EN

ESITT is a new task chair concept with a fully upholstered backrest and hidden ergonomic elements. A collection that combines the comfort of professional chairs, the integration of all the ergonomic elements in a harmonious way, and the refined design characteristic of the brand.

ESITT chairs match with the increasingly cozy and residential aesthetics of modern workplaces without compromising an advanced ergonomic performance that complies with all current international regulations.

The care for details, comfort and versatile design result in a collection of ergonomic chairs with a friendly and timeless aesthetic that can be easily integrated into modern workspaces, both professional and home-office.

ES

ESITT es un nuevo concepto de silla operativa con respaldo totalmente tapizado y elementos ergonómicos ocultos. Una colección que aúna el confort de los sillones profesionales, la integración de todos los elementos ergonómicos de forma armoniosa y el diseño depurado característico de la marca.

Las sillas ESITT se adaptan a la estética cada vez más acogedora y residencial de los lugares de trabajo modernos sin comprometer un rendimiento ergonómico avanzado que cumple con todas las normativas internacionales vigentes.

El cuidado por los detalles, la comodidad y el diseño versátil, dan como resultado una colección de sillas ergonómicas con una estética amable y atemporal que se pueden integrar fácilmente en los espacios de trabajo modernos, tanto profesionales como de home-office.

ESITT

by ALEGRE DESIGN

ESITT explores a new language for task chairs by offering advanced ergonomic features discreetly integrated and concealed into a refined and timeless design. The collection offers extensive customization options to meet the needs of each user and space. The backrest is available in a wide range of breathable technical meshes or fully upholstered with different upholstery patterns in a wide range of materials. An elegant circular button in the backrest allows to adjust the height of the lumbar support and gives a unique identity. The chairs are equipped with a synchronized seat-backrest movement mechanism with five locking positions that is fully integrated into the seat, and which also allows the height and depth of the seat

to be adjusted. The chairs can be equipped with fix or 4D adjustable arms. Optionally the arm pads can also be upholstered. The bases, arms and mechanisms are available in black and white colour to fit with the aesthetic requirements of each space. The bases are also available in polished aluminum and can be equipped with soft or hard tread casters. ESITT chairs comply with international regulations regarding ergonomics, safety, and durability. The utmost care was devoted to environmental impact, based on an innovative upholstery and assembly system that minimizes the use of materials and optimizes the final recyclability of the product.

ESITT explora un nuevo lenguaje para sillas de trabajo al ofrecer características ergonómicas avanzadas integradas y ocultas en un diseño refinado y atemporal. La colección ofrece amplias opciones de personalización para satisfacer las necesidades de cada usuario y espacio. El respaldo está disponible en una amplia gama de mallas técnicas transpirables o completamente tapizado con diferentes patrones de tapizado en una amplia gama de materiales. Un elegante botón circular en el respaldo permite regular la altura del soporte lumbar y le da una identidad única. Las sillas están equipadas con un mecanismo de movimiento asiento-respaldo sincronizado con cinco posiciones de bloqueo que está totalmente integrado en el asiento y que además permite regular la

altura y la profundidad del asiento. Las sillas pueden equiparse con brazos fijos o ajustables 4D. Opcionalmente los reposabrazos también se pueden tapizar. Las bases, brazos y mecanismo de asiento están disponibles en color blanco y negro para adaptarse a los requerimientos estéticos de cada espacio. Las bases también están disponibles en aluminio pulido y pueden equiparse con ruedas de rodadura blanda o dura. Las sillas ESITT cumplen con las normas internacionales en cuanto a ergonomía, seguridad y durabilidad. En su diseño se ha cuidado al máximo el impacto medioambiental, a partir de un innovador sistema de tapizado y montaje que minimiza el uso de materiales y optimiza la reciclabilidad final del producto.

SOFT ERGONOMICS

The work boundaries begin to blur and the workspaces are becoming more domestic and cozy. The ESITT chairs comply with all the ergonomic standards but with a design that is visually soft, calm and elegant.

