Crafted by nature – Refined for living

100 YEARS OF QUARRYING EXPERIENCE

RESPONSIBLE PRODUCER OF NATURAL STONE

Lundhs is the largest producer and distributor of rough blocks in Northern Europe. With more than 100 years of quarrying experience, we aim to ensure stability, reliability and quality for all our customers. We supply a wide range of top-quality stones; Larvikite and Anorthosite. With advanced technology and unique stone resources, we are a competitive and experienced supplier to the stone trade worldwide. Most of our quarries are located in the south of Norway around the city of Larvik. We also have a quarry in Sirevåg on the west coast of Norway.

SUSTAINABILITY

The UN's sustainability goals provide a common direction for sustainable development. We have chosen to highlight two sustainability goals that are particularly relevant to our operations:

Goal 12
Sustainable consumption and production

Goal 13
Climate action

Our commitments

Lundhs is ISO 14001 certified, and all our quarries are established in accordance with approved national regulations and detailed operational plans.

We work continuously to;

- Reduce our environmental impact
- Reduce our energy consumption
- Use the most modern technology and machinery available
- Reach 100% utilization of the stone resources
- Increase awareness on sustainability internally and with partners/suppliers
- Work for an open and transparent value chain
- Restore quarries back to nature
- Provide EPD's on all our materials

