clean.

- The active function can be recognised immediately by the raised control button
- Level surface up to 700 mm wide made of safety glass with space for shower utensils
- Easy to clean: thanks to the smooth glass surface that is resistant to chemical cleaning agents

ShowerTablet 350

# Rethinking convenience and design

**Generous:** 300 mm wide shelf made of a scratch-resistant surface material provides plenty of storage.

**User-friendly:** Slim pin handle with an eye-catching temperature display for easy, comfortable setting of the desired temperature.

**Easy cleaning:** thanks to the smooth glass surface and precision shaping.

**Raised glass edge:** beautiful to look at and prevents shower utensils from sliding away.

**Ergonomic use:** user-friendly temperature control for precise setting of the desired temperature.

**Quantity control:** regulates the water quantity – for individual showering pleasure.

**Clear identification:** intuitive use thanks to the easy-to-understand symbols.

**ShowerTablet 350**  
Shower thermostat

**Generous:** shelf up to 600 mm wide made of safety glass for more storage space.

**Practical:** the ShowerTablet is a exposed thermostat that controls the overhead shower by means of a concealed installation.

**Flexible:** also available as a bath version.

## Advantages and benefits

- High-quality surface made of shatterproof safety glass reflects quality
- Shelf made of strong, solid material – resistant to scratching
- Matching the new Raindance E overhead showers in looks and technology
- Easy to combine with any overhead shower in chrome and white/chrome
- Practical 600 mm wide storage shelf

**Price**

All specified flow rates are based on an operating pressure of 0.3 MPa (3 bar).

RainSelect

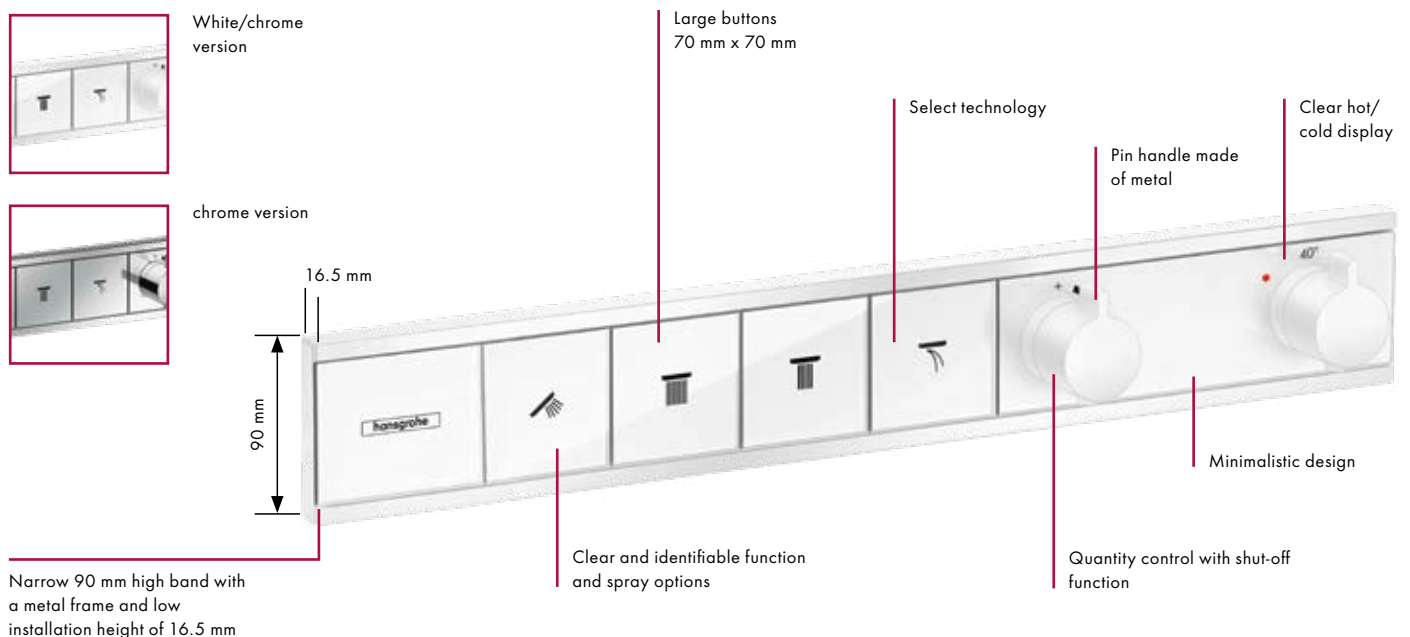

**NEW**

# Elegant new look

The RainSelect thermostatic mixer's shape adds modern elegance to the bathroom. The new slim design enables easy wall installation to maintain an impressively

delicate look and feel. This installation advancement allows for completely new design options, particularly in the matte white finish. Shower control has never been more

seamless with up to five functions to control the innovative and intuitive Select technology.

## RainSelect

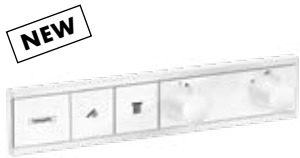

Thermostat for 4 functions

### Advantages and benefits

- Range of options available, including shower version with up to 5 functions and a bath version with 2 functions
- Convenient: Select technology with large, soft-click buttons make it easy for anyone to operate
- Design: Sleek, linear, rectangular design is ideal for large showers, utilising the space well
- Durable: Icons on the select buttons are wear-resistant thanks to clever finishing

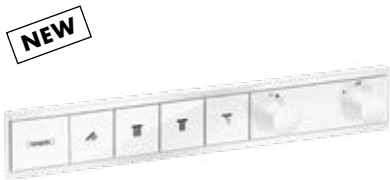

## RainSelect Thermostats

RainSelect

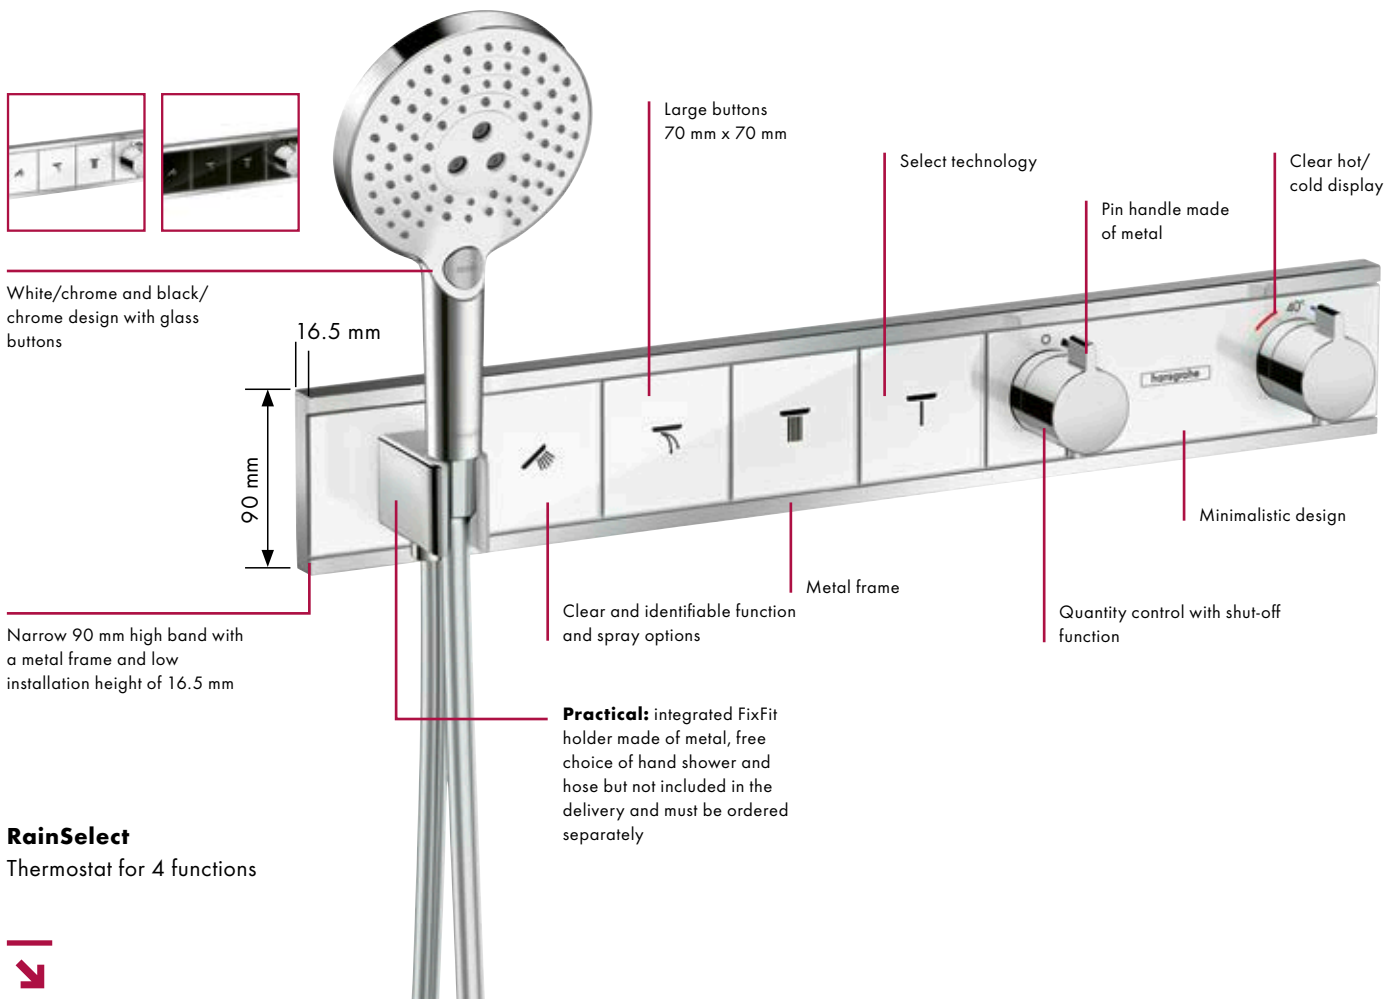

# Change over to elegance

The shape of the RainSelect creates an unknown elegance in the bathroom. The new installation method facilitates thin attachments to the wall, and delights with its filigree, relief-

like appeal. This opens up a whole variety of new design options. However, the RainSelect also has much to offer in the way of functionality: It allows up to 5 functions to use

the innovative and intuitive Select technology. Furthermore, a holder is integrated for the hand shower.

## RainSelect

Basic set for 5 functions

Version in chrome with metal buttons

Black/chrome or white/chrome design with glass buttons

RainSelect is available in 3 different versions to suit any desired design.

- Individual: water volume control offers personal settings, above all for close-body showering with the hand shower
- Cleaning: easy thanks to the separate shut-off function
- Tidy looks: on the wall for a timeless bathroom ambience in the shower area
- Reliable planning: only a single object needs to be planned
- Universal application: suits any Rainmaker Select or other existing multi-spray overhead shower

## Control for greater showering pleasure

**Touch of button:** thanks to Select, choosing a function is as easy as using a light switch.

**Button size:** large button (70 mm x 70 mm) with clearly legible lettering.

**Temperature setting:** clear symbols and distinct hot/cold display for easy use.

**SafetyStop function:** prevents accidental temperature settings exceeding 40°C.

**Volume control:** precise control of the flow amount, which helps to save water.

**Cleaning:** switches off quickly to make cleaning easier for the users.

**FixFit holder:** free choice of hand shower and hose.

**Thickness:** narrow 90 mm band with a metal frame and low installation height of 16.5 mm.

You will be able to satisfy any of your customers' requirements – and help them keep to their budgets – with hansgrohe's complete concealed range for between one and four functions. The choice starts with the operation:

are the showers and spray types to be controlled conventionally by turning, or with complete ease at the touch of a button? Your customers also have complete freedom of design: the ShowerSelect is now also available

in a round design and as a mixer. Ecostat thermostats are available as a circle, and now also as a square with rounded corners. Plenty of options for attractive installations that blend beautifully with the bathroom.

