Our competencies

- System solutions
- Electronics
- Innovation
- Drinking water hygiene
- Water and energy conservation
- Stainless steel

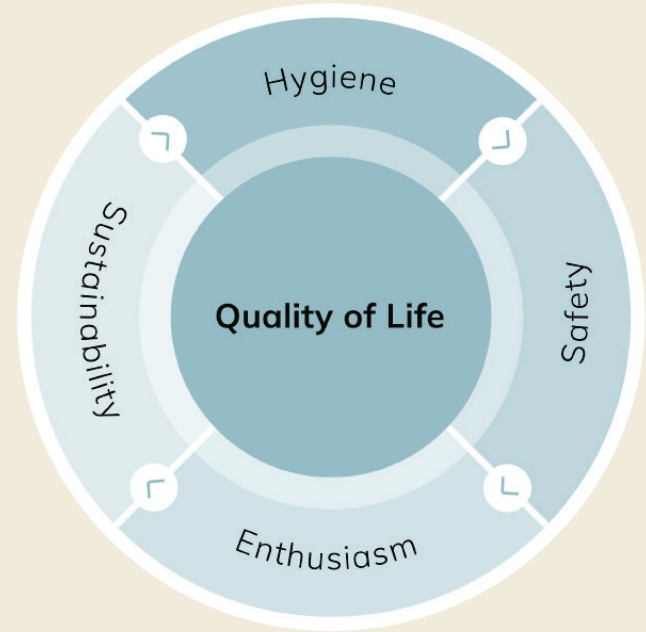

Our brand values

Our values unite us.
They are the attitude and foundation underpinning all our actions.

Our focus is on improving the quality of life of our customers.

This is what we and the company are working towards.

Our business area

KWC Professional

High-quality, attractive **sanitary room solutions** with a focus on complete, smart **equipment of sanitary rooms** in (semi-) public and commercial facilities.

Benefits at a glance

Developed specifically for demanding environments

Low operating costs thanks to functional safety and durability

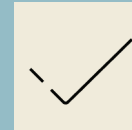

Compliance with hygiene standards thanks to easy cleaning

Easy to use and efficient thanks to remote-controlled technology

Maximum safety thanks to robust materials and clever design

Easy maintenance and servicing

KWC Professional

Custodial & Security areas

Security areas such as **prisons, police stations, military installations, mental health units and vandal-prone facilities** require special sanitary solutions. Our robust stainless steel equipment products ensure functional safety, durability and hygiene. They are remotely controllable and offer features designed for secure environments, such as non-visible fittings, anti-twist guards and anti-theft aerators.

REAR WALL MOUNTING

KWC HEAVY-DUTY

Single washbasin

HDTX450 / 2000100349

- single washbasin for anti-vandalism mounting using threaded rods via service room
- in chrome-nickel steel with material thickness of 1.2 mm
- seamlessly welded oval basin
- continuously rounded edges
- with tap ledge, without tap hole

