ICON GUIDE

EFV & AUTO FAUCET

ECOPOWER®

EcoPower indicates sensor faucets and flush valves that are powered by flowing water.

AUTO FLUSH

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

CODES & STANDARDS

ADA

Product complies with Americans with Disabilities Act guidelines.

WATERSENSE®

Product that meets EPA standards for water efficiency and performance criteria.

CEC

Product meets California Energy Commission requirements.

AWARDS

IF DESIGN AWARD

An internationally renowned design award since 1953. It is held at iF International Forum design GmbH in Hannover, Germany. Products whose aesthetics, functionality, and innovativeness have been strictly examined and recognized by design experts.

GREEN GOOD DESIGN AWARD

Hosted by the Chicago Athenaeum Museum of Architecture and Design and the European Centre for Architecture Art Design and Urban Studies in Ireland. A global environmental award that began in 2009 with the aim of reforming awareness through sustainable design.

TOUCHLESS PUBLIC RESTROOMS

Offer a Clean, Comfortable Experience and Help Protect the Environment

Today more than ever before, patrons want to decrease public restroom touchpoints as much as possible. From no-touch faucets and flush valves to automatic soap dispensers and hand dryers, TOTO's hands-free products give patrons confidence that their restroom experience will be clean, comfortable, and convenient. In addition, TOTO's stylish, high-performance sensor products save energy, water, time, and money without sacrificing an ounce of performance. Facilities around the globe choose TOTO's innovative sensor products for their public restrooms to offer patrons a clean, comfortable experience and help protect the environment.

ECOPOWER® FLUSH VALVES

Hands-free ECOPOWER smart-sensor flush valves for toilet and urinal are energy-saving, durable, and provide maximum performance in even the most demanding, high-traffic public restrooms. This self-powered hydroelectric flush valve system generates its power during use; every time water turns the internal turbine.
