ICON GUIDE

TOILET & LAVATORY

1.0 GPF	Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.
TORNADO FLUSH®	A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.
E-MAX®	High performance, high-efficiency flushing technology using only 1.28 GPF with a 3" wide flush valve, large trapway, and extra-large siphon jet.
CEFIONTECT®	Ultra-smooth ceramic glaze leaves nowhere for waste to cling.
UNIVERSAL HEIGHT	Toilet height that allows for a more comfortable height position across a wide range of users.
SKIRTED DESIGN	The trapway is concealed by smooth porcelain, making the toilet easier to clean.
WATER SAVING	Water efficient toilets designed with 1.28 gallons per flush or less.
WASHLET®+	WASHLET and toilet set with a concealed connection that is specially designed for a seamless installation.

EFV & AUTO FAUCET

ECOPOWER®	EcoPower indicates sensor faucets and flush valves that are powered by flowing water.
AUTO FLUSH	No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.
SAFETY THERMO®	Shape Memory Alloy (SMA) thermostatic valve that prevents a sudden, unwanted increase in water temperature.
SOFTFLOW	This advanced water technology precisely balances individual streams of water to gently caress the skin with virtually no splash. The beautiful translucent water streams are soft, luxurious, and visually pleasing.

CODES & STANDARDS

ADA	Product complies with Americans with Disabilities Act guidelines.
WATERSENSE®	Product that meets EPA standards for water efficiency and performance criteria.
CEC	Product meets California Energy Commission requirements.
GREEN SEAL™	Product meets Green Seal certification requirements.
CALGreen	Product meets CalGreen Water Regulations for new construction and permitted remodel.

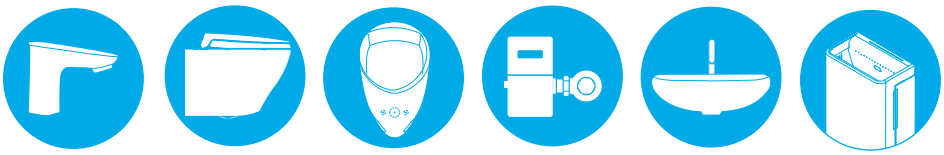
AWARDS

REDDOT DESIGN AWARD	An internationally renowned design award since 1955. Held at Design Zentrum Nordrhein Westfalen in Essen, Germany. Products that have been strictly examined and recognized by design experts against standards of innovativeness, functionality, quality, and so forth.
IF DESIGN AWARD	An internationally renowned design award since 1953. It is held at iF International Forum design GmbH in Hannover, Germany. Products whose aesthetics, functionality, and innovativeness have been strictly examined and recognized by design experts.
GREEN GOOD DESIGN AWARD	Hosted by the Chicago Athenaeum Museum of Architecture and Design and the European Centre for Architecture Art Design and Urban Studies in Ireland. A global environmental award that began in 2009 with the aim of reforming awareness through sustainable design.

TOTO EVERYWHERE

TOTO products can create beautiful, refreshing bathroom experiences in any situation. We design everything from urinals to hand dryers, so even a football stadium or an airport restroom can be a peaceful, inspiring escape.

We're known for consistent high-performance design and a beautiful, global aesthetic in all our products, so wherever you find TOTO you can experience the same reliability, value and style.



SENSOR FAUCETS | TOILETS | URINALS | FLUSH VALVES | LAVATORIES | HAND DRYERS

In today's fast-paced world, the need for superior performance and reliability means everything. And when it comes to busy commercial buildings, TOTO products are the only choice. We design world-class, eco-friendly plumbing products that help you save water and money without sacrificing an ounce of performance.

CERTIFICATION & COMPLIANCE

TOTO offers a full range of bathroom products that can help professionals in the commercial industry earn LEED points toward certification.

LEED is an internationally recognized green building certification system that provides third-party verification for a building or community. To get maximum LEED points, a new or existing building must reach specified water-usage reduction percentages. The more usage reductions, the more LEED points are earned.

THE AMERICANS WITH DISABILITIES ACT (ADA)

The Americans with Disabilities Act (ADA) was enacted in 1990 to establish design codes to serve people of all ages and abilities. A core principle behind TOTO Total Design, ADA standards consider the needs of everyone without additional adaptation or specialization, optimizing the bathroom experience for all generations in the family home.

By innovating ergonomics and accessibility, and combining them with our global design aesthetic, we give everyone everything that's great about TOTO.

ENVIRONMENTAL RESPONSIBILITY

TOTO plays a significant role in leading the sustainability charge in our industry. In fact, our active role in leading policy and certification organizations demonstrates how we go beyond products or practices to help ensure environmental responsibility across all company activities.