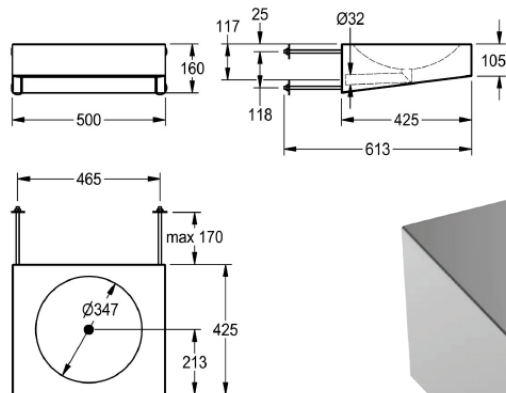

MORE INFO

REAR WALL MOUNTING

KWC HEAVY-DUTY

Single washbasin

HDTX455 / 2000100058

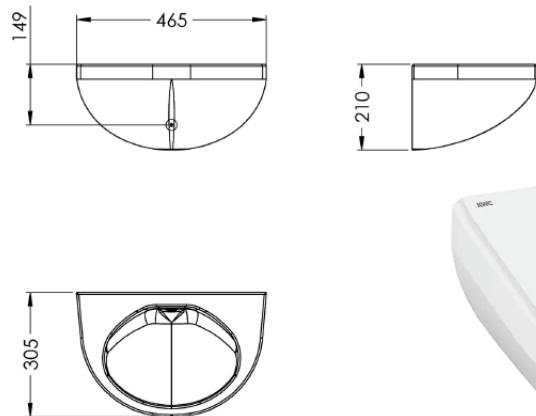

- single washbasin for anti-vandalism mounting using threaded rods via service room
- in chrome-nickel steel with material thickness of 1.2 mm
- seamlessly welded round basin
- without tap ledge

REAR WALL MOUNTING

KWC Hand washbasin

VR99-081 / 2030053464

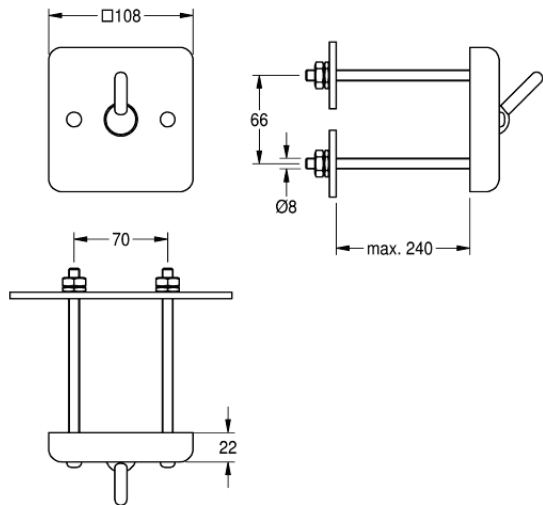

- hand washbasin for anti-vandalism mounting using threaded rods via service room
- in glass-fibre-reinforced impact-resistant plastic with 8 mm material thickness
- hygienic, seamless gelcoat surface
- oval bowl, without tap hole

REAR WALL MOUNTING

KWC HEAVY-DUTY

Clothes hook

HDTX693 / 2000090047

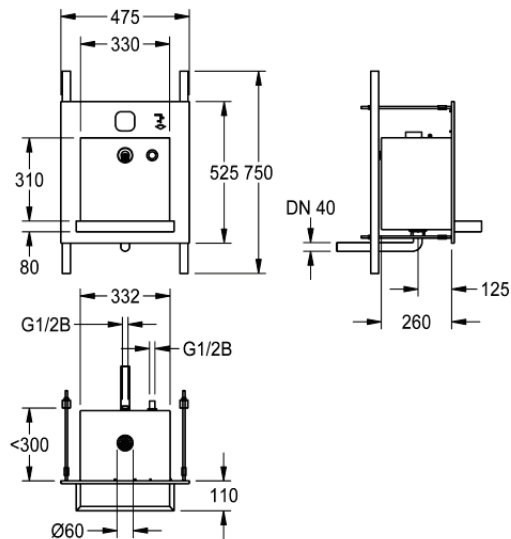

- anti-ligature clothes hook for rear wall mounting using threaded rods via service room
- safety hook swivels down if overloaded
- in chrome-nickel steel, material thickness 2.0 mm

KWC ALL-IN-ONE

Washbasin unit for water, soap

- washbasin unit for in-wall installation
- anti-vandalism all-in-one unit in chrome-nickel steel
- function components accessible from service room
- touch-free water control, manually operated soap dispenser

