FIBER OPTIC DUPLEX LC • SC PORT

What is... Trunktie®

Trunkties are a simple solution designed to hold, hang, or tag things in position relative to an unpopulated port. Their most common use is to hold tags for identifying network ports, but our customers have found countless creative applications for their use.

POPULAR USES RJ45

Trunkties plug into an unused port, providing a flexible cable that secures into a multipurpose loop. That's all, it's that simple.

Server Rooms
Identifying the unpopulated ports in a patch panel.

Communication Between Peers
Post messages like "to be tested" or "connect uplink here".

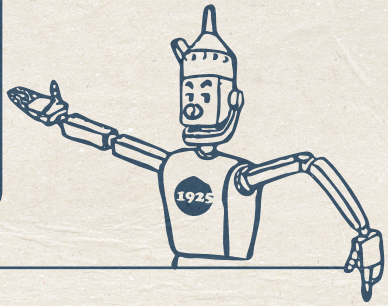

Equipment Relocation
Before moving, tag ports with "Reception Desk", "R&D Lab", "IDF1", "storage LAN", "Management LAN", "Corp LAN".

Networked Home Builds and Remodels
Whether building a new homes or adding network wiring as part of a home upgrade, leave behind easy to follow labels.

Multi-Tenant Office Buildings
A cabling contractor wiring a new tenant space, a building manager marking "save for suite 230 when leased", etc.

Trunktie keeps your port clean at all time.

DUST FREE!