Tvedalen

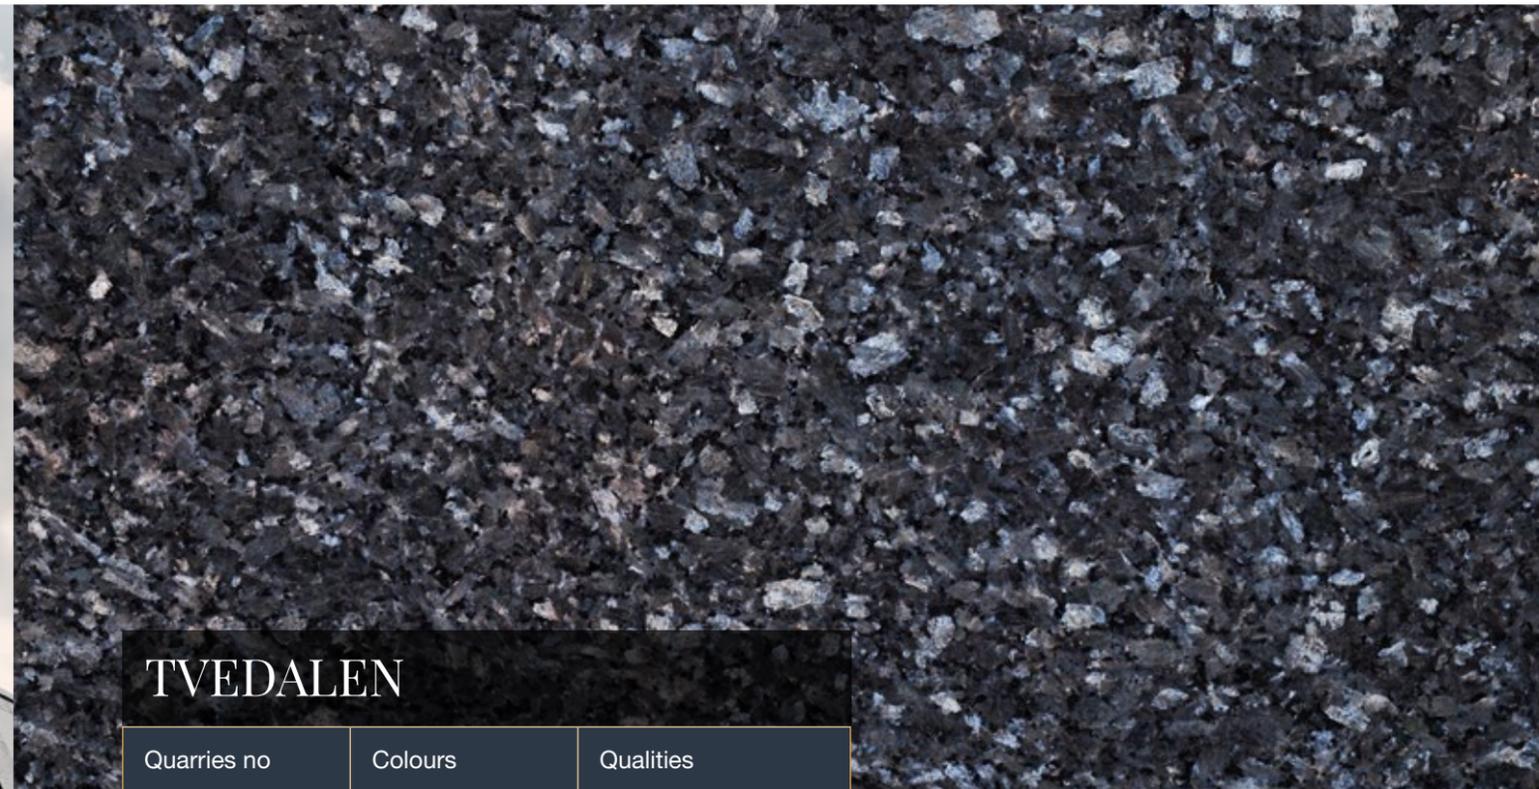

Larvik, Norway
Quarry no 2, 6 and 10

LUNDHS Blue®

— Stone type: Larvikite —

Lundhs Blue (formerly known as Blue Pearl), is characterised by its medium-sized blue feldspar crystals. This stone is a perfect choice for countertops, flooring, shop fronts, monuments and facades.

TVEDALEN

Quarries no	Colours	Qualities
2, 6 and 10	Dark (HQ)	1st Choice
	Classic	2nd Choice Extra Fine
	Commercial	2nd Choice Selected
		2nd Choice
		3rd Choice

Recommended cutting direction is pre-marked in white on each block of stone.

