ICON GUIDE

TOILET & LAVATORY

1.0 GPF

Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.

DYNAMAX TORNADO FLUSH®

Uses 100% of water to clean and rinse the bowl using a smaller amount of water more efficiently with a 2.5" trapway and quieter flush. Available in 1.0/.9 GPF or 1.28/.8 GPF.

TORNADO FLUSH®

A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.

3D TORNADO FLUSH®

Three powerful nozzles create a powerful centrifugal rinsing action and combines it with the conservation of 0.9 or 1.28 GPF.

DUAL-MAX®

A dual flushing system that optimizes conservation by selecting the preferred flush volume.

E-MAX®

High performance, high-efficiency flushing technology using only 1.28 GPF with a 3" wide flush valve, large trapway, and extra-large siphon jet.

G-MAX®

A reliable flushing technology with 3" wide flush valve, large trapway, and extra-large siphon jet.

CEFIONTECT®

CEFIONTECT® ceramic glaze minimizes waste from sticking to porous ceramic surfaces

UNIVERSAL HEIGHT

Toilet height that allows for a more comfortable height position across a wide range of users.

SKIRTED DESIGN

The trapway is concealed by smooth porcelain, making the toilet easier to clean.

LINEARCERAM®

Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.

LUMINIST®

An epoxy resin material that combines the translucence of glass with exceptional impact and heat resistance.

WATER SAVING

Water efficient toilets designed with 1.28 gallons per flush or less.

WASHLET®

**TOTO
WASHLET**

An electronic bidet seat featuring adjustable warm water cleansing, heated seat, dryer, deodorizer and much more.

AIR-IN WONDER-WAVE®

Air rich water droplets to produce a more comfortable washing sensation and deliver more thorough cleansing with less water consumption.

washlet®+

ACTILIGHT®

Special glaze combined with CLEAN Light work together to easily wash waste away on the toilet bowl.

EWATER+®

After each flush, EWATER+® mists on the wand and toilet bowl, reducing the need for harsh cleaning chemicals.

PREMIST®

PREMIST wets the surface of the toilet bowl, aiding in the removal of waste and resulting in a better clean.

AUTO FLUSH

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

DEODORIZER

Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

HEATED SEAT

The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.

WARM AIR DRYER

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

SHOWER

SAFETY THERMO®

Shape Memory Alloy (SMA) thermostatic valve that prevents a sudden, unwanted increase in water temperature.

AERO-JET+®

Uses air injection technology to increase water volume with an additional pulsating feature for a more invigorating shower experience.

AERO-JET®

Uses air injection technology to increase water volume by adding air into each water droplet, creating voluminous droplets while using less water.

CASCADE FLOW

Curved waterfall-like water stream that evenly warms the entire body.

GYROSTREAM

Rotating shower nozzle with pulsating water stream that creates a massaging effect.

MINI UNIT

Unified exterior sizes for concealed shower valves creating a balanced bathroom space.

WARM SPA®

The feeling of a warm bath in a shower with water flow that envelopes and warms the body efficiently with no splash.

COMFORT WAVE®

A mix of large droplets and standard spray creates a shower with moderate intensity and just the right amount of stimulation.

ACTIVE WAVE®

Large droplets of water producing a more vigorous, high intensity shower.

FAUCET

COMFORT GLIDE®

Precise and easy flow control of water based on user's touch.

SOFT FLOW

Keeps splashing to a minimum for comfortable use and soft to the touch water.

TUB

ZERO DIMENSION®

A zero-gravity bathing experience, letting the body float in a completely tension-free state, creating absolute relaxation for the body and mind.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

RECLINE COMFORT™

Reclined bathing position that embraces the neck and back to provide a deep sensation of relaxation and tranquility.

GENERAL FEATURES

ADA

Product complies with Americans with Disabilities Act guidelines.

WATERSENSE

Product that meets EPA standards for water efficiency and performance criteria.

CEC

Product meets California Energy Commission requirements.

CLEAN SYNERGY

Your toilet reappears clean every time

CLEAN SYNERGY

EWATER+[®]
For BOWL

Prevents the accumulation of
waste on bowl.

EWATER+ reduces waste and dirt
you can't see.

EWATER+®

WASHES THE WAND AND TOILET BOWL WHERE WASTE TENDS TO ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic waste has no place to hide.

How EWATER+ Cleans

During standby

EWATER+ is automatically sprayed 8 hours after the last use

Before use

PREMIST, a fine mist of water, is sprayed inside the toilet

During use

Since waste is less able to adhere to a wet surface, it is more easily washed away

