KLASS

## Elegance, Exclusivity, No Limits Integration

Klass is a prestigious device, a super-stylish video intercom featuring ultra-slim design and 3mm glass finish

LCD IPS 7" display, with 1.024 × 600 px resolution, offers a **wide and sharp view of video streams** and available functions.

Capacitive touch screen monitor **includes a high-resolution front camera** up to 1080p, enabled during intercommunication with another Klass monitor.

Handset available

Klass is full-duplex hands-free assuring a high-level phonic performance and – for those wishing for more privacy – an additional handset is available, **featuring plug & play quick-connect and magnetic cradle**

SET TIME SLOT

Do you want to repeat this time slot for the other week days?

Start	End	Temperature
07 : 30	14 : 30	18.0°

Yes, select days   No, this day only

No Limits Integration

Klass is built on IPure technology, supporting standard protocols used for integration with third party systems, **with no additional license fees**.

- ✓ **RTSP** protocol for integration with IP video surveillance systems.

- ✓ **SIP** protocol for interfacing with VoIP switchboards and with Public Address systems.

- ✓ **HTTP** to manage all outdoor and indoor station commands and services on third-party platforms.

Klass uses embedded Linux for maximum reliability and includes a built-in browser for full interoperability with third parties.

A Wi-Fi dongle module is available for alternative connection to the local network.

VIDEX

Security for your Spaces

Klass manages up to **64 IP camera streams** and **camera switching** function is available: during conversation, by a simple touch on the screen or on the button, you can choose the **camera you want to view** - in addition to the door station's.

Moreover, you can **prioritize the stream** you prefer during a conversation.
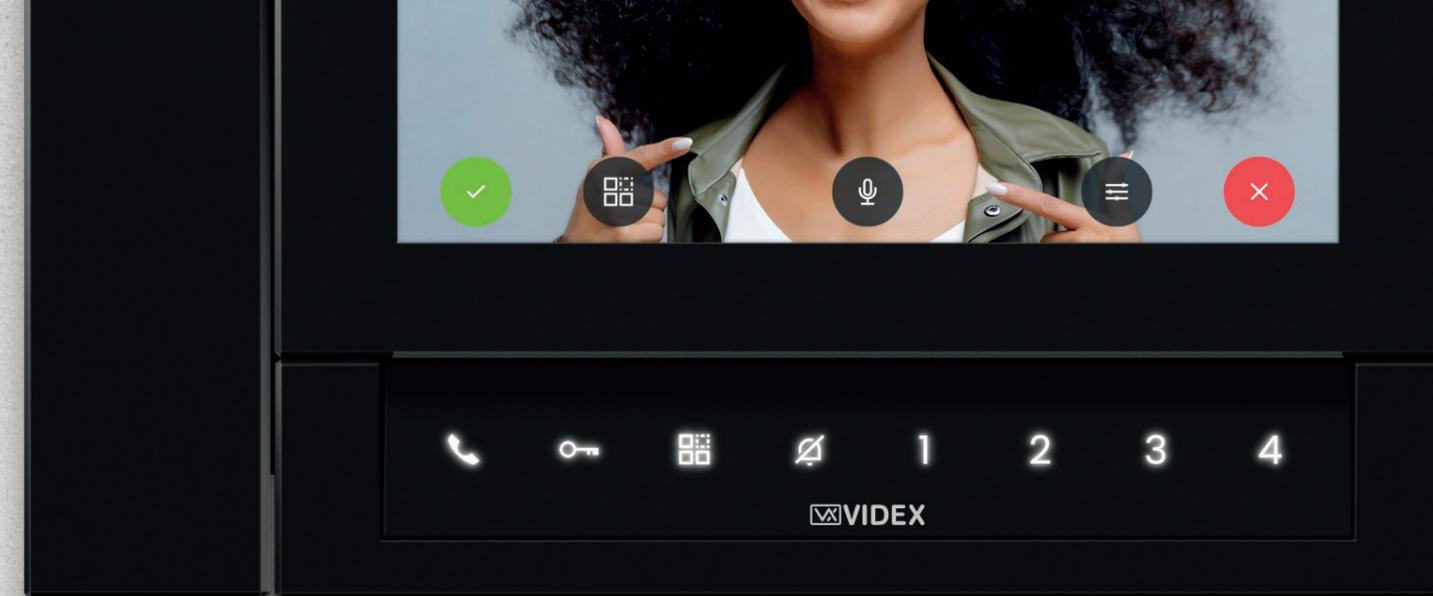

4 preset buttons: conversation and auto power on, door opener, menu, privacy.

4 numbered buttons for additional services.

Reliable and Complete

Klass features **8 soft touch buttons**.

All buttons – including the preset ones – are **freely configurable** to manage the functions you prefer.

2 inputs and 2 outputs are included to **manage services**, both locally and through the Videx App.

KLASS
Smart & Comfort

Built-in sensors can be integrated with third party systems and devices to trigger many automations

✓ **Ambient light sensor** for automatic brightness and theme adjustment.

✓ **Proximity sensor** allowing automatic screen power-on as the user gets closer.

✓ **Temperature and humidity sensor** to manage room temperature.

All the available functions can be remotely managed through the Videx app: no configuration is needed and in a snap you can have everything under control when you're not home