- TOTO is the only plumbing manufacturer to receive the EPA's Water Efficiency Leader Award
- TOTO was the first plumbing products manufacturer to have employees become substainability experts by gaining LEED Accredited Professional status
- TOTO was the first major plumbing products manufacturer to join the United States Green Building Council (USGBC)
- TOTO was the first plumbing products manufacturer to develop third-party verified LCA Transparency Reports for bath products.

1G® TOILETS
1.0 GPF

TOTO's 1G toilets are a perfect solution to help owners and managers of hospitality and multi-family housing properties address their water conservation challenges. The powerful, yet quiet 1G system offers a 35 percent savings over 1.6 GPF toilets —a substantial savings without wavering on our renowned performance.

35% WATER SAVINGS PER YEAR

Reduces water use by 35% or more on average over a standard 1.6 GPF toilet

Innovation & Technology Highlights

THE TOTO ADVANTAGE

- Thorough and extensive testing to ensure balanced flushing
- HETs use 1.28 GPF
- HEUs use as little as 0.125 GPF
- TOTO toilet and urinal fixtures are designed for efficient operation, ensuring the highest performance with the lowest consumption levels.

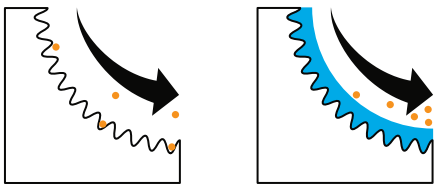
EFVs use the flow of the water to power the entire system...

and when paired with a TOTO high-efficiency commercial toilet or urinal...

equals a balanced system that cannot be matched by combining different toilets and flush valves.

CEFIONTECT®

- Extraordinarily smooth glaze prevents particulates from adhering to ceramic surfaces
- CEFIONTECT keeps surfaces cleaner, longer
- Less cleaning means less water use and fewer chemicals in the environment



No CEFIONTECT

With CEFIONTECT

ECOPOWER® FLUSH VALVES

- Hydroelectric turbine uses water to create power
- ECOPOWER flush valves provide maximum performance in high-traffic commercial spaces
- Self-powering eliminates costs of installing electrical supplies and wiring
- No routine battery replacement means less maintenance costs

