

Solid Maple

Porcelain Pavers

Solid Wood™ Series of porcelain pavers in Maple provide a high-tech alternative to reclaimed natural wood, resulting in a skillful coupling of porcelain paver technology with timeless elegance. The resulting beauty creates a durable, fade, stain, slip, and fire-resistant paving material with a unique rustic wood grain finish.

Tile Tech® hardscape systems provide architects and design professionals with a complete solution to transform any roof deck, walkway, driveway, courtyard, or patio into beautiful, useful spaces. Embracing USGBC LEED standards, our paving products boast a composition that includes 35% pre-consumer recycled materials. With no traces of Volatile Organic Compounds (VOC) and a Solar Reflectance Index (SRI) of ≥ 32 , porcelain pavers emerge as an eco-friendly choice that goes beyond conventional paving solutions.