After use

EWATER+ is applied to cleanse the wand and toilet bowl

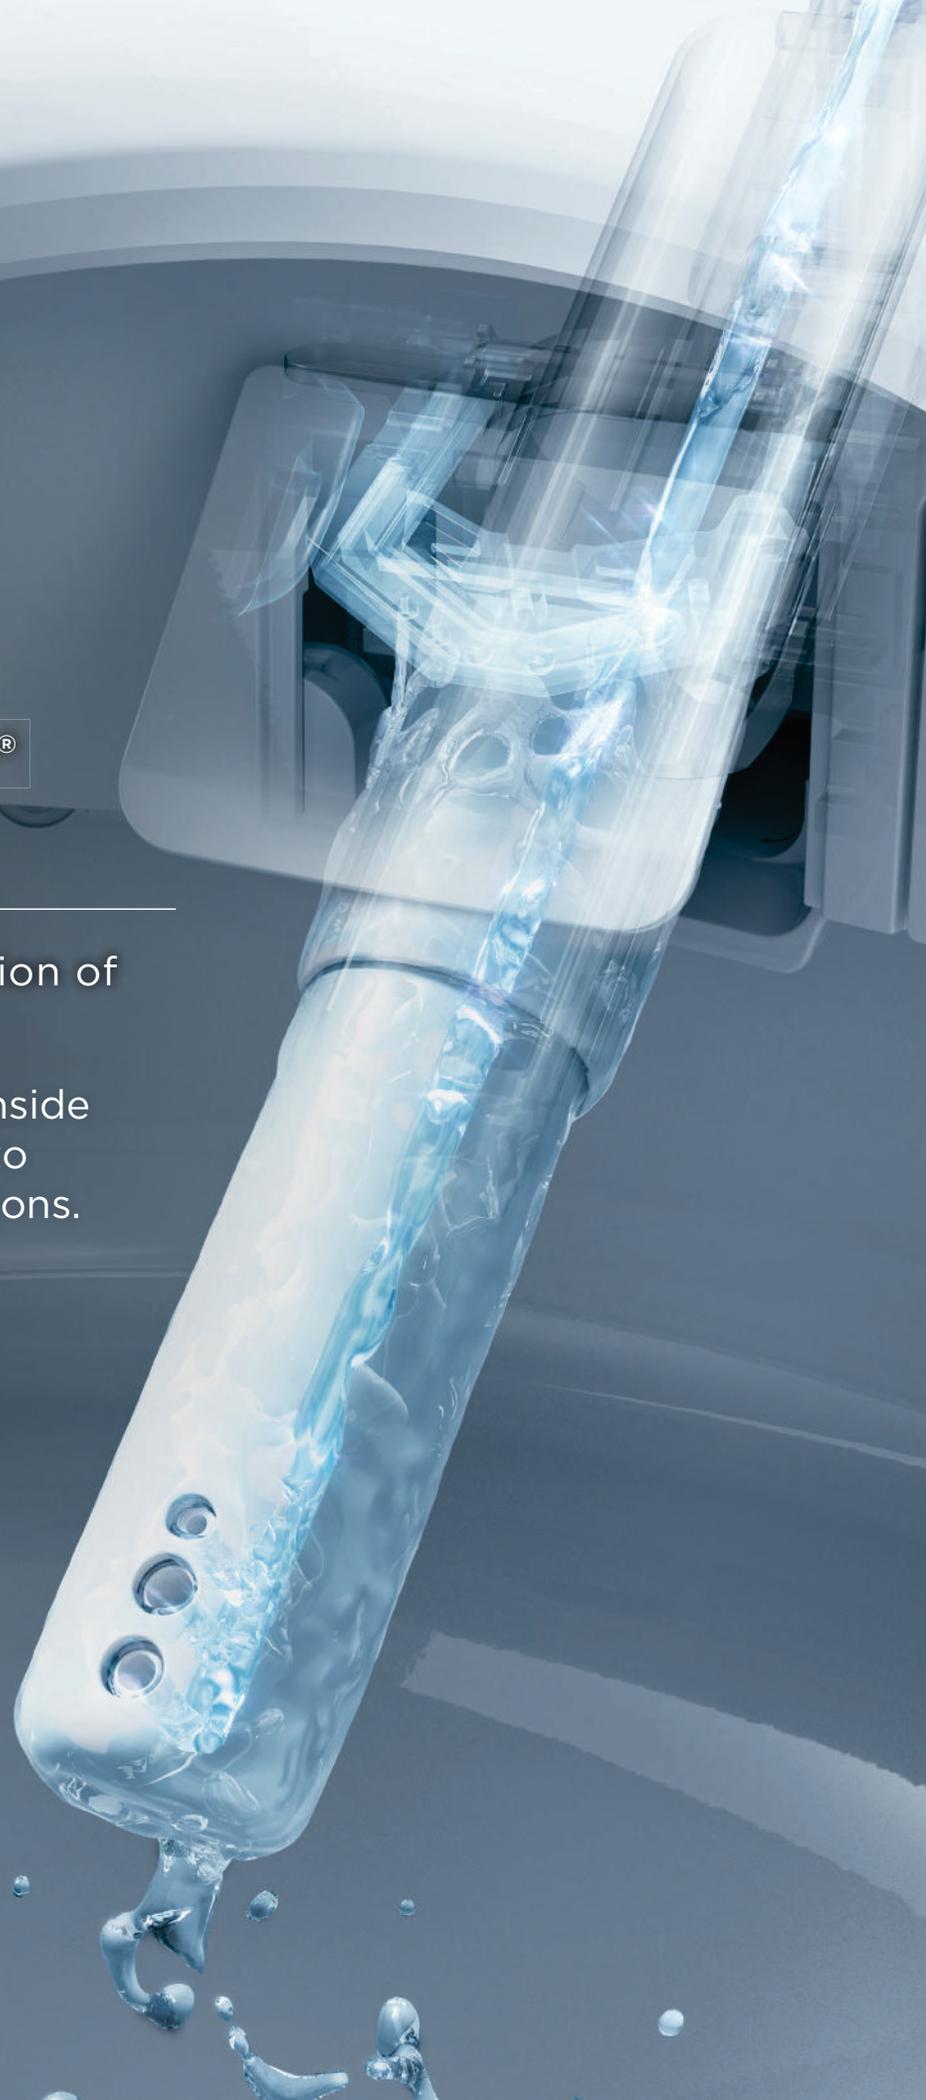

CLEAN SYNERGY

EWATER+[®]
For WAND

Prevents the accumulation of waste on wand.

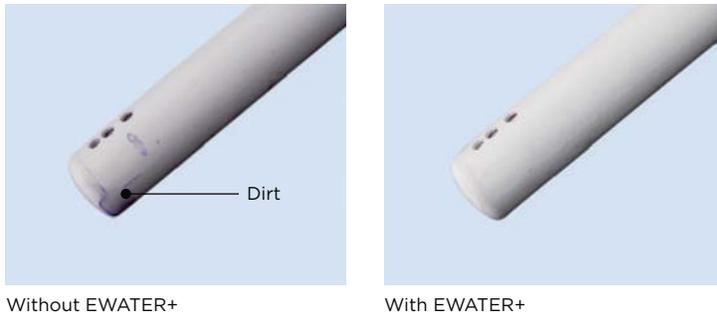

The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.

EWATER+®

BEFORE AND AFTER EACH USE, THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically washes itself to ensure constant hygienic conditions.

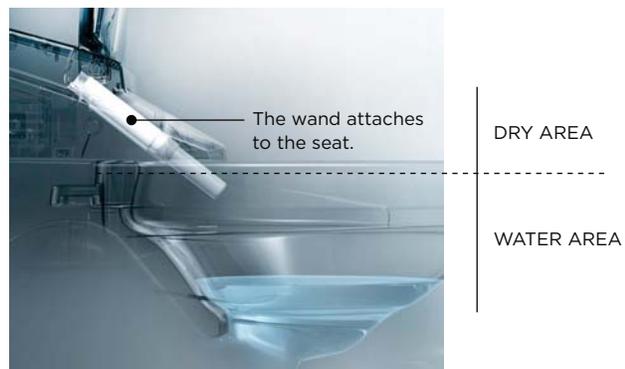

Self-Cleaning Inside the Mechanism

Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

CLEAN SYNERGY

CEFIONTECT®

Forces waste to slide down.
Ultra-smooth ceramic leaves
nowhere for waste to cling.

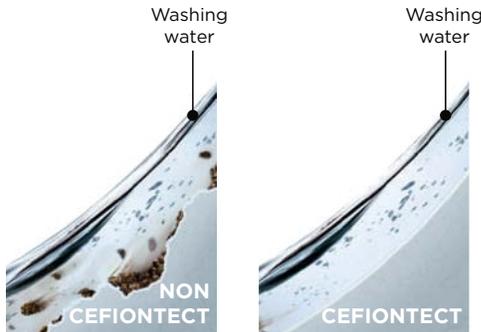

PREMIST®

Prevents waste from clinging.
A film of water keeps waste
from clinging.

CEFIONTECT® IS AN ULTRA-SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

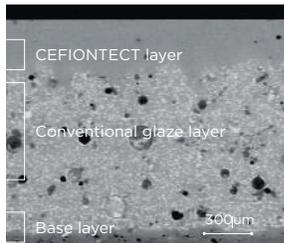

Eliminating the microscopic gaps where waste hides

Conventional ceramic may appear perfectly smooth to the eyes, but has gaps where waste, mold and bacteria hide. At just one millionth of a millimeter, CEFIONTECTS's surface ridges are much tinier than waste particles.

What makes CEFIONTECT so durable?

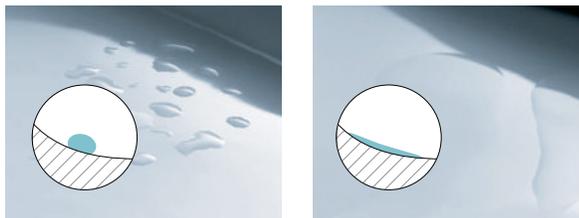

Glass layers are burned onto conventional glaze, making CEFIONTECT an extremely durable material.

CEFIONTECT toilet micrograph *1Qm=0.001mm

Water has a strong affinity to CEFIONTECT

The term hydrophilic describes matter that is attracted to water. Due to the hydrophilic nature of CEFIONTECT, water spreads easily over the toilet bowl, effortlessly washing waste particles away.