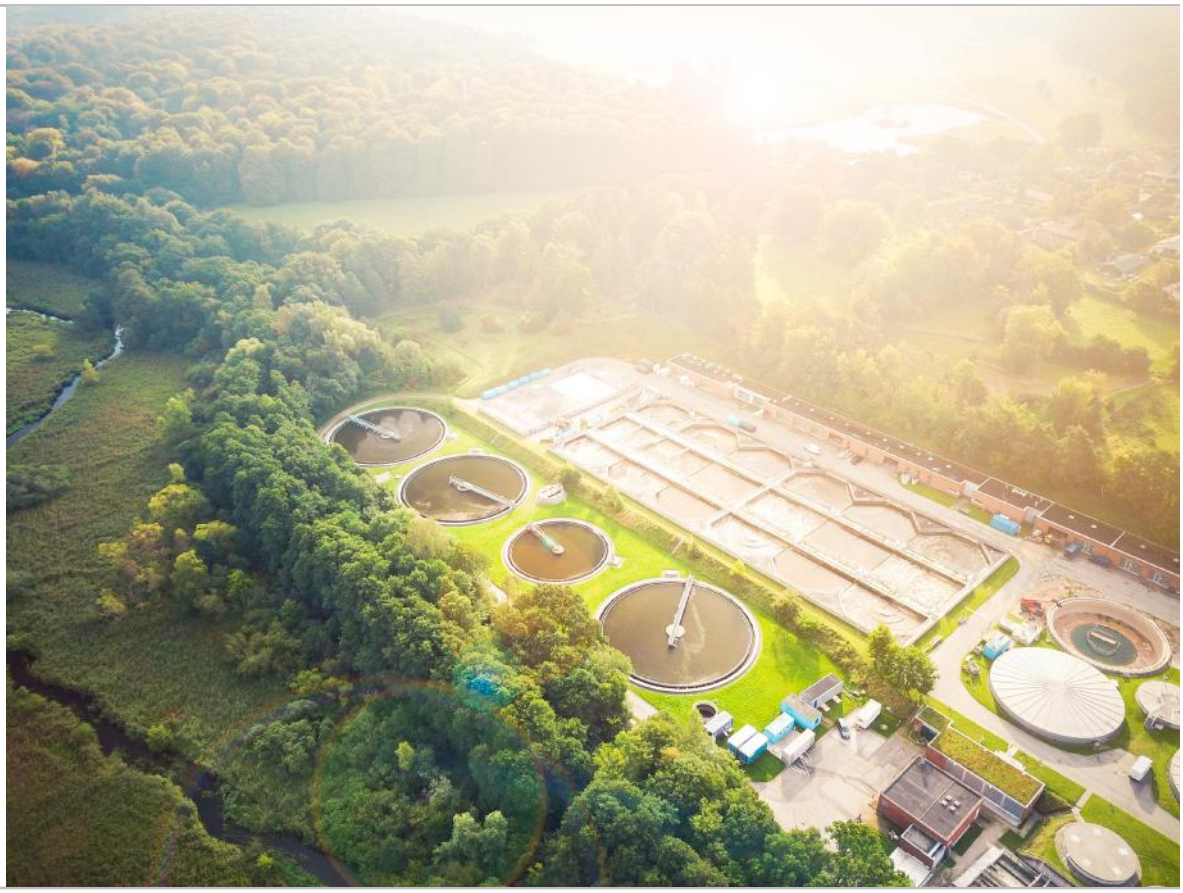
THE POWER OF RECLAIMED WATER

Innovation & Technology Highlights

COMMITTED TO SAVING WATER DROP BY DROP.



Water conservation extends far beyond the amount we use. Reclaimed water aims to reduce the amount of potable water used in our toilet systems. Recycling water already used for toilets conserves our precious, finite sources of fresh water.

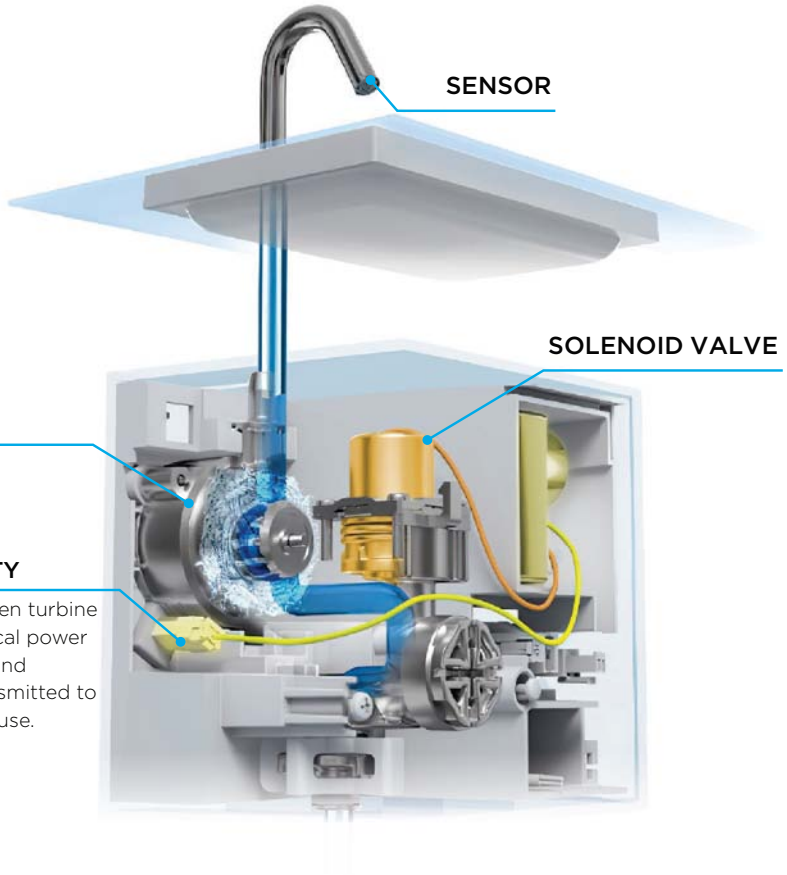
Product Shown: Helix® ECOPOWER® Faucet

COMMERCIAL ECOPOWER® FAUCETS

Innovation & Technology Highlights

ECOPOWER harnesses the energy of running water to power TOTO smart-sensor faucets or flush valves' electronics, replenishing them with every use. No minimum daily usage requirement, which translates into **reduced electricity use**, lower maintenance costs, and better ecology.



ECOPOWER ADVANTAGE

- Sustainably engineered to require no external electricity source
- Hydropower system needs no routine battery replacement which lowers maintenance costs
- Strategically placed sensor ensures instantaneous water response, minimizing water wastage
- Hands-free operation reduces the chance of spreading contaminants

TOTO COMMERCIAL PERFORMANCE

A WIN-WIN. Unlike other sensor faucets, ECOPOWER faucets use hydropower to operate the sensor. The flow of water, which meets the most rigorous water saving standards, spins the high-efficiency turbine to both create and store power for operation. TOTO's proprietary sensor technology has been perfected over the past 15 years.

