CREATE BEYOND CONVENTION

Focus White

The decision to create a range of white fireplaces was made in 2017 by Dominique Imbert (artist and founder of Focus) as an artistic choice, a symbol of boldness and freedom.

The satin white finish gives a space a unique atmosphere and opens up new horizons in interior design: the Scandinavian concept of *hygge*, minimalist simplicity, the art of living well, the pristine purity of snow and ice, bohemian cool, Mediterranean charm – the possibilities are endless.

The only limit is your imagination!

WOOD BY FOCUS
Pure authenticity

Real flames and heat from a renewable energy source

HOLOGRAPHIK® BY FOCUS
Spirit of fire

The realism of a crackling fire powered by electricity, with an option of radiant heat (600W)

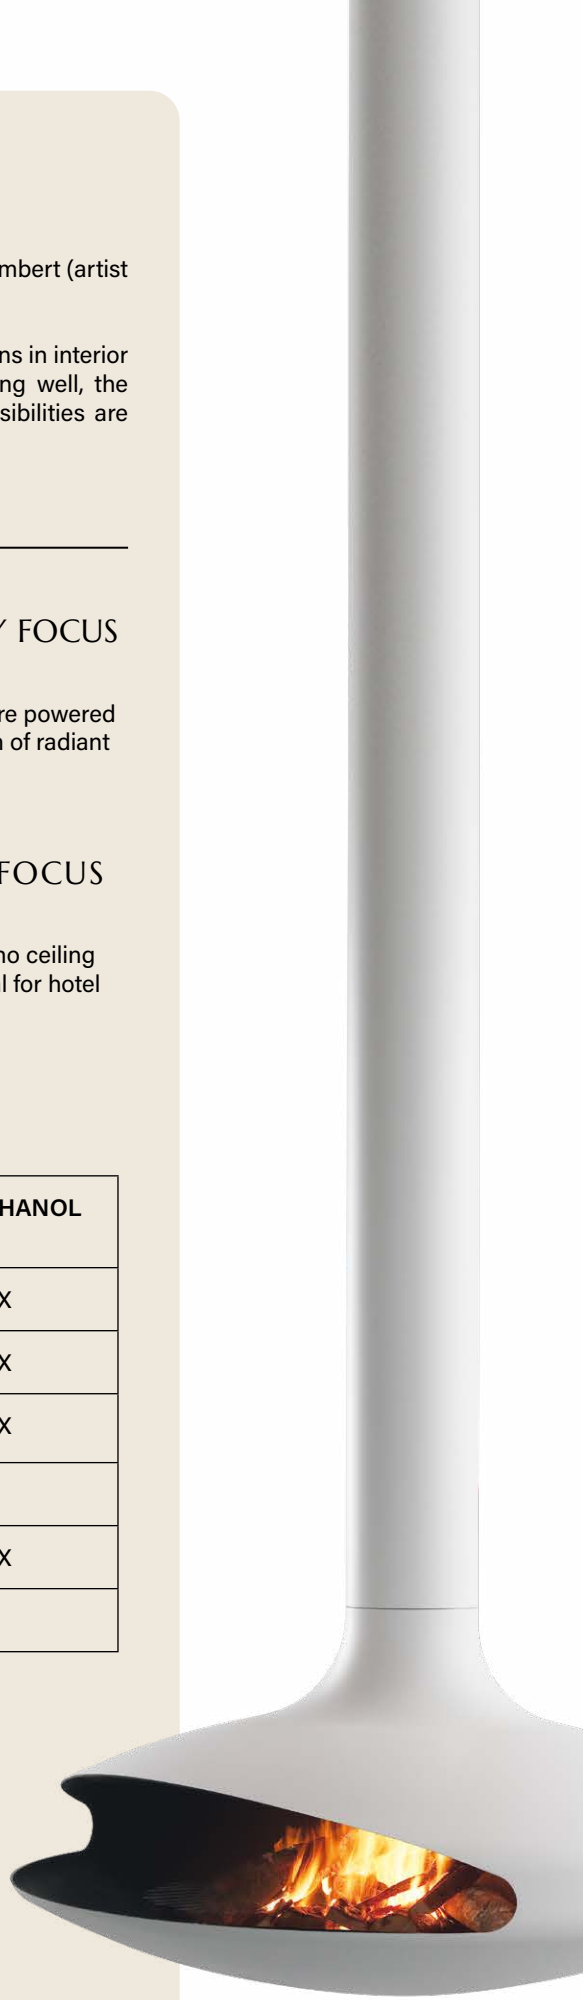

GAS BY FOCUS
Controlled passion

Real flames and heat, with the possibility of using biogas. Programmable thermostat and wall flue for apartments

BIOETHANOL BY FOCUS
Air of freedom

Real flames and heat, with no ceiling flue required, making it ideal for hotel lobbies and suites