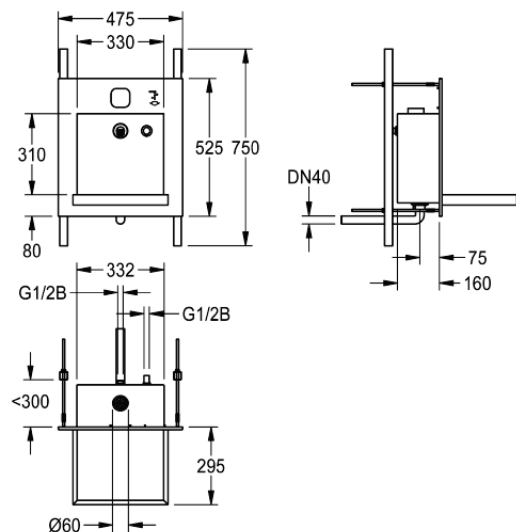

MORE INFO

IN-WALL INSTALLATION

KWC ALL-IN-ONE

Washbasin unit, barrier-free, for water, soap

ALIO335 / 2000101447

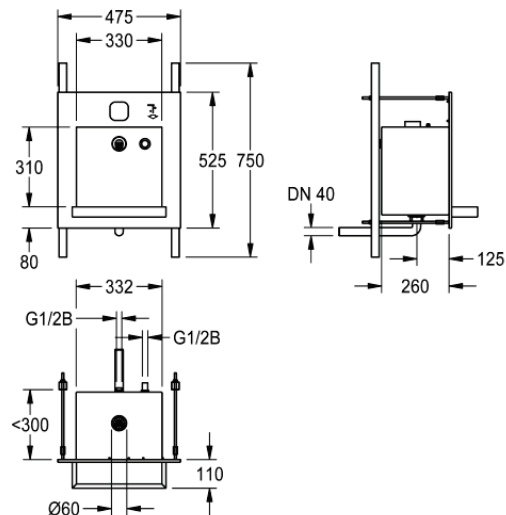

- washbasin unit for in-wall installation, barrier-free design with longer basin projection
- anti-vandalism all-in-one unit in chrome-nickel steel
- function components accessible from service room
- touch-free water control, manually operated soap dispenser

IN-WALL INSTALLATION

KWC ALL-IN-ONE

Washbasin unit for water, soap, air

ALIO320 / 2000101444

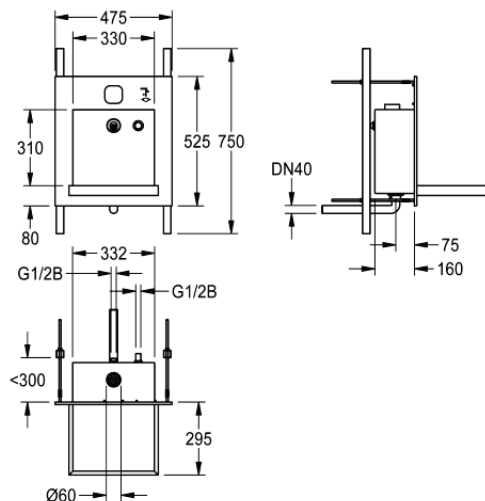

- washbasin unit for in-wall installation
- anti-vandalism all-in-one unit in chrome-nickel steel
- function components accessible from service room
- touch-free water control, manually operated soap dispenser
- with hand dryer sequence control

IN-WALL INSTALLATION

KWC ALL-IN-ONE

Washbasin unit, barrier-free, for water, soap, air

ALIO325 / 2000101446

- washbasin unit for in-wall installation, barrier-free design with longer basin projection
- anti-vandalism all-in-one unit in chrome-nickel steel
- function components accessible from service room
- touch-free water control, manually operated soap dispenser
- with hand dryer sequence control