Klåstad

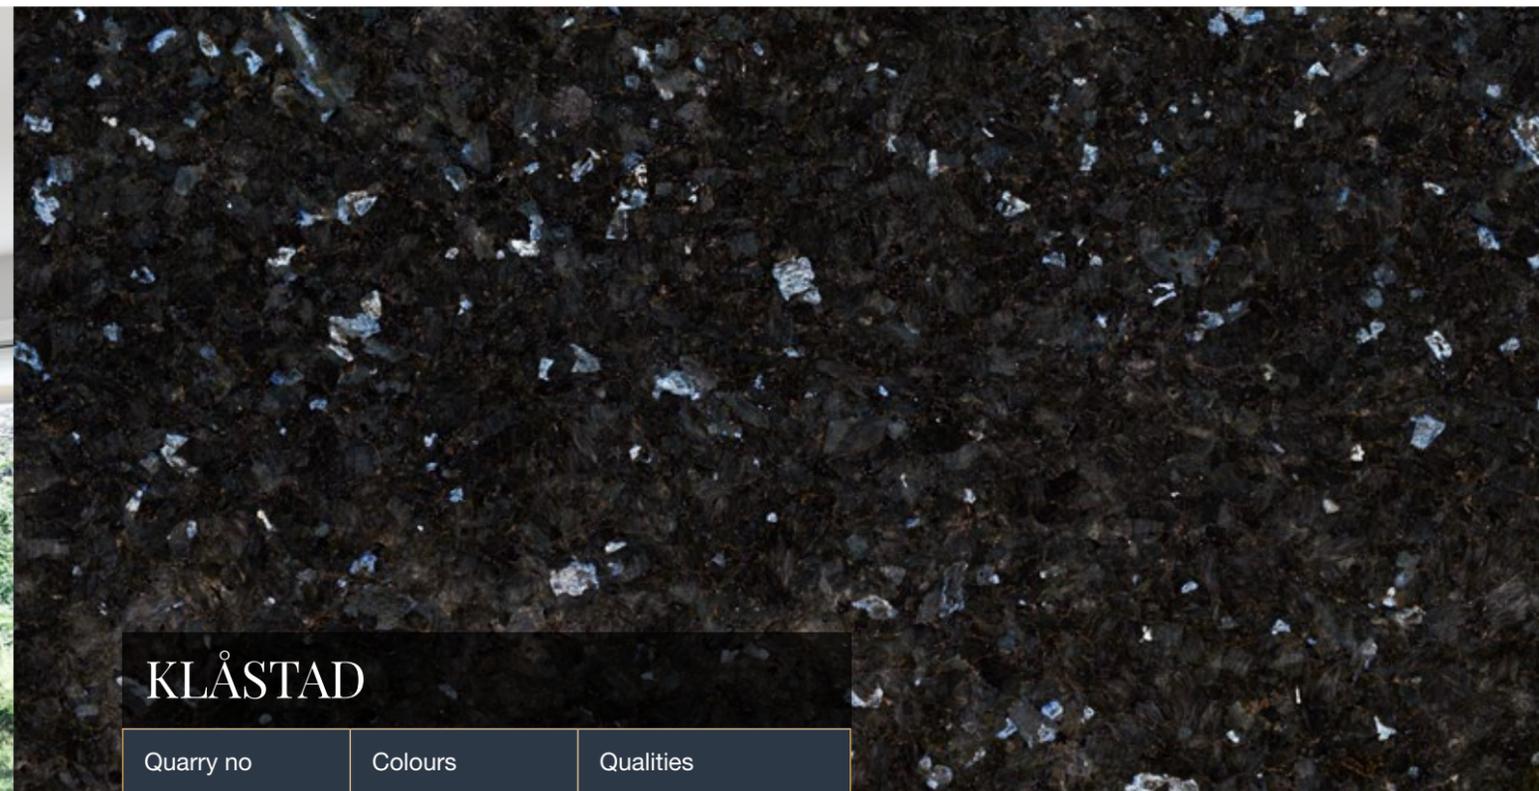

Larvik, Norway
Quarry no 30

LUNDHS Emerald®

— Stone type: Larvikite —

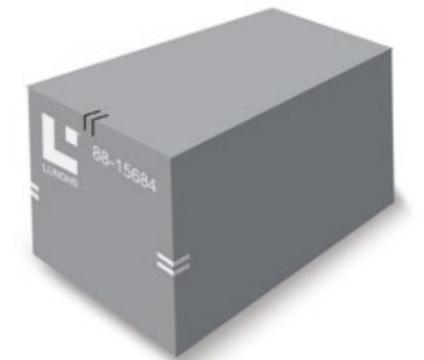

Lundhs Emerald (formerly known as Emerald Pearl), has a distinct appearance of lustrous blue crystals on a dark background. It is among the world's most popular natural stone for countertops. It is also typically used for interior decoration of floors, walls, and stairs in hotels, banks, exclusive shops, private homes, and airports.

KLÅSTAD

Quarry no	Colours	Qualities
30	Dark (HQ)	1st Choice
	Classic	2nd Choice Extra Fine
	Commercial	2nd Choice Selected
		2nd Choice
		3rd Choice

Recommended cutting direction is pre-marked in white on each block of stone.
Alternative cutting direction (black marks on this illustration) is not pre-marked.