Water hydrophobic

Water hydrophilic

To ensure waste washes away easily, a film of water keeps waste from clinging to the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

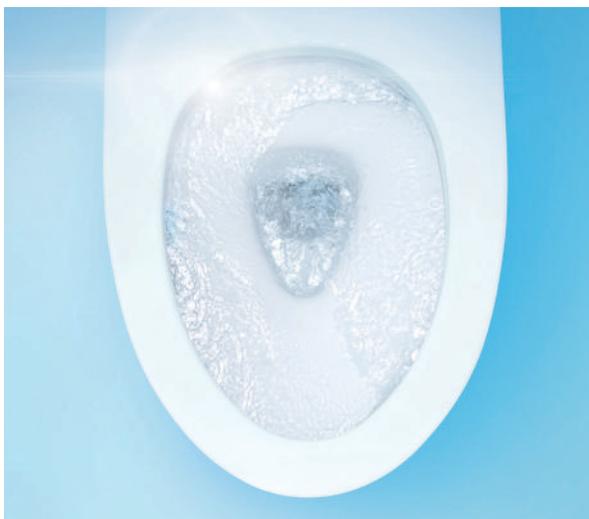

CLEAN SYNERGY

**TORNADO
FLUSH®**

Swirls and eliminates waste entirely.
360° cleaning power reaches every
spot using less water.

DYNAMAX TORNADO FLUSH®
 USES 100% OF WATER TO CLEAN AND RINSE BOWL.

DYNAMAX combines powerful bowl cleaning and waste evacuation using water that is 100% projected from the rim creating 360° cleaning power. Using only 1.0/0.8 or 1.28/0.8 gallons per flush, coupled with a 25% larger trapway diameter, this high-efficiency system uses 20% less water with improved performance while also creating a quieter flush. With a modern rimless design, it performs more consistently and is easy to clean.

TORNADO FLUSH® NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

Powerful washing where waste accumulates most easily

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily - and then washes the entire bowl clean. Exquisitely high-quality ceramic makes this innovative design possible.