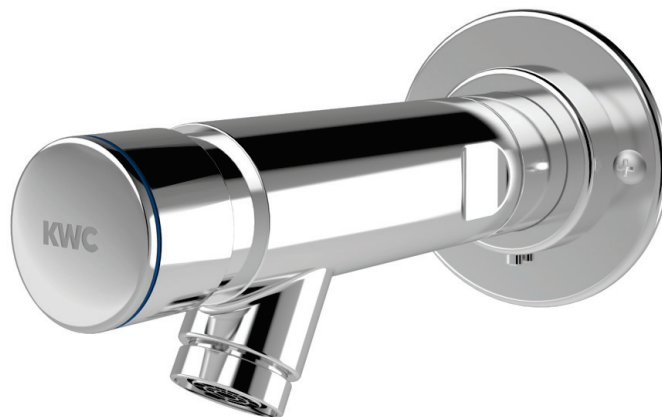

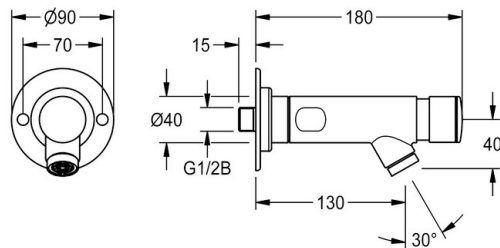

MORE INFO

WALL MOUNTING

KWC F3S

Self-closing bib tap

F3SV1011 / 2030072636

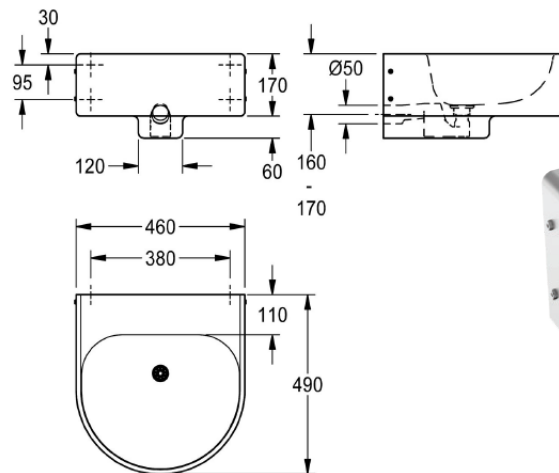

- with anti-twist protection
- automatic water stop
- integrated anti-blocking system for safety switch-off in the event of continuous actuation
- anti-theft aerator

WALL MOUNTING

KWC ANIMA

Single washbasin

ANMX460 / 2000102710

- single washbasin for wall mounting
- in chrome-nickel steel with material thickness of 1.2 mm
- seamlessly welded half-round basin
- washbasin wheelchair-accessible and with enclosed underside fittings
- with tap ledge, without tap hole

ANMX461 / 2000102711

with tap hole

ANMX462 / 2000102712

without tap ledge

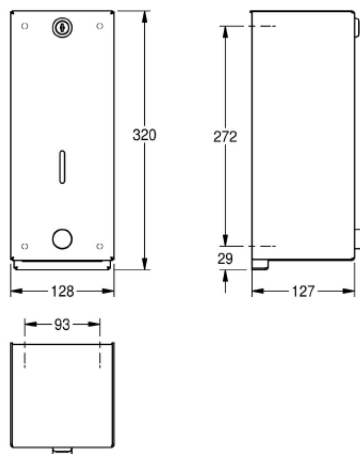

MORE INFO

WALL MOUNTING

KWC HEAVY-DUTY

Soap dispenser

SD300 / 2000057729

- soap dispenser in chrome-nickel steel with push-button operation on front
- with satin-finished surface, material thickness 2.0 mm
- fully enclosed housing attached to mounting plate
- for liquid soap and lotions
- 1 l refill container

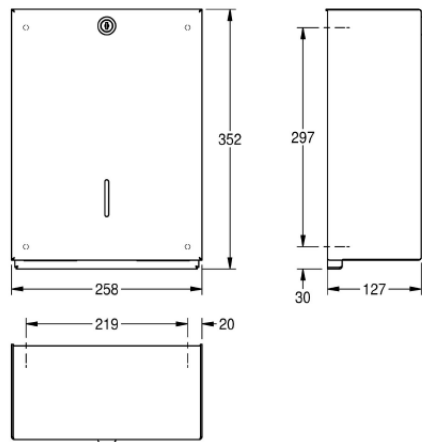

MORE INFO

WALL MOUNTING

KWC HEAVY-DUTY

Paper towel dispenser

TD350 / 2000057407

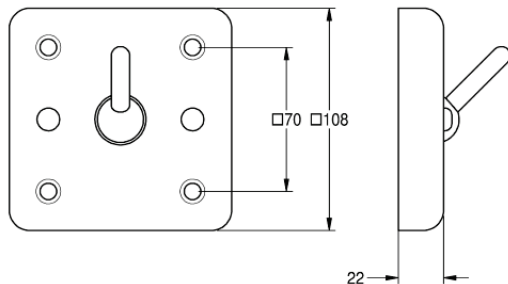

- paper towel dispenser in chrome-nickel steel
- with satin-finished surface, material thickness 2.0 mm
- fully enclosed housing attached to mounting plate
- capacity 400 – 600 sheets, depending on paper and fold type

