

ARBOR
WOOD CO

THERMALLY MODIFIED WOOD

LEED Credits

IEQ - Low Emitting Materials

POSSIBLE 3 POINTS | LEED BD+C: NEW CONSTRUCTION

Arbor Wood Co. goes through a natural process where moisture is removed from the wood using only heat, steam and pressure in a closed Autoclave system. There are no chemicals added in this process containing harmful emissions.

M+R - Environmental Product Declarations

POSSIBLE 2 POINTS | LEED BD+C: NEW CONSTRUCTION

Arbor Wood Co. supplies a certified EPD surrounding our current wood products to ensure transparency and to meet all necessary qualifications for this category.

M+R - Material Ingredients

POSSIBLE 2 POINTS | LEED BD+C: NEW CONSTRUCTION

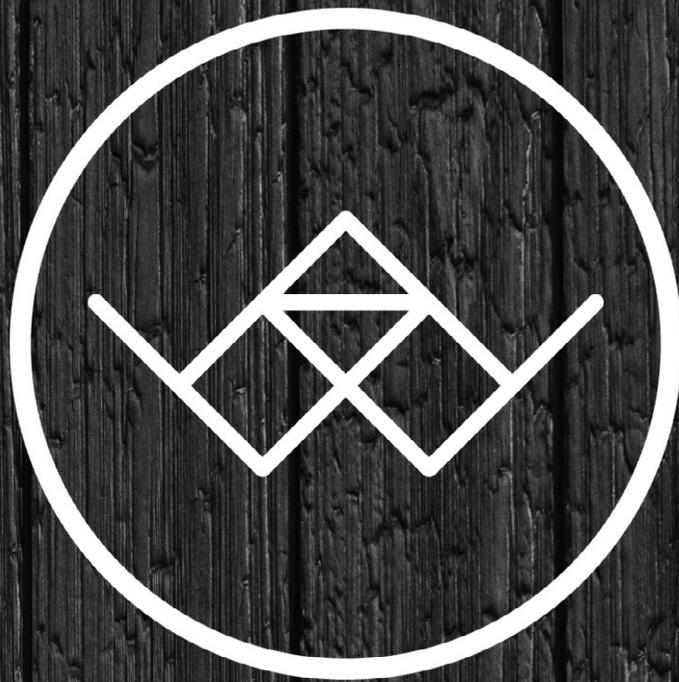

Arbor Wood is Red List Free as defined by the Declare label and a viable product for the Living Building Challenge, making it applicable to multiple requirements in the material ingredients category.

M+R - Sourcing of Raw Materials

POSSIBLE 2 POINTS | LEED BD+C: NEW CONSTRUCTION

Arbor Wood Co responsibly sources all wood product from renewable FSC managed forests in the USA.