 **RIMLESS**

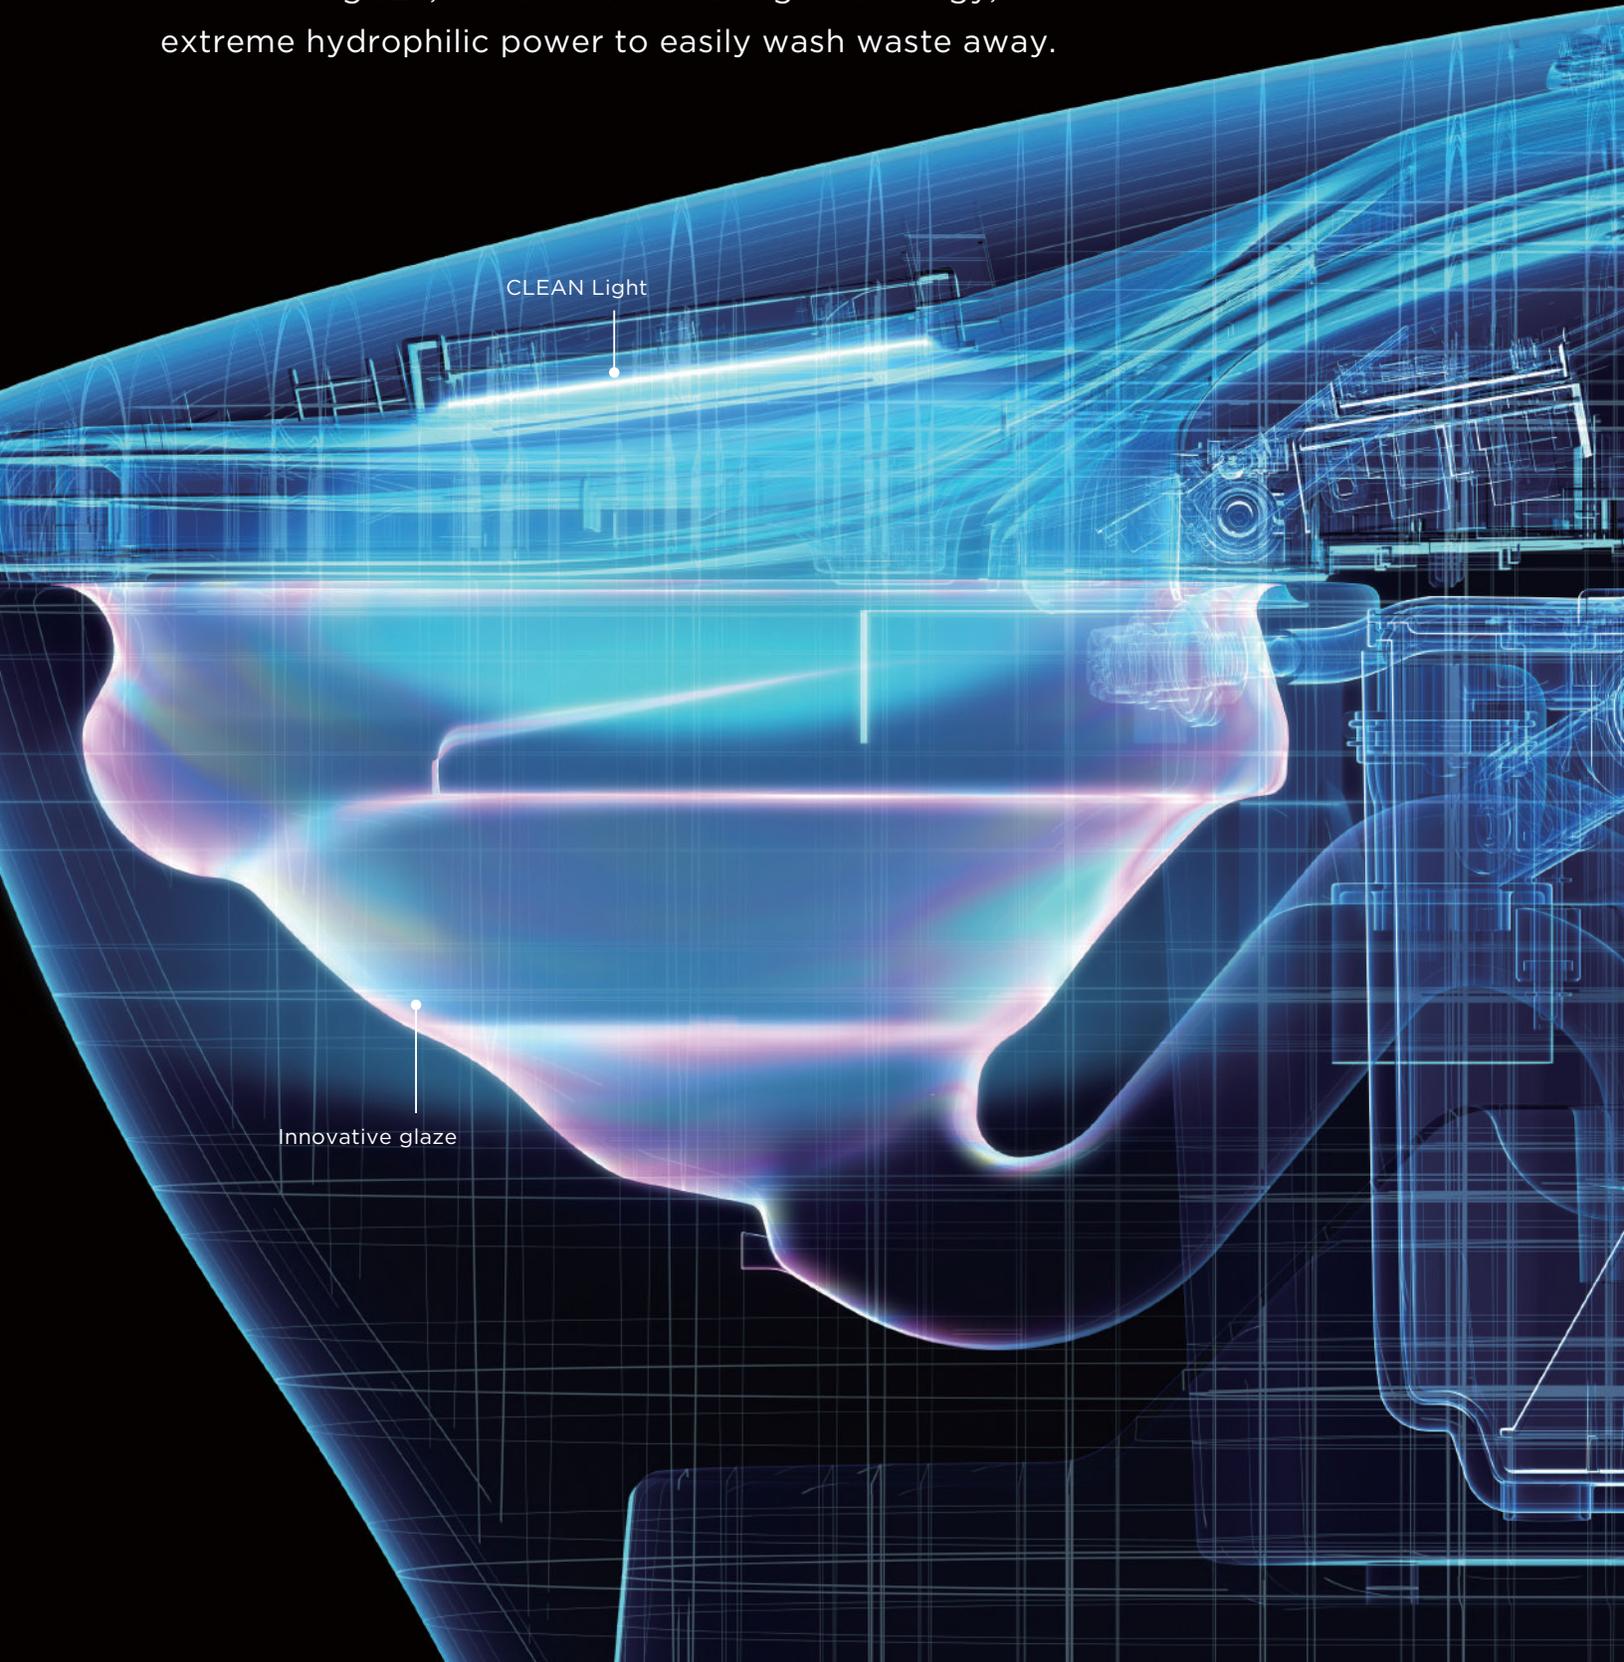

The RIMLESS design not only leaves no place for waste and germs to hide, it also makes for a much easier to clean toilet.

ACTILIGHT®

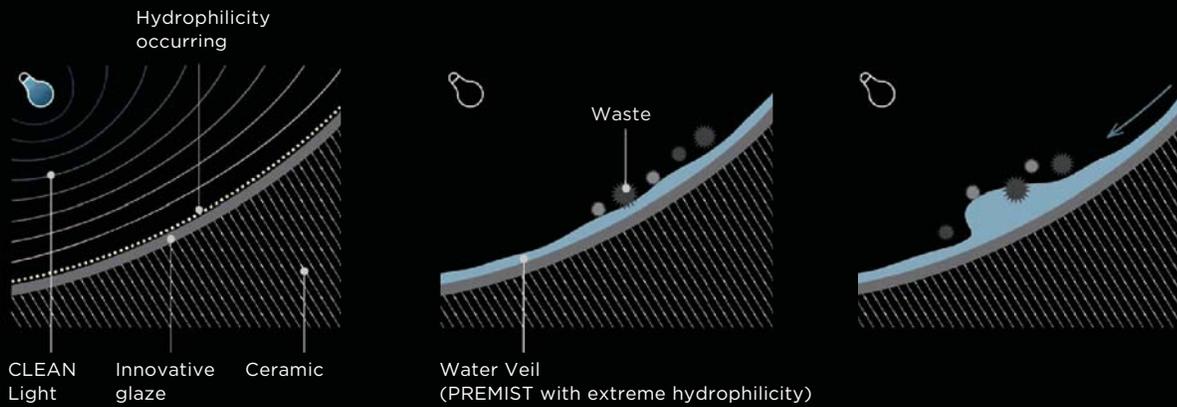

Innovative glaze, the ultimate cleaning technology, has extreme hydrophilic power to easily wash waste away.

CLEAN Light and the extraordinary surface treatment enable easy removal of even microscopic debris and particles.

State-of-the-art materials

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to attract water to the surface and keep the surface clean after use.

Operates 24 hours a day to maintain clean conditions

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to make it easy to wash waste away and keep the toilet bowl surface clean.

The CLEAN Light is irradiated generating extreme hydrophilicity on the toilet bowl

PREMIST, a fine mist of water, is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

Life Anew.

Constantly at work, automated technologies keep surfaces hygienic
and maintain a place that is inviting and comfortable to use.

Cycle of Cleanliness and Comfort

NEOREST[®]
FEATURES

**SoftClose®
LID**

The SoftClose lid automatically closes gently to eliminate seat slamming.

PREMIST®

PREMIST wets the surface of the toilet bowl, aiding in the removal of waste and resulting in a better clean.

HEATED SEAT

The contoured seat has five temperature settings for maximum comfort.

EWATER+®

After each flush, EWATER+ mist on the wand and toilet bowl, reducing the need for harsh cleaning chemicals

**SELF-CLEANING
WAND**

The self-cleaning function cleans the entire wand with EWATER+ before and after each use.

DRYER

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

ACTILIGHT®

Uses a special light-reactive glaze and CLEAN Light technology inside the lid to get rid of both visible and invisible waste. Available on NEOREST models NX2, AC, and 750H.

**AUTOMATIC
DEODORIZER**

The deodorizer cleans the air around the toilet using powerful filters. Air is drawn in, passing through an ionized carbon filter to reduce unpleasant odors.

CLEANSING FUNCTIONS

WITH THE TOUCH OF A BUTTON, A WAND EXTENDS FROM UNDER THE SEAT FOR SOOTHING WARM-WATER CLEANSING.

How WASHLET® works

AIR-IN WONDER-WAVE® technology is the precise, pleasant, air rich stream that keeps you clean. As water is fired at different speeds, small droplets collide with larger ones, combining and expanding as the droplets fill with more air. The injection of air enlarges water droplets by approximately 30%.

Select the type of cleansing you desire each time.

REAR SPRAY

The rear spray is designed to clean the rear intimate area. It features pleasant, yet strong water pressure to target this specific area.

REAR SOFT SPRAY

The rear spray has a larger radius to cover more area. Lower water pressure makes for a soft, comfortable spray.

FRONT SPRAY

The front spray consists of large, soft drops for comfortable intimate cleansing - for a clean, fresh feeling.