Product shown: Clean Dry® Hand Dryer

COMMERCIAL CLEAN DRY® HAND DRYERS

Innovation & Technology Highlights

TOTO's Clean Dry hand dryers offer high-speed air for an effective, economical solution. Infrared sensor-operated, Clean Dry offers innovative air wicking technology that dries the user's hands in under 12 seconds.

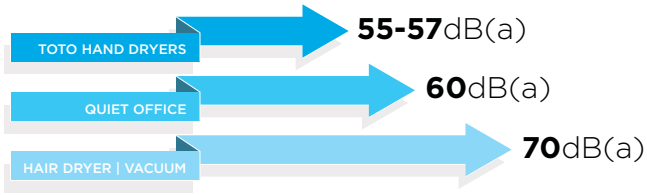
WASTE REDUCTION

LOW **NOISE**

TOTO COMMERCIAL PERFORMANCE

Clean Dry hand dryers reduce energy use by 25 percent over traditional electronic hand dryers that sometimes fail to dry hands completely. Further, Clean Dry dryers are extremely quiet during operation with a low decibel rating between 55 and 62 dB

DECIBEL RATING



TOTO HAND DRYER BENEFITS

- Unobtrusive designs that blend into any bathroom décor
- Environmentally friendly – no paper waste
- Eliminates the cost of providing paper towels, including the man-power needed to restock paper and discard trash
- Double-sided fan simultaneously dries hands from both sides, greatly reducing drying time*
- Washable trays to eliminate water splashing and prevent slip and fall accidents
- Vandal resistant designs

WHAT IS THE KOLO™ SMART MONITORING SYSTEM—AND HOW DOES IT MAKE CONNECTED RESTROOMS POSSIBLE?

TOTO's innovative fixtures join GP PRO's proprietary sensors and KOLO communication technology with industry-leading reliability of enMotion and Compact dispensers.

YOUR ONE-STOP PLATFORM FOR CONNECTING SMART RESTROOMS

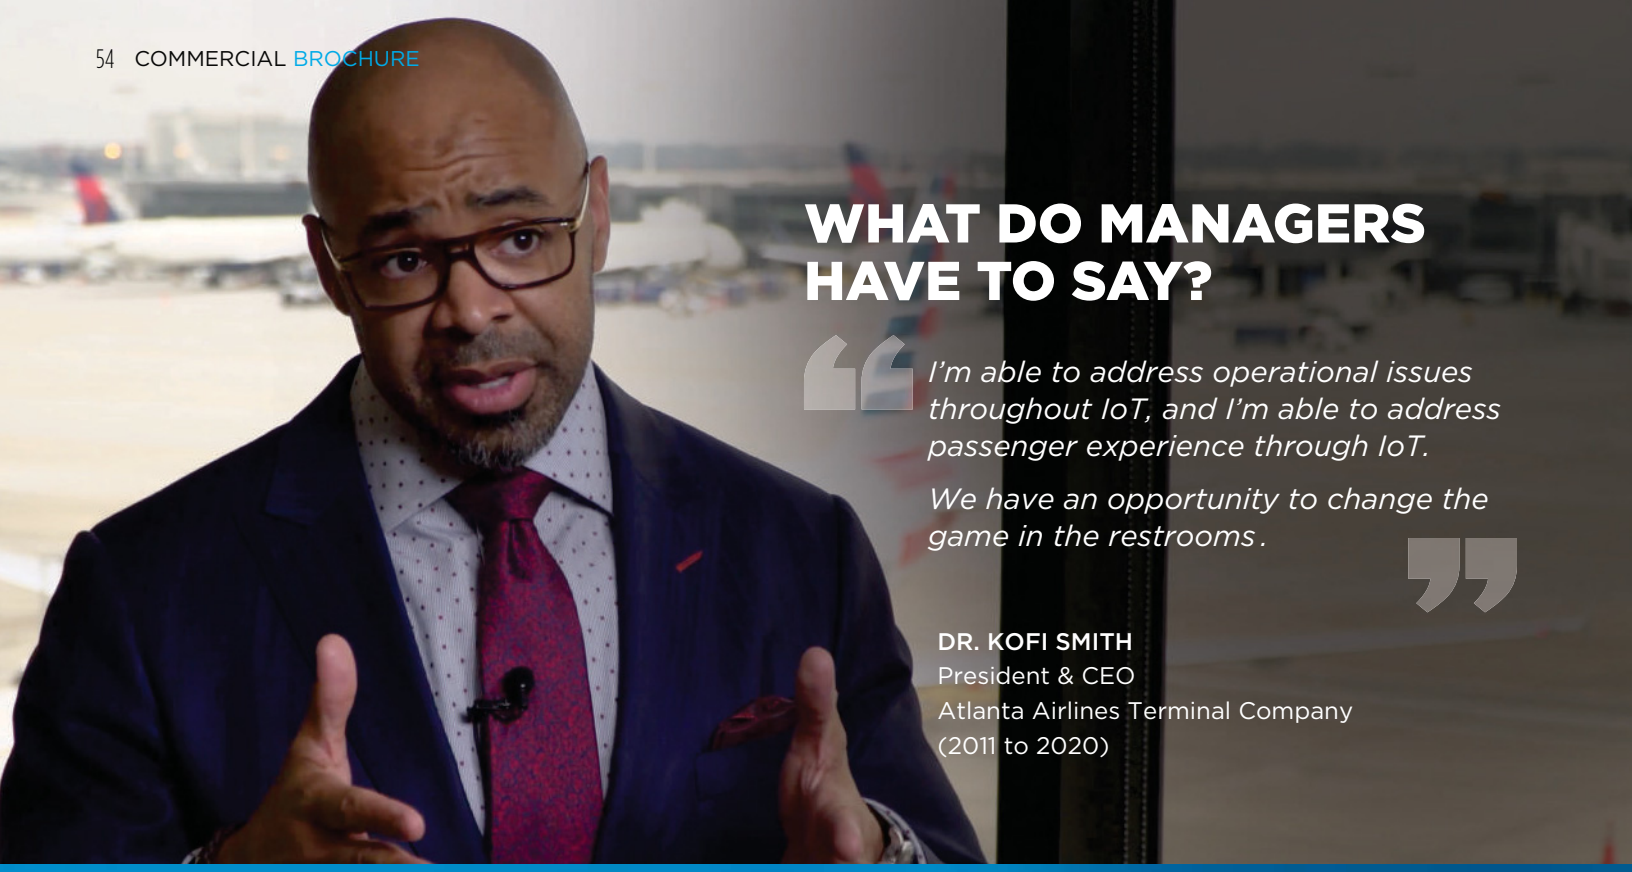
Data transmitted from GP PRO dispensers, TOTO fixtures, and third-party devices to collectors.