ShowerSelect Concealed finish sets

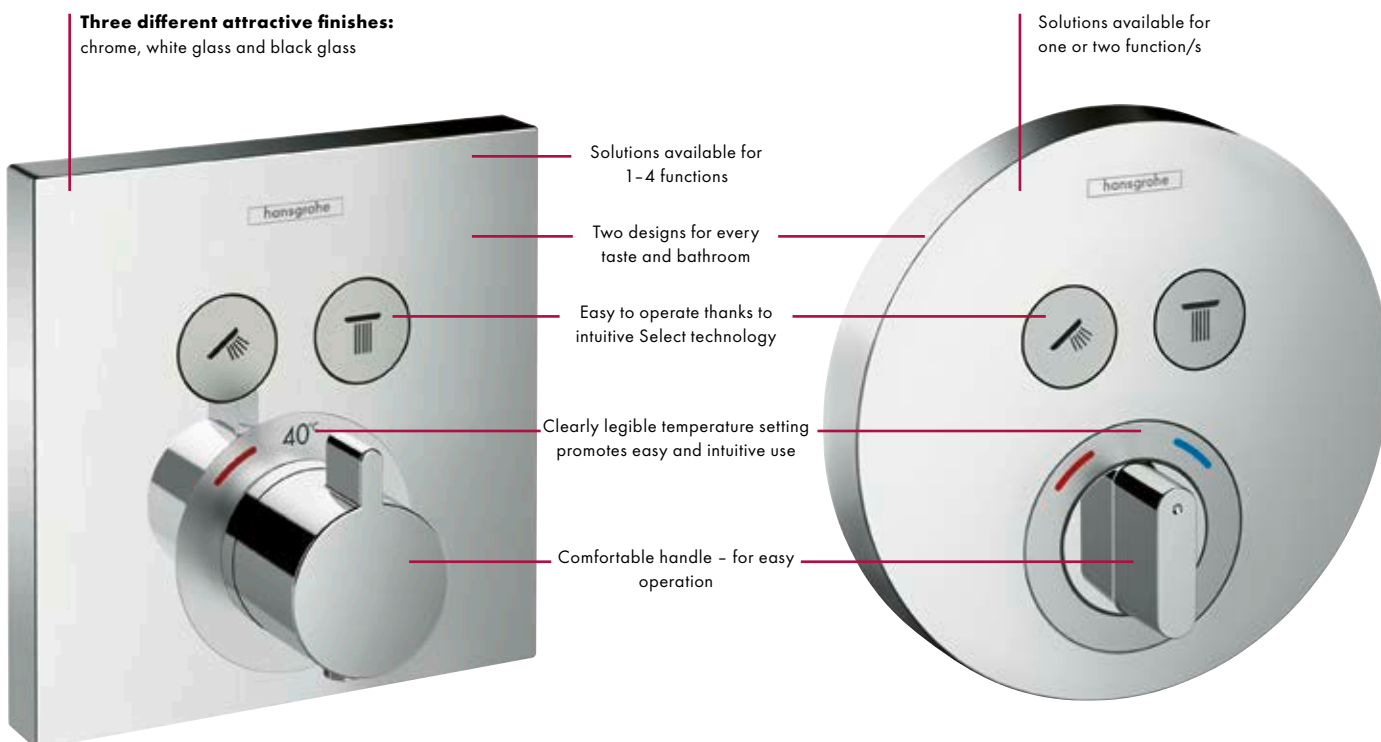

# Operation in all its tremendous variety

## ShowerSelect

Thermostat for 2 functions  
Escutcheon size 155 mm x 155 mm

## ShowerSelect S

Mixer for 2 functions  
Escutcheon diameter 150 mm

- Constant water temperature even with fluctuating water pressure
- Temperature limited at 40°C, a higher temperature can be set by touching the button on the underside of the handle
- Safe for thermal disinfection
- Plastic escutcheon and metal handle

- For pipes with stable water pressure
- Unique product: Mixer technology with a new handle design, so it can be used with any mixer and shower line
- Easy temperature adjustment
- The depth of the metal handle does not depend on the installation depth of the iBox universal
- Fluctuating water pressures are no problem for the high quality hansgrohe cartridges

## Advantages and benefits

- Individual choice: 2 different technologies – thermostat or mixer
- Button durability: permanently abrasion-proof printing
- Design: available square or round – for any taste, style or shower type
- Convenient: easy operation thanks to various button combinations for any showering situation
- Savings: thanks to the recommended operating pressure of the Select valves of 0.1 to 0.5 MPa max. 1 MPa

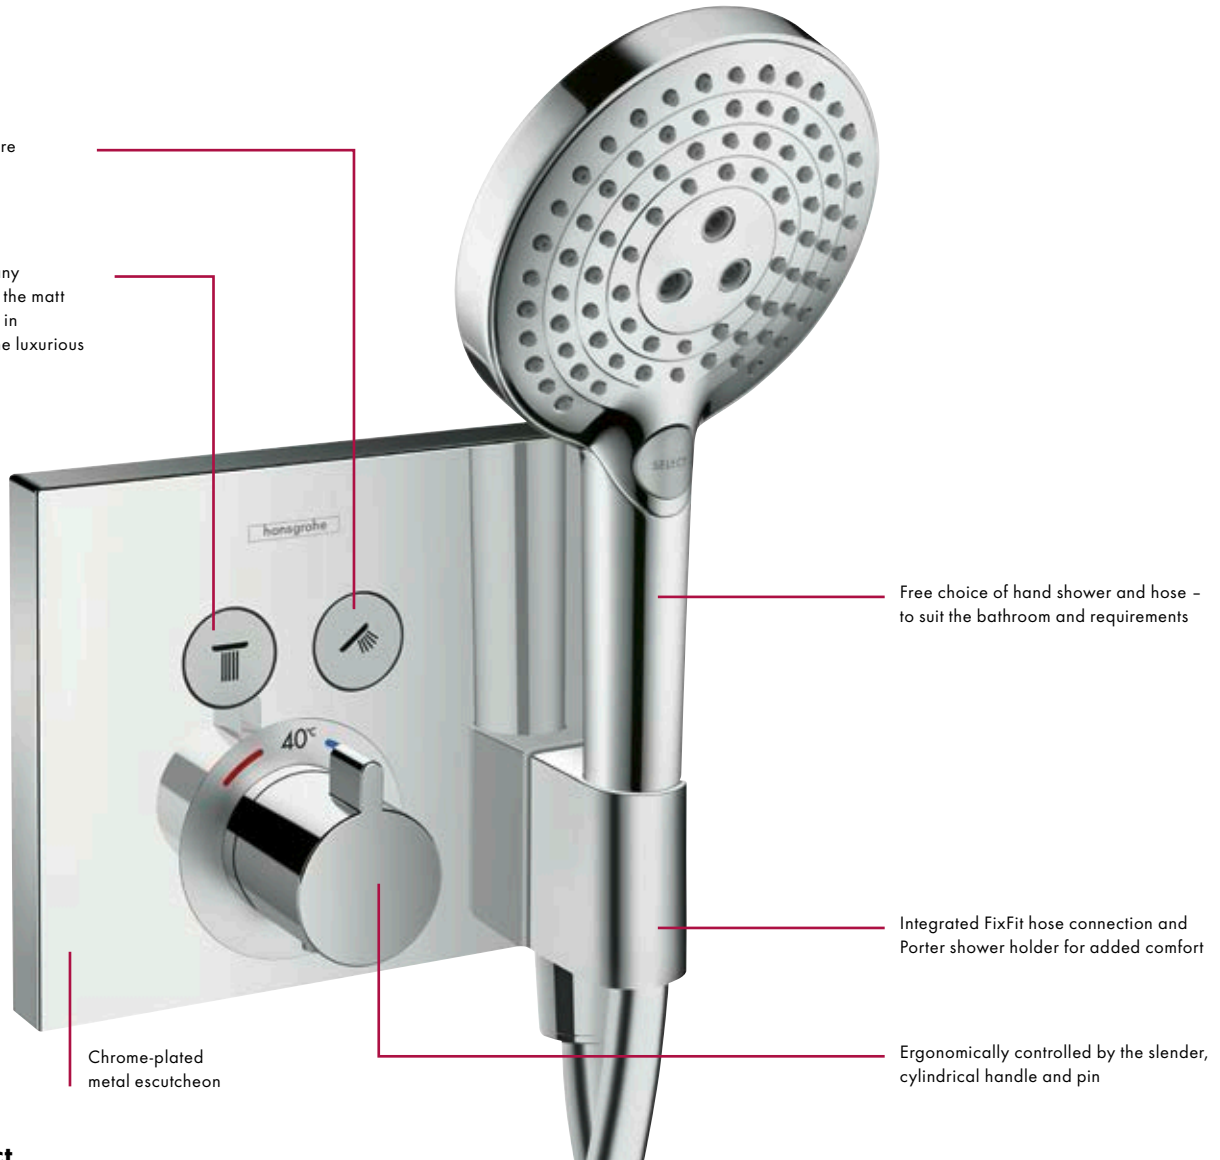

ShowerSelect Thermostat with FixFit and Porter

# Control the shower with ease

Large symbols ensure ease of use

Visual highlight in any bathroom thanks to the matt satin Select buttons in combination with the luxurious chrome surface

Free choice of hand shower and hose - to suit the bathroom and requirements

Integrated FixFit hose connection and Porter shower holder for added comfort

Ergonomically controlled by the slender, cylindrical handle and pin

Chrome-plated metal escutcheon

Exposed thermostatic mixers and concealed pre-fab sets

## ShowerSelect

Thermostat with FixFit and Porter  
Escutcheon size 155 mm x 188 mm

### Advantages and benefits

- Tidy looks on the wall for a timeless bathroom ambience in the shower area
- High planning reliability: installation based on the iBox universal
- Minimum effort: no need to drill a separate FixFit and holder

## Lots of advantages – lots of benefits

The ShowerSelect finish set for 2 functions received not only the “Design Plus Award” and the “iF Award 2014”, but also the award of the ZVSHK, the German Central Association Plumbing, Heating and Air Conditioning, for excellent design for users with restricted mobility.

**Intuitive:** Easy-to-use Select buttons for intuitive, comfortable control – even for those with restricted mobility.

**Clear:** Easy to understand, abrasion-resistant symbols make control easier.

**Easy to use:** Can be controlled using an elbow or fist thanks to the button extension that is included in the box. Installing the optional button extension makes use possible with some restricted freedom of movement.

**User-friendly:** The desired temperature can be set precisely with the user-friendly handle.

**Easy cleaning:** The flush-fit buttons leave a flat surface that is easy to clean.

**Attractive:** The rectangular shape blends perfectly with a tiled bathroom and will also go in many modern bathroom designs.

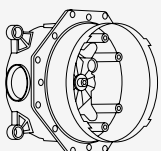

**Economical:** The easy-to-push button encourages the user to switch the water off frequently, which helps to save water.

**User-friendly:** The functions can all be used at the same time – for even greater shower pleasure.

### Advantages and benefits

- Showering pleasure: high level of comfort by simultaneously setting several functions
- Savings: functions can be switched off easily and quickly to save water
- Design options: 3 finishes: chrome, white glass and black glass – attractive to new target groups
- Easy to use: fast, inexpensive renovations possible by simply replacing the existing finish sets

# SHOWER PLANNING, ASSEMBLY AND INSTALLATION

Information on exposed and concealed installations and  
exposed and concealed solutions for 1 to 5 functions

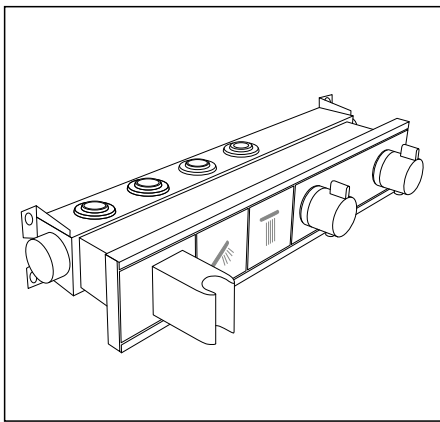

Installation information

# Installation options for any bathroom desire

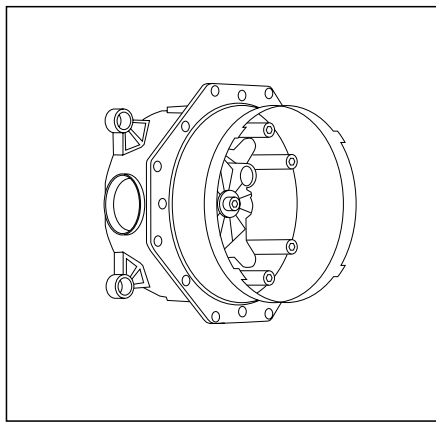

Each bathroom has its own needs – there is a suitable installation option for every single one. The iBox universal is a multi-purpose product for concealed solutions. It

disappears into the wall as tap technology and can be combined with all standard and thermostatic mixer solutions. The RainSelect control as a pre-fab set in the five new

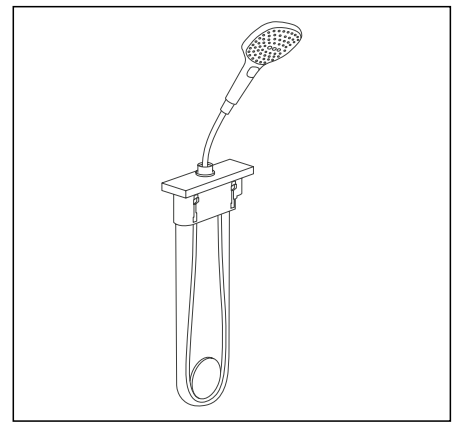

FinishPlus surface finishes and the practical sBox hose coiling system for the bath tub are all new. You will find examples of the various installation types from page 148 onwards.

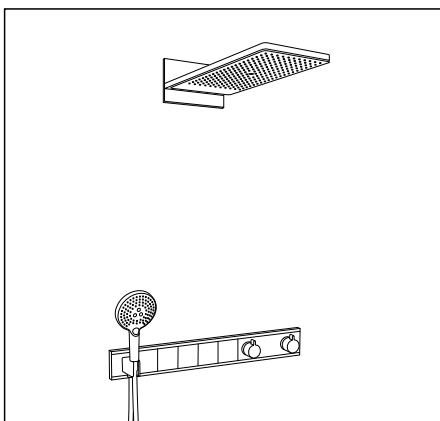

**RainSelect:** The new finish set combines exclusive technology in a single object.

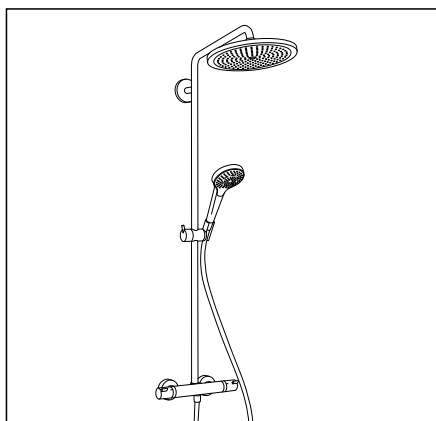

**iBox universal:** The multi-talent is the perfect concealed solution. The mixer technology is hidden away behind the wall.