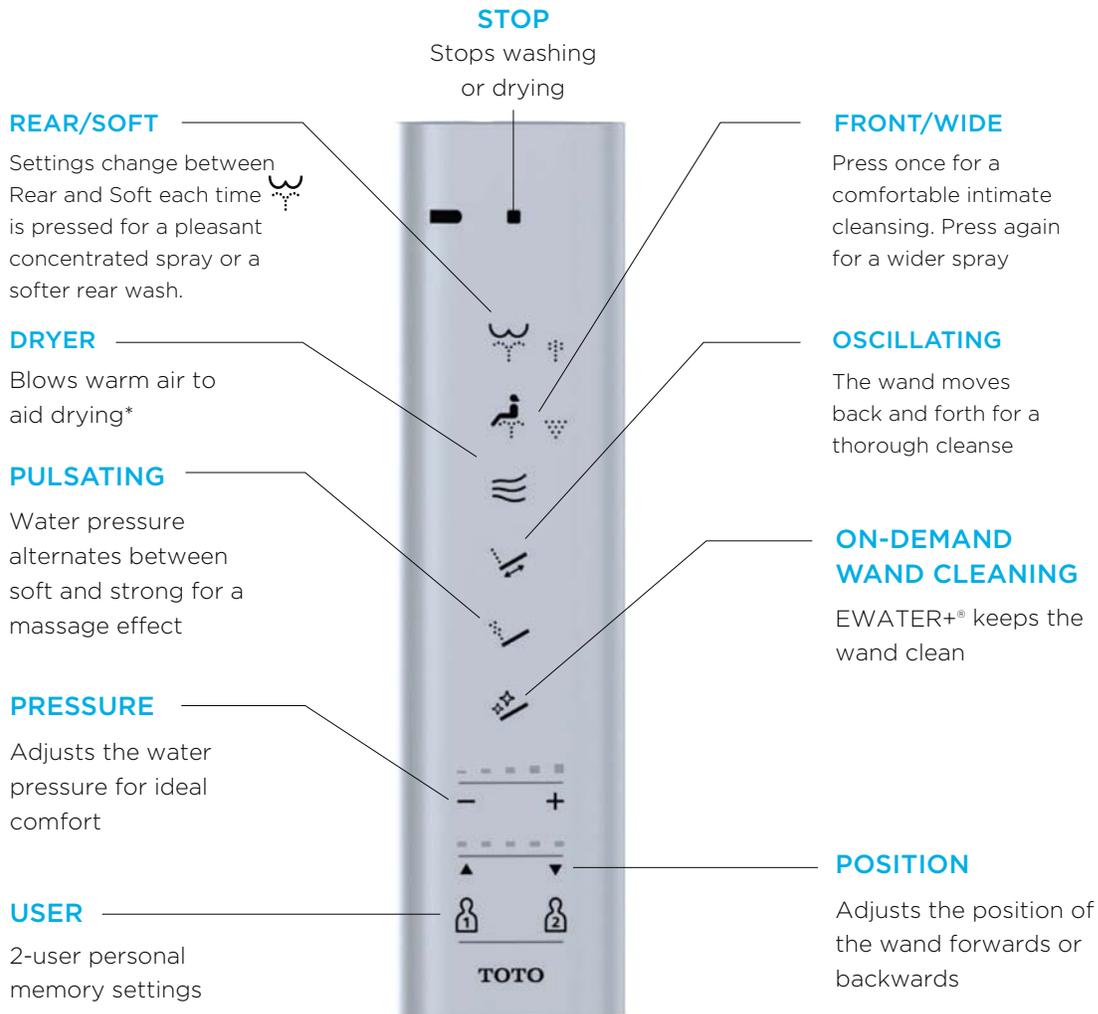

WIDE FRONT SPRAY

The wide soft spray has a larger radius to cover more area. Lower water pressure makes for a soft, comfortable spray.

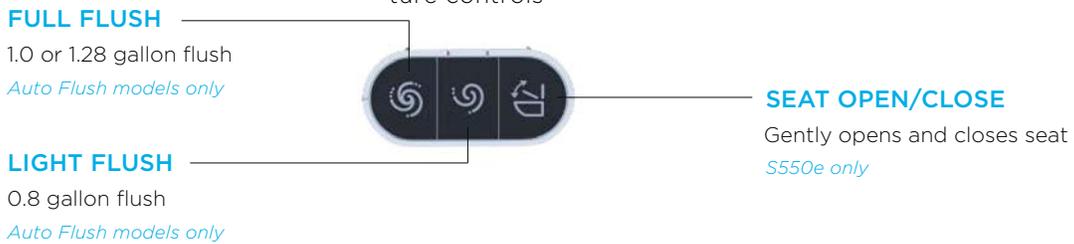

HOW THE REMOTE CONTROL WORKS

Easy and Convenient to Use.

WASHLET® S550e & S500e

Back side of remote contains temperature controls

PRESSURE	POSITION
Adjusts the water pressure for ideal comfort	Adjusts the position of the wand forwards or backwards

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

**S550e and S350e only*

The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.

Subdued lighting switches on when the toilet is approached, so users do not have to disturb themselves at night with a bright bathroom light.

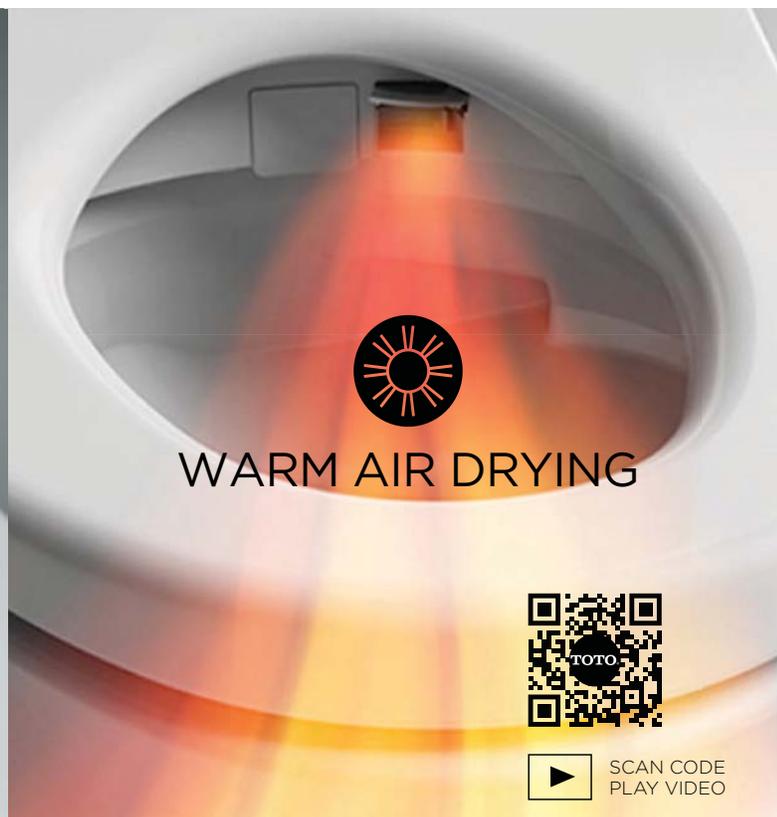

Prevents the accumulation of waste on bowl. EWATER+ reduces waste and dirt you can't see.

Using the incoming water supply, PREMIST wets the surface of the toilet bowl, aiding in the removal of waste and resulting in a better clean.

**Not available on A100*

The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.

Using the incoming water supply, PREMIST wets the surface of the toilet bowl, aiding in the removal of waste and resulting in a better clean.

**Not available on A100*

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

Series of WASHLET-and-toilet sets.
New standard of comfort and cleanliness for daily life.

Nexus® WASHLET®+ One-Piece Toilet

washlet® +

**Series of WASHLET-and-toilet sets.
New standard of comfort and cleanliness for daily life.**

Designed for every home, WASHLET+ is the smart way to introduce the life-changing comfort and cleanliness of TOTO technology to your life. Each toilet-and-seat set is harmoniously designed with no protruding hose or cords. Various sets are available. Choose your WASHLET+ with the features that best match your home and sense of style.

