THE MOST AUTHENTIC
LOOKING HARDWOOD
ALTERNATIVE

For exterior materials on high-end, luxury buildings, there are two non-negotiables: beauty and functionality. TimberTech Advanced PVC Cladding delivers on both, capitalizing on the strength of both the AZEK Exteriors and TimberTech brands.

THE BEAUTY OF WOOD

TimberTech has unmatched technology and methods to create the most realistic, authentic hardwood appearance. Best known for high-end decking, TimberTech boards deliver the beauty, textures, and colors of real wood within a sustainable composite or Advanced PVC material. Unlike wood, however, our proprietary materials are essentially maintenance-free, incredibly durable, and performance warranted for decades.

BUILDING EXTERIORS EXPERTISE

AZEK Exteriors brings decades of experience with functional and decorative components of a building exterior including premium siding and trim, detailed mouldings, and innovative engineered casings and water management solutions. TimberTech Cladding offers many choices in colors, widths, and installation profiles to fulfill most any design requirements.

You can be confident specifying TimberTech Cladding in your designs. And your clients will appreciate the ingenuity of an exterior solution built to endure beautifully.

AUTHENTIC WOOD LOOKS WITHOUT THE MAINTENANCE

TimberTech Cladding from AZEK Exteriors portfolio delivers the full visual experience of wood without the laborious, costly, and constant upkeep required with traditional lumber. TimberTech technology gives our Advanced PVC boards unrivaled aesthetics for a realistic wood look that lasts. Then we back them with industry-leading warranties for both commercial and residential buildings. Our curated collection empowers design flexibility with a variety of color choices, different board profiles, and board widths.

RESIDENTIAL WARRANTIES

TimberTech Advanced PVC Cladding is backed by an industry leading lifetime product warranty and 50 -year fade & stain warranty.

COMMERCIAL WARRANTIES

Bring the enduring beauty of TimberTech Advanced PVC Cladding to your commercial builds with the confidence guaranteed from durable materials.

CLASS A RATED FLAME SPREAD INDEX

The TimberTech Vintage Collection® is ranked Class A (the highest ranking), which means the most likely to minimize the spread of an active flame. This an important consideration in areas prone to wildfire and reassuring to clients anywhere.

BOLD. ELEGANT. TIMELESS.

TimberTech's one-of-a-kind Advanced PVC material was designed to deliver the most realistic wood look available, without additional staining or painting. Unlike traditional wood, TimberTech withstands the elements without compromising on its color, texture, or structural integrity. That translates to a beautiful exterior finish without frequent upkeep or maintenance.

TIMBERTECH CLADDING

Made completely of new and recycled polymer, TimberTech Advanced PVC boards stay impervious to moisture, mold, and mildew while also combating the fading effects of UV rays. Backed by industry-leading warranties, TimberTech Cladding delivers unrivaled design potential and integrity.

STAINED WOOD EXPOSED FOR SEVEN YEARS

Exposure to the elements takes a toll on traditional wood cladding—even premium hardwoods like Ipe will fade to a worn gray without regular and costly maintenance. Traditional woods can be treated with stains and coatings for protection, but will still experience splintering, fading, and dimensional changes.

DESIGN'S THE LIMIT

With an unmatched portfolio of diverse colors, woodgrain patterns, and board widths, the design potential with TimberTech Cladding is nearly limitless. With moisture- and fade-resistant Advanced PVC technology, TimberTech Cladding boards protect the integrity of your exterior design vision for years to come. Build on the rich hues and textures of TimberTech Cladding to highlight an entryway, add design detail to a porch ceiling, or as one element among mixed building materials for a clean, dimensional finish.

TONGUE-AND-GROOVE

SQUARE-SHOULDER

SHOWN: CLOSED-JOINT, TONGUE-AND-GROOVE BOARD

CLOSED-JOINT CLADDING

Sometimes referred to as “closed-joint,” tongue-and-groove boards interlock together with ease, creating a solid barrier with a neat, smoothly finished look without gaps.

Tongue-and-groove board sizes:

3 1/8" WIDTH

5 1/2" WIDTH

SHOWN: OPEN-JOINT, SQUARE-SHOULDER BOARD

OPEN-JOINT CLADDING

The open joints between the cladding elements create a strong, linear design pattern while also functionally providing ventilation for proper air circulation.

Square-shoulder board sizes:

3 1/2" WIDTH

5 1/2" WIDTH

7 1/4" WIDTH

CORTEX HIDDEN FASTENERS

The Cortex® hidden fastening system keeps the focus on the warm, authentic wood aesthetics that complement the entirety of the exterior design and not on the installation method.

MADE IN
THE USA

The cladding applications depicted in this brochure are for display purposes only and not for the purpose of validating the suitability, warrantability, or safety of any particular installation or application of the product. Always consult AZEK's Installation Instructions as well as local building codes to ensure proper installation.

Depending on environmental conditions, TimberTech cladding colors may appear to change over time as part of the natural weathering process and consistent with applicable Fade & Stain Warranties.

BUILDING A SUSTAINABLE FUTURE

The family of brands under the AZEK Company, including TimberTech and AZEK Exteriors, are trailblazers in recycling and using hard-to-recycle materials in our products. We divert 500 million pounds of waste and scrap materials from landfills and oceans annually, a number we expect to grow to 1 billion pounds by 2026. As of 2022, we are the largest vertically integrated PVC recycler in the USA.

TimberTech Advanced PVC Cladding boards are made from up of approximately 50% recycled materials and contain no organic wood—meaning no deforestation anywhere. We're not stopping there though. We're furthering our recycling capabilities every day, ensuring that TimberTech Cladding continues to deliver beauty, a long, low-maintenance lifespan, and environmentally conscious leadership.

SUSTAINABLE CLADDING MATERIALS BY THE NUMBERS

1 M TREES SAVED

Choosing TimberTech Cladding and TimberTech decking over wood have helped save more than 1 million trees since 2015.

500 M LBS DIVERTED

Across the company, we diverted roughly 500 million pounds of waste in 2021. We also reuse 98% of internal scrap and are 97% landfill-free.

96% WATER RECYCLED

Thanks to our closed-loop water filtration system, we recycle up to 96% of the water that our company uses each year.