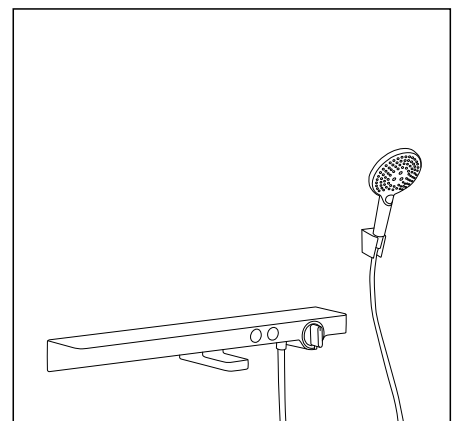

**sBox Tub:** Practical hose coiling system for a tidy look and more convenience.

**Exposed/concealed installation for the shower:** Options for exposed or concealed shower installation in many individual designs.

**Showerpipes:** Can be fitted to existing wall connections, which makes it ideal for modernising large shower areas.

**Exposed/concealed installation bath:** Flexible options for exposed or concealed installation on the bath.

Scan the code and learn more about installation options.

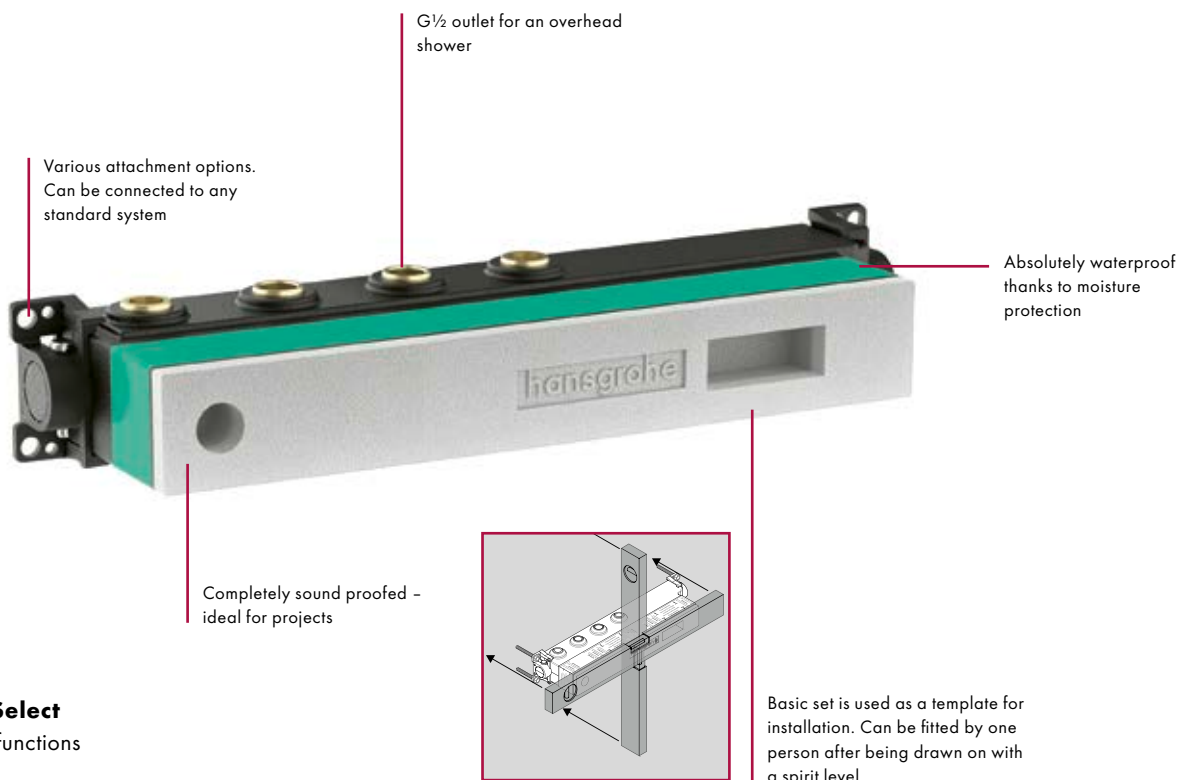

RainSelect

# Basic installation for the new type of shower control

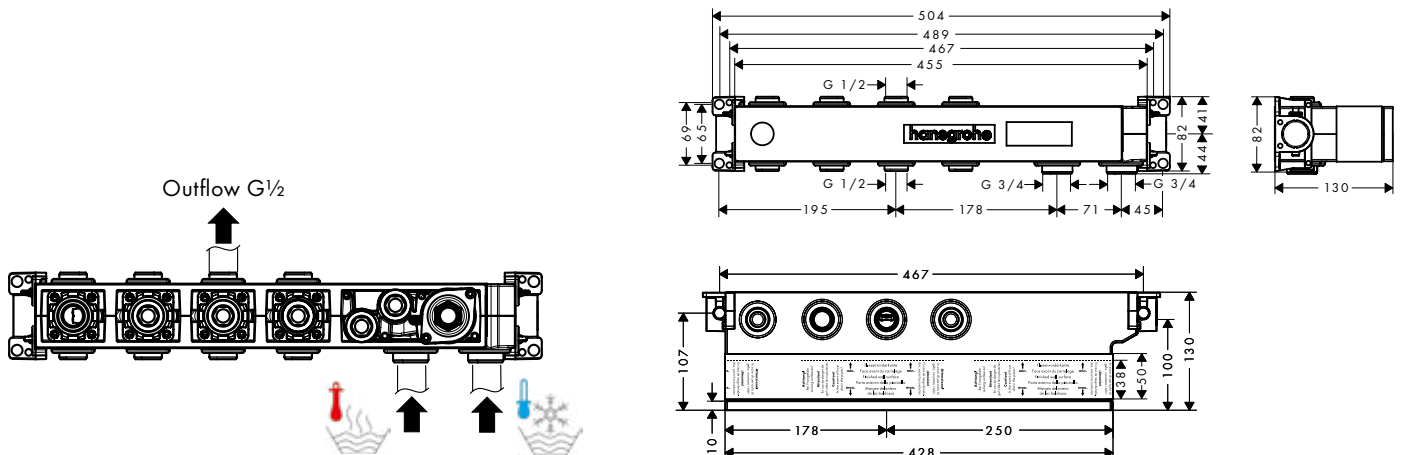

RainSelect is the shower control solution for the exclusive bathroom interior. A range of attachment options facilitate installation in the most diverse shower and bath areas. The thermostat is attached to the usual standard

connections, and can be combined with Rainmaker Select and any existing single or multi-spray overhead shower. The integration of thermostat, shower holder, hose connection and control of up to five functions including

volume control in a neat object makes planning safe and easy. The basic set is easy to install, and is also used as a template for installation.

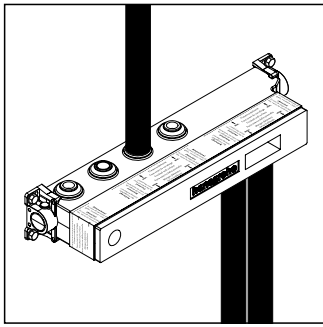

**Basic set RainSelect**  
Thermostat for 2 functions  
# 15310180

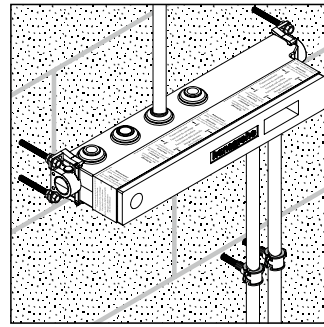

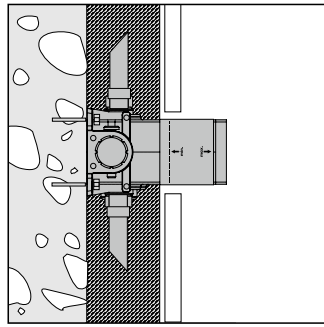

All basic sets are attached to G 3/4 standard connections.

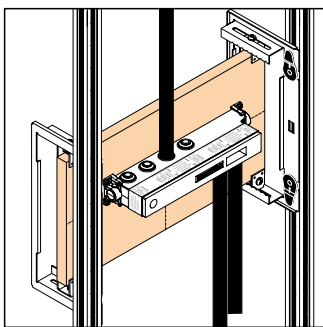

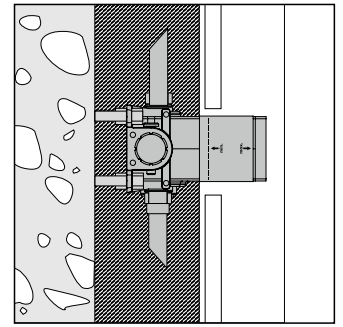

## Installation options for the RainSelect basic set

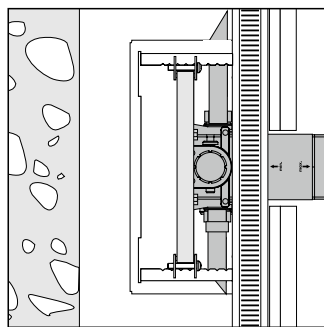

Installation directly on the wall

Installation in front of the wall; here with variable spacers on hanger bolts M 10

Installation on carrier system

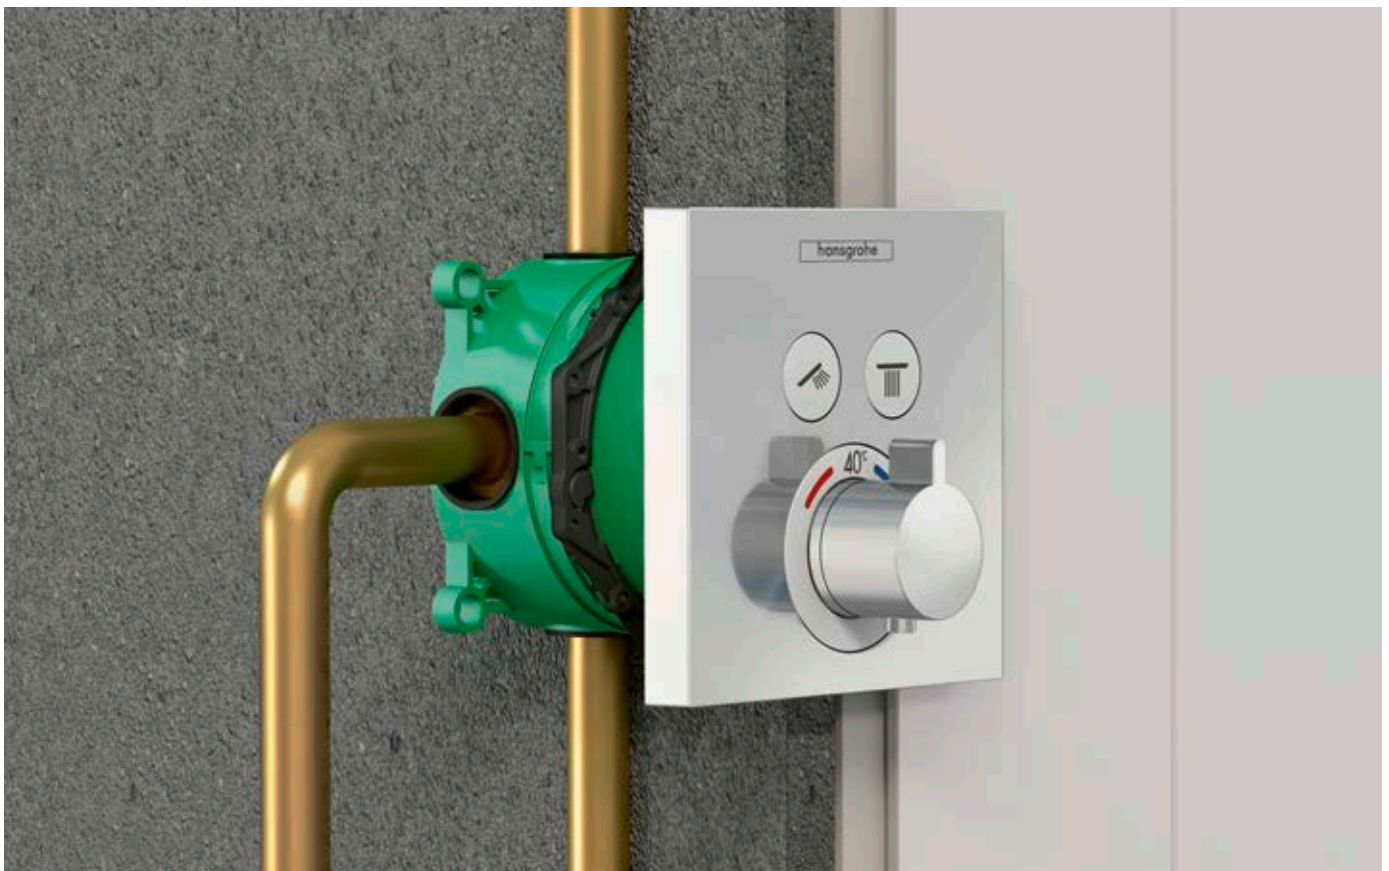

iBox universal

# The universal basis for all concealed installation solutions

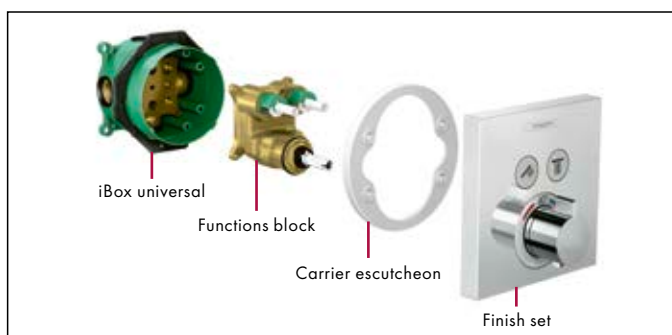

With the iBox universal, the mixer technology is concealed in the wall. This not only looks good, but also creates more space and thus greater shower pleasure. Another

advantage is the flexibility of the system and design. The iBox universal may be installed before the decision has been made for a shower system. As the basic set for any

hansgrohe standard and thermostatic solutions, it is easy to change or upgrade at any time.