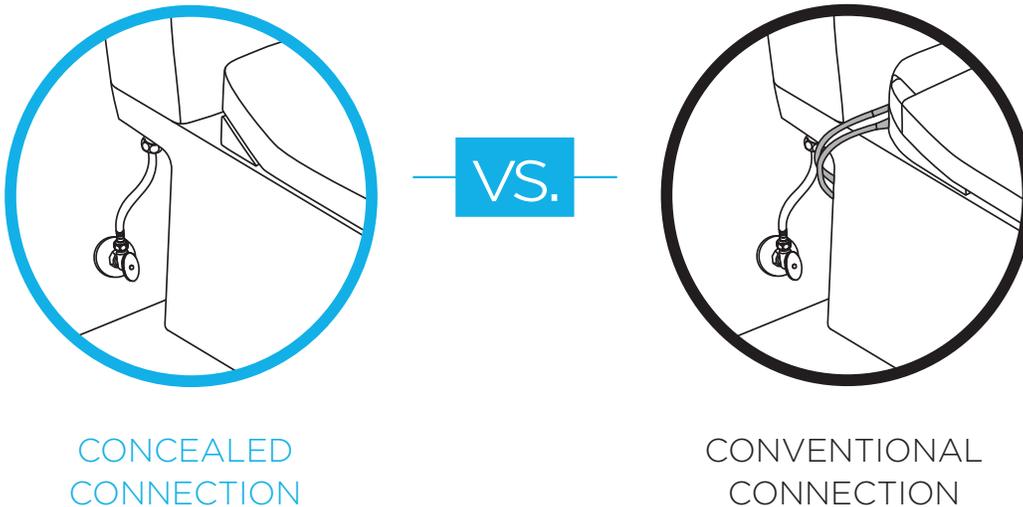

THE NEW STANDARD OF COMFORT AND CLEANLINESS FOR DAILY LIFE.

Designed for every home, WASHLET®+ is the smart way to introduce the comfort and cleanliness of TOTO technology into your life. Each unit is harmoniously designed with a concealed connection - no visible hoses or cords - making the bathroom a most inviting space. A wide range of sets are available for you to discover.

HOW IT WORKS

WASHLET+ offers a concealed supply connection for seamless installation.

TOI

LETS

TOILET TECHNOLOGIES

Our 1G toilets offer substantial water savings without wavering on our renowned performance. Using our powerful — yet surprisingly quiet — gravity-fed, hole-free rim TORNADO FLUSH® technology, 1G fully evacuates the bowl with an ultra-efficient one gallon of water. Combined with the extraordinarily smooth CEFIONTECT® glaze that prevents particulates from adhering to porous, ceramic surfaces every inch of your bowl stays cleaner, longer.

TOTO® 1G TOILETS

5,840 GALLONS*
Used in Flushing

\$175 Operation
Cost

PER YEAR

STANDARD 1.6 GPF TOILETS

9,344 GALLONS*
Used in Flushing

\$280 Operation
Cost

PER YEAR

*The average American flushes five times a day at home. Assuming an average household of 3.2 people over 365 days @ 3¢ per gallon.

SHO

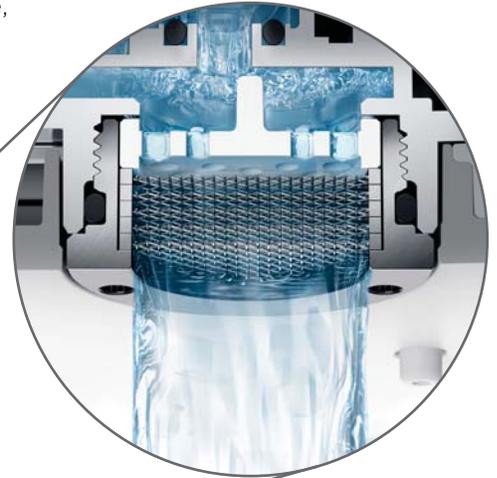

WER

WARM SPA®

A BRAND NEW SHOWER SYSTEM. WATER LIKE A WARM CLOAK.

The feeling of a warm bath, in a shower. This is the power of the WARM SPA®. A single pillar of warm water running quietly from the showerhead. When water hits the body, it follows the curves and envelops it without a splash. A completely new shower experience, warming your body efficiently.

Utilizing a unique interior structure, the flow of water is controlled to provide a smoother shower.

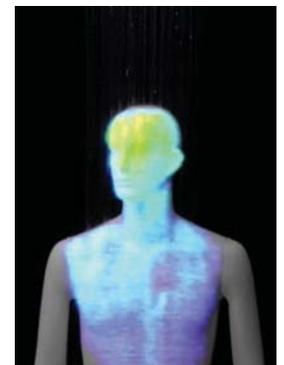

LET NO HEAT ESCAPE. BE WARMER.

Smooth water release means less heat loss. The water cloaks your body, quickly warming it to the core. This feature is now available not only in conventional overhead showers, but handshowers too.

WARM SPA

CONVENTIONAL SHOWER

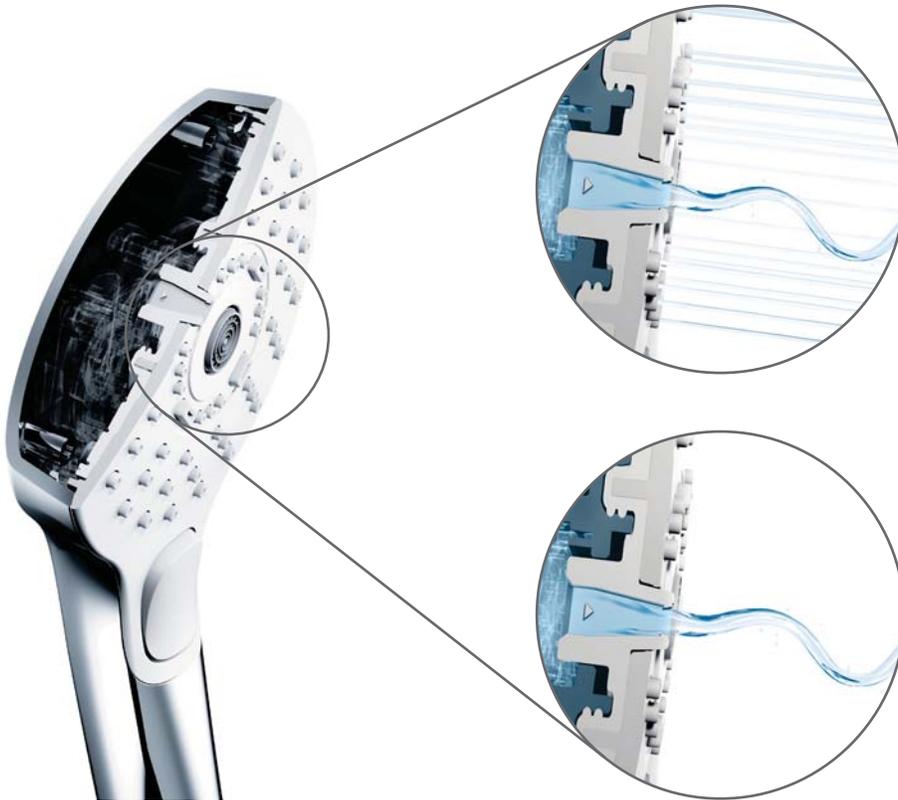

COMFORT WAVE®

ACTIVE WAVE®

A NEWLY DEVELOPED NOZZLE FOR GREATER COMFORT.

