ICON GUIDE

TOILET & LAVATORY

1.0 GPF

Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.

TORNADO FLUSH®

A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.

3D TORNADO FLUSH®

Three powerful nozzles create a powerful centrifugal rinsing action and combines it with the conservation of 0.9 or 1.28 GPF.

DUAL-MAX®

A dual flushing system that optimizes conservation by selecting the preferred flush volume.

CEFIONTECT®

Ultra-smooth ceramic glaze leaves nowhere for waste to cling.

UNIVERSAL HEIGHT

Toilet height that allows for a more comfortable height position across a wide range of users.

SKIRTED DESIGN

The trapway is concealed by smooth porcelain, making the toilet easier to clean.

LINEARCERAM®

Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.

LUMINIST®

An epoxy resin material that combines the translucence of glass with exceptional impact and heat resistance.

WASHLET®

**TOTO .
washLÈT**

An electronic bidet seat featuring adjustable warm water cleansing, heated seat, dryer, deodorizer and much more.

washLÈT® +

WASHLET and toilet set with a concealed connection that is specially designed for a seamless installation.

ACTILIGHT®

Special glaze combined with ultraviolet light work together to break down waste in the toilet bowl.

EWATER+®

Mists the bowl with electrolyzed water, keeping the wand and toilet bowl clean to reduce the need for harsh chemicals.

PREMIST®

Using the incoming water supply, PREMIST sprays the toilet bowl surface aiding in the elimination of waste approximately 80 percent better than a dry bowl.

FAUCET

COMFORT WAVE®

A mix of large droplets and standard spray creates a shower with moderate intensity and just the right amount of stimulation.

COMFORT GLIDE®

Precise and easy flow control of water based on user's touch.

SOFT FLOW

Keeps splashing to a minimum for comfortable use and soft to the touch water.

SAFETY THERMO®

Shape Memory Alloy (SMA) thermostatic valve that prevents a sudden, unwanted increase in water temperature.

TUB

ZERO DIMENSION®

A zero-gravity bathing experience, letting the body float in a completely tension-free state, creating absolute relaxation for the body and mind.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

GENERAL FEATURES

AUTO FUNCTIONS

Product featuring an integrated, automatic, sensor activated function.

ADA

Product complies with Americans with Disabilities Act guidelines.

WATERSENSE®

Product that meets EPA standards for water efficiency and performance criteria.

CEC

Product meets California Energy Commission requirements.

CALGreen

Product meets CalGreen Water Regulations for new construction and permitted remodel.

DESIGN AWARDS

**reddot award
winner**

The Red Dot is the award for high design quality. The international jury only awards this sought-after seal of quality to products that feature an outstanding design.

IF AWARD

The IF DESIGN AWARD has long become a symbol for excellent form, for aesthetic quality, and for user-focused, ergonomic and efficient design in all disciplines, by companies around the world.

GOOD DESIGN

The Good Design Award is the world's oldest and most important industrial design program organized annually by the Chicago Athenaeum Museum. Awarded to our EWATER+ products.

TOTO CLEA

Enriching lives with inno

NOVATION

vative clean technology

CLEAN SYNERGY

Technology & Design

CLEAN SYNERGY

EWATER+[®]
For BOWL

Prevents the accumulation of waste on bowl.

EWATER+ reduces waste and dirt you can't see.