The stools, equipped with a footrest complete the collection and are ideal for meeting spaces with high tables.

TAILORED FOR YOU

The chairs have been designed to provide comfort and can be tailored in a broad range of materials to suit the personal needs and the aesthetics of each space.

The ESITT's backrests are available in the following versions:

- 01 In a wide range of breathable technical meshes.
- 02 Fully upholstered in a wide selection of fabrics and leathers with a plain upholstery.
- 03 Fully upholstered in a wide selection of fabrics and leathers with horizontal stitches.

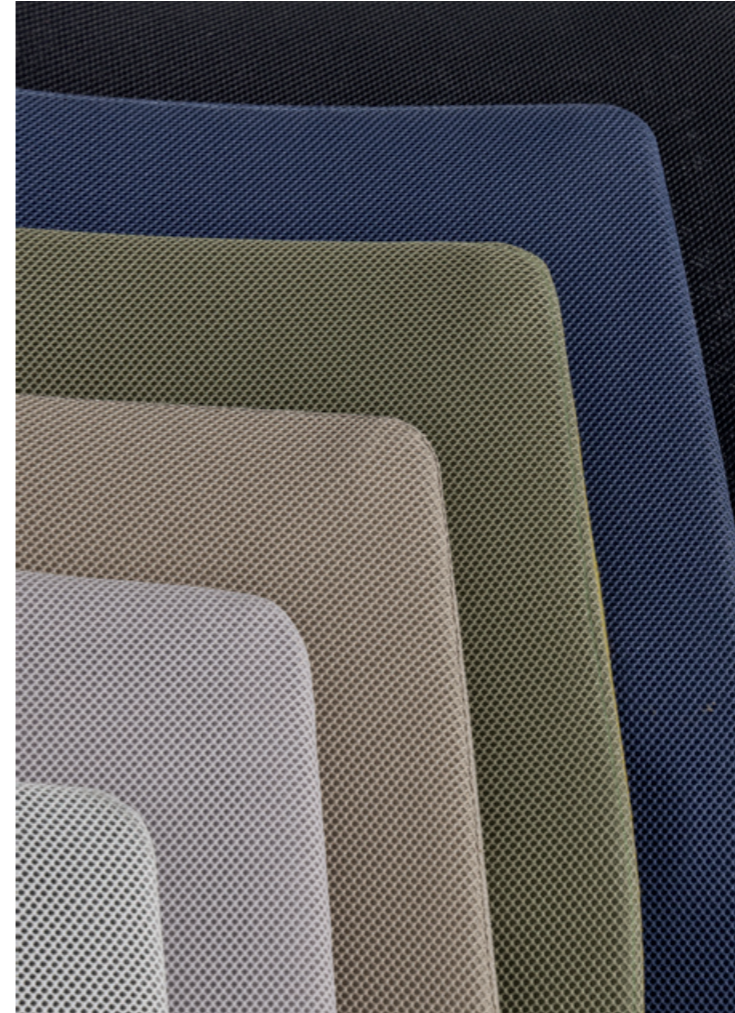

VERSATILE DESIGN

ESITT chairs combine ergonomics, ease of use, and a refined design. The backrests of technical mesh are breathable, adapt naturally to the back of each user providing a high level of comfort.

DESIGNED FOR EVERYONE

The backrests in technical mesh are available in a broad selection of patterns and colours to allow the expression of different styles.

The chairs can be equipped with fix or 4D adjustable arms. The arm pads can optionally be upholstered.

ERGONOMICS

The ESITT chairs combine advanced ergonomics, simplicity of use and a refined design. The chair movement allows to work in a fix position or to move freely.

SEAT DEPTH ADJUSTMENT

A button integrated in the seat allows the extension of the seat depth up to 8 cm.

