

2027 COLOR OF THE YEAR

AND COLOR TRENDS

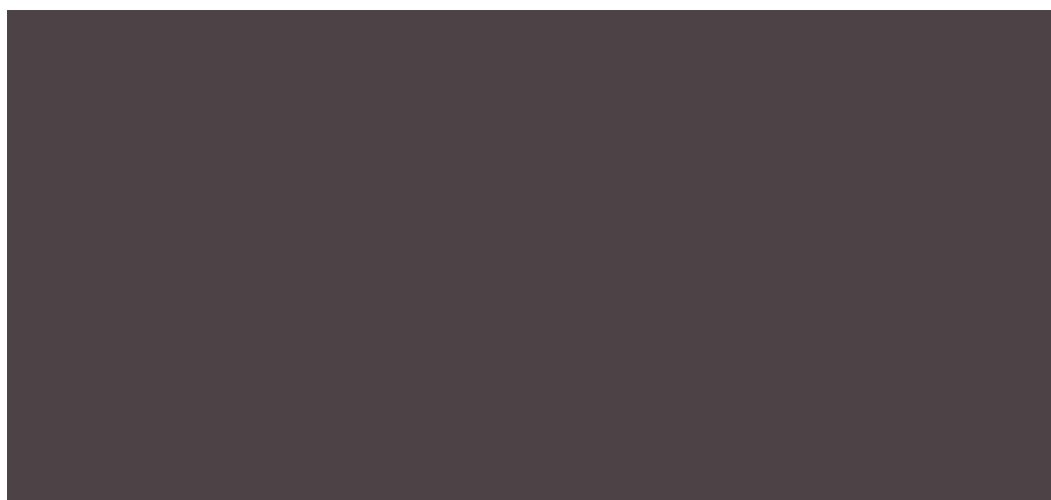

DUNN-EDWARDS / 2027 COLOR OF THE YEAR

FRENCH PRESS COFFEE

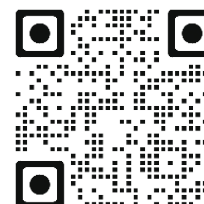

The warmth of a familiar ritual unfolds into a deep, calming nuance. Elevate the everyday with French Press Coffee (DEBN07), a dark, complex brown layered with subtle plum undertones. Both timeless and unexpected, it embodies the enduring appeal of quiet luxury.

SHEEN STORY

Deeply dimensional, French Press Coffee shifts subtly with every sheen. A higher gloss reveals its hidden plum undertones, while flat and matte finishes project more of a quiet, smoky brown impression.

COLOR CHIPS AND PAINT: These color chips are produced as accurately as possible; however, actual paint colors may vary from these samples and from batch to batch. Paint colors are affected by many factors, including lighting, age, type of finish, type of surface and adjacent colors. Some colors may require more than one coat for complete coverage. If final color appearance and color matches are critical, paint should be sampled on the actual surface before full applications. Application of the paint constitutes acceptance of the color. Dunn-Edwards assumes no responsibility for the color after application.

⚠ **Alkali-Sensitive:** Colors that are more likely to fade early when used on highly alkaline surfaces, such as new masonry.

① **Interior Use Only:** Colors with a low resistance to the sun's ultraviolet (UV) rays, causing them to fade.

🏠 **Low Hide:** Colors that are more transparent and may require multiple coats.

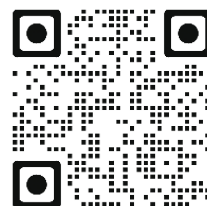

🏛 **Historic:** Colors that are historically accurate.