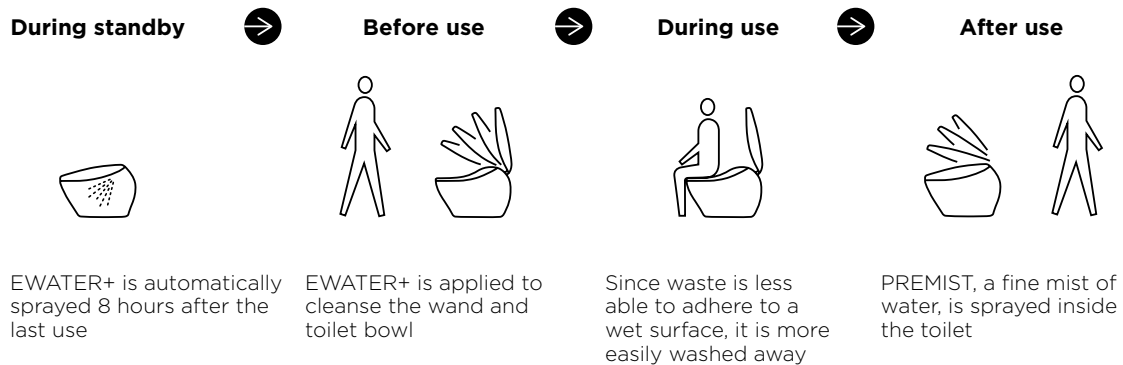

EWATER+®

WASHES THE WAND AND TOILET BOWL WHERE WASTE TENDS TO ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic waste has no place to hide.