**Concealed installation:** The basic set disappears completely into the wall. Mixers and shower finish sets from various ranges can be fitted to it.

**Over the long term:** The basic set is retained when the bathroom is refurbished. The functions block and finish set can then be easily replaced.

## iBox universal: one for all

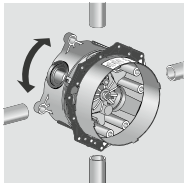

### Advantages and benefits

- One basic set for 19 function solutions
- Suitable for over 200 hansgrohe and AXOR finish sets
- Pre-installation enhances decision making flexibility for mixers
- An attractive bathroom, as bulky technology is out of sight behind the wall
- Greater freedom of movement when showering
- Easy to replace with new mixers or finish set designs when renovating
- Concealed installation solutions tried and tested millions of times

### Advantages and benefits specifically for project activities

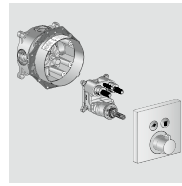

- The iBox universal offers a high level of flexibility and lots of design options
- One basic set for all solutions, simplifying project planning
- The iBox is suitable for use in private or public facilities and complies with all the main international standards
- Covers any solution with up to 4 functions

## iBox universal: the all-rounder with many strengths

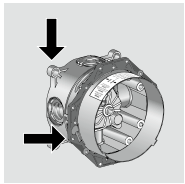

### Rotation-symmetrical installation

- Symmetrical construction; all the connections are the same
- It is important that cold water is connected on the right and hot water on the left
- The lower outlet has priority for bath mixers
- Either the upper or lower outlet can be connected for shower mixers

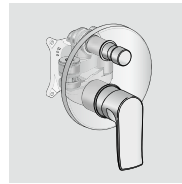

### Safe and economical

- Basic set includes only the connection block
- The valuable functions block is supplied later and mounted with the finish set
- Prevents problems like theft, dirt and frost damage occurring during the building phase and expensive warehousing becomes unnecessary

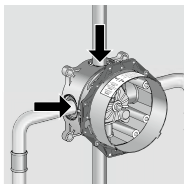

### Many installation types

- Coordinated with to all the standard installation systems, connection types and mixers
- Patented flexible adjustment ring
- Attachment options on 2 levels and G $\frac{3}{4}$  connections for universal installation possibilities
- Also suitable for stronger wall constructions and dry wall installations as well as for pre-fabricated houses

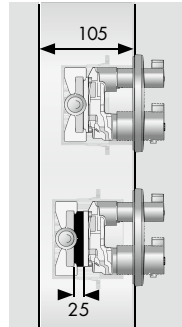

### Integrated safety combination

- Used in conjunction with Exafill baths with an outflow and overflow mixer, it eliminates the need for an external pipe breaker on concealed installation single lever bath mixers: lower installation costs and fewer functional parts in the wall

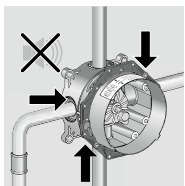

### Perfect moisture protection

- Sealing sleeves on all 4 connections, sealing sleeve under the tiles and the carrier escutcheon that seals against splashes perfectly protect the masonry against moisture on all sides

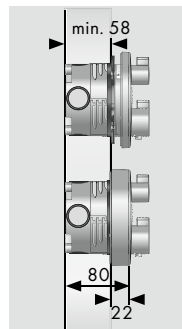

### Solutions for walls that are very deep or very shallow

- If the iBox universal is too deep in the wall, the basic set extension is inserted between the connection and functions block
- The extension set provides safety right up to the wall and perfectly protects the masonry against moisture
- The standard body of the iBox universal has become flatter and is therefore even more suitable for walls with shallow installation depths

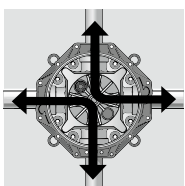

### Low noise levels

- Brass bodies on seals ensure that the noise of water-bearing parts is transferred to the masonry
- The carrier escutcheon is screwed to the housing of the iBox universal and not to the functions block, which means that the noise cannot be transmitted to the tiles

### Collar extension

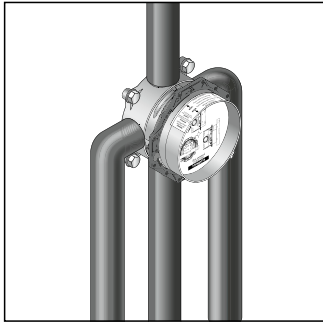

- Thanks to the extension, even shallow installation depths are no longer a problem
- The extension collar means that the iBox can be installed even in narrow walls

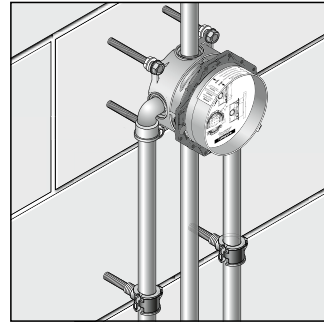

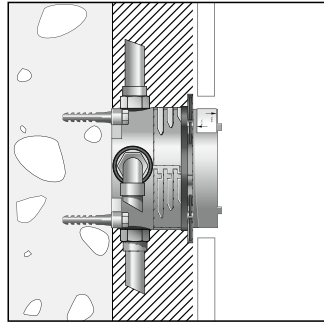

### Easy rinsing

- Flush block included and can be mounted in various different positions. This means that pipes can be flushed through to the end just in front of the wall, as per DIN 1988/EN 1717 part 2

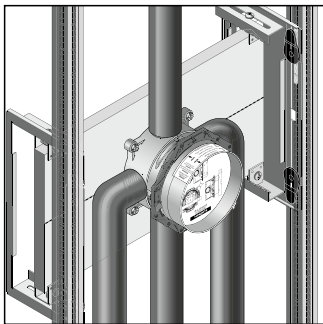

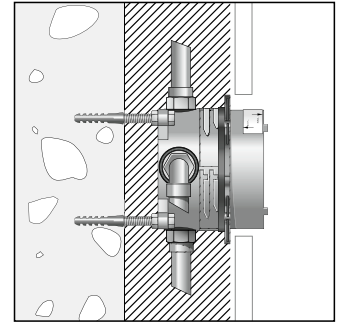

## Installation options and dimension drawings iBox universal

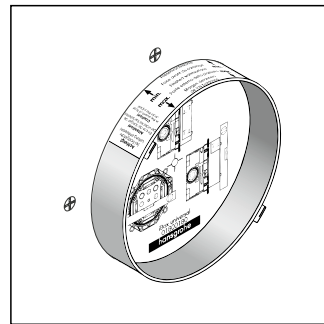

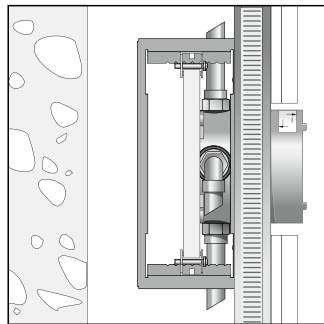

Installation directly on the wall

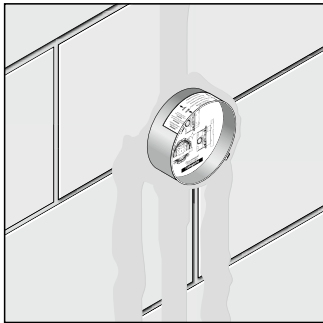

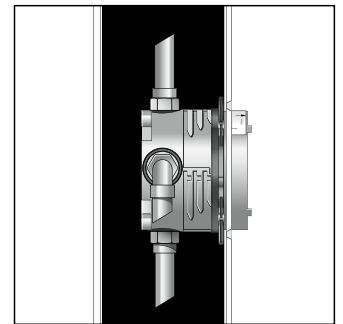

Installation in front of the wall; here with variable spacers on hanger bolts M 10

**NEW**

Assembly aid for iBox universal  
# 93500000

- Even faster, safer and more convenient installation of the iBox universal
- No more cumbersome use of a spirit level
- Easier installation for square pre-fab sets, at the perfect right angle
- Helps with tiling
- The installation aid is simply fitted to the iBox universal

## Technical details, assembly tips and installation information

### iBox universal, Front and side views

#01800180

Operating pressure:	max. 1 MPa
Recommended operating pressure:	0.1-0.5 MPa
Test pressure:	1.6 MPa (1 MPa = 10 bar = 147 psi)
Hot water temperature:	max. 80 °C
Recommended hot water temperature:	65 °C
Connection dimensions:	G $\frac{3}{4}$
Connections:	cold right, warm left

Free flow at:	0.3 MPa
Bath mixer outlet bath:	31 l/min
Bath mixer outlet shower:	24 l/min
Shower mixer:	32 l/min
Thermostat:	43 l/min
Thermostat with shut-off valve:	26 l/min
Thermostat with shut-off and change-over valve:	26 l/min
Thermostat Highflow:	48 l/min
Test mark:	DVGW, SVGW

### Tips for raw installation

Fit the basic set with the hot water connection on the left and the cold water connection on the right.  
Installation depth: 80 mm to 108 mm.

### Extension set 25 mm for too deep installation:

#13595000

### Extension set 22 mm for too low installation depths:

#13596000 for rosettes 170 mm diameter  
#13597000 for rosettes 150 mm diameter  
#15597000 for PuraVida measuring 155 x 155 mm  
#13593000 for ShowerSelect  
#13601000 for ShowerSelect including FixFit and holder  
#13604000 for ShowerSelect glass

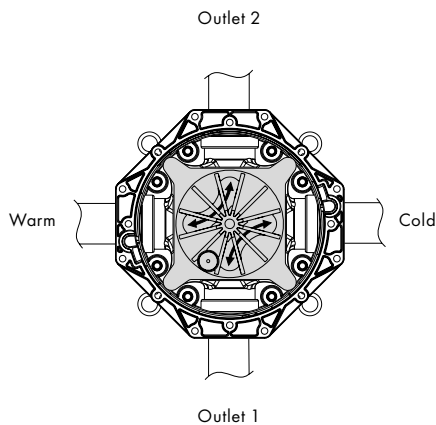

The basic set can be fitted to suit the structural conditions. The iBox universal is suitable for both bath and shower installation. With single lever basin mixers, the lower outlet (outlet 1) has priority. With shower installations, the outlet that is not required needs to be stopped with a plug.

The rotation-symmetrical base unit of the iBox universal can be used horizontally or vertically.

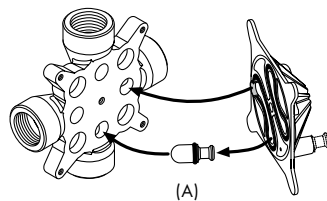

**Exception:** installation of basin mixers with safety combinations; only vertical installation is possible here.

### Flushing

Complete installation as per DIN 1988/EN 1717, part 2, Flushing. The arrows on the flush block indicate which inlet is connected to which outlet pipe, for instance cold water to outlet 1 and hot water to outlet 2. If only outlet 1 is required, then the flush block needs to be rotated by 90° after the first flush.

### Tips for the bath tub

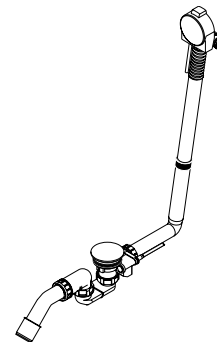

### iBox universal in combination with Exafill bath filler with outlet and overflow fitting:

switch off water to the Exafill during the construction stage!

### Raw installation:

1. install iBox universal
2. Lay pipes to Exafill and block (metal plug)
3. Flush and press pipe system

### Place bath:

1. Switch off water
2. Install bath with Exafill and connect to mains water
3. Flush pipe to Exafill with sample filler necks and check for leaks
4. Switch off water at floor level
5. Remove flush block
6. Insert plug (A) in outlet for Exafill
7. Fit flush block
8. Switch on water

sBox Bath

# Practical hose coiling system for added convenience

Our sBox creates relaxed feel-good moments in the bath tub. The innovative shower hose solution has many smart benefits, such as an easy-access hose that offers plenty of freedom to move and convenient access to the

hand shower at all times. The neatly rolled up shower hose looks attractive and the smooth surfaces are easy to clean and available in two flange designs. Hand showers are sold separately, with free choice of placement

along the bath tub rim and the option of a tiled surface installation to enable you to furnish your bathroom however you like.

## The sBox bath tub pre-fab set

G ½ hose connection for universal compatibility with all conventional hand showers

Translucent polypropylene box (hard, solid, able to withstand thermal stress, chemically resistant)

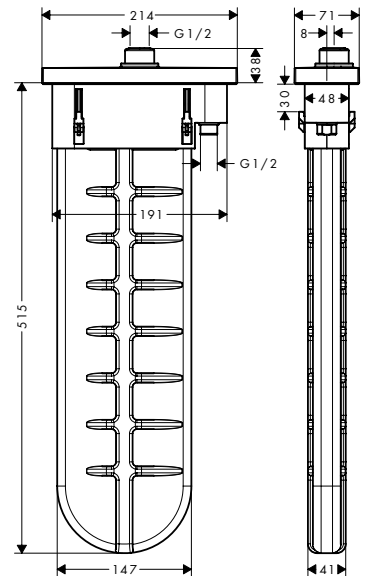

Two flange designs to suit any bathroom

Metal flange for a high-end feel and long lifespan

Installation frame can be screwed to the bath tub rim/edge of the tiles; four screws in each corner guarantee it will stay in place

Safe in accordance with EN1717

### Advantages and benefits

- Concealed shower hose improves the appearance of the bath tub
- Choice of two attractive designs
- More flexibility with a long hose (1.45 m)

## The sBox bath tub installation options

Installation example: tiled surface installation.