Data securely uploaded to the internet via wireless communication

Data stored and analyzed in the cloud

Data sent to easy-to-use KOLO™ mobile and desktop applications

Open architecture enables KOLO™ data to be seamlessly integrated into third-party applications



WHAT DO MANAGERS HAVE TO SAY?

I'm able to address operational issues throughout IoT, and I'm able to address passenger experience through IoT.

We have an opportunity to change the game in the restrooms.

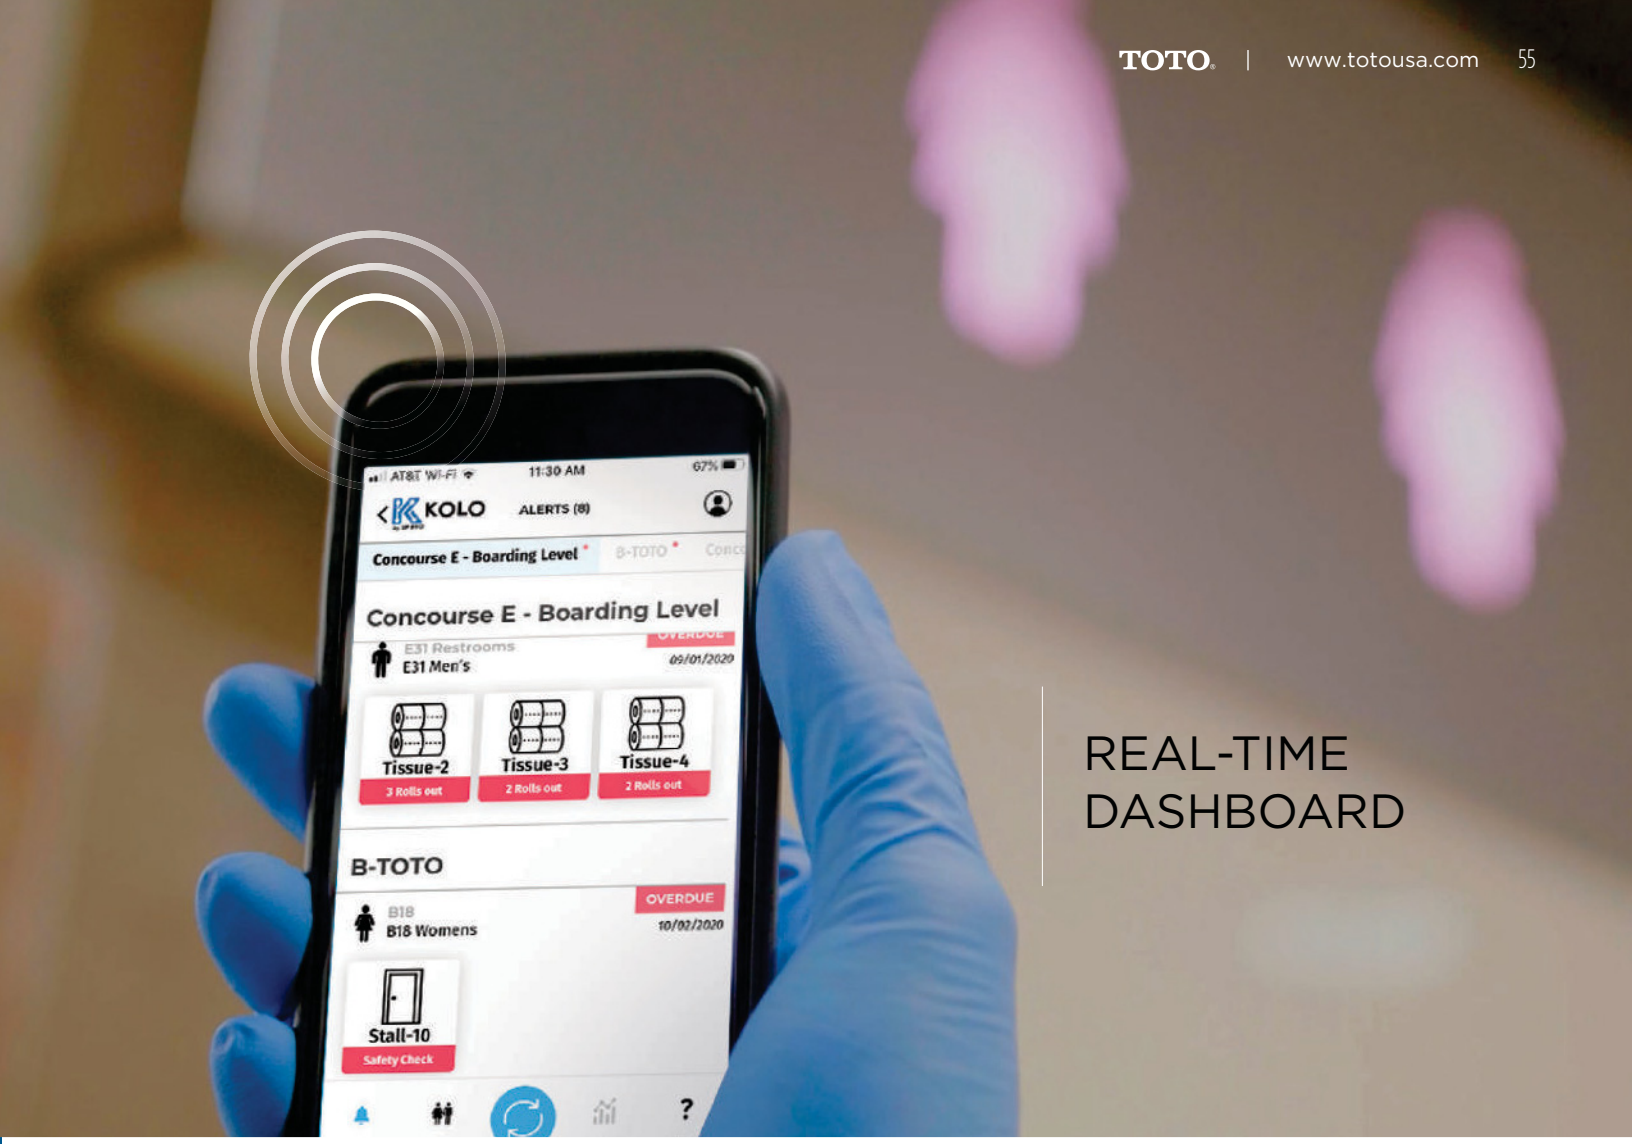
Air care management

IMPROVE HYGIENE

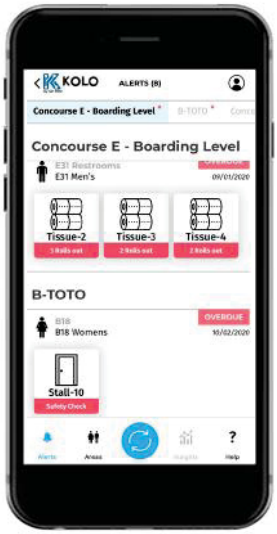
Alert staff to check the stall
Required assistance