How EWATER+ Cleans

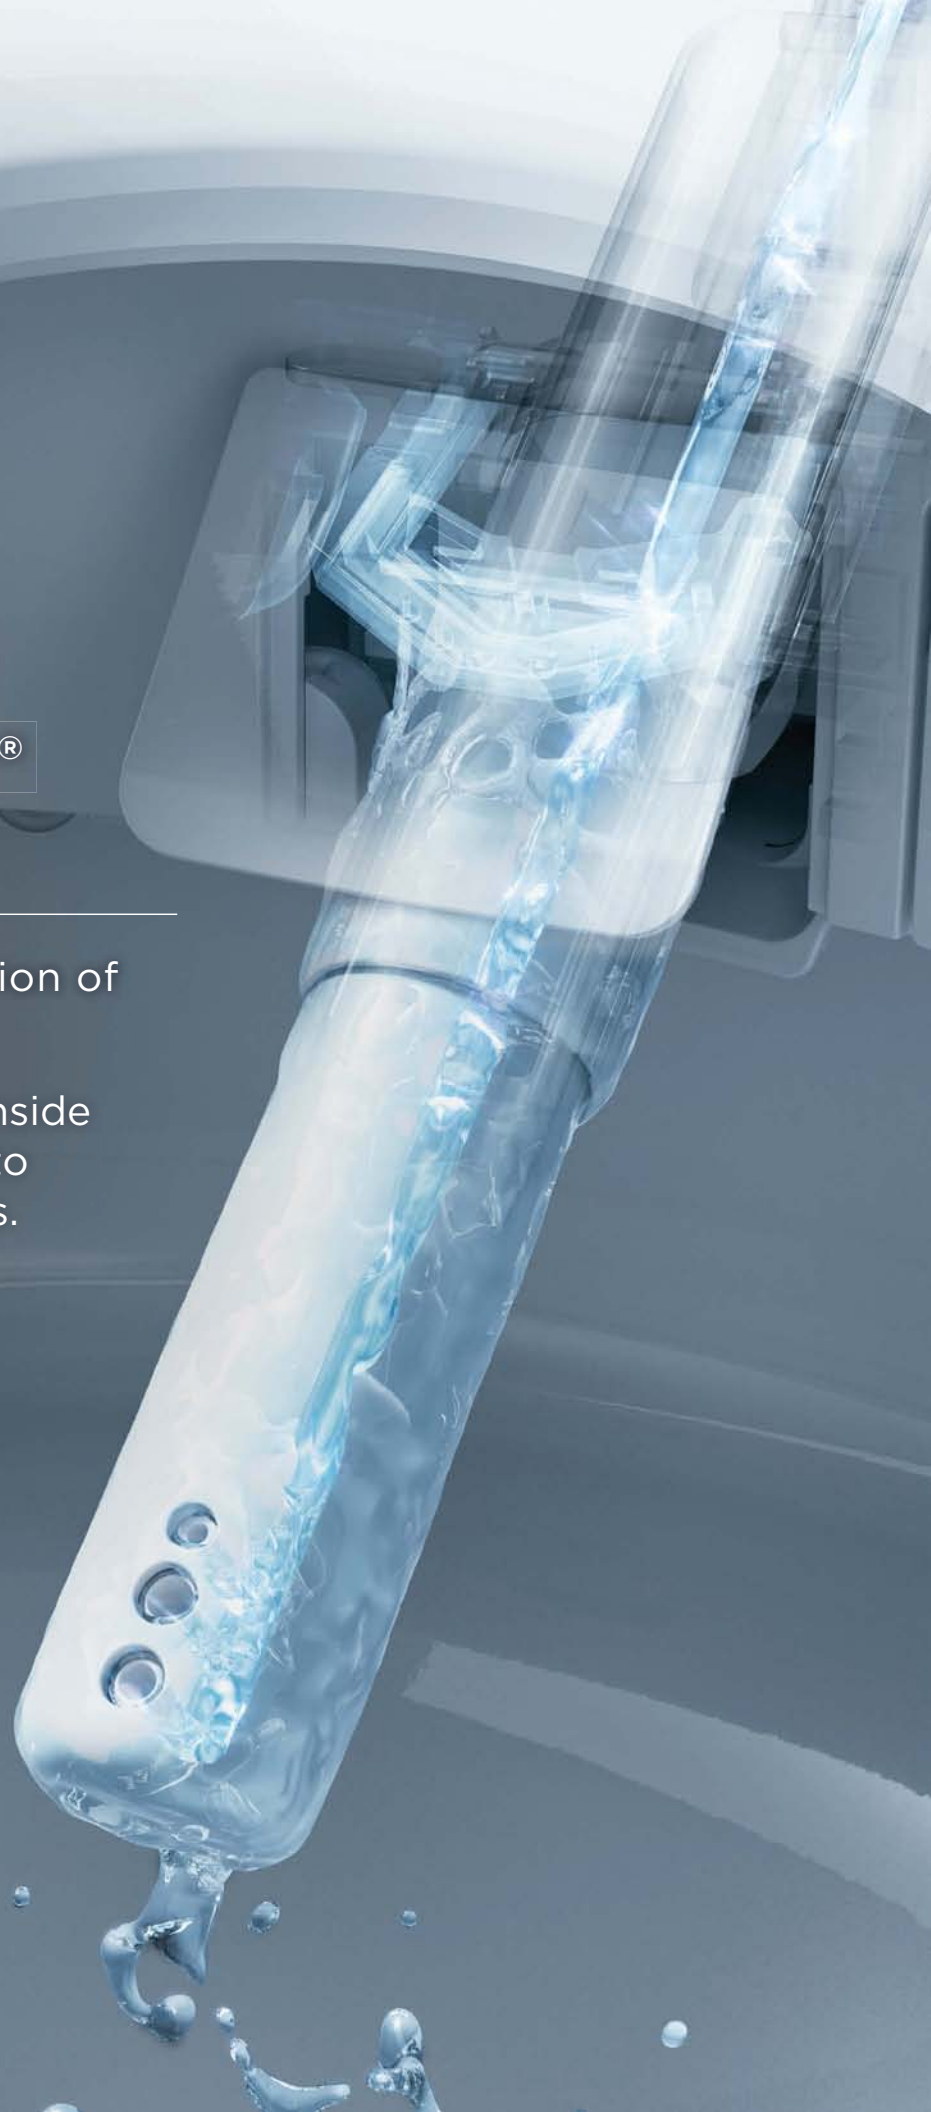

CLEAN SYNERGY

EWATER+[®]
For WAND

Prevents the accumulation of waste on wand.