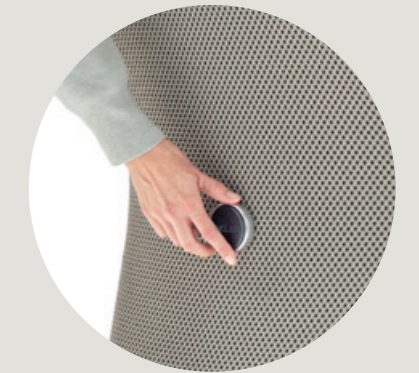

1 SYNCHRO MOVEMENT

The synchronized mechanism has a generous opening angle of 19 degrees and five locking positions facilitating the movement and a correct posture. The movement, together with the rest of the ergonomic adjustments integrated in the chair, guarantee a high level of comfort and a healthy way of sitting.

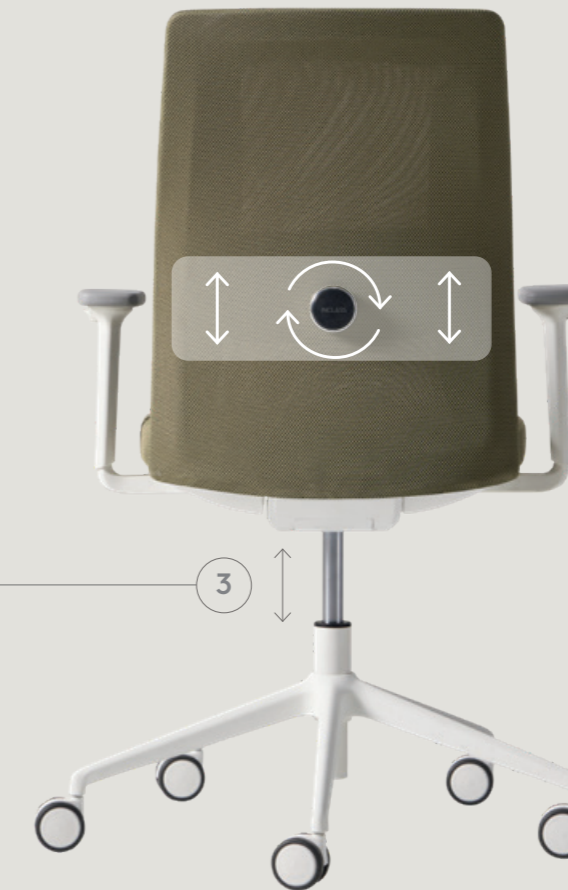

SEAT WITH DIFFERENTIATED PRESSURE ZONES

The seat has differentiated pressure zones to improve the user's comfort and health. The front part offers less pressure to facilitate the return of blood circulation in the legs. The same happens in the central part to avoid excessive pressure in the prostatic area.

4 ADJUSTABLE LUMBAR SUPPORT

Adjust the comfort of the backrest by simply turning an elegant knob that adjusts the height of the lumbar support concealed within the backrest.

SEAT HEIGHT ADJUSTMENT

A button integrated in the seat allows the adjustment of the seat height.

LIN WOOD is an innovative system of multiple seats, designed to inhabit high-traffic indoor public spaces. With a refined and timeless design, the collection is completely modular and allows multiple configurations to be created.

The structure and arms are entirely made of aluminum alloy, a sustainable material which allows the creation of resistant and light benches, with minimal maintenance and 100% recyclable. Using intermediate legs and connection tables, the system allows the creation of benches with different shapes and infinite length. The combination of aluminum, wood and upholstery allows the creation of benches with high performance that are at the same time comfortable, welcoming and provide warmth to the spaces where they are located.

ES

LIN WOOD es un innovador sistema de asientos múltiples diseñado para habitar espacios públicos interiores de alto tránsito. Con un diseño atemporal y versátil, la colección es completamente modular y permite crear múltiples configuraciones. Gracias a las patas intermedias y las mesas de conexión, el sistema permite la creación de bancos con distintas formas y longitud infinita.

