Beyond design, 4 types of fuel offer total freedom

Focus offers a range of around 20 iconic models, available in four energy types to suit your specific needs and provide an unparalleled fire experience for your guests.

WOOD BY FOCUS Pure authenticity

Real flames and heat
from a renewable energy source.

GAS BY FOCUS Controlled passion

Real flames and heat, with the possibility
of using biogas. Programmable thermostat
and wall flue for apartments.

HOLOGRAPHIK® BY FOCUS Spirit of fire

The realism of a crackling fire powered
by electricity, with an option of radiant
heat (600W).

BIOETHANOL BY FOCUS Air of freedom

Real flames and heat,
with no ceiling flue required,
making it ideal for hotel lobbies and suites.

What our clients say

HOSTELLERIE LEVERNOIS Relais & Châteaux - France

"Focus guided us through every step of the project, meeting our requirement to ensure maximum safety for our customers. The Slimfocus creates a special atmosphere, as authentic and warm as our villas. Its sleek, streamlined design blends harmoniously into any type of interior."

Séverine Pétilaire-Bellet, Owner

SON BRULL HOTEL & SPA Relais & Châteaux - Mallorca

"A Focus fireplace is a work of art in itself, a design element that enhances the style of our spa and sets it apart. Its modern, minimalist design creates a sophisticated and elegant ambience, drawing the attention of customers and making it a focal point of our space."

Miquel Suau, Co-owner & General Manager

MAGMAFOCUS
Son Brull / Spain

HOTEL VILA GALÉ SINTRA Portugal

"The Gyrofocus is an iconic fireplace that brings a modern and sophisticated touch to our hotel. It makes an impact, creating an elegant and welcoming environment, and making the space even more appealing to our guests looking for a unique and contemporary experience."

Pedro Santos, Manager

HOTEL LOS ENAMORADOS Ibiza

"The Gyrofocus is at the very heart of the hotel. It offers an experience of well-being. We celebrate moments around its hearth that remain forever engraved in our memories. The fireplace is an invitation to become part of our home."

Focus has always been responsive and available to answer all of our questions. It is a very professional team that you can count on."

THE KNOT SAPPORO - Japan

"Our Focus fireplace is a symbolic presence in our lobby, where the warmth of Hokkaido materials and urban design come together. In addition to the cosy comfort of the fireplace, which allows guests to take a breath and unwind, and its outstanding design that complements the hotel's space, the biofuel it runs on is safe to handle and store, and fits perfectly with one of our brand principles, which is to take care of the environment with our guests."

Gurung Kushal, Hotel Manager

BORA WELLNESS HOTEL - Germany

"For the reception area of our hotel, we were looking for an extraordinary fireplace. That's how we came across Focus fireplaces, whose elegance and charm are today widely recognised. The Filiofocus has become a meeting point for our guests, who love to gather around it for a drink or to enjoy a conversation by the fire. We're convinced that this fireplace is why our guests love coming back to our hotel. That's also why we post it on our social networks."
