

Colours – Inspired by the Sun.
Your favourite colours.

 **GRIESSER**

Inspired by
the **Sun.**

We love the sun - it inspires us daily. As pioneers in our field, we design excellent solutions that will make life more comfortable and last for years.

Our vocation: advancing new ideas for tomorrow's world.

Choose your favourite colour.

We love light because it gives us colours and it's our inspiration source. In our brochure you will discover over 300 colour shades, ranging from ivory to purple. We can offer you all the colours of the rainbow, so you can style your sun protection however you want.

Create your colour.

Rather than being restricted to using silver, grey or black, Griesser allows you to simply choose your own favourite colour palette.

If you can't see it, you can bring us your favourite photo or a sample of the colour you want. We can then recreate the shade using the colour spectrometer and blend it especially for you. This means that your sun protection can perfectly match your architecture's colour scheme.

Rich. Premium. Optimally coated.

We want our products to be long-lasting and to be suitable for use in any situation or location. That's why we developed an optimal coating for each product.

It consists of the shade, the luminosity level and the texture. For colours that are rich and intense, just as you love them. For sun protection that reflects and absorbs just the right amount of light to suit the space and weather. For the final touch, for the final finish, additional particles create a particularly refined effect. For external venetian blinds, facade awnings, blinds, window shutters, rolling shutters and patio roofs that you can delight in every single day.

Years of experience under our belt as a trend-setter.

Griesser boasts the largest colour palette for sun protection. Over our 140-year company history, we have continued to hone the art of dyeing, firstly wood and later aluminium. We now have our own painting and powder-coating equipment and control the entire dyeing process.

New colours are added every year. This is how we keep bang up to date – and set new trends.

BiColor

Customisation with BiColor.

Two-colour coated slats – different colours on the inside and outside. For example, you can choose a colour for the outside that allows the external venetian blind to blend in visually with your façade. On the other hand, the colour of the inside can be adjusted to the specific colour of the room. BiColor, exclusively from Griesser. Dare to use colour!

Special coats for extreme locations.

To extend the service life of Venetian blinds in coastal or heavily polluted locations, they can be treated with a special additional coating. We're happy to offer you advice.

In harmony with your region.

Regional architecture sometimes dictates the shade for the exterior design of a house. You can meet this requirement really easily: You can obtain sun protection from us in any of the colours typical of regions as standard.

Tried-and-tested quality.

All of our paint and powder suppliers hold the universally valid quality mark, QUALICOAT.

*All samples are produced with standard print colors and may therefore deviate from the original color shades. Subject to change without prior notice.

Sustainably innovative.

Climate and growth in balance.

As a future-oriented company, we are aware of our responsibility towards nature and the environment. We align our actions with a long-term commitment to sustainability.

Innovative products from resource-saving production, targeted investments in sustainable building renovations and the conversion of our company fleet to e-mobility are just some of the essential characteristics that distinguish our company, which is oriented toward sustainable business.

We can only achieve the goals of our climate vision together. On the way to a climate-neutral future, we rely on cooperation with committed partners. Since 2008, we have been an active partner of myclimate, one of the leading providers of CO₂ offsetting and climate protection consulting. The renowned business association, Swisscleantech, is also one of our strong partnerships. As an active supporting member, Griesser has signed the charter for a CO₂-neutral Switzerland by 2050. But we are also active on the international scene: Since 2022, we have been a member of the UN Global Compact – the world’s largest association of sustainably operating companies and the United Nations.

-  **Smart strategy:** reduction of building energy by up to 40% with automatically controlled Griesser products.
-  **Sustainable construction:** largest EPD/FDES-certified product range in the sector.
-  **Proven recycling:** climate-neutral disposal of Griesser blinds for 15 years.
-  **For the future of the climate:** long-term partnerships with myclimate, Swisscleantech and UN Global Compact, additionally targeted promotion of climate protection projects.
-  **Sustainable family business:** honored with the Family Business Award 2022.

We don't just talk, we take action. With our numerous commitments for the future, we demonstrate our determination. Learn more here about our efforts for a sustainable future.