- Can be mounted on the bath tub rim or edge of the tiles
- Easy, hassle-free installation in two steps
- Extremely low maintenance, so very few complaints
- Suitable for all age groups and needs
- For easy and neat tiled surface installation, we recommend the original hangrohe installation bracket (# 28021, -000) and plate (# 28016, -000)

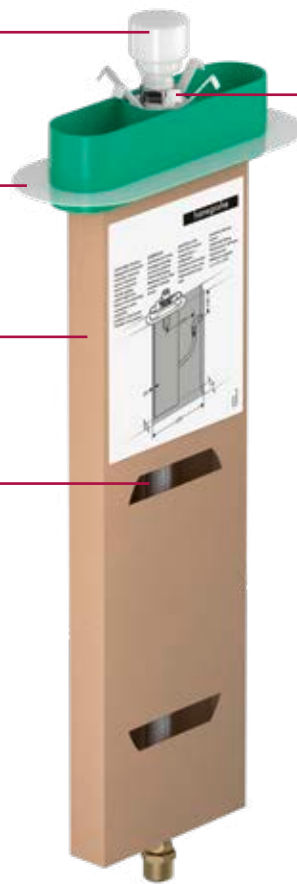

## The sBox bath tub basic set

Plug for rinsing the connected pipeline

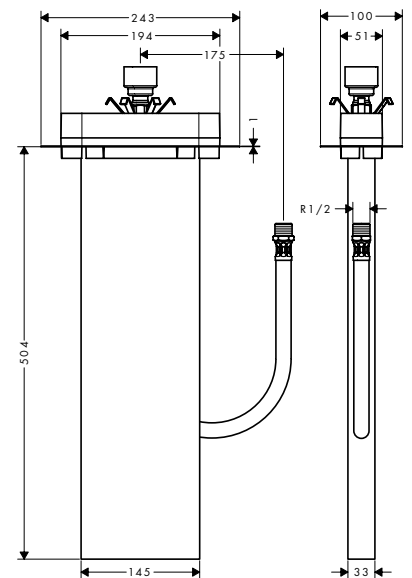

Place holder for the installation frame to be positioned here later

Cardboard place holder to simulate free space under the bath tub or tile so that this space is saved for the sBox

Hose to be connected to the mixed water pipe

Holder for the connection hose prevents the shower hose from falling behind the bath tub

Shower planning

- More freedom to move in the bath tub
- Position it anywhere along the bath tub rim
- Optimised workflow with two-step installation: basic and pre-fab sets

Shower planning

• denotes minimum operating pressure

## Installation ShowerTablet Select 700

The new ShowerTablets are the first hansgrohe exposed thermostats that also control a single-spray overhead shower on a G $\frac{1}{2}$  wall connection. And with absolute ease at the touch of a button on the ShowerTablet Select 700. The innovative surface-concealed

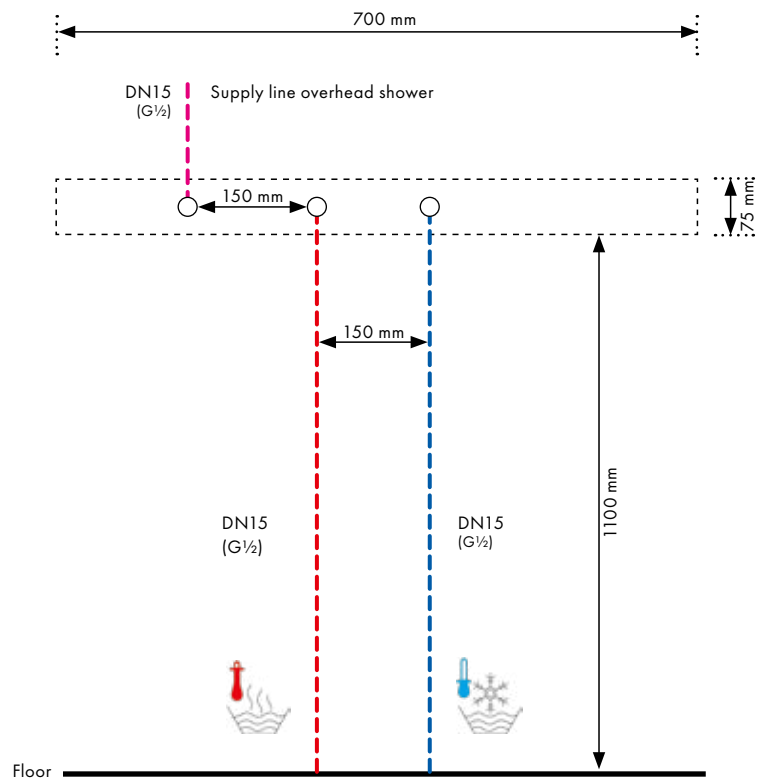

installation is a genuine highlight, in both technology and visual appeal. The 700 mm wide storage shelf also offers space for all paraphernalia and can be cleaned easily thanks to its high-quality glass surface.

### ShowerTablet Select

Thermostat 700 universal for exposed installation for 2 functions  
# 13184, -000, -400

**Exposed/concealed installation for 2 functions:** The ShowerTablet Select 700 is installed on commercially available connections (G $\frac{1}{2}$ ). The specified measurements are the distance between the hot and cold pipes and the connection for the supply line to the overhead shower. The overhead shower itself can be placed anywhere in the shower area.

## Installation ShowerTablet 600 Universal shower thermostat

The ShowerTablet 600 Universal shower thermostat also uses a concealed installation (G $\frac{1}{2}$ ) to control a single-spray overhead shower. However, contrary to the

ShowerTablet Select 700, a basic set is required. The turning knobs on the front make it user friendly, and it has a 600 mm wide shelf.

### ShowerTablet

Thermostat 600 universal for exposed installation for 2 functions # 13108, -000, -400

**Exposed/concealed installation for 2 functions:** The ShowerTablet Select 600 is installed on commercially available connections (G $\frac{1}{2}$ ) using a basic set that needs to be ordered separately. The specified measurements are the distance between the hot and cold pipes and the connection for the supply line to the overhead shower. The overhead shower itself can be placed anywhere in the shower area.

## Rainmaker Select – installation on a wall

The Rainmaker Select overhead shower can be fitted on a wall using the iBox universal. It is suitable for large shower areas, and can be fitted to existing wall connections. This makes it ideal for bathroom modernisations.

**Rainmaker Select**  
Overhead shower 460 3jet with shower arm 46.1 cm  
# 24007, -400, -600

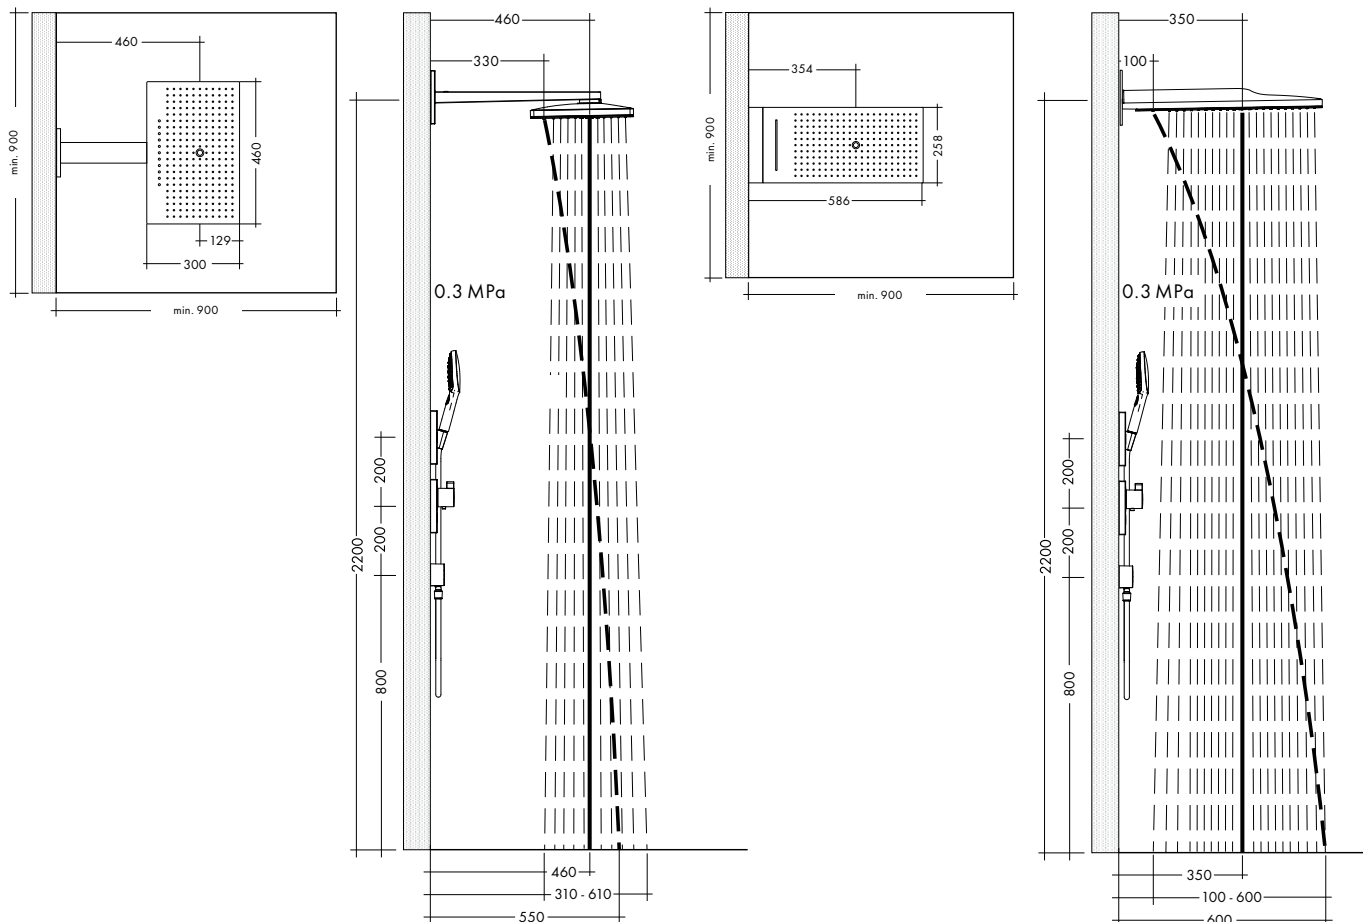

**Rainmaker Select**  
Overhead shower 580 3jet  
# 24001, -400, -600

### Wall mounting

Please consider in your plans the size and design of the shower cubicle, and the outlet angles and reaches of each spray type.

All dimensions in mm

## Rainmaker Select – installation on the ceiling

Alternatively, the Rainmaker Select overhead shower can also be applied to the ceiling.

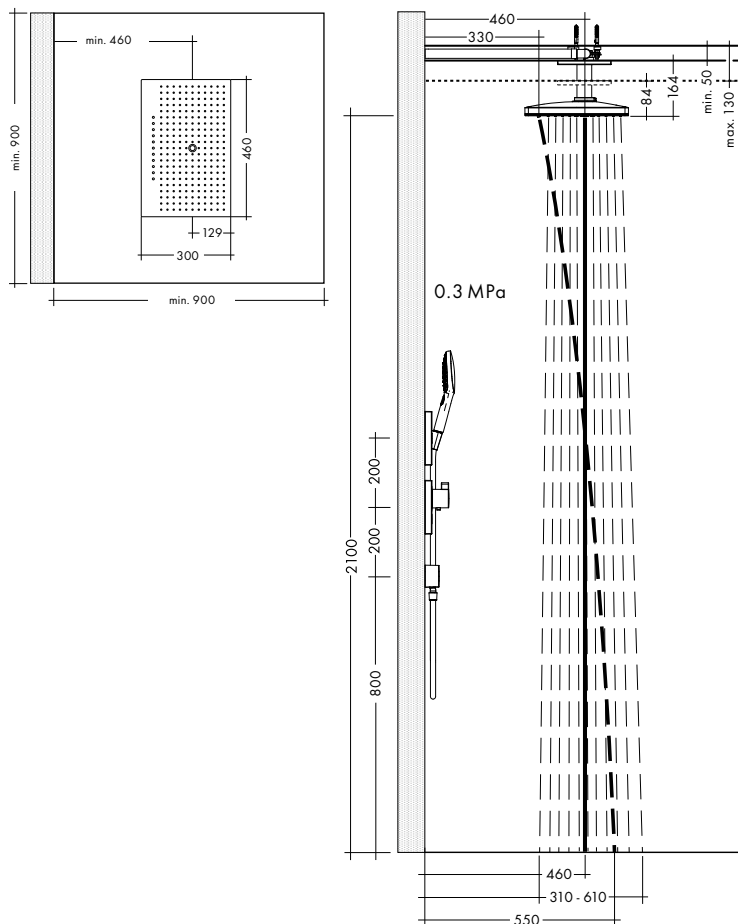

### Rainmaker Select

## Round tube Showerpipes – flexible in height

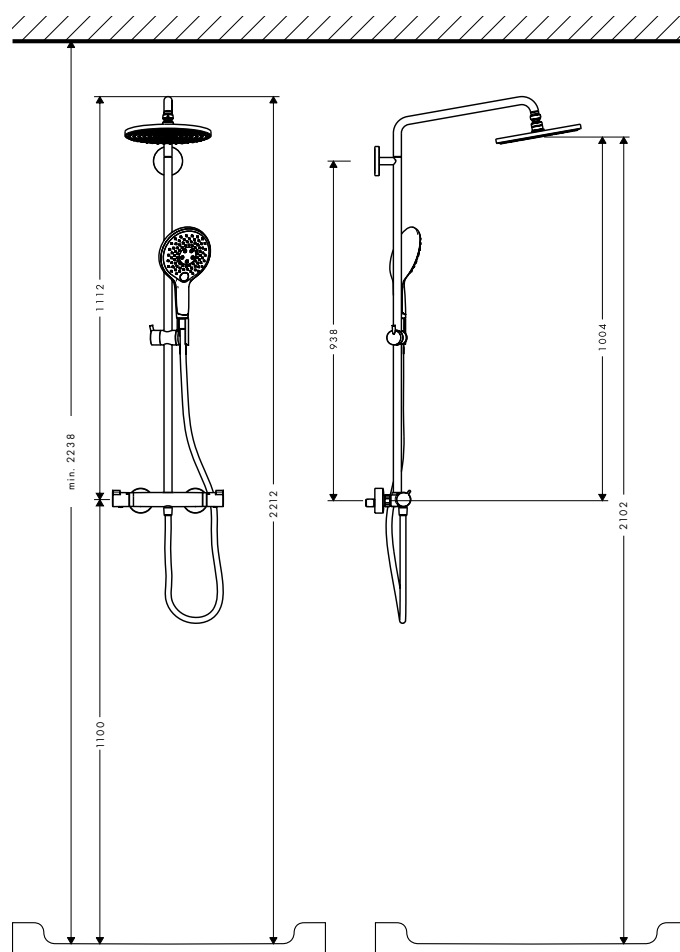

Regardless of the height of the room and the water connections, a number of round tube Showerpipes can always be placed in the optimum position. The round tube can only be

cut to the right length on the underside, which means that individual customer requirements can also be met.