Las estructuras y los brazos de los bancos están íntegramente fabricados con aleación de aluminio, un material sostenible, que permite crear bancos resistentes, ligeros, con mínimo mantenimiento y 100% reciclables. Utilizando patas intermedias y mesas de conexión el sistema permite crear bancos con distintas formas de longitud infinita. La combinación de aluminio, madera y tapizado permite crear bancos de altas prestaciones que son a la vez cómodos, acogedores y aportan calidez a los espacios donde se ubican.

The collection

LIN is an innovative system of multiple seats, designed to inhabit high-traffic indoor public spaces. With a timeless and versatile design, the collection is completely modular and allows multiple configurations to be created. The structure and arms of the benches are entirely made with aluminum alloy, a sustainable material which allows to create resistant and light benches, with minimal maintenance and 100% recyclable.

The system offers intermediate legs and connecting tables that allow the creation of benches with different shapes and infinite length. The LIN WOOD collection offers seats made of oak veneer that can be

finished in all the colours of our oak swatch card. For greater comfort, the wooden seats can incorporate upholstered panels on the seat or on the entire front side with a plain upholstery pattern or with horizontal stitches. The seats, available with and without backrest, can be combined with armrests, different side and connection tables to create infinite configurations that facilitates the integration in a wide variety of lounge spaces. The combination of aluminum, wood and upholstery allows the creation of benches with high functional features that, at the same time, are welcoming and add warmth to the spaces where they are located.

LIN TAPIZ es un innovador sistema de asientos múltiples diseñado para habitar espacios públicos interiores de alto tránsito. Con un diseño depurado y atemporal, la colección es completamente modular y permite crear múltiples configuraciones.

Las estructuras y los brazos de los bancos están íntegramente fabricados con aleación de aluminio, un material sostenible, que permite crear bancos resistentes, ligeros, con mínimo mantenimiento y 100% reciclables. Utilizando patas intermedias y mesas de conexión el sistema permite crear bancos con distintas formas de longitud infinita. La combinación del aluminio y los tapizados permite crear bancos funcionales con altas prestaciones que al mismo tiempo resultan confortables, amables y aportan calidez a los espacios donde se ubican.

LIN TAPIZ

by ALEGRE DESIGN

The collection

The LIN TAPIZ collection has been designed to be a flexible seating solution for high-traffic indoor waiting areas. To increase functionality, the benches can incorporate armrests at the ends and also in the intermediate seats, as well as side and connecting tables.

The legs and arms are entirely made of 100% recyclable injected aluminum that contributes to a high quality and aesthetic refinement. The system also offers intermediate legs and connection tables that allow infinite length compositions to be easily configured in different formats. To achieve greater resistance and stability, the benches are

built with a special section extruded aluminum double beam. The LIN TAPIZ collection offers comfortable fully upholstered seats with or without backrests that can be upholstered with all the materials in our extensive book of upholstery finishes in two versions: with a plain pattern or with horizontal stitching. LIN TAPIZ benches have been designed with sustainability criteria in mind and can be recycled at the end of their useful life. The combination of aluminum with upholstery makes the LIN TAPIZ collection an ideal solution to provide comfort, modernity, warmth and elegance to lounge areas.

La colección LIN ha sido diseñada para dar una solución flexible a las necesidades de asiento en zonas de espera interiores de alto tránsito. Para dotarlos de una mayor funcionalidad, los bancos pueden incorporar brazos en los extremos y en las plazas intermedias, así como mesas auxiliares.

La patas y los brazos están íntegramente fabricados en aluminio inyectado 100% reciclado que contribuye a una alta calidad y refinamiento estético. El sistema ofrece además patas intermedias y mesas de conexión que permiten configurar con facilidad composiciones de longitud infinita en diferentes formatos. Para lograr una mayor resis-

tencia y estabilidad, los bancos se construyen con doble larguero de aluminio extruido de sección especial. La colección LIN TAPIZ ofrece cómodos asientos totalmente tapizados con o sin respaldo que se pueden tapizar con todos los materiales de nuestra extensa carta de acabados, en dos versiones de tapicería: con patrón liso o con costuras horizontales. Los bancos LIN TAPIZ han sido diseñados teniendo en cuenta criterios de sostenibilidad pudiendo ser reciclados al final de su vida útil. La combinación del aluminio con el tapizado convierte a la colección LIN TAPIZ en una solución ideal para aportar confort, modernidad, calidez y elegancia a los espacios lounge.