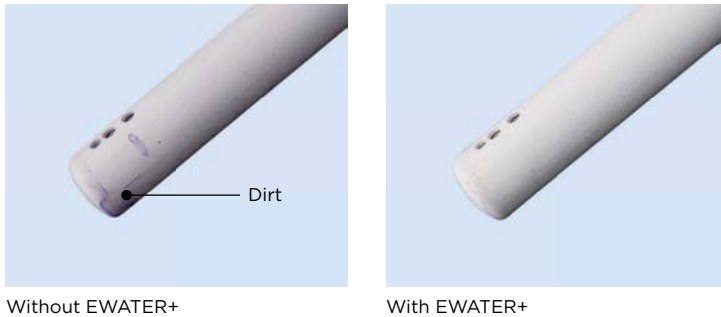

The wand washes itself inside and out with EWATER+ to maintain clean conditions.

EWATER+®

BEFORE AND AFTER EACH USE, THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically washes itself to ensure constant clean conditions.

Without EWATER+

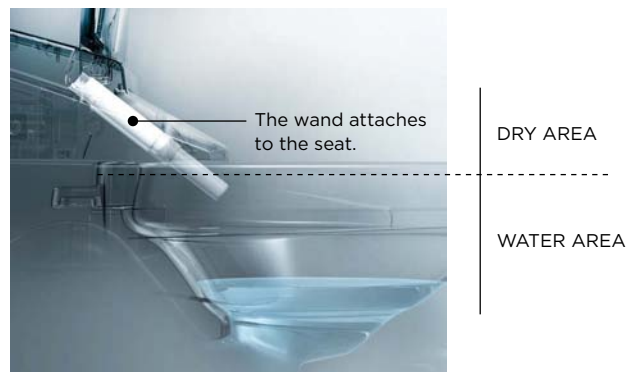

With EWATER+

Self-Cleaning Inside the Mechanism

Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

CLEAN SYNERGY

CEFIONTECT®

Forces waste to slide down.
Ultra-smooth ceramic leaves
nowhere for waste to cling.

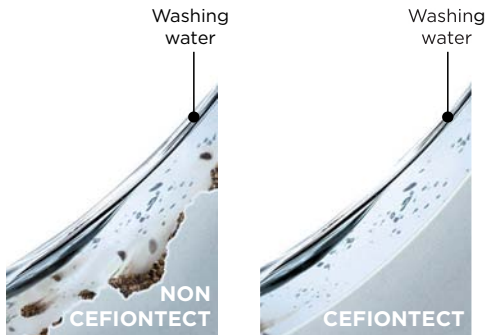

PREMIST®

Prevents waste from clinging.
A film of water keeps waste
from clinging.

CEFIONTECT® IS AN ULTRA-SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

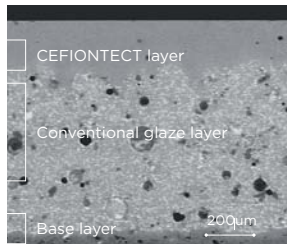

Eliminating the microscopic gaps where waste hides

Conventional ceramic may appear perfectly smooth to the eyes, but has gaps where waste particles hide. At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.

What makes CEFIONTECT so durable?

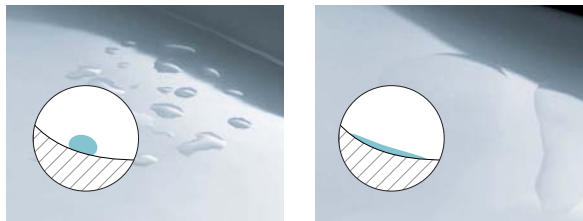

Glass layers are burned onto conventional glaze, making CEFIONTECT an extremely durable material.

CEFIONTECT toilet micrograph *1Qm=0.001mm

Water has a strong affinity to CEFIONTECT

The term hydrophilic describes matter that is attracted to water. Due to the hydrophilic nature of CEFIONTECT, water spreads easily over the toilet bowl, effortlessly washing waste particles away.

Water hydrophobic

Water hydrophilic

PREMIST®

To ensure waste washes away easily, a film of water keeps waste from clinging to the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

CLEAN SYNERGY

**TORNADO
FLUSH®**

Swirls and eliminates waste entirely.
360° cleaning power reaches
every spot using less water.

