# Natural Plank

TileTech® PAVER SYSTEM

Porcelain Pavers

Our Natural Plank in a popular medium-brown offers a porcelain paver solution that can illuminate and enhance any space. This series is designed to simulate the appearance of weathered natural wood planks, providing a warm and inviting Old World charm.

Tile Tech® hardscape systems provide architects and design professionals with a complete solution to transform any roof deck, walkway, driveway, courtyard, or patio into beautiful, useful spaces. Embracing USGBC LEED standards, our paving products boast a composition that includes 35% pre-consumer recycled materials. With no traces of Volatile Organic Compounds (VOC) and a Solar Reflectance Index (SRI) of ≥32, porcelain pavers emerge as an eco-friendly choice that goes beyond conventional paving solutions.