Stålaker

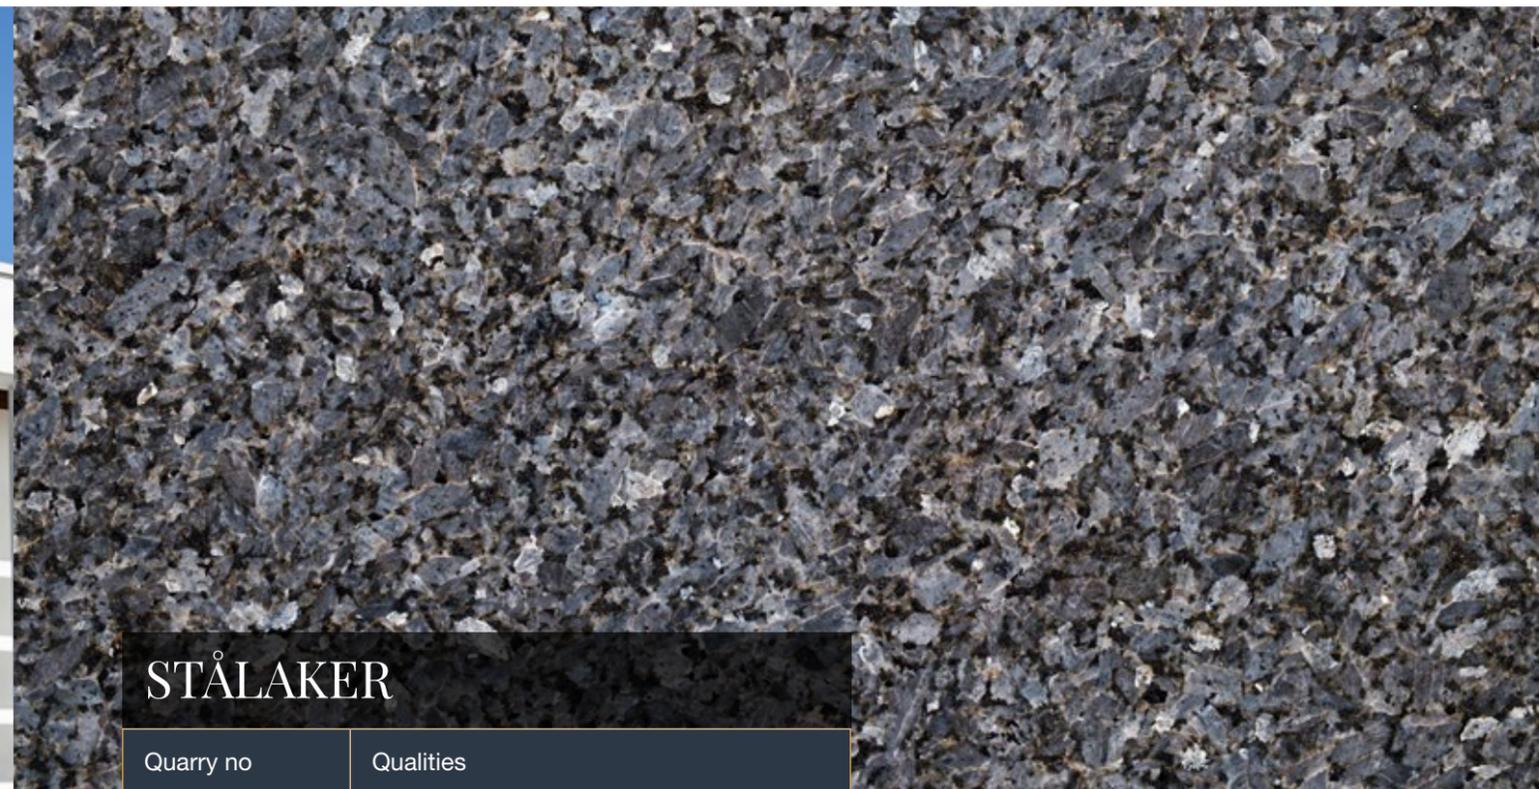

Larvik, Norway
Quarry no 15

LUNDHS Marina®

— Stone type: Larvikite —

Lundhs Marina is characterised by its large steel-blue feldspar crystals. The material is exclusively produced by Lundhs. With a homogenous colour, it is a stone with little limitation regarding areas of use. Popular for interior and exterior decoration as well as monuments.

STÅLAKER

Recommended cutting direction is pre-marked in white on each block of stone. Alternative cutting direction (black marks on this illustration) is not pre-marked.

Size, quality and colour

On this page you will find a description on how Lundhs classify blocks according to size, quality and colour.

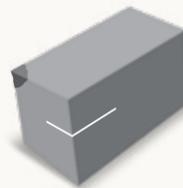

SIZE

The price of a block of stone is determined by size, quality and colour. Lundhs' categorizations of block sizes are from Category 1 to Category 6.

- 1 _ Blocks with length up to 179 cm x free height.
- 2 _ Blocks with length between 180-239 cm x free height.
- 3 _ Blocks with length from 240 cm x height below 120 cm.
- 4 _ Blocks with length between 240-269 cm x height from 120 cm.
- 5 _ Blocks with length from 270 cm x height from 120 cm.
- 6 _ Blocks with length from 280 cm x height from 170 cm.

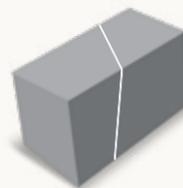

GENERAL QUALITY LEVELS

The quality classification is an indication of what kind of defects that can be expected. Reclamations will not be accepted on 2nd and 3rd Choice blocks. This classification is used on all our materials except Lundhs Antique. See description on p. 21.