DYNAMAX TORNADO FLUSH®

USES 100% OF WATER TO CLEAN AND RINSE BOWL.

DYNAMAX combines powerful bowl cleaning and waste evacuation using water that is 100% projected from the rim creating 360° cleaning power. Using only 1.0/0.8 or 1.28/0.8 gallons per flush, coupled with a 25% larger trapway diameter, this high-efficiency system uses 20% less water with improved performance while also creating a quieter flush. With a modern rimless design, it performs more consistently and is easy to clean.

TORNADO FLUSH® NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

Powerful washing where waste accumulates most easily

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily - and then washes the entire bowl clean. Exquisitely high-quality ceramic makes this innovative design possible.

The RIMLESS design not only leaves no place for waste and germs to hide, it also makes for a much easier to clean toilet.

ACTILIGHT®

Innovative glaze, the ultimate cleaning technology, has extreme hydrophilic power to easily wash waste away.

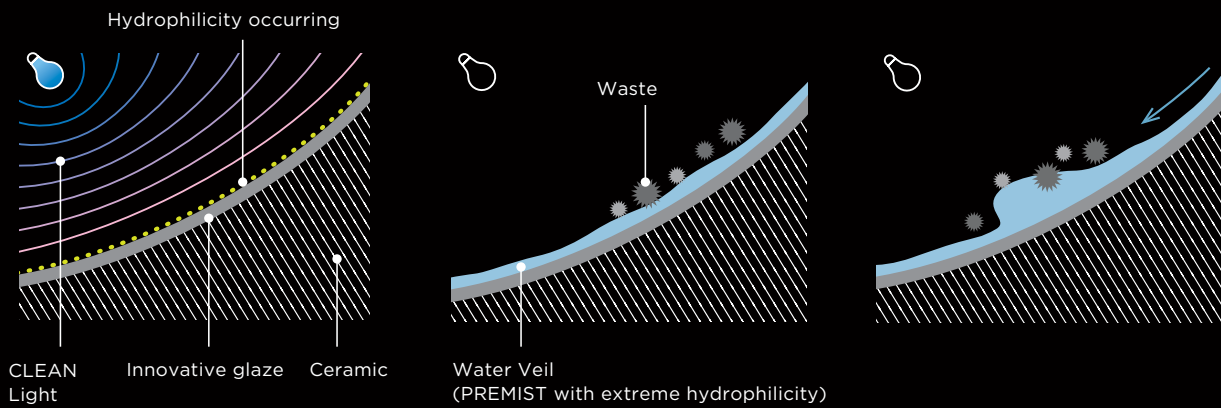

CLEAN Light

Innovative glaze

CLEAN Light and the extraordinary surface treatment enable easy removal of even microscopic debris and particles.

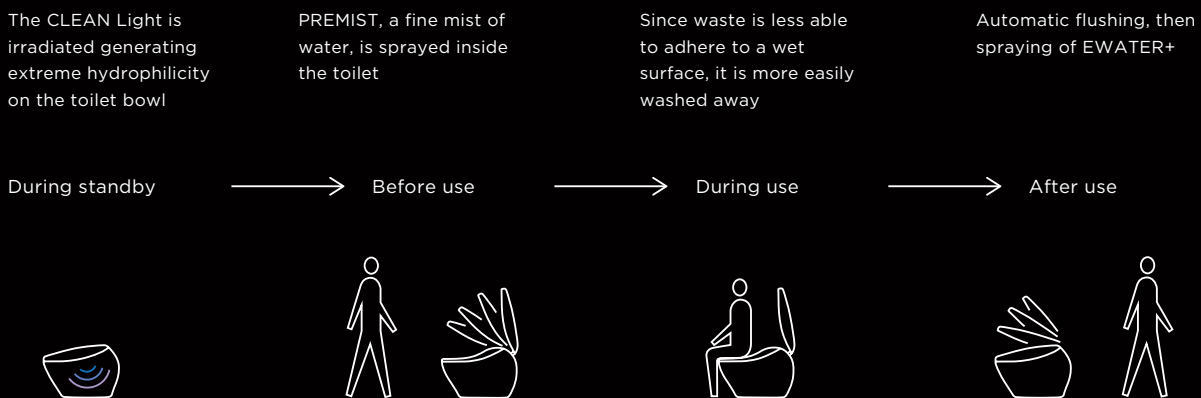

State-of-the-art materials

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to attract water to the surface and keep the surface clean after use.