ADVANCED USAGE ANALYTICS

Usage heat-map, labor and space optimization, and future Improvements



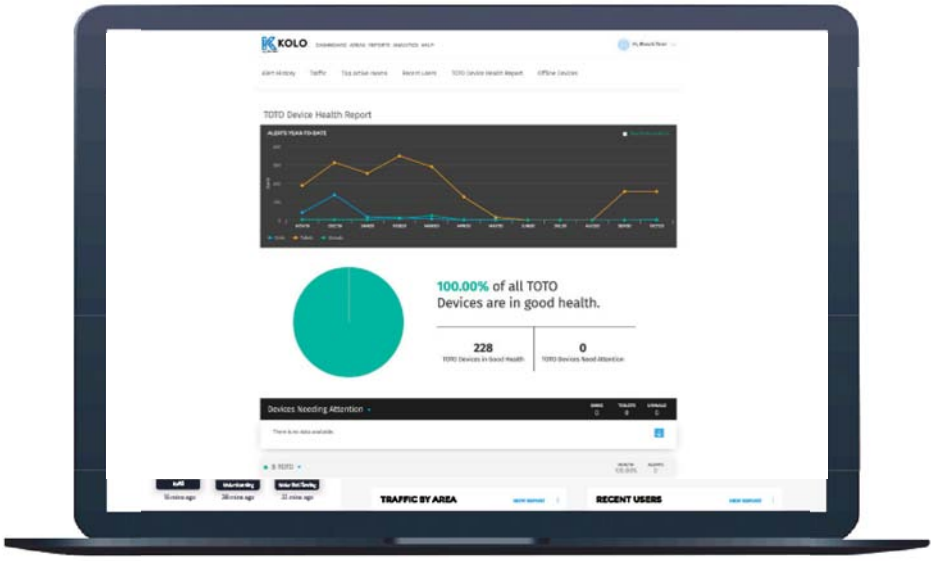
REAL-TIME DASHBOARD



DASHBOARD

TOTO's IoT Smart Restroom provides a holistic solution for the entire restroom, giving your the ability to remotely manage your facility and fixtures in real-time.

IMPROVE OPERATIONS.
ENHANCE RESTROOM EXPERIENCE.



SYSTEM HEALTH

No matter if you are in a different terminal or at home, you can leverage the connected dashboard to check your system's health, what fixtures need attention, and direct your team to reduce down time.

Facilities managers can now leverage data collected from our TOTO fixtures and our Hand Washing Score* — helping you decide where to influence new hand washing behaviors to keep your staff and customers safe.