We newly developed our original shower nozzles with bigger droplets than conventional showers. Large drops of water swing and flow with power, delivering a comfortably stimulating shower while saving water. Feel refreshed with the moderate-intensity of COMFORT WAVE®, and invigorated with the high-intensity flow of ACTIVE WAVE®.

COMFORT WAVE

Uses a new nozzle to add larger drops of water to the shower for a comfortable experience with just the right amount of stimulation.

ACTIVE WAVE

Uses the newly developed shower nozzle capable of large drops of water. It provides a more vigorous, more uplifting shower than the COMFORT WAVE.

 **COMFORT WAVE**

 **ACTIVE WAVE**

A PERFECT SHOWERING EXPERIENCE WITH JUST ONE TOUCH.

For the handshower, we installed a switch right at your fingertip allowing you to easily change between WARM SPA®/COMFORT WAVE®/ACTIVE WAVE®. The switch for the overhead shower is located inside the showerhead to change between WARM SPA and COMFORT WAVE.

**AERO[®] SHOWER
TECHNOLOGIES**

A REVITALIZING EXPERIENCE IN EVERY SINGLE DROP.

Aero showers combine TOTO's premium water-saving technologies with luxurious comfort features, creating the feeling of a full, rich shower while using less water than a standard showerhead or handshower.

AERO-JET® AND AERO-JET+®

AERO-JET uses air injection technology to increase water volume by adding air into each water droplet, resulting in a full, rich shower. AERO-JET+ technology adds a pulsating feature to the stream, for an even more invigorating experience.

CASCADE FLOW

The nozzle flow is a curved waterfall-like water stream that evenly warms the entire body.

GYROSTREAM

The handshower features a rotating shower nozzle with pulsating water stream that creates a massaging effect.

MINI UNIT

THE EXACT EXTERIOR YOU WANT.

TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a thermostat type or touch button type, and also make choices based on design features such as circle or square fixtures.

SAFETY THERMO®

TEMPERATURE SWINGS, SOLVED IN AN INSTANT.

Let's say a family member uses water while you are in the shower. This can often create a sudden, unwanted increase in the shower water temperature. SAFETY THERMO prevents this from happening. A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

TOTO SHOWER CONFIGURATIONS

Besides water flow and design, you can choose the number of outlets as well. From something simple to highly decorated, options are available based on your lifestyle and style preference.

C E T

ZN FAUCET

The ZN Faucet features a beautiful design inspired by graceful flowing water. The precisely balanced streams of water from SOFT FLOW touches the skin gently, causing almost no splatter as you wash your hands. The feeling is soft, yet strong and enriching. Sensor-operation eliminates the need for levers or buttons to touch.

ZN LAVATORY FAUCET TLP01701U

Polished Chrome

Brushed Nickel

SPLASH-FREE HANDWASHING

SOFT FLOW technology creates little to no splashing, even as the water completely envelops your hands, enveloping them in warmth and comfort.

HANDS-FREE OPERATION

The ZN Faucet has sensors both for opening and closing the spout and for switching between hot and cold water. Simply waving the hand over each sensor operates it.

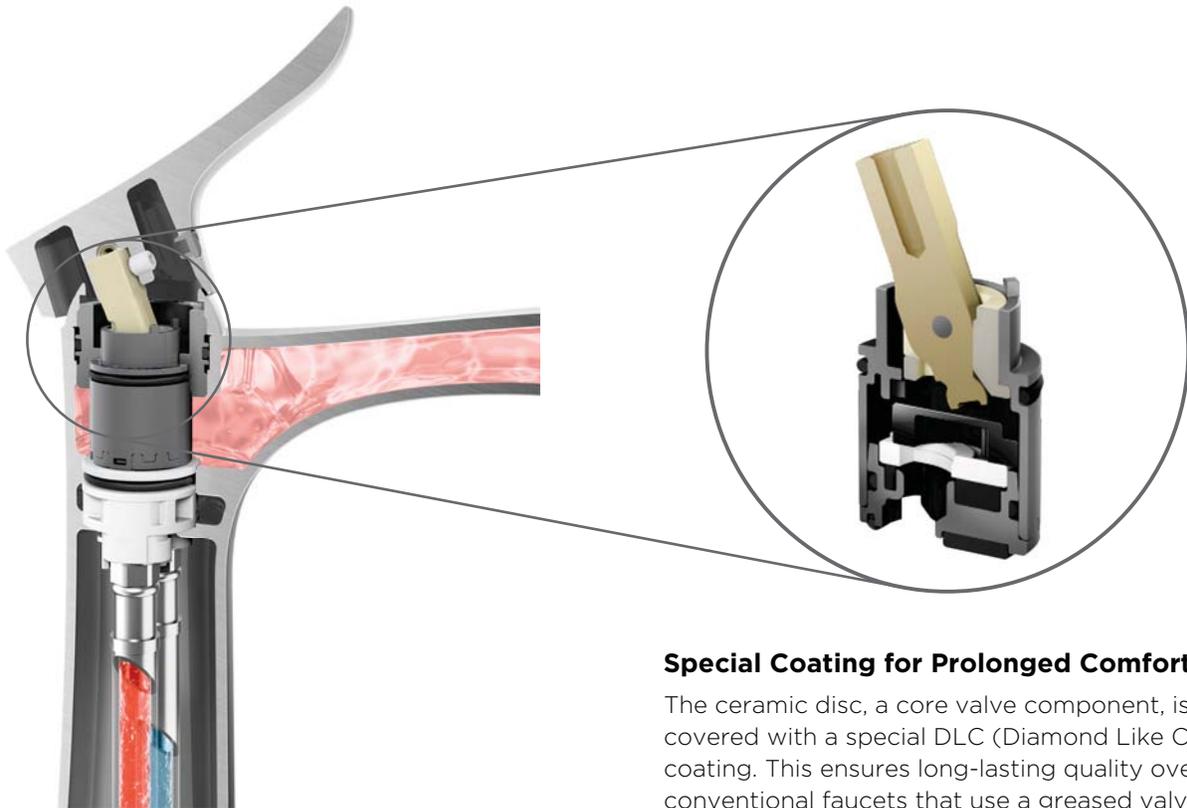

COMFORT GLIDE®

EASE OF USE, BASED IN SENSATION.

For TOTO, comfort does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on the user's touch. Designed from the ground up to provide fundamental comfort in operation.

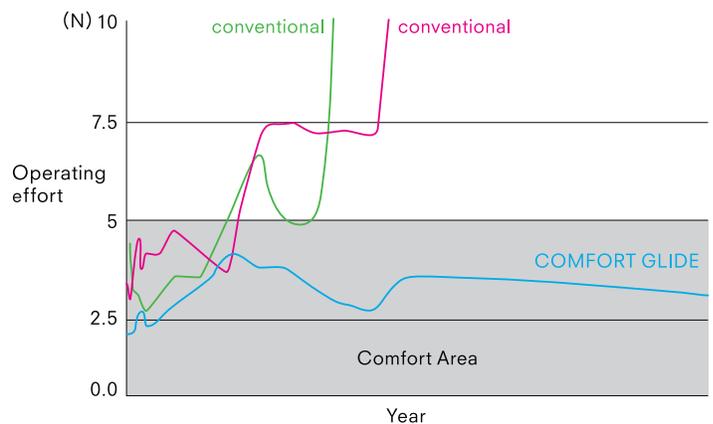

Special Coating for Prolonged Comfort

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

EASY TO USE FOR A LIFETIME OF COMFORT.

The graph shows the number of years in use and its operating force. It is evident that comfort lasts for a long time with models featuring COMFORT GLIDE®.

