Our quality is more than aesthetics. We stand for craftsmanship, uncompromising attention to detail and exceptional materials. Our reputation and global footprint allows us to handpick the best experts from around the globe. And we do it, remembering the well-being of animals, workers and our planet.

**CAMIRA FABRICS**

We have a vast upholstery selection, including fabrics by Camira. The British heritage maker leads the industry with a focus on long-lasting comfort and durability, innovation and sustainability – all qualities we love.

**QUALITY CHECKING**

Our quality department works closely with the Technological Institute of Denmark, allowing them complete freedom for independent testing and your peace of mind.

**WOODEN FURNITURE**

Over 98% of our wooden furniture is manufactured here in Denmark, in our company-owned factory. It allows us to push industry standards, like applying five separate coats of lacquer – giving your solutions extra durability and an exceptional finish.

**WORLD-CLASS LEATHERS**

Our leather comes from some of the finest tanneries in Europe and South America. We offer an array of colour options and grades: from corrected, to semi-aniline, to our highest quality pure aniline.

**HAND-SELECTED VENEER**

Our real wood veneer is of the highest quality – a claim we can personally attest. An expert from our factory here in Denmark travels to Canada three times a year to personally hand-select veneer for our production.

**SOFA FILLING**

We fill our sofa cushions with quality aquatic bird feathers. The feathers are sorted and selected for their light weight and ability to trap air – giving you sublime comfort.

**HINGES & DRAWER RUNNERS**

Our high-quality European hinges and drawer runners are tested to a total of 300,000 cycles – the equivalent of 50 and 25 years of use, respectively.

**CERAMIC TOPS**

All ceramic table tops are produced by the same Spanish manufacturer. Their 40 years of expertise ensure surfaces that are stunning, virtually scratch-proof and heat resistant up to 200° C.