**Have the ability to create a Customized Hand Washing Score Report*

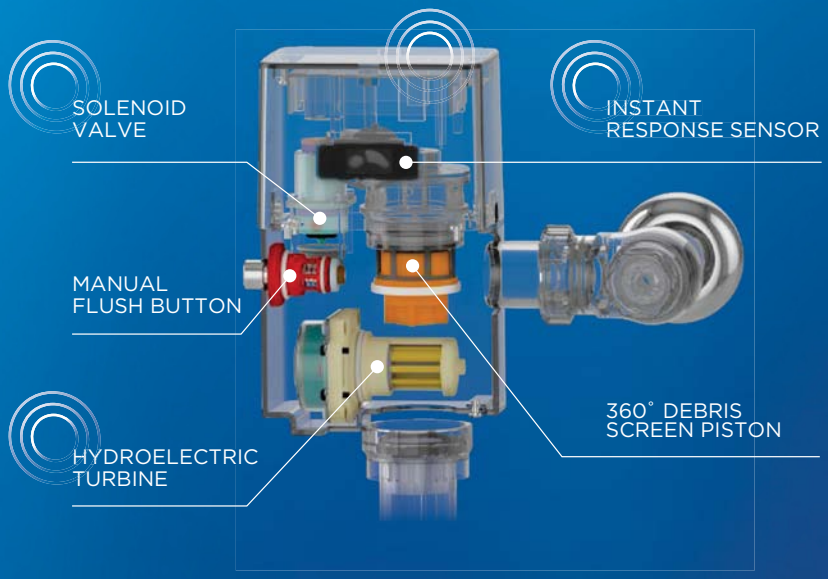
ANALYTICS

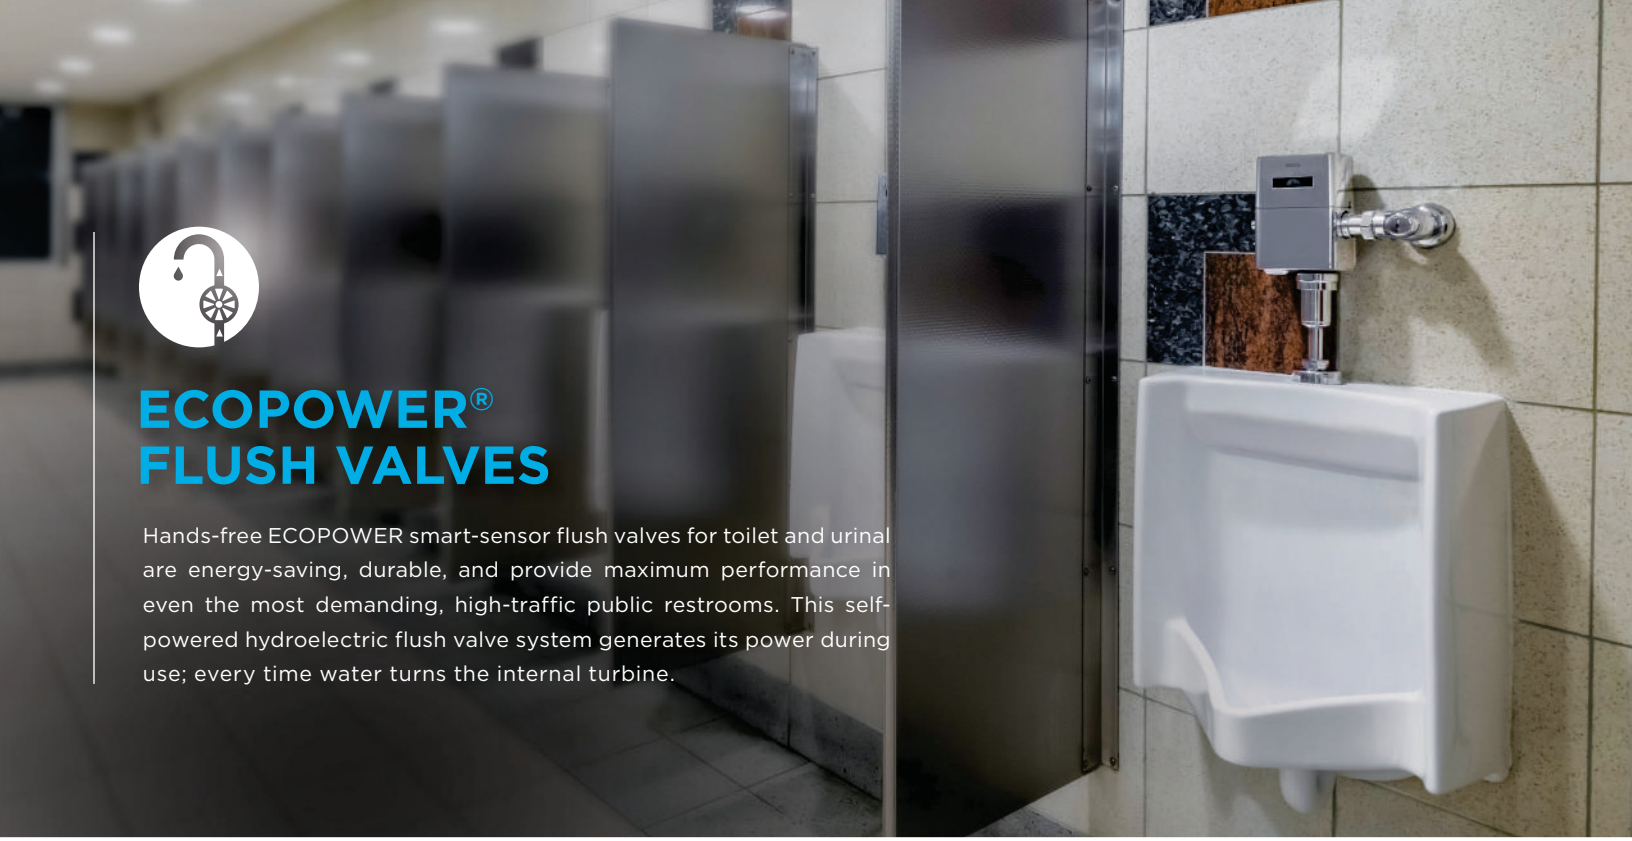
Get powerful data and analytics at your fingertips. TOTO's powerful fixtures, combined with IoT driven data empowers you to act on real-time analytics to help improve maintenance and hygiene — saving time and increasing customer satisfaction.

Finally, with TOTO's IoT Smart Restroom, you will fully understand the use of space for future design and plumbing infrastructure improvements.

ECOPOWER FLUSH VALVES

This self-powered hydroelectric flush value system generates its own power through turning an internal turbine during every flush. With eco power flush valves, you can rest assured your plumbing fixtures will work -- even during a power outage.





ECOPOWER® FLUSH VALVES

Hands-free ECOPOWER smart-sensor flush valves for toilet and urinal are energy-saving, durable, and provide maximum performance in even the most demanding, high-traffic public restrooms. This self-powered hydroelectric flush valve system generates its power during use; every time water turns the internal turbine.