WALL MOUNTING

KWC HEAVY-DUTY

Clothes hook

HDTX692 / 2000090046

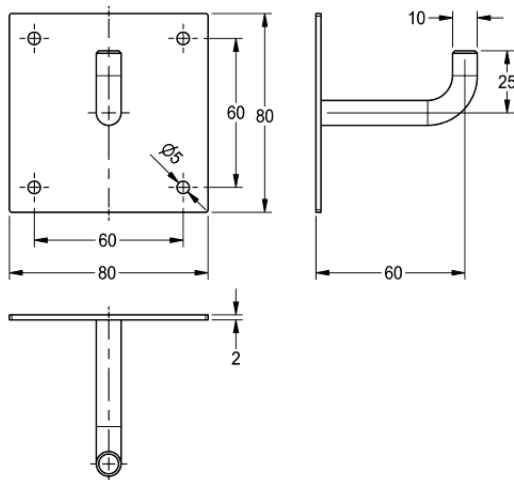

- anti-ligature clothes hook for on-wall mounting
- safety hook swivels down if overloaded
- in chrome-nickel steel, material thickness 2.0 mm

WALL MOUNTING

KWC HEAVY-DUTY

Clothes hook

HDTX691 / 2030022465

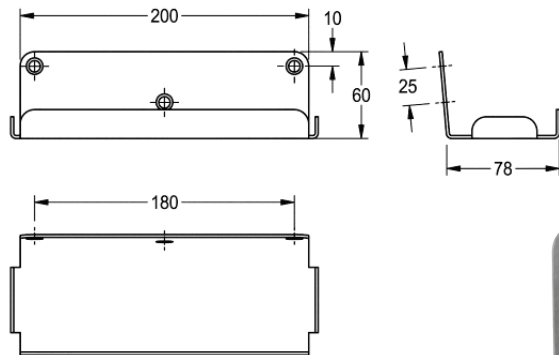

- in chrome-nickel steel, material thickness 2.0 mm
- on-wall mounted for subsequent overplastering

WALL MOUNTING

KWC HEAVY-DUTY

Storage shelf

HDTX644 / 2000103076

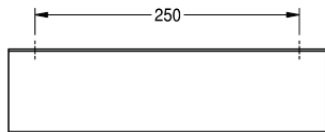

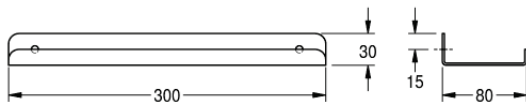

- in chrome-nickel steel, material thickness 2.0 mm
- rounded edges
- protection edge at front

REAR WALL MOUNTING

KWC F5E – A3000 open

Electronic WC control unit
for concealed cisterns

F5EF4003 / 2030068176

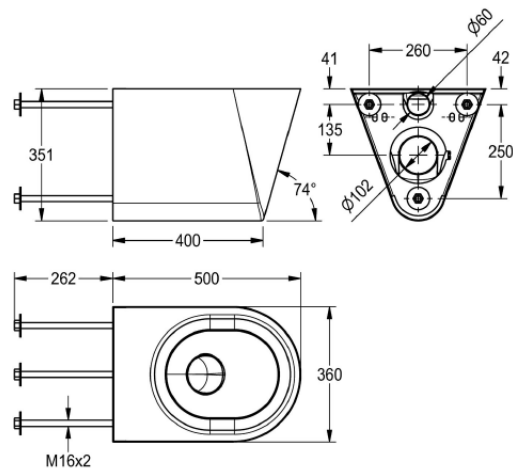

- for cistern designed for rear wall mounting (necessary accessory)
- non-visible fastening using threaded rods
- connection and maintenance via service room
- operated via piezo button
- activated hygiene flushing
- can be integrated into AQUA 3000 open water management system