### Room height A

### Room height B

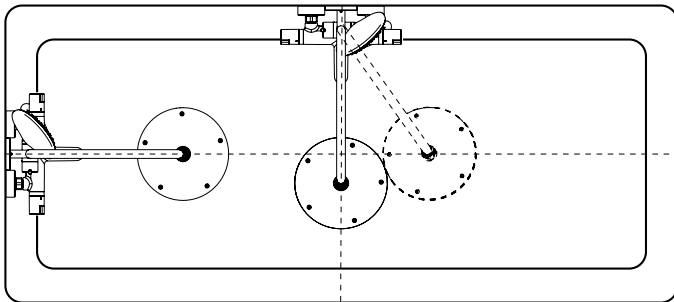

## Versatile positioning

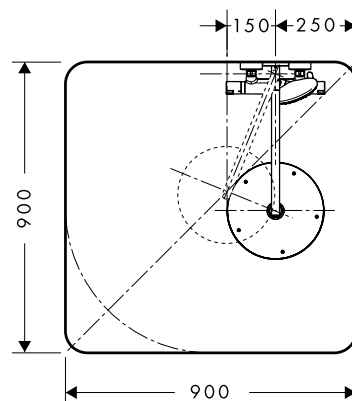

The swivelling spray makes the Showerpipes extremely versatile – perfect for use in any bath or shower situation.

### Bath installation

Showerpipes can easily be installed on the front or long side of the bath, according to the positions of the water connections. The overhead shower can also be aligned individually.

### Shower installation

Often, the existing water connections are not positioned in the middle of a shower. Thanks to the swivelling shower arm, the head shower can still be placed in the middle of the shower after installation.

## Metris S

Large areas add a timeless elegance to the bathroom. From page 220.

## Talis Select E/Talis E

**NEW**

Pioneering style that also sets standards with operation at the touch of a button. From page 222.

## Metris Classic

Decorative lines for an elevated ambience. From page 198.

## Talis Select S/Talis S

Sleek, natural shape with seamless operation at the touch of a button

## Focus

Dynamic design emanates freshness and lightness. From page 236.

## Logis Classic

Classic charisma that elegantly completes the bathroom. From page 200.

## Novus

Flowing figures and harmonious haptics. From page 240.

## Logis

Soft silhouette for a homely atmosphere. From page 244.

New products – for the bathroom with character

# Fresh shapes and finishes

Your bathroom is somewhere that you should feel at home. As a place of relaxation, it needs to appeal to all the senses, not just be aesthetically pleasing. Seamless wall panels and flooring made of premium materials add clear character to surfaces and our new taps accentuate the bold look of a customised bathroom. hansgrohe products enrich your room with style, quality and function.

**sBox Bath:** Practical hose coiling system; fast, convenient and safe installation

**FinishPlus:** Satisfies the need for personal fulfilment and design freedom with five new and premium finishes. Available in the Metropol and Talis E tap ranges and additional products. There's a solution for every budget with broad spectrum of prices across the tap ranges.

**Talis E FinishPlus:** Add elegance with the Talis E range in five new finishes. With the exquisite metallic colours brushed black chrome, brushed bronze and polished gold optic or with the current matte trend colours of matte white and matte black.

**Metropol FinishPlus:** With five new high-end finishes, hansgrohe offers a variety of design options alongside chrome: matte black, matte white, brushed black chrome, brushed bronze and polished gold optic for a premium look, with sleek and elegant accents.

Simple and convenient

# Technologies – simple yet ingenious

Adjustable hot water prevents extreme temperatures to protect against scalding

Simple and safe regulation of temperature, with wide mixing range and easy to use handles

Stable control thanks to the patented **Boltic lever lock** with the wedge shaped control lever

Low Class 1 noise development, ideal for multi-family homes, hotels and offices

High quality and silent **ceramic cartridges**

**Easy to clean** the mixer with **QuickClean**

**EcoSmart technology** for water and energy savings

**AirPower** adds volume to every droplet of water for less splashing and a quieter spray

**ComfortZone** provides lots of space under the spout

Shaft attachment with attachment nut and seal

Flexible, state of the art connector hoses (G $\frac{3}{8}$ ) virtually eliminate water damage

## Advantages and benefits

- EcoSmart technology limits flow to 5 l/min, saving water and energy
- QuickClean for easy cleaning and long-lasting mixers
- AirPower for a full and soft water spray
- Compliant with the German drinking water regulations TrinkwV of 2013
- Various designs and styles – the perfect mixer for every taste
- Five year warranty

Scan the code and learn more about our technologies.

## Select: easy operation at the touch of a button

Buttons not levers – the new form of convenience at the wash basin. The mechanical Select push button simplifies day-to-day routines like shaving and brushing your teeth.

### Advantages and benefits

- Easy operation – suitable for all ages
- Temperature can be pre-set
- Can also be operated with an arm or elbow

## QuickClean: rubbing away limescale in moments

QuickClean means flexible silicone inserts on the aerators. Dirt and limescale deposits can be simply rubbed off with your finger – low effort with no need to use cleaning products, extending you shower's lifespan.

### Advantages and benefits

- Fast and easy cleaning
- Long lifetime and functionality

Something to suit every customer

Scan the code and learn more  
about our technologies.

# Technologies – how to get the best use out of them

## ComfortZone: complete freedom to move

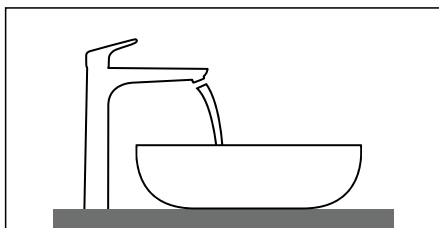

Whether you want more elbow room when washing your hands, a comfortable way to wash your hair or just fill containers, the higher the tap, the more flexible your options become. We call the space between the tap and the ceramics the ComfortZone because you can use it however you like.

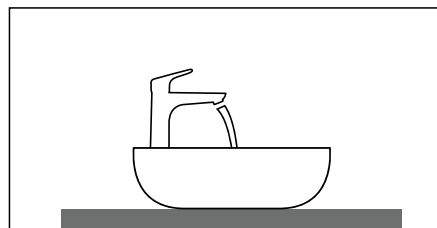

### Advantages and benefits

- The optimum tap height for all needs
- The perfect combination of tap and basin
- ComfortZone Configurator:  
[pro.hansgrohe-int.com/  
comfortzone-test](https://pro.hansgrohe-int.com/comfortzone-test)

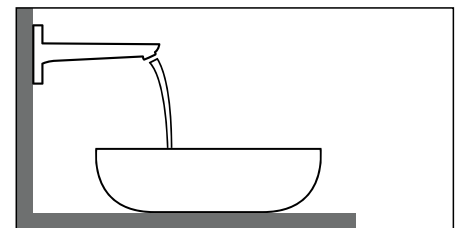

## The right installation for every purpose

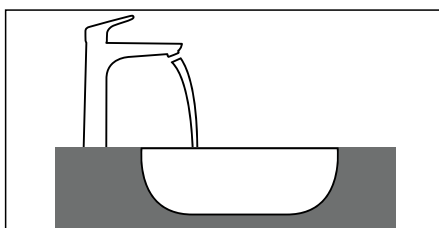

Mixer behind free standing exposed basin or behind wash bowl.

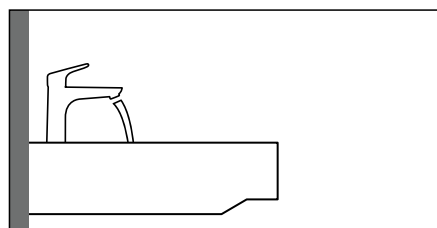

Wash bowl with exposed mixer.

Wash bowl with wall mixer.

Mixer for built-in basin.

Wall-hanging wash basin with exposed mixer.

The right mixer for every washbasin

# ComfortZone test – everything perfectly coordinated

The higher the tap, the more flexible the space. However, if a wash basin and tap do not match up properly it can result in splashback. To avoid this, we developed the ComfortZone test. Carried out under realistic conditions, the test reveals just how well customers' taps work in combination with conventional wash basins from leading manufacturers.

## How the ComfortZone test works

### 1. Free space test

Is there enough of a gap in the combination of mixer and wash basin? A test sphere is positioned between the mixer and wash basin to check how easy and comfortable it is to wash the hands.

### 2. Spray test

Is there any splashing when the mixer is turned on? The mixer is opened and closed several times under different water pressures. Between tests, the splashes are analysed and the wash basin rubbed dry.

### 3. Practical test

Is there any splashing when washing the hands? A standardised hand model is passed under the water flow and the splashes outside of the basin analysed.

## Free PDF: the results from over 12,000 combinations

Utilise our knowhow from thousands of tests: As a professional partner we provide you with exclusive access to the findings from the series of tests. This overview of all tested mixer and wash basin combinations provides a sound basis for your recommendations. The PDF files with all the test findings are available free of charge at [pro.hansgrohe-int.com/comfortzone-test](https://pro.hansgrohe-int.com/comfortzone-test)

### Advantages and benefits

- Reliable test procedure on the wash basins of leading manufacturers, fitted in accordance with the instructions
- Recommendations from over 12,000 tested mixer wash basin combinations available online for planning – constantly expanded and updated
- The certainty that wash basin and mixer harmonise – without annoying splashes

Easy and efficient

# Technologies – saving water made easy

## EcoSmart: water and energy savings

Thanks to EcoSmart technology's aeration, our basin taps consume just 5 l/min of water. This saves warm water and energy. All of our basin taps have achieved level A in the home sector: the best possible result.

How much water can be saved is calculated by the savings calculator at: <http://pro.hansgrohe-int.com/savings-calculator>

### Advantages and benefits

- Water consumption as low as 5 l/min
- Air enriched water for a full, sparkling spray
- Reduced consumption means both less energy needs and less CO<sub>2</sub> emissions
- Lower water and energy consumption for double efficiency

## LowFlow: mixers for minimal flow rates

Saving water and energy are important criteria for attaining building certification, e.g. LEED or BREEAM. So, we designed the LowFlow cartridges; they have a water flow rate of just 3.5 l/min.

### Advantages and benefits

- Savings in water and energy
- Certification advantages especially for projects
- Precise temperature setting despite low flow rate

Scan the code and learn more about our technologies.

## AirPower: for water in all of its fullness

AirPower works by drawing in air via the spray outlet. This enriches the inflowing water with air, making the water jet fuller, lighter and softer – this is how AirPower achieves a high spray volume with less water.

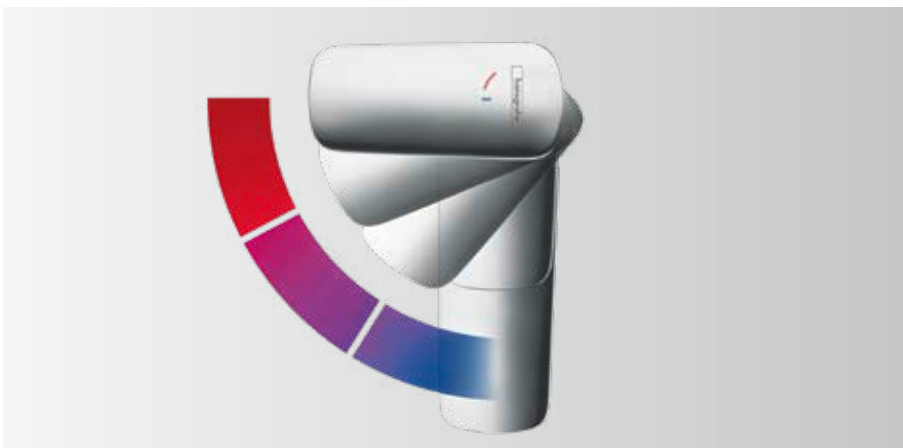

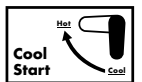

### Advantages and benefits

- Fuller, lighter, softer drops for a pleasant water spray
- Less risk of splashing
- High efficiency helps to reduce water consumption

## CoolStart: Hot water when you really need it

On standard taps the continuous flow heater or circulation pump starts up immediately when the handle is in the middle position, but with CoolStart taps the hot water is only added when the lever is moved to the left. This cuts down on energy needs, CO<sub>2</sub> emissions and costs.