Operates 24 hours a day to maintain clean conditions

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to make it easy to wash waste away and keep the toilet bowl surface clean.

NEOREST®

CLEANSING FUNCTIONS

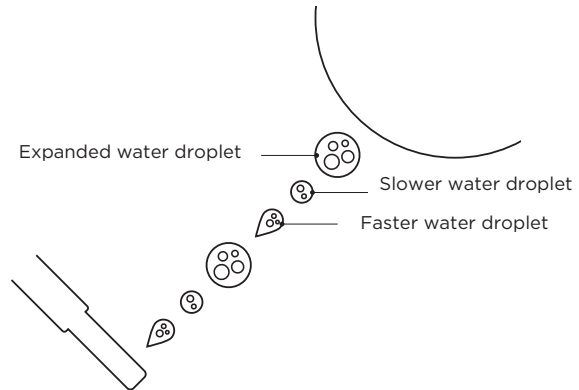

CLEANSING FUNCTIONS

WITH THE TOUCH OF A BUTTON, A WAND EXTENDS FROM UNDER THE SEAT FOR SOOTHING WARM-WATER CLEANSING.

How WASHLET® works

AIR-IN WONDER-WAVE® technology is the precise, pleasant, air rich stream that keeps you clean. As water is fired at different speeds, small droplets collide with larger ones, combining and expanding as the droplets fill with more air. The injection of air enlarges water droplets around 30%.

Select the type of cleansing you desire each time.

NEOREST® NX2, NX1, AH, and RH Remote Control

REAR SPRAY

The rear spray is designed to clean the rear intimate area. It features pleasant, yet strong water pressure to target this specific area.

REAR SOFT SPRAY

It has a larger radius to cover more area. Lower water pressure makes for a soft, comfortable spray.

FRONT SPRAY

The front wash consists of large, soft drops for comfortable intimate cleansing – for a clean, fresh feeling.

WIDE FRONT SPRAY

It has a larger radius to cover more area. Lower water pressure makes for a soft, comfortable spray.

NEOREST® TECHNOLOGIES

For greater performance and hygiene in the bathroom.