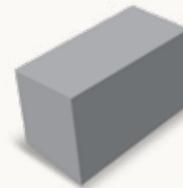

2nd Choice Extra Fine:

A small defect in the cutting direction or across a corner. The drawing of the block is an illustration of a possible defect for this quality.

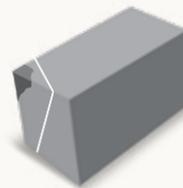

2nd Choice:

One defect across the cutting direction. The drawing of the block is an illustration of a possible defect for this quality.

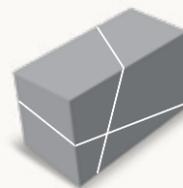

1st Choice:

Blocks without any defect.

2nd Choice Selected:

A minor defect across a corner or a defect on one side of the block. The drawing of the block is an illustration of a possible defect for this quality.

3rd Choice:

Two defects across the cutting direction. The drawing of the block is an illustration of a possible defect for this quality.

COLOUR

It is important to be aware of the difference between colour and quality classification used on our materials.

LUNDHS Blue®	
Dark (HQ)	Dark blue background colour with blue crystals.
Classic	Slightly lighter background colour and less blue appearance.
Commercial	Lighter background colour compared to Classic, and less coloured crystals.

LUNDHS Emerald®	
Dark (HQ)	Dark black background colour, and lustrous blue crystals.
Classic	Slightly lighter background colour.
Commercial	Slightly lighter background colour, less blue crystals.

LUNDHS Royal®	
Dark (HQ)	Bright blue crystals and uniform colour.
Classic	Slightly lighter background colour, lighter blue crystals.
Commercial	Lighter background colour compared to Classic, and less coloured crystals.

LUNDHS Ocean®	
Dark (HQ)	Dark grey-green background with small blueish crystals.
Classic	Slightly lighter background colour and less blue appearance.
Commercial	Lighter background colour compared to Classic, and less coloured crystals.

LUNDHS Marina®	
None	No differentiation in colour - a very homogeneous material.

LUNDHS Grey™	
None	No differentiation in colour - a very homogeneous material.

LUNDHS Antique®	
HQ	Brown background colour with blue, turquoise and brown crystals. May contain some black or red/brownish thin veins. May contains black spots.
2nd Choice	More black or red/brownish thin veins and black spots. Can also have green veins.
3rd Choice	In general as described as for 2nd choice, with even more veins and spots.

TECHNICAL DATA

Technical data are available at lundhs.no. If you have further questions about our resources for specifiers please contact your sales representative.

AREAS OF USE

Areas of use	Popular Materials	Colour	Quality of Material	Category	Comments
Kitchen top	Lundhs Blue Lundhs Emerald Lundhs Royal Lundhs Antique	Dark (HQ) Classic -	1st Choice 2nd Choice Extra Fine 2nd Choice Selected HQ 2nd Choice Extra Fine	3, 4, 5, 6	For kitchen with an "island", category 5 is preferred
Vanity top	Lundhs Blue Lundhs Emerald Lundhs Royal Lundhs Antique	Dark (HQ) Classic -	1st Choice 2nd Choice Extra Fine 2nd Choice Selected HQ 2nd Choice Extra Fine	1, 2	Vanity tops/bathroom tops are typically shorter than kitchen top slabs
Tiles	All materials	All colours	2nd Choice 3rd Choice	All	For tiles, it is easier to utilize more of the blocks even if the block has defects
Facade/shopfronts/ cladding	Lundhs Blue Lundhs Emerald Lundhs Royal Lundhs Ocean Lundhs Grey Lundhs Marina Lundhs Antique	Dark (HQ) Classic -	All	All	Depending on the finishing and panel size
Monuments	Lundhs Blue Lundhs Royal Lundhs Emerald Lundhs Marina	Dark (HQ)	1st Choice	1, 2	
Columns/ special applications	Lundhs Ocean Lundhs Emerald Lundhs Antique	Dark (HQ) Classic -	1st Choice 2nd Choice Extra Fine HQ 2nd Choice Extra Fine	All	These materials have multiple cutting directions, hence they are suitable for curved applications like columns since you will get the crystal effect from all sides