ZA SERIES

Lightness and dignity in a natural shape for a timeless design.

Sharp edges, the beauty of generous curves, and the contrast of polished and hairline finishes combined in a modulated design that achieves balance of a different order. The handle, asymmetrically shaped like a small stone, is beautiful from any angle and settles in rhythmically.

ZL SERIES

Enhancing flow and gesture, the design fits the sharp washbasin bowl.

Abundant water flows like a waterfall from the horizontal spout, while the handle can be operated gracefully with a gentle pinch of the fingers. Beautifying even the flow of water and human gestures, the design resonates with the sharp, square washbasin bowl to create a richer space.

GC SERIES

The breadth and symbolism of classical design in a contemporary form.

With the composure of an elegant serif typeface and a base shaped to reconfigure the stability at the heart of traditional architecture, we pay homage to designs that have stood the test of time while transitioning to a modern design that reflects the present day.

GR SERIES

The design contrasts found in this marriage between sharply honed edges and the gentle curves at the top of the spout and handle generates a regal air while further bolstering its imposing sculptural beauty.

The weight of a metal
ingot cut at right angles
tightens up a space.

BATH

TUBS

ZERO DIMENSION[®]

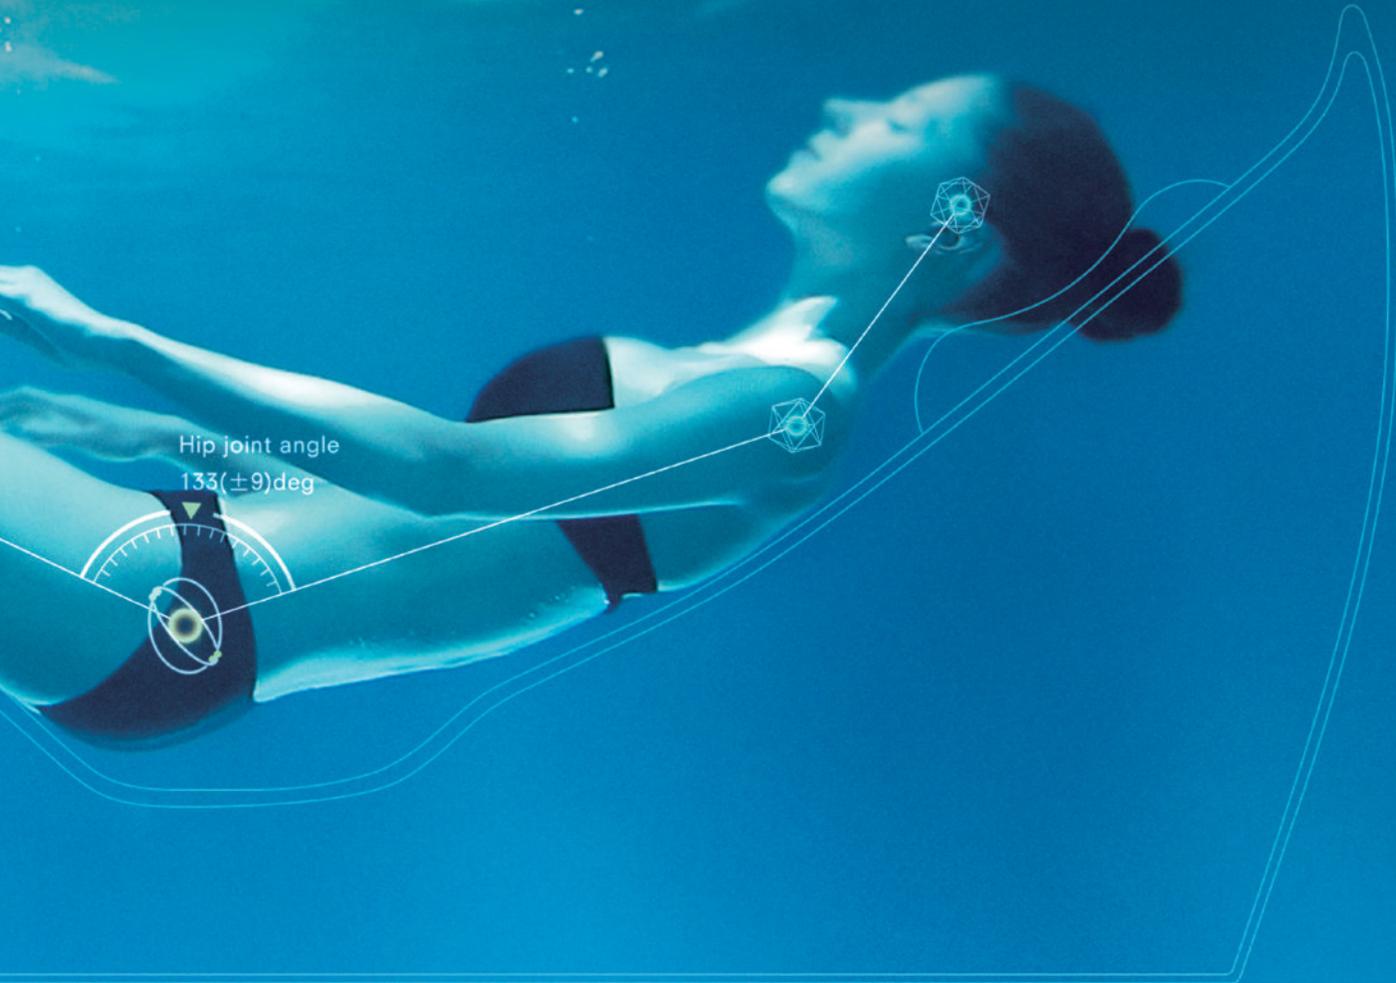

Immersed in the meditative moment
of relaxation.

THE POSTURE OF AN ASTRONAUT RESTING IN SPACE

ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

After more than a decade of research on body positioning, bathing and neurological relaxation, TOTO developed the Flotation Tub. Its design simulates zero gravity by offering bathers the experience of total weightlessness. By releasing the bather from the bonds of gravity to float in a tension-free state, deep muscle relaxation occurs that calms the body, mind and spirit creating a sanctuary from the physical and mental fatigue today's world brings.

Graphic Image

THE BRAIN IN A STATE OF TRANQUILITY

Research has shown that the ZERO DIMENSION bathing posture reduces activity in the part of the brain that houses the language function. This is the reason ZERO DIMENSION bathing feels calming and relaxing.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

ADVANCED FUNCTIONS STIMULATE RELAXATION

Exclusive features make every bath a luxurious occasion.

HYDROHANDS

Propels powerful water currents without air bubbles, delivering a firmer “touch” to the body. The water flow is soundless.

CONTROLLER

The electrostatic controller is operated by the slightest touch.

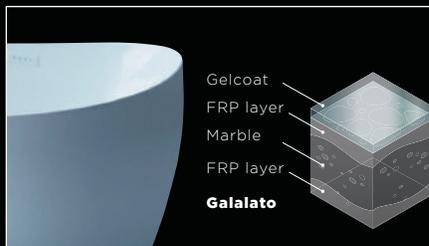

NECK BATH

With variable pillow positions ensuring stability, people of all body shapes can enjoy the warmth of the bath from above the shoulders to the neck.

AIR-JET

Fluctuating streams of air bubbles rise from below and envelop the body with a soothing sensation.

GALALATO® MATERIAL

Offering outstanding durability, the tub is made of Galalato artificial marble and constructed using TOTO's innovative sandwich configuration.

LED LIGHTING

In the outer perimeter of the tub's base, LED lighting supplies a dream-like ambience.