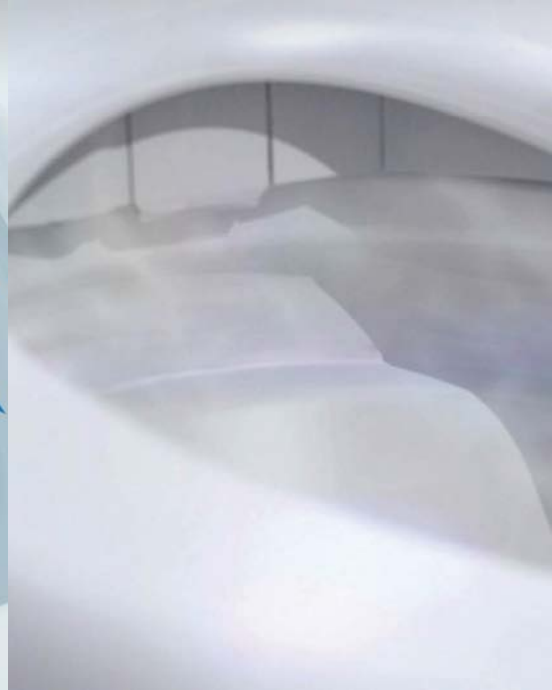

AUTO FLUSH

PREMIST®

DEODORIZER

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use

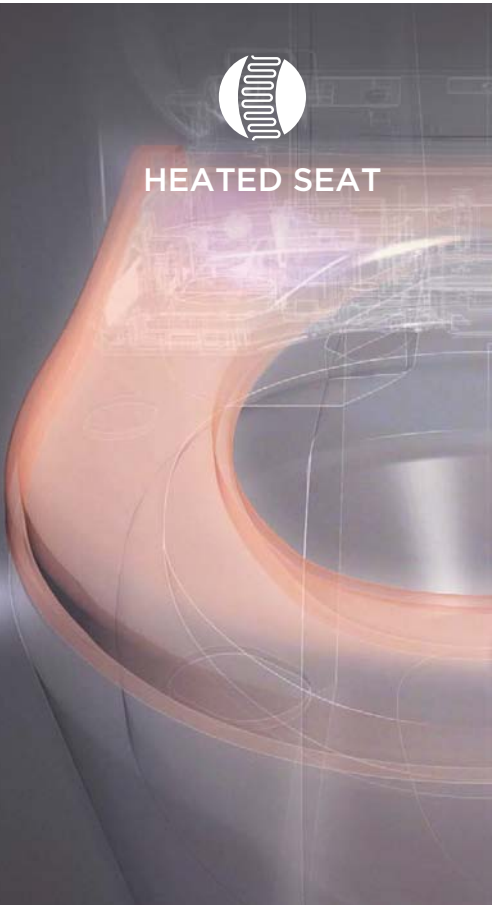

**Auto Flush models only*

Using the incoming water supply, PREMIST wets the toilet bowl surface aiding in the elimination of waste approximately 80% better than a dry bowl.

Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

HEATED SEAT

The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.

AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

DRYER

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

NEOREST® FEATURES

**SoftClose®
LID**

The SoftClose lid automatically closes gently to eliminate seat slamming.

PREMIST®

PREMIST wets the surface of the toilet bowl, aiding in the removal of waste and resulting in a better clean.

HEATED SEAT

The contoured seat has five temperature settings for maximum comfort.

EWATER+®

After each flush, EWATER+® mists on the wand and toilet bowl, reducing the need for harsh cleaning chemicals.

**SELF-CLEANING
WAND**

The self-cleaning function cleans the entire wand with EWATER+ before and after each use.

DRYER

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

ACTILIGHT®

Uses a special light-reactive glaze and CLEAN Light technology inside the lid to get rid of both visible and invisible waste. Available on NEOREST models NX2, AC, and 750H.

**AUTOMATIC
DEODORIZER**

The deodorizer cleans the air around the toilet using powerful filters. Air is drawn in, passing through an ionized carbon filter to reduce unpleasant odors.

A Matte Finish with Outstanding Cleanability

Ordinary matte ceramics have a reputation for hanging on to dirt, but the unique way CLEAN MATTE ceramics from TOTO are processed means that any clinging dirt can be easily washed away.

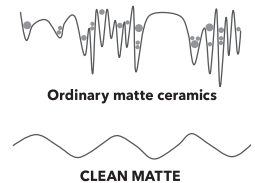

About CLEAN MATTE Technology

Compressed air is used to blast the glaze-covered surface of the ceramic with a slurry of water and abrasive material - an advanced technology that enables microscale processing.

Ordinary matte ceramics have a jagged surface that tends to retain dirt. CLEAN MATTE achieves uniform, micro-level undulations for a smoother surface that makes dirt removal easier while also improving design.

*Tests were conducted using a water-dampened sponge to wipe away oily grime applied to the ceramic surface.

ZERO DIMENSION®

Immersed in the meditative moment of relaxation.

THE POSTURE OF AN ASTRONAUT RESTING IN SPACE

ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

After more than a decade of research on body positioning, bathing and neurological relaxation, TOTO developed the Flotation Tub. Its design simulates zero gravity by offering bathers the experience of total weightlessness. By releasing the bather from the bonds of gravity to float in a tension-free state, deep muscle relaxation occurs that calms the body, mind and spirit creating a sanctuary from the physical and mental fatigue today's world brings.