REAR WALL MOUNTING

KWC HEAVY-DUTY

Wall hung WC pan

HDTX592 / 2000100447

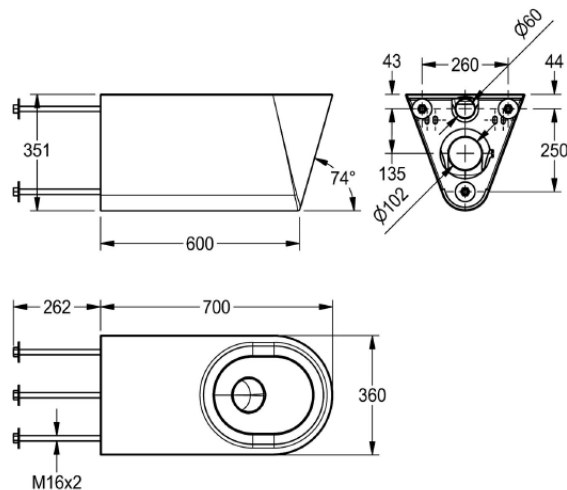

- wall-hung washdown WC for anti-vandalism mounting using threaded rods via service room
- in chrome-nickel steel with material thickness of 1.5 mm
- sitting surface tapered towards centre
- all edges curved

REAR WALL MOUNTING

KWC HEAVY-DUTY

Wall hung WC pan

HDTX594 / 2000100444

- wall-hung washdown WC, barrier-free design
- for anti-vandalism mounting using threaded rods via service room
- in chrome-nickel steel with material thickness of 1.5 mm
- sitting surface tapered towards centre
- all edges curved

MORE INFO

KWC HEAVY-DUTY

- wall-hung washdown WC with full-length apron
- for anti-vandalism mounting using threaded rods via service room
- in chrome-nickel steel with material thickness of 1.5 mm
- sitting surface tapered towards centre
- all edges curved

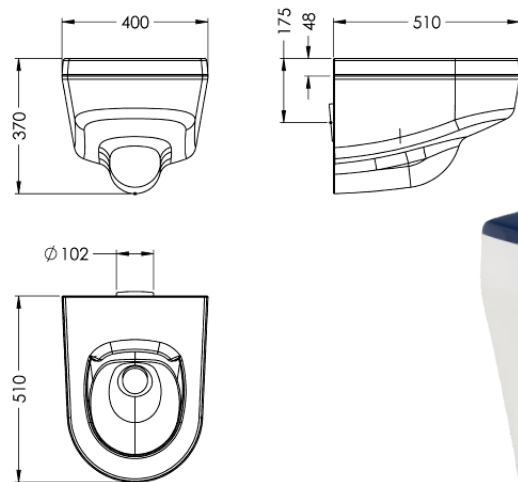

MORE INFO

REAR WALL MOUNTING

KWC Wall-mounted WC pan

VR99-036 / 2030039327

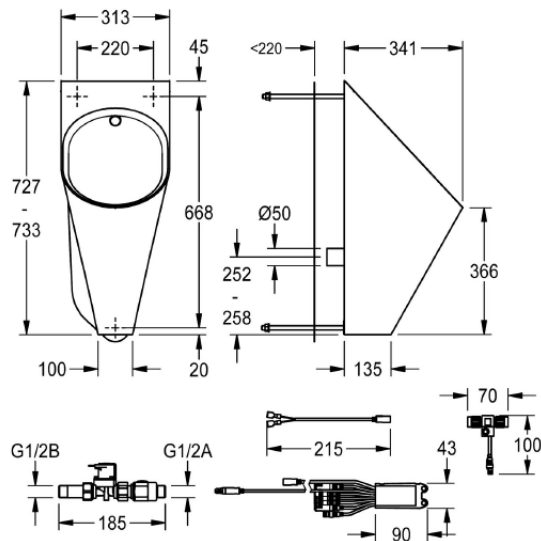

- wall-hung washdown WC for anti-vandalism mounting using threaded rods via service room
- in glass-fibre-reinforced impact-resistant plastic with 8.0 mm material thickness
- easy-to-clean gelcoat surface
- all edges curved