### Advantages and benefits

- Basic setting enables only cold water to flow
- Potential for water, energy and financial savings
- Special user ergonomics (the lever only needs to be moved to the left for hot water)

PuraVida

# Sensuous poetry of purity and clarity

Precise form thanks to the clear separation of the surfaces

Emotional appeal from the flowing, living form

Generous surfaces radiate elegance

Dual-finish enhances the uniqueness

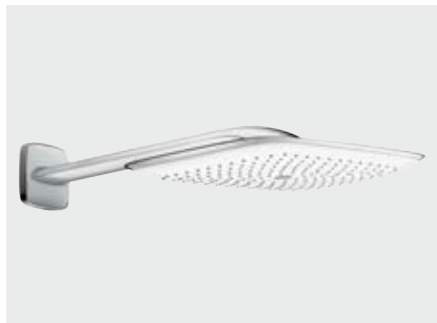

ComfortZone with the high spout

Puristic design for a feeling of timelessness

## PuraVida 110

**Attractive:** PuraVida emanates a special elegance and integrates perfectly in the bathroom, harmonising with white ceramics.

**Complete in itself:** Here pure elegance can be seen in all of the details. Moreover, the overhead shower is ergonomically shaped to completely cover the user's shoulders.

**Emotionally appealing:** The DualFinish surface unites white and chrome in a harmony of quality.

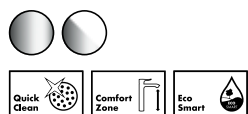

## Advantages and benefits

- Breadth of range to enable complete, coordinated bathroom design
- Sculptured look from the harmonious unity of body and spout
- Flat pin handle with joystick cartridge
- Visible quality in the precise contoured lines
- Clear laminar jet and adjustable spray angle
- DualFinish surface with precise edges between chrome and white
- Scratch resistant powder coating

Metropol Classic

# A world full of elegance and harmony

Elegant appeal thanks to the gentleness of the surfaces and the delicate gold accents

Sculptural effects from the opulent plinths

The rounded spout enhances the classic appeal

Elegant basic set with precise edges represents modern elegance

## Metropol Classic 110

**Versatile:** Handles available in the 3 versions (1) cross handle, (2) lever and (3) zero handle for 3-hole mixers.

**Elegant:** Delicate gold accents are elegance and add value to the room.

**Harmonious:** Metropol Classic combines sophisticated gold-coloured details with polished chrome finishes, resulting in a range of alluringly elegant fittings.

## Advantages and benefits

- Elegant mixer line that will add value to any bathroom
- 3 handle options for different bathroom ambiances cross handle, zero handle and lever handle
- 3 different basin mixer heights for individual free space
- Automatic flow limit to 5 l/min thanks to EcoSmart technology
- Easy to clean thanks to QuickClean technology

Metropol **NEW**

# The new form of fascination

**Metropol 110**  
**Metropol Select 110**

**Appealing:** Geometric design language takes up the design of the bathroom to create a pleasant atmosphere.

**Impressive:** Metropol mixers also create an exclusive effect when used as free-standing items.

**Elegant:** The open handle design adds lightness and exclusivity into the shower.

## Advantages and benefits

- Perfect geometric design language for a timeless bathroom design
- Minimalistic yet intuitive Select button for easy operation
- Design freedom thanks to the wide range of options: various spout lengths and 3 handles for washbasins. Also various installation options for washbasins and baths.
- ComfortZone – hand washing made easy thanks to the various height options

Metropol FinishPlus

# Tangible personal fulfilment

With Metropol, you are choosing a tap range with an unforgettably characteristic look thanks to its precise geometric shape and clear lines. The five new high-end FinishPlus surface finishes provide the necessary design freedom

for a uniquely individual bathroom; the brushed black chrome, brushed bronze and polished gold metallic finishes take the classic and premium chrome look to a whole new level. The exquisite metallic colours add a

touch of modern elegance. And, the matte white and matte black options will seamlessly blend with modern architecture.

**670 Matte black:** Getting back to basics with black and white contrasts.

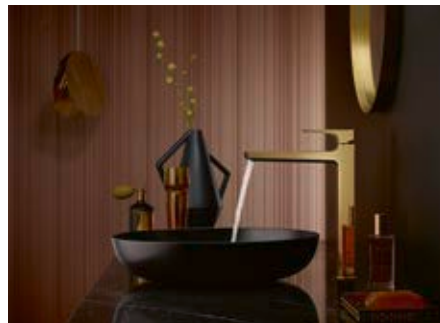

**700 Matte white:** Cheeky, unconventional freshness.

**340 Brushed black chrome:** Cool and linear with geometric shapes.

**140 Brushed bronze:** Soft natural tones and subtle nuances.

**990 Polished gold optic:** Glamorous look for aesthetic extravagance.

**000 Chrome:** Timeless classic paired with dainty elegance.

## Advantages and benefits

- Extensive range to suit any design preference: five new finishes and matching complementary products
- Immediate availability: easy ordering process as products are kept in stock
- Same price for all new finishes to make ordering simple

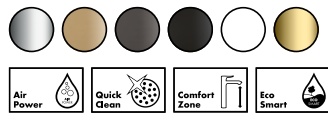

FinishPlus is only available with certain Metropol taps.

Metris

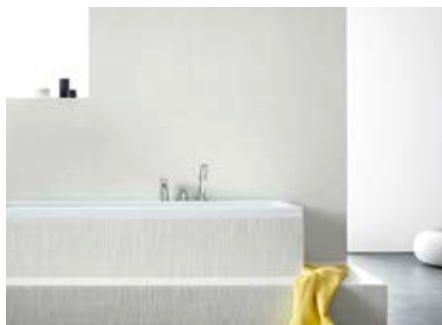

# To suit every customer

## Metris 110

**User-friendly:** Five basin mixer heights are available offering the right solution for any installation situation.

**Elegant:** Generous handle and spout surfaces lend the bathroom a luxurious ambience.

**Modern:** Metris mixers are designed for discretion, providing space for the personal ComfortZone.

## Advantages and benefits

- Generous surfaces for elegant, quality bathroom design
- The open sweep of the flat handle reflects its ease of use
- Tapered base and precision edges emphasise the character of quality
- Five basin mixer heights for individual free space
- Automatic flow limit to 5 l/min thanks to EcoSmart technology

- Extensive range for every application
- Also ideal for large scale projects

Talis Select E/Talis E

# Comfort in its most natural form

**User-friendly:** Whether with a finger, arm or elbow – the Select button makes operation easier than ever.

**Fine form:** Because the Select button has no lever, the mixer always looks symmetrical. There is no need to turn back the lever, and the water temperature is instantly correct.

**Elegant:** With their precise edges, the mixers contribute to the overall look of harmony in the modern bathroom.

## Advantages and benefits

- Select technology makes daily routines easier at the touch of a button
- Easy to clean: thanks to the generous areas
- Helps to save water, since the easy operation encourages the user to keep switching it off
- Automatic flow limit to 5 l/min thanks to EcoSmart technology

Talis E FinishPlus

# New finishes for even more design freedom

With the new high-end FinishPlus surfaces, we offer a variety of design options. The Talis E range is available in five new colours: the metallic finishes including brushed

black chrome, brushed bronze and polished gold are the perfect alternatives for those who have had enough of the standard. The exquisite metallic colours masterfully combine elegance

and modernity and set attractive contrasts, no matter whether your bathroom interior is dark or light. Elegant simplicity ensure the taps become the highlight of any modern bathroom.

**670 Matte black:** Getting back to basics with black and white contrasts.

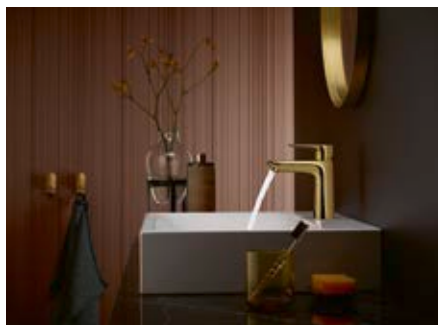

**700 Matte white:** Cheeky, unconventional freshness.

**340 Brushed black chrome:** Cool and linear with geometric shapes.

**140 Brushed bronze:** Soft natural tones and subtle nuances.

**990 Polished gold optic:** Glamorous look for aesthetic extravagance.

**000 Chrome:** Timeless classic paired with dainty elegance.

## Advantages and benefits

- Extensive range to suit any design preference: five new finishes and matching complementary products
- Immediate availability: easy ordering process as products are kept in stock
- Same price for all new finishes to make ordering simple

FinishPlus is only available with certain Talis taps.

13.8 l/min

Talis Select S/Talis S

# This is where form and function blend

Talis Select S 100

Talis S 100

**User-friendly:** Whether with a finger, arm or elbow – the Select button makes operation easier than ever. The temperature can remain pre-set.

**Fine form:** Because the Select button has no lever, the mixer always looks symmetrical. There is no need to turn back the lever, and the water temperature is instantly correct.

**Natural:** harmonious integration of the mixers in the bathroom thanks to the naturally blending pipe bodies.

## Advantages and benefits

- Select technology makes daily routines easier at the touch of a button
- Helps to save water, since the easy operation encourages the user to keep switching it off
- Easy to clean: thanks to the clear conical shapes
- Automatic flow limit to 5 l/min thanks to EcoSmart technology

## Talis Select S/Talis S Basin

Focus

# With top quality, comfort and great value

**Focus 100**

**User-friendly:** Gentle, caressing roundness and the ergonomic handle invite you to try out the ease of use.

**Living:** The cylindrical, contemporary body of Focus mixers brings elegance and value to the bathroom.

## Advantages and benefits

- Design complete in itself and expressed in a clear, generous language
- Dynamic silhouette and gentle round shapes emphasise the quality
- Ergonomic handle for ease of use
- Excellent value with a high level of comfort
- Automatic flow limit to 5 l/min thanks to EcoSmart technology

Novus

# Easy-going elegance

The cylindrical, slender body adds a sense of effortlessness

Vibrant character expressed in the dynamic handle and spout

Clarity by precise edges

Sleek look with organic and flowing shapes

## Novus

**Simple:** Novus taps are bursting with natural elegance with their organic and flowing shapes.

**Dream team:** a real head-turner when used as a bath mixer and matched with hansgrohe hand showers.

**Retro:** Vintage design with three-hole basin tap for a bold, stylish look.

## Advantages and benefits

- Four ComfortZone heights for the perfect amount of space under the spout
- High quality and dynamic design at an attractive price
- Water- and energy-saving with EcoSmart technology

Logis

# Harmonious design with precision feeling

**Logis 100**

**Pleasing:** The precise shoulder lines and rounded edges delight both the eye and the hand.

**Flexible:** The extensive range has the best and most irresistible solution for any installation situation.

**Homely:** Thanks to the gentle silhouettes, the Logis mixers create a harmonious atmosphere.

## Advantages and benefits

- Clear, generous surfaces for easy operation and cleaning
- The rounded shapes of the handle and base make them the perfectly matching complements to the soft edges of the basin
- High-value, quiet ceramic cartridge – perfect for apartment blocks, hotels and offices
- High value in the lower price category
- Extensive range with various basin mixer heights
- Automatic flow limit to 5 l/min thanks to EcoSmart technology

Electronic basin mixer

# Sensors for greater hygiene and water savings

Here, water flows only when it is actually needed: Contactless mixers with infrared proximity electronics are especially useful in public facilities for saving water – and

hence for cutting the costs of consumption and energy. In addition, the contactless technology eliminates the risk of contamination associated with heavily used mixers in public and

corporate washrooms. Above all on the care and health sectors, hygiene experts recommend sensor controlled water sources.

## Focus

Electronic basin mixer

### Advantages and benefits

- Water savings thanks to automatic stop
- Available for battery and mains connection
- Contactless, so particularly hygienic
- Ideal for public and business sectors

Care mixers

# More comfort and safety with hansgrohe Care

Longer handles, intuitive use, constant temperatures, large lettering: The mixers in the Talis Care and Focus Care lines and the Ecostat Comfort Care thermostats provide that extra safety, comfort and ease of use in the

bathroom. The resulting ease in handling water offers particular benefits to families with small children. These perfected solutions are ideal wherever people are in need of assistance owing to their age or illness or wherever

special hygiene conditions apply: i. e. at retirement homes, hospitals, health resorts, or hospices. But also where greater ease of use and safety are required, for instance in nursery schools, or hotels.