EN

Designed for executive and meeting spaces, KORl collection is all about nature. A soft body rounded like a river pebble and a backrest gently curved like a leaf. A diecast armrest which reminds us the organic shell that we can find on the beach. All of these natural curves create a comfortable and elegant armchair, available in three sizes, to work with blending time-less elegance and ecological conviction.

Beyond the fact that KORl (Cauri) is the name of an African well-known seashell, recognized to give luck to its owner, the executive chair system takes its inspiration in the forms of nature and is an invitation to travel through your senses to enhance the comfort at work.

ES

Diseñada para espacios ejecutivos y de reuniones, la colección KORl está inspirada en la naturaleza. Un cuerpo blando redondeado como un guijarro de río y un respaldo suavemente curvado como una hoja. Un reposabrazos de aluminio inyectado que nos recuerda a la forma orgánica de las conchas que podemos encontrar en la playa. Todas estas curvas naturales crean un sillón cómodo y elegante, disponible en tres tamaños, para trabajar combinando elegancia atemporal y convicción ecológica.

Más allá de que KORl (Cauri) es el nombre de una conocida concha marina africana, conocida por dar suerte a su dueño, el sistema de sillones ejecutivos se inspira en las formas de la naturaleza y es una invitación a viajar a través de los sentidos para potenciar la comodidad en el trabajo.

KORl

by FLORENT COIRIER

The collection

KORI

From the soft shape of the seat body, that reminds us of the polished stones that you can find on the beach, to its generous and wide backrest that follows your body with comfort like the shape of the big leaf of a palm tree, it's a harmonious blend of timeless elegance and comfort in the most natural way. A particular attention has been made to the armrests, made in diecast aluminum that have been designed to be a beautiful combination of both a geometric and an organic shape.

It reminds us of the complex beauty of nature and reveals its magic in each detail of its section. Its surface and curves invite us to feel the piece and to see it like a sculpture. The family comes with three backrest heights: low, medium, and high. All with or without armrest. The models are available with five or four-spoke swivel aluminum bases with fixed glides or on casters. The armchairs are available with tilt movement as an option. Inspired by natural elements KOR is the perfect complement to create modern meeting or executive spaces.

Desde la forma suave del cuerpo del asiento, que nos recuerda a las piedras pulidas que puedes encontrar en la playa, hasta su generoso y amplio respaldo que sigue tu cuerpo con comodidad como la forma de la gran hoja de una palmera. Es una mezcla armoniosa de elegancia atemporal y comodidad de la manera más natural. Se ha prestado especial atención a los reposabrazos, fabricados en aluminio inyectado, diseñados para ser una hermosa combinación de formas geométricas y orgánicas.

Nos recuerda la compleja belleza de la naturaleza y revela su magia en cada detalle de su sección. Su superficie y curvas nos invitan a sentir la pieza y a verla como una escultura. La familia está disponible en tres alturas de respaldo: respaldo bajo, medio y alto. Todos ellos con o sin reposabrazos. Los modelos están disponibles con bases giratorias de aluminio de cinco o cuatro radios con deslizadores fijos o sobre ruedas. Ambos están disponibles con movimiento basculante como opción. Inspirado en elementos naturales, KOR es el complemento perfecto para crear espacios modernos para reuniones o ejecutivos.

The elegant aluminum arm are available in black, white or polished finishing.

With a refined and singular design inspired by nature, KORl armchairs are the ideal companion for modern executive and meeting spaces.

Inspired by nature and designed for executive and meeting spaces, KORİ armchairs stand out for its natural curves and timeless elegance.

KORI armchairs are available in three backrest heights and in versions with or without armrests.