VR99-017/ 2030039303
with white sitting surface

REAR WALL MOUNTING

KWC HEAVY-DUTY Urinal

HDTX538RS / 2000103385

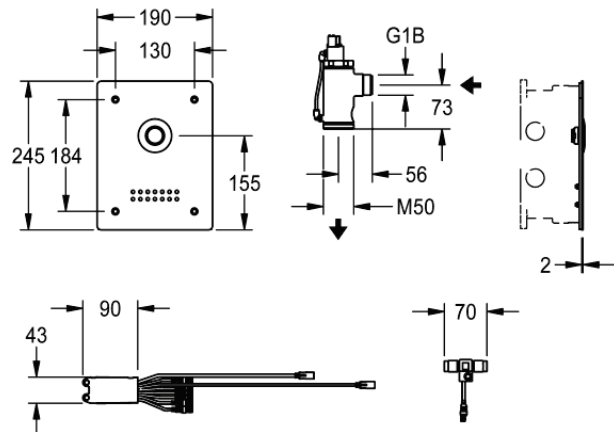

- wall-hung urinal bowl for anti-vandalism mounting using threaded rods via service room
- in chrome-nickel steel with material thickness of 1.2 mm
- fully enclosed housing
- integrated, non-visible flush control

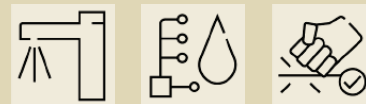

IN-WALL INSTALLATION

KWC F5E – A3000 open Electronic WC flush valve

F5EF4005 / 2030068203

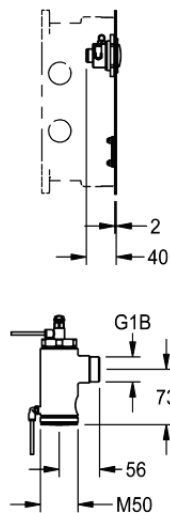

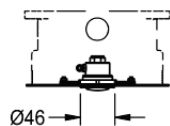

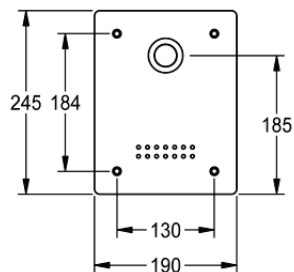

- fastening from the front with safety screws
- stainless steel cover plate with ventilation holes
- operated via piezo button
- activated hygiene flushing
- can be integrated into AQUA 3000 open water management system