## Focus Care

Single lever basin mixer

## Ecostat Comfort Care

Shower thermostat

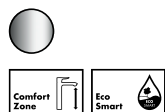

### Advantages and benefits

- Extra long, flat control lever: ergonomically formed for the whole hand or arm
- Comfortable use under a light touch
- Robust brass body and metal handle for a particularly long lifetime
- Temperature preset, e. g. for people who have lost their feeling for hot and cold

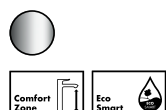

### Focus Care mixers

Quick-coupling set  
# 28346, -000

- Easy to connect to existing valves, e. g. under the basin
- Safety e. g. in nursery schools, hospitals or hotels
- Provides a constant temperature and consistent flow even with fluctuating cold water pressure
- Safe for thermal disinfection

- For quick, easy emptying of hoses

Unica 'Comfort

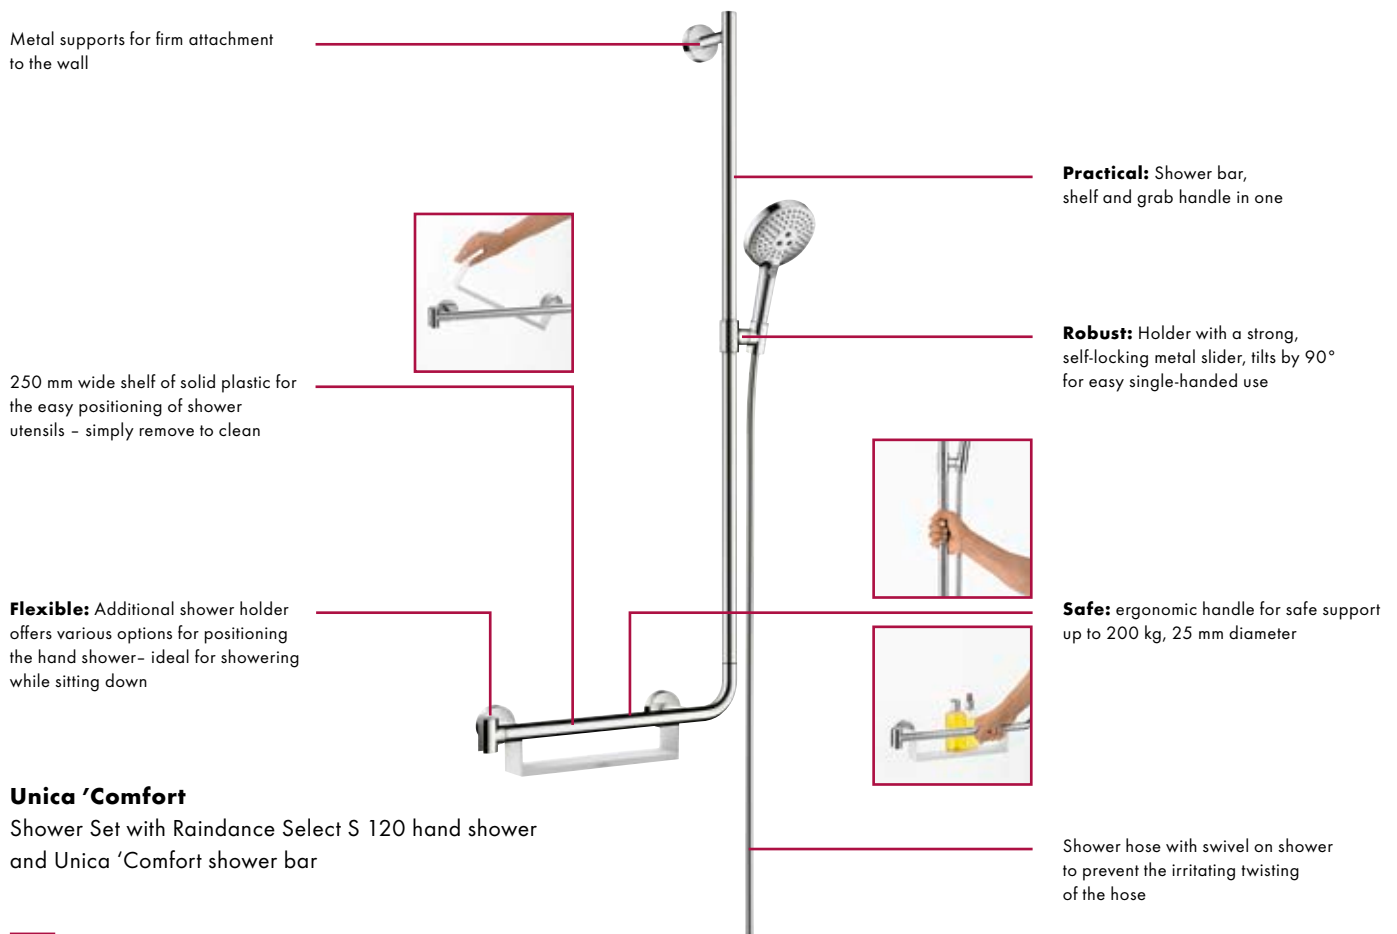

# Leaves nothing to be desired with regard to strength and comfort

The Unica 'Comfort range is a user-friendly, practical solution for any bathroom. And the strong, robust materials also make it ideal for projects, especially hotels. The strong shower bars have a high tensile strength of up

to 200 kg, so can also be used as a grab handle. The 25 mm thick chrome-plated brass bar and strong metal wall supports guarantee firm and safe support, and prevents it from being pulled from the wall. The grab handle

and shelf, foot support and the Raindance Select S 120 hand shower are the dot on the 'i' when it comes to comfort.

## Advantages and benefits

- Single-handed use thanks to self-locking slider
- Easy to change the spray type using the Select button
- Smooth tilt of the shower holder by up to 90°
- High tensile strength of up to 200 kg
- Combination of shelf, grab handle and holder as a compact solution for the bathroom
- Detachable shelf in solid white plastic offers plenty of space for all kind of shower utensils
- The shower bar and grab handle are also ideal for the bath

hansgrohe waste systems

## Discreet design, perfect function

Cleanliness is indispensable for well being in the bathroom. For this reason, hansgrohe has developed a large number of innovative waste systems. The used water can

then drain off quickly and easily. Flexible models like Exafill, Flexaplus, Raindrain and Flowstar are easy to install and in addition are perfectly easy to use. Overflow control and

other intelligent functions maintain comfort on a high level for a very long time.

**Push-Open:** The Push-Open waste is opened and closed at the tap of a finger and water can collect and drain off very easily.

**Flowstar:** The Flowstar waste system also presents a visually clean solution under the wash basin.

**Exafill S bath:** The integrated fine flood spray fills the bath easily and free of splashes, so a separate bath filler is not needed. Exafill S is everything in one: bath filler, outflow and overflow. Better still: The installation is pleasantly uncomplicated - and with QuickClean technology cleaning the filler nozzles is just as easy.

**Flexaplus S bath:** Never again a bath that has run too full. The outflow and overflow mixer regulates excess bath water through the overflow control element. In addition, the water level in the bath can be raised by up to 25 mm - for even more bath fun.

**Raindrain 90 XXL shower:** Ideal for large showers with high flow rates like Raindance Rainfall or Raindance Rainmaker. Provides for a fast and uncomplicated outflow in all shower trays. The perfect shower outflow with a max capacity of 51 l/min and easy installation.

## Advantages and benefits

- Water can drain off quickly and easily
- Easy to install and use
- Reliable even for large showers with high flow rates
- Overflow control and other intelligent functions

# KITCHEN MIXERS

---

**Mixer diversity where know-how quality,  
functionality and design come together**

New products – high-end quality for the kitchen

# Everything that makes excellent kitchen helpers

Everybody's personal style and taste is reflected in our range of kitchen taps, from modern to classic, from geometric to curvy shapes, and our innovative Select technology

makes them easy to handle. Our ComfortZone feature gives you more freedom to move. With the new kitchen taps in the Focus M42 range, we demonstrate that technological precision

and maximum functionality can go hand in hand at an attractive price.

**Focus M42:** The variety of shapes and different ComfortZone heights ensure your individual needs are met. The modern design integrates seamlessly into any kitchen setting. There are two finishes to choose from: chrome and stainless steel. It's a simple switch to high-end quality.

**Soap dispenser:** this practical assistant is a must for every kitchen. The lid and pump can be easily removed for simple re-filling. The three attractive designs match all hansgrohe kitchen taps. It's available in two premium finishes: chrome and stainless steel.

Simply ingenious

# Technologies – simple and convenient

## **Select:** easy operation at the touch of a button

Convenient Select technology: water can be paused and restarted with just one click. Effortlessly push with your elbow or the back of your hand to keep both hands free and kitchen taps clean.

### **Advantages and benefits**

- Convenient use – optimum water flow
- Stop and start the water flow at the touch of a button during operation
- Can also be operated with an arm or elbow

## **ComfortZone:** complete freedom to move

The extra-high spout offers a lot of freedom and is perfect for filling containers. The swivel area of the kitchen taps can be set incrementally (110°/120°/150°) or to 360°.

### **Advantages and benefits**

- The optimum height for all needs
- Flexible swivel area prevents excessive swivelling
- Ultimate freedom to move

Scan the code and learn more about our technologies.

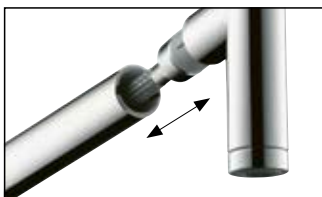

## QuickClean: rubbing away limescale in moments

QuickClean means flexible silicone discs. Dirt and limescale deposits can be simply rubbed off with your finger – low effort with no need to use cleaning products, extending you shower’s lifespan.

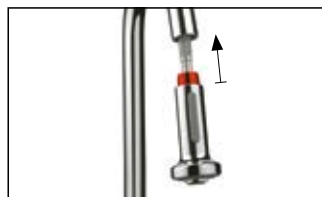

### Advantages and benefits

- Fast and easy cleaning
- Long lifetime and functionality

#### Pull-out function:

The pull-out spray extend the working radius at the sink.

#### MagFit magnetic holder:

Thanks to the MagFit function, the hose slides back almost silently and slots into place in the centre of the mixer spout.

#### Pull-out spray with two spray modes:

The pull-out spray features two spray types, and it is very easy to switch between the two.

#### Stainless-steel finish PVD:

Surfaces with a stainless-steel finish are manufactured using PVD technology and are particularly abrasion- and scratch-resistant.

#### Ceramic cartridge with Boltic handle lock:

Sturdy operation with handle lock to lend the tap a long lifespan.

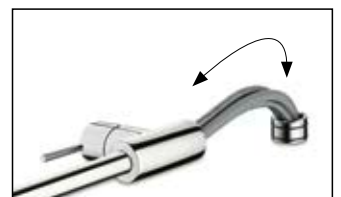

#### Safe, easy installation:

Flexible connections and a built-in stabilisation plate simplify installation. The PEX-hoses are temperature resistant and neutral in taste and odour.

#### Convenient handles:

Ergonomic handles make operation very convenient. The vertical handle positioning enables space-saving installation in front of the wall.

#### Fold-down function for window installation:

Ideal for installation in front of the window, simply lift and tilt the kitchen taps as necessary.

Metris Select M71

# Easy operation is the best recipe

**Flexible:** Tasks blend seamlessly thanks to the combination of the intuitive Select button and the practical pull-out spout – for more comfort in the kitchen and beyond the sink.

## Advantages and benefits

- Mixer easy to turn on and off at the touch of a button
- Intuitive control concept makes it ideal for all ages
- New spray design for easy handling with no irritating twisting of the wrist
- Ergonomic flat handle design for better adjustment of the water temperature and quantity
- Basic form matches the shape of the sink and integrates harmoniously in the kitchen

Talis Select M51

# An all-rounder for the modern kitchen

**Versatile:** Even containers that are some distance away are easy to reach and fill without splashing thanks to the Select button and the pull-out hose – even with just one hand.

**Robust:** Whether on the pull-out spray or the 150° swivel spout, the Select button is purely mechanical, which makes it especially robust.

## Advantages and benefits

- Select version with intuitive operation at the touch of a button
- Easy to clean: thanks to the large areas and precise transitions
- Select technology integrated harmoniously in the slender spout
- Two Select mixer types for individual requirements: with pull-out or swivel spout
- Conical basic shape radiates a luxurious elegance

Focus M42 kitchen taps

**NEW**

# Plenty of flexibility for the modern kitchen

More freedom to move with 120° swivel area: safely handle the water jet without it swivelling out of the sink

Modern, rounded design with organic, flowing shapes and an angled pull-out spout

Available in two high-quality surface finish variants: chrome and stainless steel

Precise control of the water flow thanks to the large handle with Boltic handle lock for sturdy operation

Easy to clean with anti-limescale function in the QuickClean aerator

The principle is simple, but ingenious. When you use your shower, air is sucked in via the spray disc, which literally stirs up the water. Freshly enriched with air, the resulting droplets are noticeably lighter and softer.

Safely stop the pull-out spout with the MagFit magnetic bracket

## Focus M42 Kitchen mixer

**Flexible:** The angled pull-out spout offers plenty of freedom to move.

**Swivel range:** 110°–360° swivel area for genuine added comfort when washing up.

**Smart installation in front of the window:** The tilt function is perfect for complicated constructions.

## Advantages and benefits

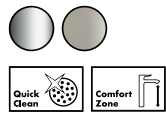

- Wide product range at an attractive price
- Three different basic shapes and five different ComfortZone heights for individual requirements
- Modern design that will look great in any kitchen setting
- Choice of two surface finishes: chrome and stainless steel
- Large handle design for sturdy handling

### hansgrohe Customer Service

For technical enquiries, experts in the bathroom trade will be happy to assist you with their extensive knowledge of the entire hansgrohe product range. Service and replacement parts are delivered in the fastest possible manner.

#### Service hours

Monday – Friday: 9.00 am – 5.00 pm

Phone: 01372 472001

Fax: 01372 470670

E-mail: technical@hansgrohe.co.uk

### hansgrohe spare part guarantee

We guarantee the availability of spare parts for up to ten years. This gives you peace of mind, even for projects that were completed some time ago.

### The Hansgrohe Aquademie, Schiltach, Germany

The Aquademie is our event centre where you can experience everything to do with water. Visit our museum to learn all about the history of bathing and the bathroom. Discover in our exhibition how international design stars turn a bathroom into a true oasis of well-being. Let us show you how innovative technologies can make saving water a pure pleasure. Or experience great shower and water fun in our Showerworld, Germany's largest bathroom.

#### Opening hours:

Monday – Friday: 7.30 am – 7 pm

Saturday – Sunday: 10.30 am – 4 pm

Free admission. Booking required.

Please bring swimwear.

Please bear in mind that we can present only a selection of our products in this sales manual.

Our full range can be found at [www.hansgrohe-int.com](http://www.hansgrohe-int.com).