IN-WALL INSTALLATION

KWC F3S

WC flush valve

F3SF4002 / 2030068201

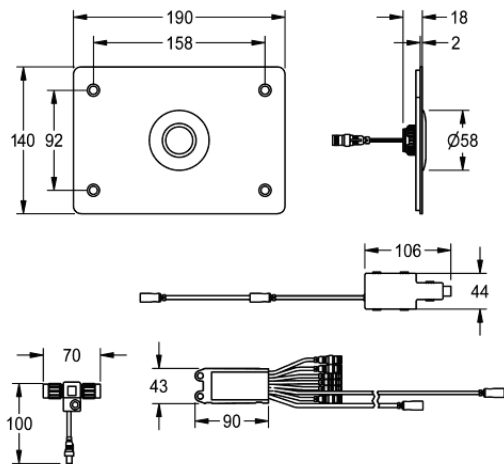

- fastening from the front with safety screws

KWC F5E – A3000 open

Electronic WC control unit for concealed cisterns

F5EF4006 / 2030068182

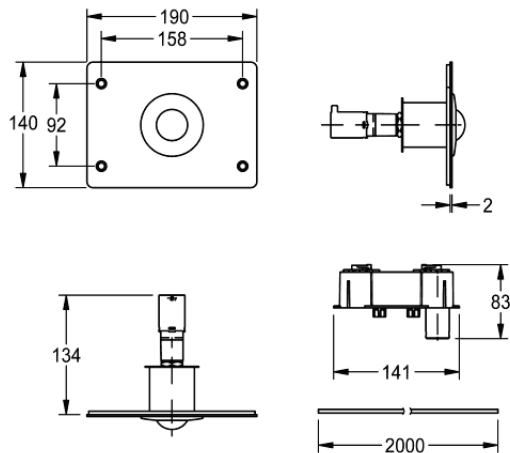

- for in-wall cistern (necessary accessory)
- fastening from the front with safety screws
- operated via piezo button
- activated hygiene flushing
- can be integrated into AQUA 3000 open water management system

IN-WALL INSTALLATION

KWC Actuator plate for concealed cisterns

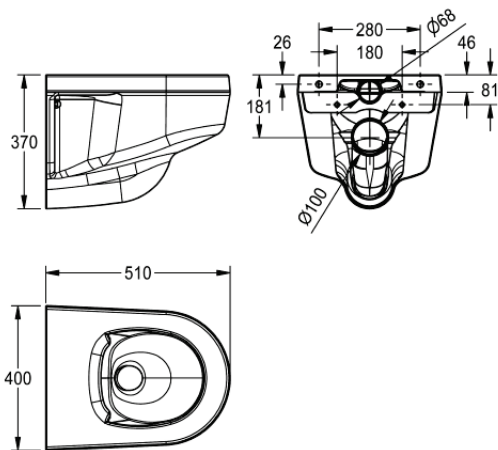

ACSF4001 / 2030068181

- for cistern in installation frame (necessary accessory)
- fastening from the front with safety screws
- flush plate with button for single flush

WALL MOUNTING

KWC Wall mounted rimless WC pan

VR99-086 / 2030053462

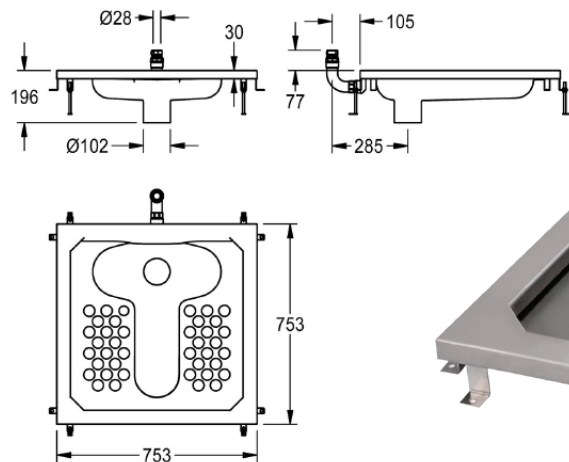

- rimless, wall-hung washdown WC
- in glass-fibre-reinforced impact-resistant plastic with 8.0 mm material thickness
- easy-to-clean gelcoat surface
- seamless, anti-vandalism and anti-ligature design

IN-FLOOR INSTALLATION

KWC HEAVY-DUTY

Squat pan

HDTX504 / 2000108804

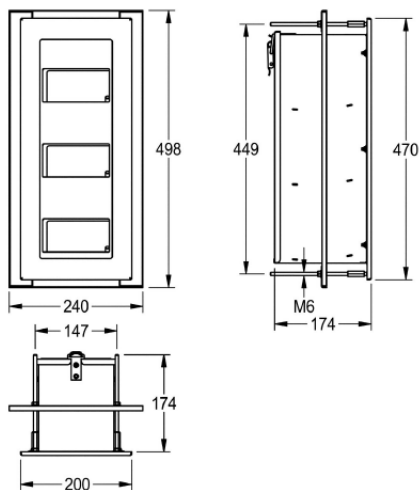

- squat pan for in-floor installation
- in chrome-nickel steel with material thickness of 1.0 mm
- for connecting to in-wall push-button flushing valves
- continuous edge bevelling, circumferential flushing rim
- anti-ligature design

REAR WALL MOUNTING

KWC HEAVY-DUTY

Toilet roll holder

HDTX675E / 2000103188
